

27 JANUARY 2025

STUDENTS OFF TO UNI ACROSS THE COUNTRY AS TERTIARY ADMISSIONS CENTRES MAKE 271,097 OFFERS FOR 2025 COURSES

Members of the Australasian Conference of Tertiary Admissions Centres (ACTAC), comprising admissions centres in all Australian states and territories, have so far issued 271,097 offers for tertiary courses commencing in semester 1, 2025.

All Australian tertiary admissions centres (TACs) work together closely via ACTAC to operate Australia's national tertiary admissions system which provides students completing Australian year 12 programs and others wanting to upskill with study opportunities across the country.

Over 270,000 tertiary offers made to date for courses commencing 2025

All TACs have issued multiple rounds of offers already, with applicants generally receiving the highest preference course that they are eligible to receive an offer for in each round.

Tertiary Admissions Centre	Semester 1, 2025 offers made to date
Queensland Tertiary Admissions Centre (QTAC)	49,394
South Australian Tertiary Admissions Centre (SATAC – includes NT)	32,543
Tertiary Institutions Service Centre (TISC – WA)	14,225
Universities Admissions Centre (UAC – NSW and ACT)	85,125
University of Tasmania (Tasmanian TAC)	25,065
Victorian Tertiary Admissions Centre (VTAC)	64,745
Total offers	271,097
All offers up to and including each TAC's main January round are included in the above figures. An applicant may receive more than one offer across all offer rounds.	

Most course offers for first semester study are made in December and January, with admissions centres making remaining places available through February offer rounds.

Australian tertiary admissions centres make offers for domestic undergraduate and postgraduate university courses, VET courses (e.g. TAFE), and courses for international students.

The ATAR: a key enabler of student mobility

Australian tertiary admissions centres support a wide range of pathways to tertiary education. Alongside other admissions tools and criteria, each tertiary admissions centre calculates the Australian Tertiary Admission Rank (ATAR) for students completing an Australian senior secondary program in its jurisdiction. Tertiary admissions centres work together to ensure that the ATAR is a robust and nationally consistent measure of academic achievement for course selection purposes regardless of the state or territory in which it is obtained.

TAC collaboration means that an ATAR obtained in any jurisdiction can be used to apply for courses in any other state or territory without conversion or adjustment. For example, a Victorian ATAR of 90.00 can be used at the same value in Queensland or Western Australia.

Next steps for students

Those who have received a course offer should follow the instructions provided to accept and enrol in the course. For questions about offers and enrolment, contact the tertiary admissions centre or institution making the offer.

Prospective students looking for study options in semester 1, 2025 and beyond can explore courses and apply via tertiary admissions centre websites.

Quote attributable to Kim Paino, Co-Convenor, ACTAC and Interim Managing Director, UAC:

"Australia's tertiary admissions centres work together to make sure that all students can easily apply to study anywhere in Australia. The 271,097 offers made to date represent fantastic tertiary study opportunities right across the country."
