Special Tertiary Admissions Test

QTAC STAT Preparation

Want to study at University, College or TAFE
but don't have the academic qualifications?

The STAT is a specially designed test that measures your aptitude for tertiary study, irrespective of academic background.

The STAT is a two-hour multiple choice exam designed to test a range of competencies commonly considered important for successful tertiary study.

QTAC, which administers the test, has created a specially formulated workshop to help you get the best possible results out of your STAT. You can find out more about the test and how you can best prepare for it by attending a STAT Preparation Workshop.

The workshop covers: an overview of the STAT, how it is used in tertiary admissions and the nature of the questions contained therein; quantitative question practice - reviewing maths/science questions; verbal question practice - reviewing humanities questions; test taking techniques; and a practice exam.
