

ARTS Availability of Academic Results

Twice a year institutions are asked to provide advice about when latest student results are available for each semester. Postgraduate@QTAC will provide this information for the interest of users, but does not warrant its accuracy.

Although institutions have advised that results will be available on the dates provided below, QTAC would like to advise that the release of results can be delayed by several days. Requestors may wish to lodge requests later than the advertised date, to allow the highest probability of the result being available with the most recent study.
