USE OF THIS PUBLICATION AND DISCLAIMER

The objective of the 2021 *QTAC Guide to Further Study* is to provide prospective applicants to tertiary courses covered by the *Guide* with details of how to apply for each course. It also contains general information regarding course curriculums and other course information. The *Guide* should not be used for any other purpose.

The *Guide* has been compiled by QTAC based on information available as at May 2020. The information contained in this *Guide* is subject to change. Where QTAC is advised by participating institutions or institutions with direct applications of material changes to course or other information contained in this *Guide*, and if any changes to QTAC's timetable or procedures are required as a result of changes of which QTAC is aware, this information will be published on QTAC's website at qtac.edu.au. Prospective applicants should therefore check QTAC's website prior to lodging an application for any course. For detailed course information, prospective applicants should contact the relevant institution and should not rely on this publication in making decisions or taking any action.

The *Guide* has been compiled and published by QTAC on behalf of participating institutions and institutions with direct applications and contains information provided by them and many other bodies. QTAC has not verified, and does not represent or warrant, that such information is accurate, complete or up to date.

The preparation and publication of the *Guide* is not, and should not be taken as, an endorsement by QTAC of any particular institution or course. QTAC disclaims, on behalf of itself, its officers, employees and agents, any liability for any decision made, or action taken, in reliance on the information in this publication.

ADVERTISING DISCLAIMER

QTAC does not necessarily endorse any product or service that may be advertised in this publication

TIMES AND DATES

Times and dates listed in this *Guide* are based on Queensland local time

WHAT'S YOUR NEXT MOVE?

MANY CAREERS REQUIRE A TERTIARY QUALIFICATION, BUT WHAT IF YOU AREN'T SURE WHAT YOU WANT TO DO?

If you want to be a lawyer, engineer, nurse, or teacher, you probably already know that you need to do further study. But if you're undecided about your career path, you might ask yourself if higher education is worth it. We think it is—here's five reasons why:

1. YOU'LL ENJOY MORE SATISFYING WORK

Whatever job you want in future, a qualification could help your chances of earning a good income throughout your life. With a qualification, you are also more likely to find work that is challenging and interesting.

2. YOU'LL START A CONVERSATION

Higher education teaches you how to be an independent thinker. By the time you graduate, you still won't know all the answers, but you will ask better questions. It should be a time when you can question everything, and you will be surrounded by people who are also seeking better answers to the world's problems.

3. YOU'RE LESS LIKELY TO BE REPLACED BY A MACHINE

We all know that machines are starting to take over jobs from people (for instance, self-service replacing workers in supermarkets). Machines are really good

at doing jobs that are routine (the same thing, over and over, in much the same way). But machines are not good at replacing human skills like empathy, collaboration and imagination. Higher education helps you develop these human skills, and leads to jobs that are less likely to be replaced by machines in the future.

4. YOU'LL HAVE FUN

Campuses are places to meet new people and experience new things. You'll mix with students from all around the world, and it is easy to find your tribe. Clubs and societies are incredibly diverse: you can scuba dive the Great Barrier Reef with one club and fight global warming with another. The friends you make will be your future network of colleagues and connections.

5. YOU COULD START THE NEXT FACEBOOK

Campuses are great places for entrepreneurs. If you want to be the next big thing, you will have opportunities to find other like-minded students, be guided by industry experts, participate in competitions and apply for grants, and have the resources at your disposal to explore your ideas.

WHAT ABOUT TAFE?

If getting a degree doesn't sound like your thing, you might want to consider a Vocational Education and Training (VET) course. VET focuses on providing practical skills for work. Apprenticeships, traineeships and TAFE certificates and diplomas are all examples of VET. If you prefer practical, hands-on learning over

sitting in a classroom, TAFE could be for you. Studying at TAFE can help you get into the workforce sooner. Many certificate courses can be completed in as little as six months, while diploma qualifications usually take 12–18 months, compared to three years for a university degree. Because TAFE training focuses on giving you practical, work-ready skills, studying at TAFE can help your chances of finding work after you graduate.

Whatever path you choose to take after Year 12, we hope it is one you enjoy and excel at, and one that provides you with the skills and knowledge you need to navigate and thrive in our complex and ever-changing world. Armed with this expertise, you'll be well on your way to a successful and rewarding career.

BEYOND 2020

If 2020 has proved anything, it's how quickly and dramatically the world can change. How events you least expect can occur without warning, and how things you thought were priorities suddenly don't seem as important.

In the space of a few short months, we, as a global community, have had to adapt to new ways of living and learning. This has been a huge challenge, but one to which you, the Queensland class of 2020, have risen. You and your classmates are no strangers to change. In fact, you've been at the forefront of change your entire school life. You were the among first Queensland students to attend Prep, the first to complete Year 7 as part of high school, and this year, as Queensland moves

to a new standard pathway to tertiary entry, the first to receive ATARs. In this sense, you are trailblazers.

You've been working towards this goal for a long time. You've spent the last few years carefully planning your futures, choosing Senior subjects, familiarising yourselves with a new curriculum and recently, on top of all this, adjusting to learning from home. But despite the challenges your school years have thrown at you, you have persevered. You have proven how resilient you can be in the face of adversity, and how readily you can adapt to change.

Adaptability and resilience are invaluable emotional skills. They will help you cope with life's challenges that are to come, and they can be transferred to all sorts of

different situations. Transferrable skills are important for work, too. Critical thinking, problem solving and communication skills are transferrable across a range of careers, and can help prepare you for roles that require you to take risks, make decisions, manage change and recognise opportunities when they come along. Being able to think critically and communicate clearly also helps you understand the wider world and your place in it. It can open your mind to new perspectives and appreciate alternative points of view. You build these skills through learning and life experience, and being equipped with them empowers you to take on the future.

2020 has so far been a year like none before it. The world is a different place than it was only a few months ago.

But don't let this stop you making plans for the future. Now is your time to think about what you want from life beyond high school. Do you want to go to uni? Would you like to get a job? Perhaps you'd like to travel. Maybe you don't know what you want to do, and that's okay, too. Don't be afraid to give something a go, even if you're not sure it's for you. You might discover interests and talents you didn't know you had. Even if it doesn't work out, it could open the door to other opportunities.

Be flexible enough to adjust your plans as you move forward and remember that it's okay to change your mind. Never stop asking yourself what inspires you, what brings you joy, and how you are going to change your world for the better. The future is yours.

ALL ABOUT YOUR ATAR

WHAT IS THE ATAR?

The Australian Tertiary Admission Rank (ATAR) is the standard measure of a student's overall academic achievement in relation to that of other students. It is intended to help tertiary institutions select applicants for their courses. The ATAR is a percentile rank, not a mark, and indicates a student's position relative to other students in a given year.

ATARs are expressed as a number on a 2000-point scale from 99.95 (highest) down to 0.00, in increments of 0.05. So, if you get an ATAR of 80.00, it does not mean you achieved 80%. It indicates that you placed in the top 20% of students in Queensland in your Year 12 age group. ATARs below 30 are reported as '30.00 or less'.

ATAR ELIGIBILITY

To be eligible for an ATAR, you must:

- satisfactorily complete an English subject at Units 3 and 4 level (one of English, English as an Additional Language, Literature, English and Literature Extension, or Essential English)
- complete five General subjects (at Units 3 and 4 level), or four General subjects (at Units 3 and 4 level) plus one Applied subject (at Units 3 and 4 level) or completed VET qualification at AQF certificate III level or higher
- accumulate your results within a five-year period.

ENGLISH SUBJECT REQUIREMENT

While you must satisfactorily complete an English subject to be eligible for an ATAR, your English result will only be included in your ATAR calculation if it is one of your best five scaled results.

To satisfactorily complete a subject, you must attain a letter grade of 'C' or better.

ACCUMULATED AND ACCELERATED RESULTS

Your ATAR is based on the aggregate of scaled results in your best five eligible subjects, irrespective of the year in which the subjects are completed. Most students are expected to follow a traditional pattern of accumulating their results over two years of study in Years 11 and 12, with results at Units 3 and 4 achieved over the one year (Year 12).

To cater for students who are unable to undertake five subjects in one year, ATARs can be calculated based on results achieved over five consecutive years. Taking one eligible subject each year over a five-year period qualifies you for an ATAR.

HOW IS THE ATAR CALCULATED?

The ATAR is calculated in three steps:

1. The Queensland Curriculum and Assessment Authority (QCAA) provides your Unit 3 and 4 subject results in General and Applied subjects and completed VET qualifications to QTAC.
2. QTAC scales these subject results and VET qualifications. This produces scaled results.

3. ATARs are then allocated to students based on the total (aggregate) of their best five scaled results.

For information on scaling and calculating ATARs from scaled results, visit qtac.edu.au/atar.

ATARS AND ADJUSTMENT FACTORS

Adjustment factors are added after ATARs are calculated, according to individual tertiary institution rules, when your QTAC application is assessed.

Adjustments may be applied for factors such as performance in certain Year 12 and university subjects, living or attending school in a certain location, and consideration through QTAC's Educational Access Scheme (EAS). Refer to pages 16–17 for information on adjustment factors and EAS. Adjustment factors are applied differently from institution to institution and from course to course. Visit each institution's website for more details.

VET QUALIFICATIONS FOR TERTIARY ENTRY

Completed Vocational Education and Training (VET) courses can be used for tertiary entry in two ways:

- VET included in the ATAR; and/or
- VET as a standalone basis of admission.

HOW TO GET YOUR ATAR

ATARs will be released via an online portal at 9am on 19 December 2020. To receive your ATAR, **you must register** for access to the portal. Registrations open 4 August 2020. Visit qtac.edu.au/atar for more information.

QTAC applications for courses starting 2021 also open 4 August 2020. Applying for courses through QTAC is separate to registering for access to the ATAR portal. Refer to page 14 for details on how to apply for courses through QTAC.

If you are applying for tertiary study interstate, you should register for the ATAR portal to give consent for QTAC to share your ATAR with interstate tertiary admission centres.

HOW IS VET INCORPORATED INTO THE ATAR?

Each VET qualification level has a single scaled result that can be included in a student's ATAR calculation.

The scaled result is the same regardless of the field of study, duration or content of the VET qualification. For example, a Certificate III in Hospitality and a Certificate III in Lab Skills will have the same scaled result.

VET AS A STANDALONE BASIS OF ADMISSION

Institutions may consider completed VET qualifications at certificate III level and higher on their own as a basis of tertiary admission.

Visit qtac.edu.au/atar for more information about institutions and VET qualifications as a basis of admission to tertiary study.

PERFORMING ARTS QUALIFICATIONS FOR TERTIARY ENTRY

Performing arts qualifications such as AMEB awards are not included in the ATAR calculation; however, some institutions may consider these qualifications on their own as a basis of admission to tertiary study.

Visit qtac.edu.au/atar for more information about institutions and performing arts qualifications as a basis of admission to tertiary study.

ENTRY REQUIREMENTS

To get into the course you want, you must meet the entry requirements.

Entry requirements are set by the institution offering the course, and consist of eligibility and merit.

ELIGIBILITY

Eligibility comprises:

- prerequisites, and
- institution admission rules.

PREREQUISITES

Depending on the course, prerequisites can include Year 12 subjects, interviews, portfolios, and auditions.

SUBJECT PREREQUISITES

To get into most courses, you must have studied and passed specific Senior subjects.

The most common subject prerequisite is English (Units 3 and 4, C). To meet this prerequisite, you must have completed a General English subject at Units 3 and 4 level and attained a grade of C or better overall. In Queensland, General English subjects are English, English as an Additional Language, Literature, and English and Literature Extension. The Applied subject Essential English does not meet the English subject prerequisite.

Not all courses have subject prerequisites. Instead, some courses have **assumed knowledge** and/or **recommended study**. If your course has assumed knowledge or recommended study, you can get in without having studied the subject. However, you'll probably find you're better off if you have studied it, because the institution will assume, or recommend, that you have the subject knowledge.

OTHER PREREQUISITES

Some courses—creative and performing arts programs, for example—have interviews, portfolios or auditions that you must pass to get in. Other courses may have a prior study prerequisite, meaning you need to have already completed another course, like a diploma or bachelor's degree, to gain entry.

You can find prerequisites for courses starting in 2021 in the Courses section of this *Guide* (pages 33–222).

INSTITUTION ADMISSION RULES

Institution admission rules apply to everyone who wants to study at a particular institution. Common institution admission rules include:

- English language proficiency—if English is not your first language, you must demonstrate you can speak, write, read and comprehend English to a standard set by the institution. Some courses with accreditation and/or registration requirements (e.g. nursing and education courses) require you to have completed your secondary studies or other qualifications in a specified country, as well as completing your studies in English. Visit qtac.edu.au for information on institution English language proficiency requirements.
- Age requirements—for some institutions, you need to be a certain age before you can study there. You can find institution age requirements on our website at qtac.edu.au.

MERIT

If you're eligible, you're considered for an offer based on merit (i.e. based on your ATAR). For some courses, achieving a minimum ATAR is enough to get an offer. For other courses, you'll need a better ATAR than other applicants to compete for a place and get in ahead of them. For a small number of competitive courses, like medicine or dentistry, you may need even more, such as results in certain subjects, a minimum score in the University Clinical Aptitude Test (UCAT), etc. To find out what else will be used in such cases, contact the institution you're interested in applying for.

If the course you want doesn't need an ATAR for entry, you don't need to compete for a place and will simply receive an offer for the course when offers are made.

If you meet the entry requirements for your chosen course, you will be considered for an offer. If you get an offer, it means you've been given a place in a course. Refer to page 20 for more information about offers.

DOCUMENTING YOUR STUDIES

In some cases, you may need to provide copies of your qualifications to us, so we can assess them as part of your application. We'll let you know after you apply if you need to provide documentation. You can submit your documents online, by logging in to your application at qtac.edu.au/applicationservices.

If you have extra qualifications, such as a certificate III or AMEB award, you should include them in your QTAC application, because some institutions accept them for entry and they could help you get an offer.

Any qualifications already in your QCAA learning account will automatically appear in your QTAC application when you apply; you won't have to add them. If your qualifications are meant to be included on your Senior Statement and you can't see them in your QTAC application, speak to your school guidance officer to get them added to your QCAA learning account.

If you have qualifications that won't be included on your Senior Statement, add them to your QTAC application so we can consider them along with your Year 12 studies.

TIPS FOR SUBMITTING YOUR DOCUMENTS

- Check the key dates on our website to ensure you submit your documents on time.
- Make sure each document is clear, easy to read and no parts have been cut off in the uploading process.
- If you can't upload your documents, post photocopies to **PO Box 1331, Milton, QLD 4064**.
- If your documents are in a foreign language, submit a copy of the original document as well as a full, official English translation (extract translations are not accepted).
- Resubmit any documents you provided to us in previous years, because we do not keep them.
- Visit qtac.edu.au for detailed information on what documents to provide for different types of studies.

We reserve the right to request original documents and/or certified copies of documents, if required.

HOW TO APPLY

BEFORE YOU START

If you have the following information on hand, you'll find the application process much easier.

To apply, you'll need:

- an email account you check regularly
- details of the courses you're applying for
- details of your qualifications and experience.

If you're in Year 12, you'll also need your student number (for Queensland Year 12s, this is your LUI number).

We'll let you know after you apply if you need to provide copies of your qualifications. Visit qtac.edu.au for information on documentation.

HOW TO APPLY

1. Visit qtac.edu.au/applicationservices.
2. Create an account or log in to an existing account.
3. Fill out and lodge your application.
4. Submit copies of your qualifications (if required).

AFTER YOU APPLY

After you apply, you can track your application online at qtac.edu.au/applicationservices. Here, you can:

- check if you meet the entry requirements
- pay your application fee
- change your preferences
- update your contact details
- view correspondence from QTAC
- check if you need to submit documentation
- view and respond to an offer.

Call or email us if you need to change the following details on your application:

- name
- date of birth
- citizenship status
- Aboriginal, Torres Strait Islander, Maori, Pasifika or Australian South Sea Islander status
- gender
- qualification details.

ORDERING AND CHANGING PREFERENCES

ORDERING PREFERENCES

You can apply for up to six course preferences, and ordering them correctly is crucial to the outcome of your application. Using all six preferences maximises your options and gives you the best chance of getting an offer.

Before you apply, find the courses you want in the Courses section of this *Guide*, or in Course Search at qtac.edu.au. Take note of the course code for each—knowing the course code makes it quicker and easier to add your preferences to your application—then list your preferences in the order below:

| | | |
|------------------------------------|---------------------------|--|
| 1 st 2 nd | Desired courses | Courses you most want to study |
| 3 rd 4 th | Back-up courses | Less competitive courses that you want to study |
| 5 th 6 th | Admission pathway courses | Courses that will help you upgrade into a course you really want |

If you're applying for courses that have different offer rounds, you'll then need to reorder your preferences according to the offer round date. You can find the offer round for each course in the Courses section of this *Guide*, or in Course Search at qtac.edu.au.

As per the example below, if January is the offer round for your first preference, and December is the offer round for your second preference, you will miss out on your second preference because offers for it are made before your application is considered for your first preference:

| PREFERENCE | COURSE | START MONTH | OFFER ROUND |
|------------|----------------------------------|-------------|-------------|
| 1 | Brisbane University – B Commerce | Mar 2021 | 14 Jan 2021 |
| 2 | Metro University – B Acting | Feb 2021 | 23 Dec 2020 |
| 3 | Brisbane University – B Business | Mar 2021 | 14 Jan 2021 |

| | | | |
|---|-------------------------------------|----------|-------------|
| 4 | Metro University – B Commerce | Feb 2021 | 14 Jan 2021 |
| 5 | Accounting Institute – D Accounting | Mar 2021 | 14 Jan 2021 |
| 6 | Accounting Institute – D Accounting | Jul 2021 | 3 Jun 2021 |

By placing your second preference first, you can be considered for it in the December offer round:

| PREFERENCE | COURSE | START MONTH | OFFER ROUND |
|------------|-------------------------------------|-------------|-------------|
| 1 | Metro University – B Acting | Feb 2021 | 23 Dec 2020 |
| 2 | Brisbane University – B Commerce | Mar 2021 | 14 Jan 2021 |
| 3 | Brisbane University – B Business | Mar 2021 | 14 Jan 2021 |
| 4 | Metro University – B Commerce | Feb 2021 | 14 Jan 2021 |
| 5 | Accounting Institute – D Accounting | Mar 2021 | 14 Jan 2021 |
| 6 | Accounting Institute – D Accounting | Jul 2021 | 3 Jun 2021 |

If you get an offer in December and still want to be considered for courses being offered in January, you can conditionally accept your offer and reorder your preferences again, this time moving the course you were offered to the bottom, so it becomes preference six. Refer to pages 20–21 for information on responding to an offer.

CHANGING PREFERENCES

You can change your preferences after you apply by logging in to your application online. Here, you can add, delete, edit or reorder your preferences, but don't save your changes until you've got your preferences exactly as you want them—the first three preference changes you save are free, but you're charged a fee each time after this.

Visit qtac.edu.au/applying/apply-here/preferences for more information on changing preferences.

ADJUSTMENT FACTORS

Adjustment factors are additional points that, depending on the type, may be combined with your ATAR or rank from other qualifications to derive an adjusted selection rank. Adjustments do not permanently change your ATAR, but change your ATAR or rank for a particular course or courses, and may increase your chances of getting an offer.

TYPES OF ADJUSTMENT FACTORS

Below are some common types of adjustment factors. Contact the institution you're interested in for more information on the types of adjustments they offer.

SUBJECT ADJUSTMENTS

Subject adjustments are made for passing specific Year 12 subjects such as Specialist Mathematics or a language other than English (LOTE), or for studying a university-level subject during Senior. To receive subject adjustments, you must be a current Year 12 student. Subject adjustments are made to your QTAC application automatically, after we've received your Year 12 results.

ELITE ATHLETE AND PERFORMER ADJUSTMENTS

Elite athlete and performer adjustments recognise sporting or artistic prowess. To be eligible for elite athlete adjustments, you must be competing in an Australian Sports Commission (ASC) recognised sport at a state, national or international level. To be eligible for performer adjustments, you must be

a member of, or had significant success in, a major artistic performing arts or production company at a state, national or international level; however, eligibility requirements may differ between institutions.

EQUITY ADJUSTMENTS

Equity adjustments are made based on characteristics associated with disadvantage, such as financial hardship, illness or disability, educational disruption, home environment, and more. We take such types of disadvantage into account through the Educational Access Scheme (EAS). Refer to the page opposite for more information on EAS.

LOCATION ADJUSTMENTS

Location adjustments are made based on your proximity to the institution offering the course or courses you're applying for. For example, some institutions give you additional points for being a local resident, or for living in a regional or remote area. Location adjustments are made to your QTAC application automatically, after you apply.

EDUCATIONAL ACCESS SCHEME (EAS)

EAS can help you if your most recent studies were negatively affected by **circumstances beyond your control**.

There are five EAS categories:

- financial hardship
- home environment and responsibilities
- English language difficulty
- personal illness or disability
- educational disruption.

If you're eligible for EAS, you may receive adjustments that increase your chances of getting an offer. If you're assessed as eligible in the financial hardship category, you may automatically be entitled to financial assistance, such as scholarships or bursaries, from some institutions.

WHO CAN APPLY?

You can apply for EAS if you are applying for tertiary study through QTAC.

You don't have to be currently studying to apply for EAS, but most EAS categories relate to circumstances that affected your most recent studies. The financial hardship category relates to your current and recent financial circumstances.

EAS cannot compensate for circumstances such as:

- not completing secondary school
- changing school subjects by choice, resulting in you not meeting entry requirements
- missed time from school for activities that are a personal choice (for example, sport, musical or cultural activities).

HOW TO APPLY

You can apply for EAS in your QTAC application, by selecting the category or categories you want.

If you want to apply for EAS after you've lodged your QTAC application, call us on **1300 467 822** so we can add it to your application for you.

SUPPORTING DOCUMENTATION

EAS is an evidence-based scheme. You must provide documentation as evidence of the disadvantage you have experienced.

You will receive an email invitation to complete an EAS cover sheet and submit supporting documents. The supporting documentation needed for each EAS category is outlined on the cover sheet.

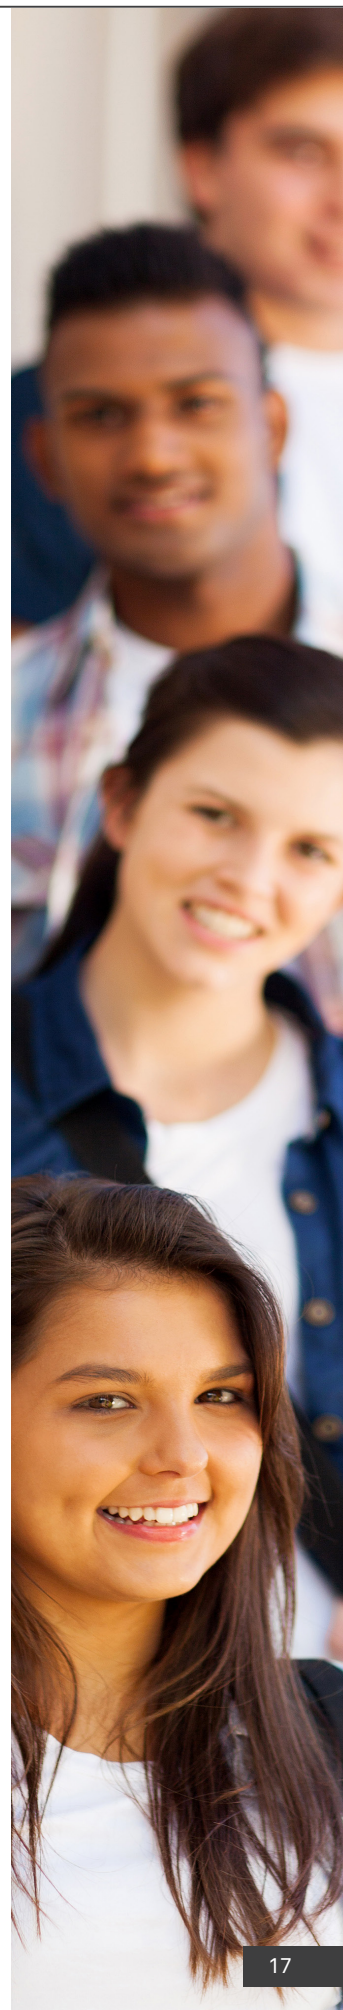

If you're in Year 12 and are applying for personal illness or disability, educational disruption or English language difficulty, you must ask your school to complete the school statement section of the cover sheet.

If you can't provide the documentation, you should submit a statement explaining why. You should also include any alternative documents that may support your case.

You can upload your documents by logging in to your application at qtac.edu.au/applicationservices. Alternatively, you can post your documents to:

QTAC
PO Box 1331
Milton, Qld 4064 Australia

For more information on EAS, visit qtac.edu.au/applying/educational-access-scheme.

CRICOS No. 00213J

A better way to think.

Southern Cross University is a
different kind of university. We
combine academic and research
excellence with outstanding
learning opportunities and a
commitment to what matters,
from protecting and managing
our precious natural environ-
ments to understanding and
advancing our human world.

29,000 reasons to become more.

At the University of Southern Queensland, we know you deserve an opportunity to become more. Which is why high-achieving high school leavers who put USQ first on QTAC, will automatically receive a scholarship package valued up to \$29,000.[^]

To be awarded, simply place USQ as your first preference via QTAC and meet the qualifying results. The suite of scholarships are available to school leavers studying full-time at any USQ campus, giving you peace of mind and financial security while studying.

USQ has three campuses – Toowoomba, Ipswich and Springfield, with degrees ranging from **Agriculture to Astronomy, Science, Law, Education, Business, Health**, and much more.

Just another reason to choose Australia's #1 University for graduate starting salary.*

**Learn more at
usq.edu.au/become-rewarded**

OFFERS

OFFER ROUNDS

Institutions make offers on set dates throughout the year called offer rounds. Different institutions make offers on different dates. To find out what dates your chosen institution is making offers, visit qtac.edu.au/courses-institutions/course-offers-and-vacancies.

The offer rounds stated for each course in the Courses section of this *Guide* are the dates most applicants can expect to find out if they've been made an offer. However, you could find out sooner or later than this, depending on when you apply and the course you apply for. You only get one offer in an offer round, for your highest eligible preference.

If you get an offer, we'll notify you by email. You can then log in to your application at qtac.edu.au to view and respond to your offer.

RESPONDING TO AN OFFER

When responding to an offer, you have up to three options: you can accept your offer, if you want to start your course straight away; you can reject your offer, if you don't want it; or, if your institution allows deferment, you can defer your offer, if you want to accept it but don't want to study right away.

You can also choose to respond to your offer conditionally. A conditional response allows you to accept, reject or defer your offer while being considered for a higher preference. If you are offered a higher preference in the next offer round, you lose your original offer. If you aren't offered a higher preference, you keep your original offer, unless you conditionally rejected it.

However you choose to respond, you should do so as soon as possible. In many cases, you only have four days to respond to your offer.

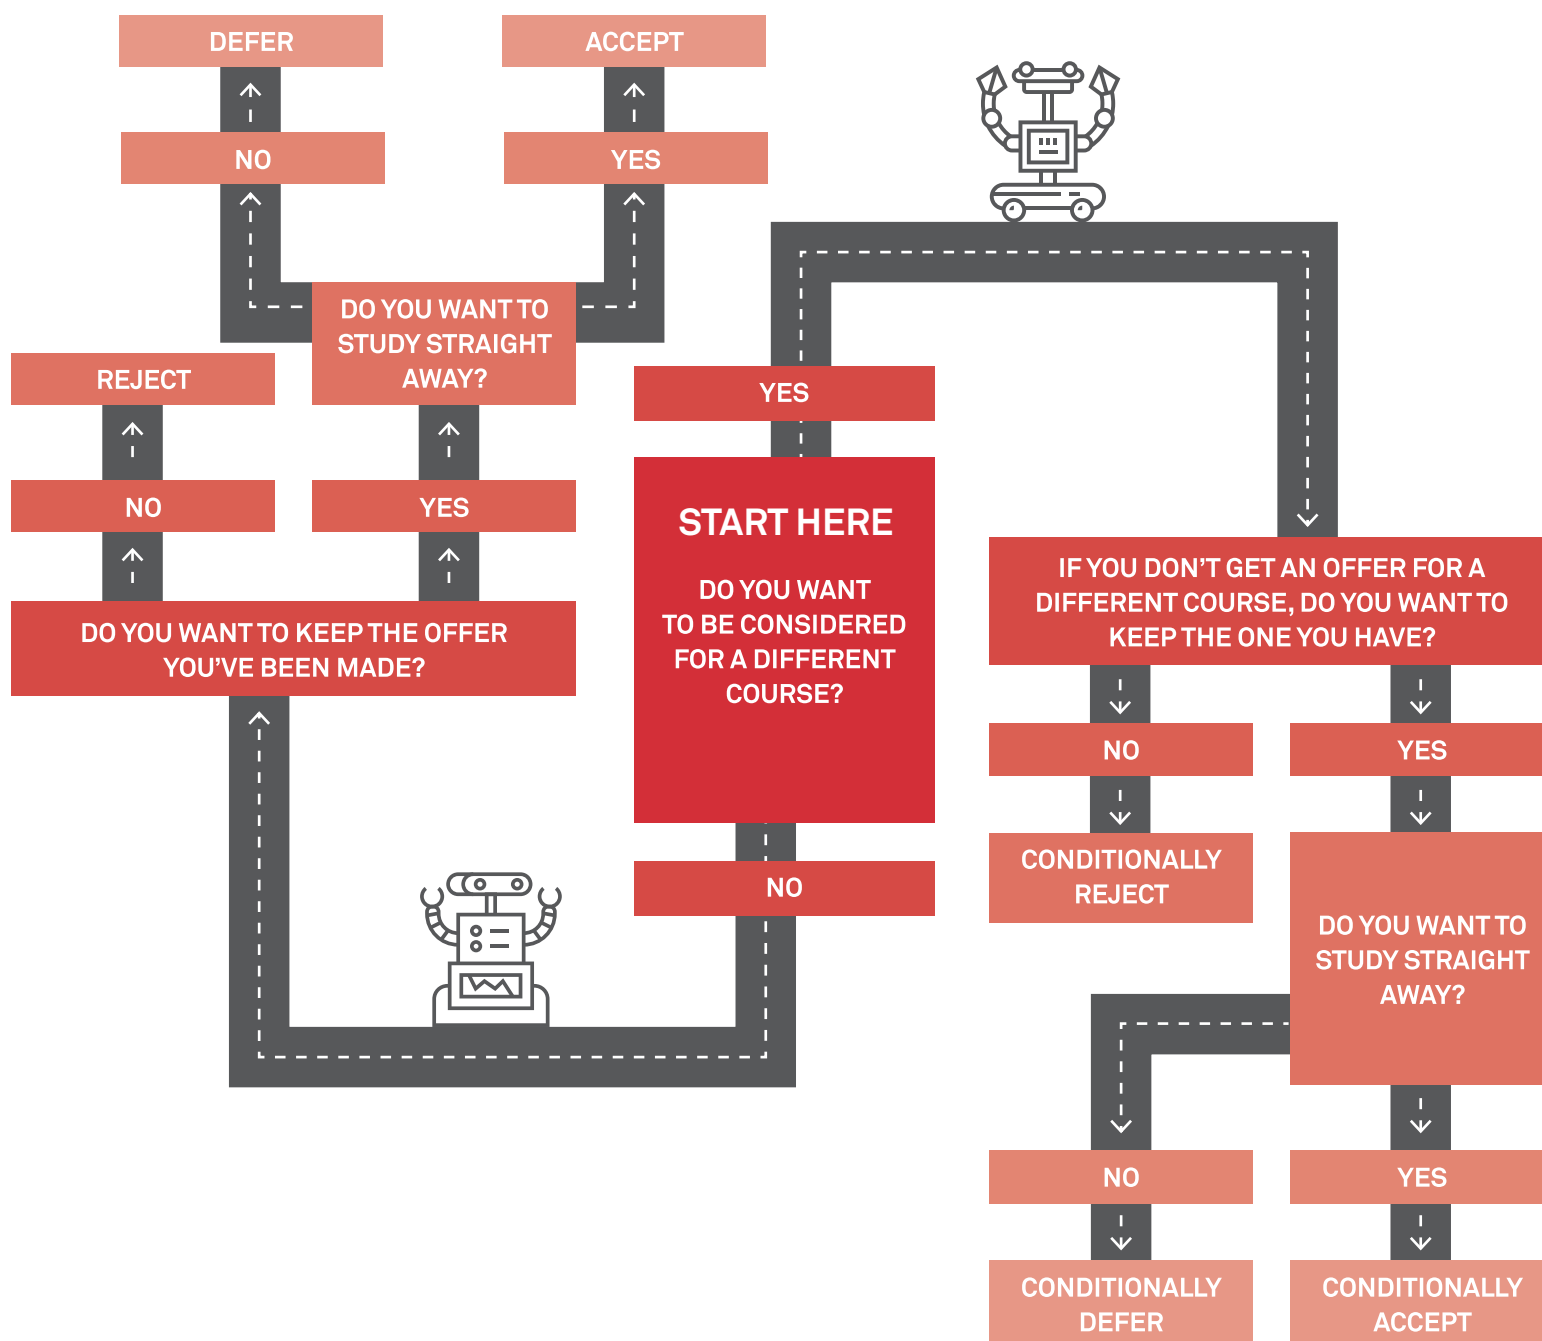

TOP FIVE REASONS FOR NOT GETTING AN OFFER

1. Your ATAR or selection rank is lower than the ATAR or selection rank needed for entry.
2. You don't meet the prerequisites for your chosen courses.
3. You ordered your preferences incorrectly.
4. You applied after the due date, and we couldn't assess your application in time.
5. You didn't pay your application fee.

There are other reasons you can miss out on an offer. If you don't get an offer and you're unsure why, call us on **1300 467 822**.

RESPONDING TO AN OFFER

So, you've got an offer, but you're unsure which response option to choose. Use the diagram below to help you decide which option is right for you.

DEFERMENT

Deferment allows you to delay starting your course if you receive an offer but you're not ready to start studying. Usually, you can defer for up to a year, but some institutions allow you to defer for longer. Others don't allow deferment, or don't allow deferment for certain courses.

INSTITUTION DEFERMENT POLICIES

| INSTITUTION | POLICY |
|-------------------------------------|--|
| Australian Catholic University | You can defer your undergraduate course for up to one year. |
| Bond University | You cannot defer the Bachelor of Medicine, Bachelor of Surgery |
| Christian Heritage College | You can defer your semester 1 offer for six to twelve months. You may be able to defer your semester 2 offer for six months in special circumstances. Contact CHC on (07) 3347 7900 for more information. |
| CQUniversity Australia | You can defer your offer once you have accepted it through QTAC and CQUni's student system. Contact the Student Advice Team on 13 27 86 for further advice as some programs do not permit deferment or have special conditions. |
| Griffith College | You can usually defer your course for one year. You may lose your deferred place if you apply for other courses. For more information and conditions, contact Griffith College. |
| Griffith University | You can defer most undergraduate courses for up to one year. Deferment is not available for Bachelor of Dental Health Science, Bachelor of Contemporary Australian Indigenous Art, Bachelor of Midwifery, Bachelor of Physiotherapy, Bachelor of Acting, Bachelor of Music, and Bachelor of Musical Theatre. You may lose your deferred place if you apply for other courses. For more information, contact Griffith University. |
| James Cook University | You can defer your course for up to 12 months. |
| Queensland University of Technology | You can defer your offer if you are a domestic student who has been offered a place via QTAC. All courses and applicants are eligible for deferment except for courses with audition, interview, portfolio and/or questionnaire additional entry requirements, some courses with prior study requirements (e.g. graduate teaching), and courses that are not offered in the following year or for which entry requirements are changing. |
| SAE Creative Media Institute | You may apply directly to SAE to be considered for deferment; conditions apply. |
| Southern Cross University | You must defer when responding to your offer through QTAC, and apply for deferment with Southern Cross University. Deferment may be granted for a period of 12 months. |
| TAFE Queensland | Deferment is not permitted for TAFE Queensland courses. |
| The University of Queensland | You can defer programs offered through QTAC for up to one year if you are offered a place in semester 1. Offers for semester 2 entry can't be deferred. Contact UQ for more information. |
| University of New England | You can apply to defer for up to two years. You must respond to your QTAC offer with 'defer' and apply for deferment through UNE directly. Contact UNE for more information. |
| University of Southern Queensland | USQ permits deferment in all programs. Contact USQ for more information. |
| University of the Sunshine Coast | You can defer your undergraduate course—except Bachelor of Medical Science (Griffith MD Provisional Entry for School Leavers)—or the Tertiary Preparation Pathway for up to two years. You cannot defer postgraduate courses. |

STUDY COSTS

Tertiary study can be an expensive commitment, but the good news is, there are many ways to minimise costs. When considering how to manage your study costs, you should take into account not only course fees, but associated material and living expenses.

COURSE COSTS

Course fees are different for every course and vary between institutions. You can find information on course fees on institution websites.

PUBLIC UNIVERSITIES

Public universities and some private providers offer Commonwealth supported places (CSPs), whereby the Australian Government subsidises part of the cost of your course fees, and you pay the remainder (i.e. the 'student contribution amount'). The amount you pay varies between providers and courses. CSPs are only available to domestic students. Visit studyassist.gov.au for more information.

TAFE QUEENSLAND

TAFE Queensland course costs depend on several factors, including the type and length of the course you choose, whether you are studying full-time, part-time or online, whether you are eligible for recognition of prior learning, and whether you are entitled to concessions, fee exemptions or government subsidies. TAFE Queensland offers a range of payment options and concessions to eligible students. Visit tafeqld.edu.au/study-with-us/what-it-costs/index.html for more information on course fees.

DIRECT APPLICATION INSTITUTIONS

Direct application institutions include registered training organisations (RTOs) and private colleges. Usually, you pay a full fee for studying through a direct application institution. Contact the institution you're interested in for information on their course fees.

MATERIAL COSTS

Material costs include textbooks, stationery, and, depending on your course, equipment like calculators, lab coats, or uniforms. It's worth shopping around to compare prices on material costs. For example, textbooks are sometimes cheaper online, and you can often buy discounted second-hand textbooks and equipment from campus bookshops.

LIVING EXPENSES

Living expenses include meals, groceries, electricity, internet and phone bills, clothing, medical expenses, and entertainment. You can save money on groceries by buying generic or home brand products, shopping at low-cost supermarkets and buying items on special. Some retailers and websites offer student discounts on fashion, technology, food, entertainment and more.

TRAVEL

Travel costs can include fuel, vehicle maintenance and public transport fares. If you plan to study full-time, you can take advantage of student discounts on public transport. Students in South East Queensland can visit translink.com.au for information on student fares. Some courses have field trips or professional placements that require you to travel to complete the practical component of your course. In these cases, you may need to pay for fuel or fares, meals and accommodation.

ACCOMMODATION

If you have to live away from home to study, you'll need to budget for accommodation. Many institutions have on-campus accommodation and services to help students find suitable off-campus accommodation. Accommodation types include residential colleges, student villages, townhouses, apartments, share houses, and homestay. Fees vary depending on the accommodation type. Visit institution websites for information on accommodation options and fees.

BUDGETING

One way to help manage your study costs is by budgeting. Some institutions' student support services offer budgeting advice, and you can find lots of free budget templates online. For example, the Australian Government's MoneySmart website has a budget planner to help track spending and saving, and tips for living on a student budget. Visit moneysmart.gov.au for more information.

FINANCIAL HELP

Financial help is available to students through the Australian Government and institutions to assist with the costs of study.

HIGHER EDUCATION LOAN PROGRAM (HELP)

The Australian Government's Higher Education Loan Program (HELP) comprises four HELP loan schemes and the VET Student Loans program, which allow students to defer payment of their course fees. To be eligible for a HELP loan, you must be an Australian citizen, New Zealand Special Category Visa holder or permanent humanitarian visa holder. Visit studyassist.gov.au for more information.

INCOME SUPPORT

A variety of Australian Government income support schemes are available to students, including Youth Allowance, Austudy, ABSTUDY, and student start-up loans and scholarships. For more information, visit humanservices.gov.au.

INSTITUTION SCHOLARSHIPS

Most institutions offer scholarships that recognise merit, including academic excellence and sporting achievement, and equity scholarships, which assist regional and rural students, Aboriginal and Torres Strait Islander students, and students from low-income backgrounds to access study. Scholarships can cover a range of costs, from course fees to living and accommodation expenses. Contact the institution you're interested in for information on scholarships.

KEY DATES

OFFER ROUNDS

| OFFER ROUNDS | DUE DATE TO APPLY AND SUBMIT DOCUMENTS | FINAL DATE TO CHANGE PREFERENCES |
|------------------|--|----------------------------------|
| 20 November 2020 | 13 November 2020 | Not applicable |
| 23 December 2020 | 9 December 2020 | 12pm, 21 December 2020 |
| 14 January 2021 | 11 December 2020 | 12pm, 7 January 2021 |
| 3 June 2021 | 27 May 2021 | 11.59pm, 28 May 2021 |

Applications and documents submitted after the due date may not be assessed in time for the respective offer round. The offer rounds for each course are listed in the Courses section of this *Guide*. Institutions may participate in additional offer rounds before and after the dates listed. For a comprehensive list of offer round dates by institution, visit qtac.edu.au/courses-institutions/course-offers-and-vacancies.

FIXED CLOSING DATES

The courses below have different closing dates to most courses. If you want to apply for any of these courses, you must do so by the corresponding closing date.

| BOND UNIVERSITY | |
|--|---|
| B Medical Studies (BMedSt) and the Doctor of Medicine (MD) | Applications open 14 January 2021 and close 29 January 2021. All required supporting documentation must be submitted to QTAC by 29 January 2021. |
| CQUNIVERSITY AUSTRALIA | |
| B Echocardiography and Cardiac Physiology/Grad Dip Echocardiography B Medical Imaging B Medical Sonography and Grad Dip Medical Sonography B Oral Health B Physiotherapy (Honours) | Applications close 9 December 2020. |
| GRIFFITH UNIVERSITY | |
| B Dental Health Science B Medical Science | Applications close 29 December 2020. After this date, no new applicants can apply, but existing applicants can reorder this preference. |
| B Midwifery | Applications close 29 December 2020. Applications lodged after 11 December 2020 may not be considered in time for the 14 January offer round. |
| B Acting B Musical Theatre | Applicants must apply to QTAC and pay their audition fee to Griffith University by 31 August 2020 to be guaranteed an audition in the first audition round. |
| B Music | Applicants must apply to QTAC and pay their audition fee to Griffith University by 4 September 2020 to be guaranteed an audition in the first audition round. |
| B Education | Applications for the February intake close 28 January 2021. Applications for the July intake close 17 June 2021. |
| JAMES COOK UNIVERSITY | |
| B Dental Surgery B Medicine, B Surgery B Veterinary Science | QTAC applications and <i>JCU application form</i> submissions close 30 September 2020. International applicants must submit QTAC application and <i>JCU application form</i> by 31 August 2020. |
| B Nursing/B Midwifery | QTAC applications close 30 November 2020. |

| QUEENSLAND UNIVERSITY OF TECHNOLOGY | |
|--|--|
| B Business/B Design (Fashion) B Business/B Fine Arts (Visual Arts) B Design (Fashion) B Design – International (Fashion) | Apply to QTAC and register and submit your portfolio with QUT by 5pm, 28 September 2020. |
| B Education (Secondary)/B Fine Arts (Visual Arts) B Fine Arts (Visual Arts) | Apply to QTAC and register for a portfolio interview with QUT by 5pm, 28 September 2020. |
| B Education (Secondary)/B Fine Arts (Dance) B Education (Secondary)/B Fine Arts (Music) B Fine Arts (Acting) B Fine Arts (Dance) B Fine Arts (Dance Performance) B Fine Arts (Music) | Apply to QTAC and register for an audition with QUT by 5pm, 28 September 2020. |
| SOUTHERN CROSS UNIVERSITY | |
| B Art and Design | Applicants who have not been contacted by mid-January 2021 must call SCU on 1800 626 481 to arrange a date for their interview. |
| B Contemporary Music | Applicants wishing to study the performance or songwriting/composition audition streams who have not been contacted by the end of January 2021 should call SCU on 1800 626 481 to arrange a date for their interview. |
| TAFE QUEENSLAND | |
| B Creative Industries (Acting and Performance) B Creative industries (Applied Fashion) D Visual Arts/B Creative Industries (Visual Arts) | QTAC applications close 30 November 2020 for semester 1, 2021 entry. To be considered after this date, contact TAFE Queensland on 1300 308 233. |
| D Graphic Design D Graphic Design/AdvD Graphic Design D Graphic Design/B Digital Design (Visual Communication Design) D Music Industry (performance specialisation) D Photography and Photo Imaging D Visual Arts | Applications close 30 November 2020 for semester 1, 2021 and 17 May 2021 for semester 2, 2021. To be considered after these dates, contact the relevant TAFE Queensland campus directly. |
| D Music Industry/B Creative Industries (Contemporary Music Practice) D Photography and Photo Imaging/Adv D Visual Arts | Applications for the performance specialisation close 30 November 2020 for semester 1, 2021. To be considered after this date, contact the relevant TAFE Queensland campus directly. |
| THE UNIVERSITY OF QUEENSLAND | |
| B Music (Honours) B Music (Honours)/B Arts B Music (Honours)/B Education (Secondary) B Music (Honours)/B Science | Audition applications close 13 August 2020. QTAC applications close 30 September 2020. |
| B Veterinary Science (Honours) | QTAC applications close 14 November 2020. |
| UNIVERSITY OF THE SUNSHINE COAST | |
| B Medical Science (Griffith MD Provisional Entry for School-Leavers) | Applications lodged after 11 December 2020 may not be considered for the 14 January offer round. Applications close 28 December 2020. After this date, no new applicants can apply, but existing applicants can reorder this preference. |

2020 EXPOS AND OPEN DAYS

Due to the ongoing impacts of COVID-19, many of the tertiary study and career expos and institution open days planned for 2020 have been moved online, postponed or cancelled. Many details about online expos and open days are yet to be confirmed. The information below is correct at time of print, but is likely to change. Contact the relevant institution or expo organiser for the most up-to-date information about the event of your interest.

BRIDGING AND TERTIARY PREPARATION

TAFE QUEENSLAND

Certificate IV in Adult Tertiary Preparation

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 543127 Caboolture | 1/2CL | ☆ | ☆ | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 532127 Loganlea | 1/2CL | ☆ | ☆ | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 555127 South Bank | 1/2CL | ☆ | ☆ | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Applicant must be at least 18 years of age or must turn 18 years of age within the enrolment period of this course. Admission of applicants under this age will only be considered in exceptional circumstances and at the discretion of TAFE Queensland.

Course outline: This course is ideal for people who have been away from formal education for several years looking to learn and develop essential study skills. The primary outcome of this course is educational, providing a pathway to university undergraduate courses or further tertiary education studies at diploma/advanced diploma levels. This course is recognised by Queensland universities as a high-quality academic pathway and is facilitated by expert teaching staff. Students will develop a broad range of skills relevant to tertiary education including advanced literacy, numeracy and digital literacy skills, time management, problem solving, mathematics, research and assignment writing skills, exam strategies and seminar presentation skills. Students may select from a number of electives including biology, chemistry, computing, mathematics, legal or physics. **Note:** To successfully complete this course within the specified time frame, it is recommended that students have sound literacy and numeracy skills, excellent time management and a high level of commitment. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. Prospective students should visit tafeqld.edu.au or phone 1300 308 233 for course and fee information.

Career opportunities: Further study pathway, university admission pathway.

☆ All qualified applicants were offered a place.

UNIVERSITY OF SOUTHERN QUEENSLAND

Tertiary Preparation Program

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|------------|--|----------|----------------------------------|---|
| | | Unadjusted | Adjusted | | |
| 932001 Ipswich | 1/2F or 1P | ◆ | ◆ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 922001 Springfield | 1/2F or 1P | ◆ | ◆ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 902001 Toowoomba | 1/2F or 1P | ◆ | ◆ | Nov 2020 Feb 2021 Jul 2021 | 8 Oct 2020 14 Jan 2021 3 Jun 2021 |
| 902005 Online | 1/2F or 1P | ◆ | ◆ | Nov 2020 Feb 2021 Jul 2021 | 8 Oct 2020 14 Jan 2021 3 Jun 2021 |

Prerequisites: Applicant must be 18. **Additional entry information:** All applicants are strongly encouraged to complete Tertiary Preparation Program placement tests in mathematics and English communication skills. Applicants will then be directed into the most appropriate available starting level in these components of the courses in TPP. Students who do not undertake these tests will be enrolled in TPP7111 Communicating at University A and/or TPP7180 Preparatory Mathematics during their first semester of study. For students who did not complete schooling in Australia, these tests are mandatory.

Program outline: If you have not completed Year 12 or it has been some time since you studied, USQ's Tertiary Preparation Program (TPP) is the perfect way to start studying at university. You will study courses (subjects) to develop your writing, computing and general study skills and build your confidence for further studies. You may also study some specialised courses to prepare you for the degree you wish to study. When you successfully complete TPP you are guaranteed entry into selected USQ degrees, if you meet the English proficiency requirements. Now is the time to start your pathway to a career that you want.

◆ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| 019961 Moreton Bay | 1/2F or 1P | ☆ | ☆ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Additional entry information: Applicants must be a minimum of 17 years of age at the time of entry (international students must be 18 years of age).

Program outline: The Tertiary Preparation Pathway (TPP) is a bridging course designed to impart the skills and knowledge to succeed in degree studies. Students learn skills including academic writing, time management, research, exam strategies and presentation skills. TPP can be used as an admission pathway into many tertiary study courses and graduates can apply via direct application to most USC undergraduate programs. Students applying to other universities do so through QTAC. TPP courses are offered free of tuition fees for Commonwealth supported students.

Note: All TPP courses are offered at Sunshine Coast. TPP courses offered at other locations may be limited. For more information, visit usc.edu.au/tpp. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Refer to the undergraduate program that you want to transition into.

☆ All qualified applicants were offered a place.

BUILT ENVIRONMENT AND DESIGN

CQUniversity AUSTRALIA

Bachelor of Building Design

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 851345 Online | 5P | 14/70 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This course provides students with an understanding of construction, structures, building materials and services, sustainability, professional practice and communication, to prepare them to be confident and capable building industry professionals. Students develop skills in planning and documenting for buildings of any height or floor area, including restorations, renovations, unit development and extension work.

Career opportunities: Design, architectural, planning, building and engineering firms, government departments, corporations with large building portfolios.

Bachelor of Building Surveying and Certification (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 851365 Online | 6P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This course prepares students to become building surveyors and certify buildings of all classes in the residential and commercial sectors. Students learn to evaluate and assess plans, conduct inspections, issue building permits such as occupancy permits, and interpret building and construction regulations. Students develop skills in building legislation and auditing, fire safety design and inspection procedures, construction, building materials, services, professional practice and communication, and principles of sustainability.

Career opportunities: Local government, state and federal authorities, including licencing and code boards, private certifiers.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Construction Management (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 850355 Online | 6P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This course develops expertise in planning and communication and provides students with an in-depth knowledge of construction. The course has a strong focus on construction management and planning, services, building maintenance and materials and structures, ensuring students graduate work ready and are capable of managing and coordinating complex construction projects.

Career opportunities: Government departments, construction, building and sub-contracting companies, corporations with large building portfolios.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Associate Degree of Building Design

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 851375 Online | 4P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This course equips students with the skills to plan and design buildings, ranging from residential homes to medium-rise commercial buildings. This includes restoration, renovation, unit development and extension work. Students develop the skills to become confident in design and documentation, construction, structures, building materials and services, professional practice, communication, and the key principles of sustainability.

Career opportunities: Residential and commercial design work for architectural, building, engineering or planning firms, government departments and corporations.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Associate Degree of Building Surveying

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 850375 Online | 4P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This course equips students with practical skills and prepares them to assess and inspect staged works for domestic and residential buildings. Training focuses on developing skills that are highly desired by employers, across areas such as building legislation and auditing, fire safety design and inspection procedures, construction and building materials. Students develop professional practice and communication skills and explore the principles of sustainability.

Career opportunities: Local government, state and federal authorities, including licencing and code boards, private certifiers.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

GRIFFITH COLLEGE

Diploma of Design/Bachelor of Design/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|--|--|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 083511 Mt Gravatt/ Griffith University – Queensland College of Art, South Bank | 4 ¹ / ₂ F or 9P | ✦ | ✦ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |
| 083611 Gold Coast/ Griffith University – Gold Coast | 4 ¹ / ₂ F or 9P | ✦ | ✦ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: This double degree enables students to combine business management skills with a studio major, developing core competencies such as critical and analytical thinking, business communication and decision-making. The design program prepares graduates for diverse professional practice as designers through practical and theoretical learning. The first year focuses on the development of manual and technological skills, design thinking, problem-defining and solving. Students gain an understanding of the changing role of design and how they can become leaders in the industry. In the following years, students work on industry-related and research projects and specialise in selected studio areas. Graduates are skilled in creative design and software application and able to effectively and efficiently manage creative ventures from a business perspective. Refer to separate entries for Griffith College's Diploma of Design and Griffith University's Bachelor of Design/Bachelor of Business. **Note:** Subject to satisfactory completion of the diploma, students are eligible for 60 credit points into the bachelor program at Griffith University. **Majors:** Graphic and communication design; interior design and environments; product and 3D design; visualisation design. **Other requirements:** It is recommended that students have their own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor.

Career opportunities: Graphic design, interior design, product design, digital web design, design management, design education, film and television, theatre, furniture design, digital media, business development, business management, marketing and sales, market research, government.

✦ All qualified applicants were offered a place.

GRIFFITH UNIVERSITY

Bachelor of Architectural Design

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 234472 Gold Coast | 3F or 6P | 18/64 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will set you on the path to a career as an architect. It's a stepping stone to Griffith's Master of Architecture degree, the qualification needed for registration as an architect. In this degree, you'll combine classroom studies, studio work, fieldwork and practical industry experience to learn about urban systems, public places and all aspects of the built environment. A focus on sustainable design in tropical and subtropical climates will prepare you for work in Australia and the Asia-Pacific.

Career opportunities: As a graduate, you'll be in high demand in Australia and overseas. With your design, technical and creative skills, you'll be qualified to assist architects and other built environment professionals in the design, documentation and procurement of buildings. You'll find employment in a broad spectrum of creative roles in government agencies, statutory bodies, design practices and studios (urban design, architecture, interior design, virtual environments, graphic design and the film and games industries), commercial development companies, building product manufacturing and distribution companies, and research organisations.

| Bachelor of Urban and Environmental Planning | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 224312 Nathan | 4F or 8P | 22/60 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 234462 Gold Coast | 4F or 8P | 17/65 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this degree, you'll develop the skills needed to effectively plan and develop new communities, manage existing ones, and be prepared to tackle issues such as climate change, regional growth management and transport planning. You'll also gain in-depth knowledge of water management, ecology, conservation biology and pollution. In studio sessions, you'll undertake planning projects that replicate real issues that prepare you for employment. You will also undertake a work placement in your fourth year under the supervision of a qualified planner.

Career opportunities: As a graduate you can follow a number of career paths, from urban planning in cities to strategic planning for metropolitan regions, from planning for natural resource management to transport and social planning. You'll find employment opportunities with all levels of government, especially state and local government agencies as well as business and industry groups, community organisations and private consulting firms. You may find work in development companies implementing proposals for new housing estates, tourism complexes, transport networks, shopping centres and other commercial projects. As an honours graduate, you'll enhance your chances of employment and also be prepared to pursue a career in research or academia.

Double degrees: Refer to entry for: B Urban and Environmental Planning/B Science.

| Bachelor of Urban and Environmental Planning/Bachelor of Science | | | | | |
|--|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 224512 Nathan | 5F or 10P | 13/72 | 11/77 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 234502 Gold Coast | 5F or 10P | 16/66 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: To ensure we have a bright future, we need to make sustainably minded decisions that prioritise the social and ecological elements of planning for cities. In this degree, you'll prepare for a career as an environmental scientist or urban and environmental planner, bringing social and natural sciences together to find solutions for complex issues. You'll learn the foundations of urban and environmental planning and select one of three majors to develop specific technical skills and knowledge. In final year you'll undertake a work placement to gain industry experience. **Majors:** *Science:* geography; marine biology (Gold Coast only); wildlife biology.

Career opportunities: You'll be prepared for a rewarding career as an environmental scientist and as a planner. You'll find employment in government and in resources development and consultancy companies. You'll also find opportunities in areas of management of land and water, conservation, natural resources, mining or energy.

| JAMES COOK UNIVERSITY | | | | | |
|------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Planning | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 316271 Townsville | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 326271 Cairns | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: This program offers core subject areas including environmental science, human geography, environmental law, social and community planning, environmental impact assessment, regional planning, and urban and environmental design. Students choose electives to reflect their interests and career plans. With campuses at two of Queensland's fastest growing cities and located alongside two World Heritage-listed areas, the University provides a living laboratory for the study of the natural environment and urban development. **Note:** Students must attend block-

mode classes at a campus other than the one they are enrolled at, at their own expense. Contact JCU for more information.

Career opportunities: Planner, policy maker, researcher for government agencies, environmental planning firms, property development companies, development organisations.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| QUEENSLAND UNIVERSITY OF TECHNOLOGY | | | | | |
|-------------------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Design (Architecture) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 412372 Gardens Point | 3F or 6P | 13/72 | 9/82 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: This course emphasises practical experience through projects and design studios, and encourages creativity within a vigorous design culture. You develop adaptable and resilient capabilities to design, think critically, effectively communicate and collaborate to realise your ideas. The architecture major engages with the design, theory and practice of making spaces and environments for human activity. You learn to create environments with positive impacts on human health, environmental quality, social relationships and urban systems. On completion with GPA 4.50 (or better), you can progress to a two year Master of Architecture and gain the required practical experience to become an architect.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Career opportunities: Architect (with further study).

Double degrees: Refer to entries for: B Business/B Design (Architecture); B Design (Architecture)/B Engineering (Honors); B Design (Architecture)/B Property Economics; B Design (Architecture)/B Urban Development (Honors) (Construction Management).

| Bachelor of Design (Architecture)/Bachelor of Engineering (Honours) | | | | | |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: In the competitive property and building industry, having design skills combined with sound economic intelligence is highly valued. The design course emphasises practical experience through projects and design studios, and encourages creativity within a vigorous design culture. You develop adaptable and resilient capabilities to design, think critically, effectively communicate and collaborate to realise your ideas. Property economics includes the theory and practical understanding of the role that property plays in the Australian and international economy. You learn to provide advice on the use, value, management and marketing of property.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Property economics students must complete 30 days of approved professional work.

Career opportunities: Refer to Bachelor of Design (Architecture) and Bachelor of Property Economics.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 419312 Gardens Point | 5F | 14/70 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: The design course emphasises practical experience through projects and design studios, and encourages creativity within a vigorous design culture. You develop adaptable and resilient capabilities to design, think critically, effectively communicate and collaborate to realise your ideas. The urban development course incorporates studies in project planning, the development process, land use, and economic and legal aspects.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Construction management students must complete 30 days of approved professional work.

Career opportunities: Refer to Bachelor of Design (Interior Architecture) and Bachelor of Urban Development (Honours) (Construction Management).

| Bachelor of Design (International) | | | | | |
|-------------------------------------|----------|--|----------|----------------------|---------------------------|

| | | Unadjusted | Adjusted | | |
| 401392 Gardens Point & Kelvin Grove | 4F | 7/87 | 6/89 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: This course emphasises practical experience through projects and design studios, and encourages creativity within a vigorous design culture. You develop adaptable and resilient capabilities to design, think critically, effectively communicate and collaborate to realise your ideas. The four-year **Bachelor of Design (International)** combines the Bachelor of Design with an additional year of study at a partner university around the world, which increases your intercultural skills and global career prospects.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** **Architecture** engages with the design, theory and practice of making spaces and environments for human activity. You learn to create environments with positive impacts on human health, environmental quality, social relationships and urban systems. On completion with GPA 4.50 (or better), you can progress to a two year Master of Architecture and gain the required practical experience to become an architect. **Industrial design** graduates create and produce commercial and industrial products, services and systems to improve people's lives. Your studies include learning the creative design process, model-making techniques, visual communication, product design manufacturing, design management, computer-aided industrial design (CAID), human factors and ergonomics, and design research, coupled with innovation, aesthetics, entrepreneurship and business, cultural and social values, and design leadership. **Interior architecture** graduates plan and execute the layout, finishes, lighting, fittings, and furnishings in domestic interior design, retail and entertainment industry design, hospitality industry design, commercial office, and corporate design. You are supported by contemporary relevant teaching and a focus on new and emergent fields including small and large-scale design in real and virtual environments, physical and digital experimentation, body/space relations, and design for health and social inclusion. **Landscape architecture** graduates combine art and science to create long-lasting, meaningful and enjoyable outdoor places. You learn to combine landscape systems with urban design and environmental science to create outdoor spaces with positive cultural and environmental impact. **Interaction design** focuses on cutting-edge design skills, knowledge and capabilities to prepare you to optimise user experiences - removing complexity, making interactions more intuitive and creating responsive media. You undertake a series of interaction design studios focusing on industry-leading practices in human-centred design, design thinking, experience design, service innovation and augmented reality. **Visual communication** prepares you to work across traditional and new interactive media forms to craft images that break through the communication clutter, simplify the complex, and change public opinion and understanding. You develop both practical and theoretical skills in multiple visual communication design specialisations including graphic design, typography, image making, information design, experience design, motion design, branding and interaction design. **Other requirements:** Students must maintain a GPA of at least 4.5 to be eligible to go on the exchange program.

Career opportunities: Depending on major: architect (with further study), industrial designer, interior architect, landscape architect, user experience (UX) designer, product development manager, interactive media designer, visual designer.

| Bachelor of Design (Landscape Architecture) | | | | | |

| 412312 Gardens Point | 4F | 15/68 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course prepares students for a range of professions in the urban development sector, incorporating studies in project planning, the development process, land use, and economic and legal aspects. Depending on major, students can choose to take specialist study in one area or broaden their degree with knowledge and skills from other study areas. Construction management prepares students for work in the construction management field and provides a detailed understanding of construction processes, technological skills and the capacity to manage people, materials, equipment, and plant. Students can specialise in quantity surveying and cost engineering that prepares them to become professionals in the construction, resources and associated industries on the financial and legal aspects of operations in construction and the built environment.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Other requirements: You must complete 30 days of approved professional work.

Career opportunities: Construction or project manager, contract administrator, quantity surveyor, cost engineer, estimator, employment with government departments.

Double degrees: Refer to entries for: B Design (Architecture)/ B Urban Development (Hons) (Construction Management); B Design (Interior Architecture)/B Urban Development (Hons) (Construction Management).

| Bachelor of Urban Development (Honours) (Urban and Regional Planning) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 412852 Gardens Point | 5F | ★ | ★ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: Urban and regional planners design and manage the use of land and natural resources to meet societal and environmental needs in a sustainable way. They plan large-scale projects such as regions, cities, suburbs, ports, recreational and industrial areas, and transport routes. You will work on projects run in collaboration with local and state government partners, developers and local community groups. Throughout your studies, you'll have access to site visits and industry speakers, and build skills in industry relevant software. Your studies in environmental science will expand your planning knowledge with the latest information in environmental science, including climate change, sustainable management, land resources, air, water and soil quality and water resources. **Note:** This course was offered for the first time in 2020. **Other requirements:** You will complete 30 days of approved work experience in industry as part of your work integrated learning for Urban and Regional Planning.

Career opportunities: You will have international and local employment opportunities. You could work in state and local government departments and agencies, development companies and professional planning consultancies. Career choices include urban design, transport planning, development assessment, monitoring and research for government departments and agencies, local councils, plan preparation for housing and industrial areas, open space and recreational planning, environmental protection, and social and economic development, consultancies.

★ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| TAFE QUEENSLAND | | | | | |
|--|----------|--|----------|-------------|-------------|
| Advanced Diploma of Building and Construction (Management) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| 597007 Eagle Farm | 20L | ★ | ★ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course meets the technical requirements for the Builder Project Management Services licence. In this course, students gain advanced knowledge of building projects that allows graduates to provide advisory, administrative and management services for the construction of large, high-rise and complex buildings. Students learn to apply structural principles, assess faults, apply building codes and standards, and manage compliance with legal obligations. Learners may also gain the skills required to administer project contracts and certify timing, quality and cost matters. **Note:** VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Construction project manager, site supervisor, estimator.

★ All qualified applicants were offered a place.

| Diploma of Building and Construction (Building) | | | | | |
|---|----------|--|----------|-------------|-------------|

| | | Unadjusted | Adjusted | | |
| 597452 Eagle Farm | 1CL | ★ | ★ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course teaches building and construction theory and practices related to low and medium-rise buildings. Students extend their knowledge to building surveying, job supervision and safety management. Students will also develop project management skills in contract administration, project planning and costing, and resource and financial management. Successful completion of this qualification meets the requirements for both a Builder – Medium Rise and Builder – Low Rise licence and equips graduates with the skills necessary to manage a construction business for residential, commercial or industrial buildings. **Note:** VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Builder, construction project manager, site supervisor, construction contract manager.

★ All qualified applicants were offered a place.

| 597446 Eagle Farm | 1CL | ★ | ★ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: In this course, students gain the skills and confidence to manage advanced construction planning, operational, evaluation, and problem-solving challenges and learn how to manage budgets, human resources, OHS, and team effectiveness. Students apply building codes, structural principles and quality standards to medium rise construction projects. **Note:** VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Construction manager, estimator, project manager (building and construction), sales manager (building and construction), site manager.

Combined diplomas/degrees: The Diploma of Building and Construction (Management) can be combined with other programs as listed below to attain the awards of Diploma of Building and Construction (Management) from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university.

Note: TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Building and Construction (Management) for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

D Building and Construction (Management)/B Urban Development (Honours) (Construction Management):

597446 Eagle Farm/Queensland University of Technology (1CL & 3F)

| 711202 St Lucia | 3F | 10/79 | 8/84 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: This program is the first step to becoming a professional, registered architect in Australia. You'll learn how to design in response to climate and context from lecturers who have strong, local industry links and international perspectives, and have opportunities to develop special areas of interest. Study design principles, sustainability, emerging technologies, the history of buildings and culture, and more. When you graduate, you can progress to the professional Master of Architecture. **Other requirements:** To progress to the Master of Architecture you must achieve a minimum GPA of 4.5 in the Bachelor of Architectural Design. If you achieve a GPA between 4.0 and 4.5 you must undertake six months (or equivalent) of professional experience as approved by the Faculty of Engineering, Architecture and Information Technology before progressing to the Master of Architecture.

Career opportunities: Architect and allied professional in private offices, government departments, statutory bodies, local authorities, commercial development companies, research organisations.

| Bachelor of Regional and Town Planning | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: Prepare for a career in planning entire cities and communities. Learn the principles around land use, transport planning, infrastructure and urban design. Study real estate markets, investment, sustainability, regulatory frameworks and community consultation techniques. Apply your knowledge each year through a planning project with developments in South East Queensland. Work with industry, government and community partners to build your professional networks. You will gain a global perspective with courses that will take you on overseas field studies.

Torrens University Australia (continued)

Career opportunities: Graduates are employed in areas such as urban design, statutory planning, strategic planning, regional development, environmental management and monitoring, technology for planning, spatial planning, commercial and industrial development, engineering and architectural firms, heritage and conservation, land-use planning, planning law and practice, resource management, social planning, tourism, and transport and infrastructure planning.

Course outline: If you're struggling to decide whether to pursue a career in the creative or business industries or have dreams of wanting to start your own creative business, our suite of design and business double degrees are the perfect solution – plus you can graduate in as little as just three years so you can start your career as soon as possible. Studying a double degree gives you a flexible range of skills to explore different career options and obtain a unique and broad set of skills to put you ahead in your career. The combination of a business degree and a degree in commercial interior design, offers you the flexibility to pursue multiple career paths upon graduation and gives you the skills, knowledge, and confidence to launch your own creative business or go after leading roles in established agencies. Hybrid roles are the way of the future, and the double degree will equip you with the necessary knowhow to be able to operate in a business centric role like marketing or operations, however with the skillset to execute and manage creative requirements.

Career opportunities: Interior designer, brand specialist, art director, business owner/manager, coordinator or assistant manager, operations manager, marketing manager, partnership manager, buyer, entrepreneur, general manager.

Course outline: In today's connection economy, brands are looking to create immersive and unique environments that connect with their consumers. Bachelor of Interior Design (Commercial)

gives you the skills and creativity to respond and adapt to the ever-changing drivers of commercial environments such as retail stores and exhibitions, hotels, bars, restaurants, night clubs, workspaces and even the design of online virtual commercial environments. Throughout your study, you will engage with the theoretical and practical elements of commercial interiors – branding, lighting, sustainability and materiality. You will discover how commercial interior design strategies are developed and assessed and explore how commercial interiors can engage an audience. You will make commercial environments a reality through documentation, contract management, professional design practice and cross-disciplinary interaction. You will also have the opportunity to apply theory to practice by creating a range of commercial interior design solutions for real clients. Graduate with the valuable skills to create state-of-the art commercial interiors. Digital technology is a strong focus of this course, as not only will you will engage with contemporary theory, but also learn how to represent spatial environments, and communicate information relevant to designing, costing, evaluating, and constructing commercial interiors using industry standard software. You can also apply for an internship with one of Billy Blue's industry partners giving you real-world experience, key contacts in the interior design industry and material for your professional portfolio.

Career opportunities: Architectural or interior designer working on cafes, hotels, restaurants, exhibitions, corporate environments, game interiors, virtual worlds, animations.

+ Refer to Course Search at qtac.edu.au for offer round information.

Bachelor of Interior Design (Residential)

Prerequisites: ATAR 60. Other admissions pathways are available to applicants.

Course outline: The residential interior design degree creates designers who have the skills and creativity to respond and adapt to the future challenges of sustainable residential design for 21st Century housing, high-rise living, mobile, multi-purpose and adaptive reuse environments. Throughout your study, you will engage with the theoretical and practical elements of designing residential interiors. You will explore and respond to contemporary issues impacting residential interior design thinking such as our aging population, homelessness, evolving gender roles and definitions of family. You will unpack and understand frontier theory that informs the notion of home in both physical and virtual environments. As a future-ready interior designer, new technologies and environmentally sustainable practices will be part of your learning. You will understand the impact in the selection of materiality, lighting, joinery, furniture and technology systems such as artificial intelligence robotics and interactive audio visual systems. You will make residential environments a reality through documentation, contract management, professional design practice and cross-disciplinary interaction. You will also have the opportunity to apply theory to practice by creating a range of residential interior design solutions for real clients and can apply for an internship with one of our leading partners as part of your study.

Career opportunities: Residential interior designer employed by industry, a self-employed consultant, working with a private firm involved in design practice.

| 907245 External | 4X or 8X | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Assumed knowledge:** General Mathematics (Units 3 and 4, C).

Program outline: USQ's Bachelor of Urban and Regional Planning (Honours) equips you to be an urban and regional planner and designer of the future for cities, transport hubs and industrial infrastructure. You develop skills in using land and human resources sustainably, community consultation, planning legislation and processes, economics, transport planning, urban design, plan making and project management. In addition, you can choose a research project in your fourth year to investigate a specific urban and regional planning area, which also can provide a pathway for further study and research. **Note:** External students are required to undertake practical and professional activities relevant to their program through enrolment in a series of practice courses. External students should note that there are mandatory on-campus residential schools held at USQ Toowoomba for some courses in this program.

Career opportunities: Graduates have the skills to work as urban and regional planners specialising in commercial and retail developments, urban renewal projects, transport planning, regional and residential planning or environmental protection.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course increases students' employability by developing knowledge and skills in both accounting and business. Studies include audit methodology and planning, and equip students with tools and techniques that financial managers use to maximise shareholder wealth. Students gain exposure to accounting theory, accounting standards and business law relevant to the financial records of Australian companies. **Note:** Only first year of the course is available on campus at Bundaberg, Cairns, Gladstone, Mackay and Townsville; students complete the remainder of their studies via a mixture of workshops, on-campus study and online study. For the accounting component, advanced-level units at some locations may need to be completed by a mixture of on-campus and online study. Not all business majors are available at all locations.

Majors: Financial planning; human resource management; marketing; property; social innovation.

Career opportunities: Human resource management, marketing, banking, taxation, professional accounting, auditing and assurance, forensic accounting, business management.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

✦ Regular offers will be made.

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course develops students' business skills and provides the opportunity to pursue an area of interest with a choice of major. The course provides a flexible degree pathway, offering a diverse range of units and the opportunity to develop skills relating to the modern business environment. Students have the opportunity to undertake work integrated learning, enabling them to gain practical experience through professional work placement to enhance their employability. **Note:** Not all majors are available at all locations. Students complete their studies via a combination of on-campus study and online study. Courses at Bundaberg, Cairns, Gladstone, Mackay and Townsville are delivered by a combination of on-campus study, workshops, residential schools and online study. **Majors:** Management. **Specialisations:** Accounting; financial planning; human resource management; marketing; property; social innovation.

Other requirements: Depending on the units selected, students have the opportunity to undertake

an approved full-time work placement of approximately 12 weeks' duration. The placement may require relocation of accommodation to suit the employment. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Depending on unit selection and majors: positions as business professionals and administrators in public and private sector companies and organisations.

Combined degrees: Refer to entries for: B Accounting/B Business; B Laws/B Business.

✦ Regular offers will be made.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Developed in close consultation with industry, this program produces communication specialists who understand the diversity and complexity of the contemporary communication and media landscape and are able to thrive within it. Specifically designed to respond to the demand for graduates who are ready for the challenges and opportunities of next generation media and associated industries, this degree equips students with a comprehensive set of advanced writing skills, multimedia production abilities, and the capacity to think both laterally and creatively. Through the Bachelor of Business, you gain a solid foundation in all aspects of business and develop an understanding of the social, cultural and political dimensions of business. You enhance this knowledge with further expertise and experience in your areas of interests.

Note: Subject to satisfactory completion of the diploma, students are eligible for up to 70 credit points into the bachelor program at Griffith University. The amount of credit available depends on the choice of major within the degree. Contact Griffith College for more details.

Career opportunities: You are prepared to use your extensive business skills in a range of increasingly diverse settings including not-for-profit, government and corporate organisations. Occupations include social media coordinator, community and stakeholder engagement officer, digital marketing specialist, communications officer, events manager, social media manager, public relations consultant, public relations professional, strategic communications specialist, media liaison officer, campaign manager, media analyst, promotions officer, copywriter, journalist, reporter, producer, researcher, editor, freelance writer, corporate promotions and communications. A business degree gives you the foundation to take your career just about anywhere.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: This double degree enables students to combine business management skills with a studio major, developing core competencies such as critical and analytical thinking, business communication and decision-making. The design program prepares graduates for diverse professional practice as designers through practical and theoretical learning. The first year focuses on the development of manual and technological skills, design thinking, problem-defining and solving. Students gain an understanding of the changing role of design and how they can become leaders in the industry. In the following years, students work on industry-related and research projects and specialise in selected studio areas. Graduates are skilled in creative design and software application and able to effectively and efficiently manage creative ventures from a business perspective. Refer to separate entries for Griffith College's Diploma of Commerce and Griffith University's Bachelor of Design/Bachelor of Business. **Majors:** *Bachelor of Design:* graphic and communication design; interior design and environments; product and 3D design; visualisation and immersive design. *Bachelor of Business:* Asian business; employment relations; entrepreneurship and self-employment; event management; human resource management; international business; logistics and supply chain management; management; marketing; politics and public policy; real estate and property development; sport management; tourism management.

Career opportunities: Graphic design, interior design, product design, digital web design, design management, design education, film and television, theatre, furniture design, digital media, business development, business management, marketing and sales, market research, government.

☆ All qualified applicants were offered a place.

| Diploma of Commerce/Bachelor of Government and International Relations | | | | | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Students gain an understanding of policy, politics and power in the modern world, and the forces that shape these dynamics at the global and domestic levels. Students learn about political institutions and processes, business-government relations, and foreign policy and globalisation. In first year, students develop an understanding of politics and international relations. In second and third years, students expand this knowledge and have the option to specialise by completing a major in either international relations or politics and public policy. Students can choose to complement their studies with a second major. The program culminates in either a parliamentary internship or a work placement. Refer to separate entry for Griffith University's Bachelor of Government and International Relations. **Majors:** International relations; politics and public policy. Second majors: Asian business; Chinese language; economics; international business; Islam-West relations; Italian language; Japanese language; Spanish language.

Career opportunities: Graduates are prepared for a range of careers in the public and private sectors, working for government, business or the not-for-profit sector in areas that include providing advice to ministers, managing political campaigns, advising business and community leaders, developing policy and resulting programs, and managing policy and program implementation.

Program outline: An honours degree sends a signal of high achievement, quality and an advanced skill set, instantly recognisable in both the professional employment and academic arenas. Designed for future leaders of the 21st century, this new degree will teach you to find solutions based on a range of perspectives. Built on the values of sustainability, economic inclusivity and social progress, you'll be prepared for a game-changing career. Whether you want to be an accountant, economist, executive director or eminent academic, you can choose from over 20 majors as well as internships and study experiences. **Majors:** *Nathan and Gold Coast:* accounting;

Griffith University (continued)

Asian business; Asian engagement (Nathan only); behavioural science; business analytics (Gold Coast only); economics; employment relations (Nathan only); event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); taxation (Nathan only); tourism management. *Online:* Asian engagement; business analytics; financial planning; human resource management; innovation and entrepreneurship; management; taxation. Languages are available as a second major or a minor: Chinese, Indonesian*, Japanese, Korean* and others. *Via cross-institutional study with The University of Queensland.

Career opportunities: An honours degree prepares you for a career in academic research and higher research degrees. Equally, it is highly regarded by employers and well recognised as a step beyond a traditional undergraduate degree in the application of theory and practicum. This holistic business degree gives you the foundation to take your career just about anywhere. You'll be prepared to work in not-for-profit, government and corporate organisations; as well as start-ups and entrepreneurial enterprises. Depending on your major, you could work across the many fields and professions, including as an accountant, economist, in research and academia, in financial planning, in advertising, event management and marketing, as an international and Asian business specialist, a business owner or entrepreneur, in employment relations, export, human resources management, in tourism, real estate and property development, sport management, in sustainable business, information technology, and many more.

Combined diplomas/degrees: Depending on your major, this program can be combined with the following courses at TAFE Qld: D Event Management; D Marketing and Communication/D Business; D Sport and Recreation Management/D Event Management. Refer to entry for the diploma under TAFE Qld. For Nathan and Gold Coast, refer to entries under Griffith College for: D Commerce/B Business; D Hotel Management/B Business.

Bachelor of Applied Financial Advice

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 272015 Online | 2X or 4X | 13/72 | 13/72 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You will gain technical capabilities in financial planning while also developing competencies in high-quality written and oral communication skills to ensure you can meet client needs. Core to the degree are skills in financial markets, tax, superannuation and estate planning, as well as client care, active listening, and the law. This online degree has been designed to meet industry needs; new financial advisers are required to hold a bachelors degree or higher under the sector's new professional standards. Plus, you'll have opportunities for practical work experience as part of your study. **Note:** Students study over three trimesters each year, completing the three-year program in two years.

Career opportunities: Graduates will be prepared for roles in the financial services industry (namely, banks, funds management and financial planning companies) in various positions including client services officer, para-planner, provisional financial adviser (additional work and training requirements are required to qualify as a financial adviser). You'll also find opportunities in insurance and superannuation, futures, options and foreign exchange trading. **Note:** additional work and training requirements are required to provide personal financial advice. Under recent changes to the law, financial advisers must complete a bachelors degree or higher. To become a financial planner (CFP), you must also undertake a professional year with a licensed financial advisory company and pass the Financial Planning Examination offered by the Financial Adviser Standards and Ethics Authority (FASEA).

| 409642 Gardens Point | 4F | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); and for accountancy, economics, finance, financial planning, and marketing majors – General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course combines the Bachelor of Business and Bachelor of Design (Landscape Architecture) degrees. The business component is designed to inspire students to realise their potential, to think entrepreneurially and to ethically and sustainably shape the future of business. Students will develop core business capabilities and undertake focused and authentic study in their chosen business discipline. The design component emphasises practical experience through projects and design studios and encourages creativity within a vigorous design culture. Students develop adaptable and resilient capabilities to design, think critically, effectively communicate and collaborate to realise their ideas.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Business.

Career opportunities: Refer to Bachelor of Business and Bachelor of Design (Landscape Architecture).

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Program outline: This course offers a combination of business and law skills that provides a broad base of commercial knowledge. The business component is designed to inspire you to realise your full potential to think entrepreneurial and to ethically and sustainably shape the future

Queensland University of Technology (continued)

of business. You will develop core business capabilities and undertake focused and authentic study in their chosen business discipline. In the law component, you develop advanced legal research and writing skills, and skills in interviewing, advocacy and dispute resolution. The course covers all academic subjects required for admission to legal practice and offers a range of law electives to align with career aims. Accountancy is a complementary major for business/law students, providing graduates with formal recognition from peak bodies in both professions.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** You have the opportunity to undertake a minor that focuses on technology and the law. Some units are offered in summer for students wishing to accelerate their study.

Majors: Refer to Bachelor of Business.

Career opportunities: Law and business positions related to finance, taxation accounting and insolvency practice, legal careers specialising in commercial law and corporate compliance.

Bachelor of Business/Bachelor of Mathematics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 419212 Gardens Point | 4F | 7/87 | 6/89 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: The business component of this course is designed to inspire students to realise their potential, to think entrepreneurially and to ethically and sustainably shape the future of business. Students will develop core business capabilities and undertake focused and authentic study in their chosen business discipline. Business majors in accountancy, economics, finance or financial planning are particularly relevant to accompany a mathematics degree. Students learn how to undertake the sophisticated economic and financial modelling that is integral to business and government decision-making. The mathematics degree prepares students for careers including finance, information technology and education. Development of skills in communication, problem-solving, critical thinking and teamwork form an integral part of the course.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Business and Bachelor of Mathematics.

Career opportunities: Accountant, actuary, banking and finance professional, business analyst, certified practicing accountant, financial advisor, investment manager, statistician.

Bachelor of Property Economics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 412322 Gardens Point | 3F | 15/68 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course provides the theory and practical understanding of the role that property plays in the Australian and international economy. This prepares students for a career as a property professional within the wide range of professions that assess, develop, value, finance and manage all classes of public and private property, including investment, consultancy, asset management, development, valuation and research. Students learn to provide advice on the use, value, management and marketing of property, in order to optimise the benefits from ownership or occupation and to ensure the property industry remains economically and environmentally sustainable and meets the needs of all members of society. Students gain practical experience with Work Integrated Learning.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

Career opportunities: Property valuation, property consultancy, property economist, property management/real estate sales/lease negotiation, property finance, asset management, property funds analyst, property research, corporate real estate manager.

Double degrees: Refer to entry for: B Property Economics/ B Business; B Design (Architecture)/B Property Economics; B Design (Interior Architecture)/B Property Economics; B Property Economics/B Laws (Hons).

| 054251 The Hotel School Brisbane | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years; interview.

Additional entry information: Phone 1800 316 469 for details.

Course outline: This full fee-paying course, offered at The Hotel School, focuses on hotel operational and management practices across hospitality industries and the skills needed for employment in a competitive and changing global business environment. Studies include key operational subjects such as food and beverage, accommodation operations, and introduction to professional practice, together with introductory management subjects including finance, marketing and hospitality management. Students develop advanced analytical, strategic, and management skills. A compulsory six-month professional hospitality internship is a key feature of the course, allowing students to establish valuable industry experience. The Hotel School is a partnership between Southern Cross University and Mulpha Australia. **Note:** This is a fee-based offering, not a Commonwealth-supported place.

Career opportunities: Professional positions in hospitality and service management in Australia and overseas, management positions in hotels and resorts, human resources, marketing.

| 054361 Gold Coast | 3F or 6P | New Course | New Course | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course prepares students for management careers in tourism, hospitality and events. The theme of responsible enterprise drives the core units that develop skills in marketing, finance and human resources management. In addition to the core units, there are three majors to choose from. Each addresses sustainability challenges facing the tourism, hospitality and events industries, developing the management skills you will need to work and thrive in these professional environments. The course culminates with a compulsory 14-week internship experience that provides students with practical skills to network and gain employment internationally. This course is also available online; contact Southern Cross University. **Majors:** Sustainable tourism management; sustainable convention and event management; sustainable hospitality management; shared majors from across the university.

Career opportunities: Hotel and resort management club and gaming operations and management, tourism destination planning and marketing, tourism policy development, ecotourism, event and conference planning, festival directing, talent management, sponsorship coordination, sports tourism, visitor manager, tourism retail manager, casino management, restaurant operations.

| TAFE QUEENSLAND | | | | | |
|------------------------|----------|--|----------|----------------------|---------------------------|
| Diploma of Accounting | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 555720 South Bank | 1CL | ★ | ★ | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Additional entry information: Successful applicants must successfully complete FNSS00014 Accounting Principles Skill Set or FNS40615 Certificate IV in Accounting or FNS40217 Certificate IV in Accounting and Bookkeeping or FNS40215 Certificate IV in Bookkeeping before progressing to the diploma.

Course outline: This course gives graduates the essential knowledge and professional skills to work competently within the accounting, business, and finance sectors. During this course, students develop an advanced understanding of financial reporting, budget management and forecasting, income tax returns, and providing accurate accounting advice. Students will graduate with analytical skills and knowledge of current technologies, resources, accounting procedures and techniques. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeql.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Assistant accountant, bookkeeper, accounts clerk, office manager, BAS agent (tax practitioner board requirements to be met).

Combined diplomas/degrees: The Diploma of Accounting can be combined with other programs as listed below to attain the awards of Diploma of Accounting from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Accounting for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

| 511071 Mooloolaba | 1CL | New Course | New Course | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course gives students the specialised skills and knowledge to lead and manage people, coordinate marketing activities, manage budgets, prepare quotes, and select venues and sites. Students gain managerial skills including rostering, budgeting, marketing and people management, learn customer service skills in TAFE Queensland's training restaurants and learn how to operate a bar and prepare espresso coffee. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. Only one diploma may be eligible for a subsidy. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Restaurant manager, motel manager, event manager, conference manager.

Combined diplomas/degrees: The Diploma of Event Management/Diploma of Hospitality Management can be combined with other programs as listed below to attain the awards of Diploma of Event Management/Diploma of Hospitality Management from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Event Management/Diploma of Hospitality Management for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree provides a solid grounding in business management concepts including the areas of management, ethics, and marketing needed for organisational survival and success. The degree also introduces concepts in accounting and economics with a view to developing a basic understanding of these fields as they apply to business management. The degree will prepare graduates to take on a role as a future manager with leadership responsibilities for creating a more inclusive and sustainable global economy. For external study, contact the UNE Future Students Team. **Majors:** Business management.

Career opportunities: Graduates are flexible all-rounders with key skills in managing relationships within and beyond their organisations.

★ Subject to final approval.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree provides skills needed to help businesses thrive through a data-driven strategy by taking complex data and explaining it to business leaders in a way that informs action. This degree introduces students to the quantitative methods needed to thrive in the modern business world – the use of business data to develop new insights and understanding. Students learn vital skills of being able to extract raw data, then skillfully interpret and translate facts and figures into visually meaningful information; to analyse data in a way that leads to useful models of database management and business information systems; and to respond flexibly as managers after consulting quantitative information in the capacity of business management and decision-making. Students will develop skills in critical analysis, communication and business decision-making. For external study, contact the UNE Future Students Team. **Majors:** Business management.

Career opportunities: Graduates are flexible all-rounders with key skills in managing relationships within and beyond their organisations.

| UNIVERSITY OF SOUTHERN QUEENSLAND | | | | | |
|-----------------------------------|----------|--|----------|-------------|-------------|
| Bachelor of Aviation | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 904771 Toowoomba | 3F or 6P | 20/62 | 15/68 | Feb 2021 | 14 Jan 2021 |
| 924771 Springfield | 3F or 6P | 21/61 | 16/66 | Feb 2021 | 14 Jan 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: This professional program provides an in-depth understanding of the principles and concepts of the aviation system, its components, aircraft operations, and support and enabling processes. In addition, the program equips graduates with a broad and coherent understanding of human performance issues within the aviation system. Graduates in the flight operations major are provided with the requisite flying skills and knowledge to meet the Civil Aviation Safety Authority requirements of the Australian Commercial Pilot Licence and Instrument Rating or international equivalent. **Note:** Flight training is conducted by the University flight training third party.

University of Southern Queensland (continued)

provider for which eligible students may be able to access VET Student Loans. **Majors:** Aviation management; flight operations. **Other requirements:** Students undertaking the flight operations major must hold a Class 1 Medical Certificate issued by the Civil Aviation Safety Authority, as this is one of the regulatory requirements to hold a Commercial Pilot Licence. In addition, students are expected to complete recognised pilot aptitude assessment and interview prior to being allowed to undertake the flight operations major. Appropriate advice will be provided to students during their first academic year.

Career opportunities: Graduates are qualified to enter the aviation industry as pilots or in a variety of aviation management roles. Subject to additional flying experience, graduates are candidates for airline, general aviation, or instructor pilot roles in operations throughout Australia and potentially the global aviation industry.

Assumed knowledge: English (Units 3 & 4, C); General Mathematics (Units 3 & 4, C).

Program outline: This course gives students a diverse skill set across business, commerce and law. In the business and commerce component, students benefit from USQ's close ties with industry. They develop decision-making skills, and learn to think creatively and analytically and communicate concisely. In the law component, students learn about conflict, negotiation and mediation, and develop skills for professional practice. This course also builds a multitude of skills used in a range of careers outside of legal practice. **Majors:** *Business and commerce:* accounting; aviation management and safety; business administration; business economics; business law; finance; general commerce; human resource management; information technology management; international business; management and leadership; marketing; sustainable business; tourism management.

Career opportunities: Administrator, banking and finance professional, business analyst, consultant, certified practising accountant, chartered accountant, chief financial officer, economist, financial adviser/analyst, fund/investment manager, human resources manager, investment banker, marketing manager, stockbroker, solicitor or barrister, government law officer, in-house legal counsel, legal studies teacher (with further study), corporate sector, federal or state government employee, community organisations, non-government agencies.

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: You gain a strong grounding in key business areas, as well as creative and critical thinking. Design this degree to suit your career goals through your choice of a major to develop in-depth knowledge in a specific area of interest. First-year foundation subjects include economics, management, marketing, accounting and informatics. In second and third years, subjects include strategic management, corporate governance, social responsibility, and the world of work. The program is a strong base for further studies in law or honours. **Note:** All majors and required subjects are available at Sunshine Coast. Required subjects are offered at Caboolture, Fraser Coast, Gympie and Moreton Bay, however there may be a limited selection of majors, subjects and electives available at these campuses. **Gympie:** Only first year subjects are offered at Gympie. **Moreton Bay:** Only first and second year subjects offered at Moreton Bay in 2021. **Majors:** Accounting; business administration; digital futures; economics and finance; entrepreneurship; human resource management; information systems; international business; management; marketing; tourism, leisure and event management. Not all majors available at all campuses. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Depending on major: business management, entrepreneurship, human resource management, marketing management, market research, international business, importing/exporting, industrial relations, tourism and hospitality management, retail/sales.

Combined degrees: Refer to entries for: B Arts/B Business; B Business/B Commerce (Accounting); B Business/B Communication; B Business/B Creative Industries; B Business/B Criminology and Justice; B Business/B Design; B Business/B Science; B Business/B Social Science (Psychology); B Laws/B Business.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Business (Digital Futures)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 014651 Moreton Bay | 3F or 6P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Technologies are revolutionising the way we do business. In an increasingly digital global marketplace, this cutting-edge degree equips you to generate new business ideas, harness opportunities and drive innovation and growth. Focusing on small to medium businesses, you'll gain a strong understanding of how digital change is impacting organisations, and explore emerging trends like strategic social media, new financing models and the implications of artificial intelligence. You'll also get hands-on experience by using the lean startup framework to develop and launch your own venture idea. **Note:** Only first and second year subjects offered at Moreton Bay in 2021. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Entrepreneur, small business owner/operator, innovation manager, digital strategist, business analyst.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Business (Human Resource Management)

| | | Unadjusted | Adjusted | | |
| 012111 Sunshine Coast | 3F or 6P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: You gain a strong foundation in key business areas and develop in-depth knowledge in people skills that focus on meeting the need for people to be employed, trained and managed in ways that support organisational goals. In first year, subjects cover foundation aspects of business, including economics, management, marketing, accounting and informatics. In second and third years, you study specialised subjects that explore the management of human

resources and organisational change, leadership and team dynamics, and workplace relations.

Note: Required subjects are available at Sunshine Coast. There may be a limited selection of subjects and electives available at Caboolture, Fraser Coast and Gympie.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Human resource management, recruitment, staff development and training, industrial relations, employment relations.

Combined degrees: Refer to entries for: B Business (Human Resource Management)/B Social Science (Psychology).

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Business (Human Resource Management)/Bachelor of Social Science (Psychology)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 017511 Sunshine Coast | 4F or 8P | 11/77 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: To manage staff properly, you need to understand them. This degree gives you a deep practical understanding of how people work, and how to create a business environment conducive to individual success. You'll gain a strong foundation in the fundamentals of business, with a focus on human resource management, including areas such as workplace relations, staffing and remuneration, training and development, leadership and team dynamics, and managing organisational change. You'll also learn about human behaviour and cognitive, social, physiological and intercultural psychologies. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Human resource management, recruitment, staff development and training, employment relations, change management, organisational development, education services.

Bachelor of Business (International Business)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 012031 Sunshine Coast | 3F or 6P | 17/65 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: You learn how to conduct business across borders and cultures. The program combines a solid foundation in business with dedicated studies in international business. In first year, general business subjects include economics, management, marketing, business analytics, accounting and informatics. In second and third years, you undertake specialised subjects in the principles of international business, cross-cultural management, international marketing, export management, trade and finance, managing global logistics and global e-business. **Note:** Required subjects are available at Sunshine Coast. There may be a limited selection of subjects and electives available at Caboolture, Fraser Coast and Gympie.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Export/import management, international marketing, foreign affairs, international logistics, international business strategy.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 012141 Sunshine Coast | 2F or 4P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: By completing two years of study, you develop core business skills and gain an admission pathway to a business degree at USC. In first year, you learn core business concepts through foundation subjects. In second year, you can choose an area of specialisation and complete four subjects (a minor). Minors include accounting, economics and finance, entrepreneurship, event management, human resource management, international business, marketing, or tourism, leisure and event management. **Note:** Required subjects are available at Sunshine Coast. There may be a limited selection of subjects and electives available at Caboolture, Fraser Coast, Gympie and Moreton Bay. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Refer to entry for Bachelor of Business.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Additional entry information: Applicants must apply to the Conservatorium for an audition. To access an audition application, go to cqu.edu.au/auditions or phone the Conservatorium on (07) 4940 7800.

Program outline: The course is available online and supported through CQUni's Regional Conservatorium partnerships with Murray Conservatorium (Albury), Riverina Conservatorium (Wagga Wagga), Mitchell Conservatorium (Bathurst, Lachlan, Lithgow) and our Central Queensland Conservatorium of Music, at CQUni Mackay. Students are supported throughout their study and undertake one-on-one instrumental tuition with highly qualified staff in classical, jazz or popular music. Students also study music theory, music history, music technology and instrumental teaching. **Other requirements:** This course is delivered through CQUniversity's Regional Conservatorium partnerships with Murray, Riverina and Mitchell Conservatoriums in NSW. The one-to-one instrumental tuition that forms the basis of MUSC11409 Principal Music Studios 1 and MUSC11410 Principal Music Studios 2 is delivered by regional conservatorium staff in these three locations, as well as in Mackay. Online students must be able to travel to one of these locations for regular one-to-one lessons to complete this unit.

Career opportunities: Professional musician; studio teacher.

| 083331 Gold Coast/ Griffith University – Gold Coast | 4F or 9P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: This program is the first stage in obtaining a professional qualification as an architect. Students focus on the design of buildings, urban areas, public places, transport nodes, and recreation and conservation areas. Students learn to create designs that meet aesthetic, functional and user needs and study issues such as social equity, economic viability and environmental responsibility. The degree has an emphasis on sustainable design. Students enhance their employment opportunities through an industry-based design project. Graduates can apply for entry to the Master of Architecture. For more course information, visit the Bachelor of Architectural Design at Griffith University.

Career opportunities: Architect (with further study of the Master of Architecture), architectural technician.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: This program provides specialised studies in the conceptual frameworks and diverse practices of photography in contemporary art, photojournalism and creative advertising. It develops innovative practice, self-motivation and initiative combined with a high level of technical competence. The program explores the interrelationship of photography and other forms of visual communication with emphasis on developing responsible and informed photo media based image makers. Refer to separate entries for Griffith College's Diploma of Design and Griffith University's Bachelor of Photography. **Note:** Subject to satisfactory completion of the diploma, students articulate with 40 credit points into the bachelor program at Griffith University. **Majors:** Creative advertising photography; photographic art practice; photojournalism.

Career opportunities: Advertising photography, commercial photography, art practice, arts administration, public art, curatorship, picture editing, photojournalism, investigative documentary practice.

☆ All qualified applicants were offered a place.

GRIFFITH UNIVERSITY

Bachelor of Acting

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|----------------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 251782 Queensland Conservatorium | 3F | * | * | Mar 2021 | 23 Dec 2020 |

Prerequisites: Audition; interview; applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** English, English as an Additional Language, Literature or English & Literature Extension (Units 3 and 4, C).

Additional entry information: Admission to this program requires an audition and an interview. A video recording may be required as part of your audition process. Visit griffith.edu.au/conservatorium-auditions for details of audition requirements including how to pay for the \$90 non-refundable audition fee and how to submit your Performance CV to Queensland Conservatorium by 31 August 2020. Applicants should refer to the Auditions website for the most up to date advice and messaging. Auditions take place at the Queensland Conservatorium's Burke Street Studios at Woolloongabba 28 from September to 3 October 2020. Interstate applicants should refer to the Conservatorium Auditions website for details on interstate auditions. Griffith University will commence making offers on 20 November, however additional auditions and offers may be considered in subsequent rounds should places still be available. Applicants must ensure they order preferences accordingly; refer to the QTAC website. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC and pay their audition fee to Griffith University by **31 August 2020** to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and offer rounds should places still be available. Late applicants should refer to the Auditions website for information.

Program outline: This highly practical and skill-intensive degree prepares you for a life-long career across stage and screen. Designed around four key pillars—core craft, context, repertoire and industry engagement—the degree develops both the individual and the actor through ensemble building, collaborative laboratories, industry-led workshops and public performances. Under the direction of renowned teachers and performers, you will undertake intensive training in acting, voice and speech, singing, movement and dance. It will unlock your imagination, encourage curiosity and build your resilience. **Note:** Griffith University will commence making offers on 20 November, however additional auditions and offers may be considered in subsequent rounds should places still be available.

Career opportunities: This degree will interface with Griffith Film School, Queensland Performing Arts Centre, Queensland Theatre, Brisbane Powerhouse and other local and national performing arts companies. You will emerge highly skilled in acting and performance, ready for a career on stage or on screen, including (but not limited to) theatre, television and film.

*Admission was based on special entry requirements only.

Bachelor of Animation

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 241212 Griffith Film School, South Bank | 3F or 6P | 18/64 | 15/68 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will give you the knowledge and practical skills needed for a professional career in the animation and visual effects industries. Using top-of-the-line hardware and premium industry-recognised software, you'll produce original animated projects from concept to delivery. You'll learn skills in concept development, storyboarding, 2D and 3D character animation, editing, sound recording, visual effects and post-production. Client work and internships that are part of this degree will help you sketch out your future career. **Majors:** Animating; art direction; technical direction.

Career opportunities: As a graduate, you'll be able to work in 2D and 3D character animation and visual effects for film, television, computer games and interactive media companies. You'll be prepared for a career that includes many exciting and creative pathways such as designing characters and environments for 2D and CGI/3D-animated projects, scriptwriting, storyboarding and pre-visualisation, animation in 2D and 3D, illustration, graphic art, compositing, matte painting, and visual effects.

Bachelor of Contemporary Australian Indigenous Art

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|--|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241252 Queensland College of Art, South Bank | 3F or 6P | * | * | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); portfolio; applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Admission to this program requires a portfolio and a questionnaire. Admission to this degree is open to those who identify as Aboriginal and/or Torres Strait Islander. Griffith Guaranteed Admission Schemes do not apply to this program.

Program outline: This degree is designed to prepare Aboriginal and Torres Strait Islander people to become professional artists. You'll focus on the art media, styles and forms of First Peoples of Australia, together with strategies for their viable adaptation within a highly urbanised society. Your study will be based on research into your own family history and traditions and includes field trips to Aboriginal and Torres Strait Islander communities and study of contemporary culture and politics. You will graduate with the knowledge and skills to forge a career in the arts.

Majors: Expanded practice; photographic art practice; studio art.

Career opportunities: You'll graduate with a portfolio of work that demonstrates your competence in Indigenous and non-Indigenous knowledge, skills and media, and in contemporary technologies. Students will have gained the necessary skills to perform effectively in professional contemporary art practice environments. You'll be prepared to work as an art practitioner, gallerist or curator. You may choose to continue your studies through honours or a postgraduate degree to pursue a career in art education.

*Admission was based on special entry requirements only.

Bachelor of Creative and Interactive Media

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241331 Queensland College of Art, South Bank & Nathan | 3F or 6P | 20/62 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 236121 Gold Coast | 3F or 6P | 17/65 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will prepare you for the exciting and fast-growing contemporary digital media industry. You will develop technical competency and digital creativity by studying interactive design methods, electronic audio, visual media, computation and critical thinking. You will combine these skills to produce imaginative concepts, functioning prototypes, digital audio-visual artefacts and technically mediated interaction designs for everyday life. This unique, multidisciplinary degree is taught jointly by the Queensland College of Art and the School of Information and Communication Technology. **Note:** Students studying at South Bank are required to attend information technology courses at Nathan. **Majors:** Digital arts and design; media applications.

Career opportunities: Graduates will be equipped with the creative digital media skills that the world's leading design and technology employers demand. You'll be able to meet the need for creators and thinkers uniquely skilled in the arts, design and code, who can reimagine and reconfigure the way we engage with the world. You'll develop the ability to embrace the emerging career opportunities in creative media technologies.

Combined degrees: Refer to entry for: B Creative and Interactive Media/B Business.

Combined diplomas/degrees: Refer to entries under Griffith College for: D Design/B Creative and Interactive Media; D Information Technology/B Creative and Interactive Media.

Program outline: This innovative degree brings together the creative, the technical and the practical, and prepares graduates in the best possible way for a future career in the creative technology industries. You will develop skills in design methods, electronic media, computation, and critical thinking and learn to produce imaginative concepts, functioning prototypes, digital audio-visual artefacts and technically mediated interaction designs for everyday life. With the addition of the business majors, students will learn how to harness and apply their creative talents in a practical and commercial sense. **Note:** Students studying at South Bank are required to attend information technology and business courses at Nathan. **Majors:** *Creative and interactive media:* digital arts and design; media applications. *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Career opportunities: You'll find opportunities in graphic design, interactive media design and management, web and mobile application development and design, digital content management, creative direction, games design and development, product design, digital web design as well as the foundation of start-ups and other technology-related businesses.

Bachelor of Creative Industries

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 232221 Gold Coast | 3F or 6P | 20/62 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will empower you to transform communities through innovative creative practices while developing an entrepreneurial mindset. Creative Collaboration Labs will equip you with knowledge of artistic trends, popular and artistic culture, and the cultural policy environment. You'll apply this knowledge to practical projects with high-profile industry partners. You will study a blend of core courses, covering the practice and business of the creative arts, cross cultural practices and protocols, technical disruption in creative economies, and combine this with your choice of major. **Majors:** Digital arts; drama; interactive storytelling; music and sound; photo media; screen development and curation.

Career opportunities: The degree will prepare you for a career as a highly skilled creative entrepreneur, arts facilitator, arts program manager, creative practitioner, community art consultant, festival producer, or creative consultant who: creates artistic as well as economic and social value; contributes to societal change; works with talented artists and performers; creates opportunities for creative enterprises; helps reshape cultural identity through major installations, festivals, and events.

Bachelor of Design

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|--|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241292 Queensland College of Art, South Bank | 3F or 6P | 19/63 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 236142 Gold Coast | 3F or 6P | 20/62 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will equip you with the creative and technical skills and insights needed to rise to future design challenges. It will prepare you for designing future products, services and systems in a creative and critical way. In partnership with leading experts and industry, you will tackle real design challenges and devise leading-edge strategies and solutions, gaining new perspectives on sustainability while advancing your critical and strategic thinking so you can present your ideas clearly and powerfully. **Majors:** Graphic and communication design; interior and spatial design; product and 3D design; visualisation and immersive design. **Other requirements:** It is recommended that students have their own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor.

Career opportunities: You'll graduate prepared to join the ranks of adventurous designers changing the way we interact with our environment and enhancing the way we live. You'll gain the industry experience, networks and knowledge needed to succeed in a variety of cutting-edge design fields.

Combined degrees: Refer to entry for: B Design/B Business.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Design/B Design.

Bachelor of Design/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241341 Queensland College of Art, South Bank & Nathan | 4F or 8P | 17/65 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 236131 Gold Coast | 4F or 8P | 16/66 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You'll combine design creativity with business skills to allow you to take advantage of the commercialisation of graphic and communication design, interior and spatial design, product and 3D design, and visualisation and immersive design. You will have a unique range of skills and abilities to bridge the creative-business divide. **Note:** Students studying at South Bank are required to attend business courses at Nathan. **Majors:** *Design:* graphic and communication design; interior and spatial design; product and 3D design; visualisation and immersive design. *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management. **Other requirements:** It is recommended that students have their

own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor.

Career opportunities: Graduates have a broad range of skills in creative design that they can effectively combine to manage creative ventures from a business perspective. You may be employed in graphic design, interior design, product design, digital web design, design management, design education, film and television, theatre, furniture design, digital media.

Bachelor of Film and Screen Media Production

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 241302 Griffith Film School, South Bank | 3F or 6P | 18/64 | 14/70 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You'll receive a hands-on education in film and screen media production with access to a state-of-the-art cinema. You'll learn how to work in a team to bring your vision to life and gain a thorough grounding in the history, practice and critical analysis of film. Electives include editing, producing, cinematography, directing, scriptwriting, and production design and screen distribution, among many others. You'll undertake a supervised work placement and have regular exposure to national and international artists-in-residence working in different areas of film and screen media production.

Career opportunities: Depending on your areas of specialisation and choice of electives, your career options could include roles in the mainstream film and television industries, working on commercials, music videos, corporate videos, streamed online content, film festivals and awards and video/digital art practice.

Bachelor of Fine Art

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|--|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241232 Queensland College of Art, South Bank | 3F or 6P | 20/62 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You will learn methods with deep roots in the history of fine art and experiment with radical and speculative approaches unimaginable to previous generations of artists. You will have the opportunity to delve deeply into one framework of artistic practice or chart your own interdisciplinary pathway. Through a comprehensive blend of theory-based and studio-based learning experiences, you'll develop studio skills and research methods that are foundational to a professional art practice or further research studies. **Majors:** *First majors:* expanded practice; photographic art practice; studio art (painting, drawing, print, sculpture, jewellery and small objects). *Second major:* art history and theory.

Career opportunities: This internationally recognised degree will equip you for a career in the visual and creative arts, from gallery director and professional artist to curator, educator, government arts worker and creative consultant. The skills and knowledge you gain will equip you to adapt and succeed in the expanding and changing landscape of the creative arts and will also serve as the foundation for further studies in education, research or professional practice.

Combined degrees: Refer to entry for: B Fine Art/B Business.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Design/B Fine Art.

Bachelor of Fine Art/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241361 Queensland College of Art, South Bank & Nathan | 4F or 8P | 14/70 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this double degree, you will develop your passion and skills in visual art while gaining practical business skills. You'll be able to apply your creativity in a wide range of commercial areas and understand visual arts practice in terms of a contemporary art market. In the Bachelor of Fine Art, you'll focus on theory and practice to gain experience in contemporary approaches to visual arts and develop studio skills and research methods. In the Bachelor of Business, you'll gain core business skills and learn how they can be applied in a range of industries. **Majors:** *Fine art:* expanded practice; photographic art practice; studio art. *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Griffith University (continued)

Career opportunities: This innovative double degree will prepare graduates for employment in creative and visual arts activities, including arts education and administration, with the added benefits of events and events management, marketing and entrepreneurship, opening up opportunities in start-ups, as well as small to large commercial enterprises.

Bachelor of Games Design

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 241312 Griffith Film School, South Bank | 3F or 6P | 20/62 | 15/68 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Fusing the artistic and technical, this degree explores techniques to engage and excite traditional gamers and broader audiences. You can specialise in concept art, 3D computer imagery, interactive animation and interactive player experience design, while having the freedom to explore contemporary developments in the practice of interactive game design and related disciplines such as computer programming, narrative and character development, audio and more. In the third year, you will embark on a major team-based capstone project. **Majors:** Animating; art direction; computer generated imagery (CGI); game audio; player experience.

Career opportunities: You'll be well connected to Brisbane's thriving game development community and equipped to join the ranks of graduates working locally and internationally as game designers, game programmers, 3D artists and concept artists. Our graduates also find success in areas such as mining and medical simulation, and training and educational software development. They also have a strong tradition of forming their own independent game-development studios.

Bachelor of Music

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|----------------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 251722 Queensland Conservatorium | 3F | * | * | Mar 2021 | 23 Dec 2020 |

Prerequisites: Audition; interview; folio (folio is required for composition and creative music technology only); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** English, English as an Additional Language, Literature or English & Literature Extension (Units 3 and 4, C).

Additional entry information: Admission to this program requires an audition and an interview. A video recording may be required as part of your audition process. The audition for composition and creative music technology requires the submission of a folio. Visit griffith.edu.au/conservatorium-auditions for details of audition requirements including how to pay for audition fees. Applicants should also refer to the Auditions website for the most up to date advice and messaging. Auditions take place at the Queensland Conservatorium, South Bank from 28 September to 2 October 2020. Griffith University will commence making offers on 20 November, however additional auditions and offers may be considered in subsequent rounds should places still be available. Applicants must ensure they order their preferences accordingly; refer to the QTAC website. Applicants must nominate their specialisation/s on their QTAC application and pay the \$50 non-refundable audition fee to Griffith University for each specialisation (i.e. if applying for different instrument/vocal/composition/folio you will be required to attend multiple auditions and pay multiple audition fees). Audition specialisations are: baritone horn; bass clarinet; bassoon; cello; clarinet; composition; cornet; creative music technology; double bass; euphonium; flugel horn; flute; French horn; guitar; harp; harpsichord; jazz bass; jazz clarinet; jazz drums; jazz flute; jazz guitar; jazz piano; jazz saxophone; jazz trombone; jazz trumpet; jazz vibraphone; jazz violin; jazz voice; oboe; organ; pan pipe; percussion; piano/keyboard; popular music drum kit; popular music electric bass guitar; popular music guitar; popular music laptop/DJ; popular music piano/keyboard; popular music voice; recorder; saxophone; soprano cornet; tenor horn; trombone; trumpet; tuba; vibraphone; viola; viola de gamba; violin; voice. **Popular music major:** applicants are advised to select one popular music specialisation only. Any additional popular music specialisations can be included in the one audition and no additional fee or audition required. In the case of singer-songwriters, who often sing and self-accompany on an instrument, please nominate voice as your major instrument. However, if selecting any additional specialisations under other majors, a separate audition will be scheduled and additional fee required. **Composition and creative music technology majors:** applicants are required to submit a folio by the application close date as part of their audition process. Please refer to the Auditions website for full details on requirements. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC and pay their audition fee to Griffith University by **4 September 2020** to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and offer rounds should places still be available. Late applicants should refer to the Auditions website for information.

Program outline: This degree will equip you to be a highly skilled, musically adaptable musician ready to enter professional life. You will be exposed to diverse musical styles including classical, contemporary, jazz, popular, electronic, experimental and world music. You'll also learn about aural awareness training, music theory, critical listening, contemporary music-making practices and music literature. You'll gain a clear understanding of what's required by instrumental and vocal ensembles, companies, orchestras, theatre, media, the entertainment industry and community arts. **Note:** Griffith University will commence making offers on 20 November, however additional auditions and offers may be considered in subsequent rounds should places still be available.

Majors: Composition; creative music technology; education preparation (classroom); education preparation (instrumental); music studies; performance; popular music.

Career opportunities: Your career opportunities will vary depending on your chosen areas of specialisation. As a graduate of the Bachelor of Music, you'll be prepared for a career as an instrumentalist or vocalist, ready for a career in music, the creative arts and media. Through self-directed project work, you'll transition from student to professional life in the supportive Conservatorium environment. You'll have opportunities to refine your skills, focus and target your professional options and gain first-hand professional experience in your chosen area.

*Admission was based on special entry requirements only.

Bachelor of Musical Theatre

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|----------------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 251772 Queensland Conservatorium | 3F | * | * | Mar 2021 | 23 Dec 2020 |

Prerequisites: Audition; interview; applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** English, English as an Additional Language, Literature or English & Literature Extension (Units 3 and 4, C).

Additional entry information: Admission to this program requires an audition and an interview. A video recording may be required as part of your audition process. Visit griffith.edu.au/conservatorium-auditions for details of audition requirements including how to pay for the \$90 non-refundable audition fee and how to submit your Performance CV to the Queensland Conservatorium by 31 August 2020. Applicants should refer to the Auditions website for the most up to date advice and messaging. Auditions take place at the Queensland Conservatorium's Burke Street Studios at Woolloongabba, from 28 September to 3 October 2020. Interstate applicants should refer to the Conservatorium Auditions website for details on interstate auditions. Griffith University will commence making offers on 20 November, however additional auditions and offers may be considered in subsequent rounds should places still be available. Applicants must ensure they order preferences accordingly, refer to the QTAC website. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC and pay their audition fee to Griffith University by **31 August 2020** to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and offer rounds should places still be available. Late applicants should refer to the Auditions website for information.

Program outline: As a Bachelor of Musical Theatre graduate, you'll be highly skilled, musically adaptable and ready to enter professional life as a creative and flexible musical theatre performer. Studying musical theatre at the Queensland Conservatorium will provide you with intensive practical training in acting and improvisation, speech, voice, singing, dance and movement, focused on producing the 'triple threat' performer—proficient in singing, acting and movement. The productions we build into the degree emulate professional productions, providing students with authentic professional experiences. **Note:** Griffith University will commence making offers on 20 November, however additional auditions and offers may be considered in subsequent rounds should places still be available.

Career opportunities: There is an identified shortage of professionally trained musical theatre performers throughout Australia. At the same time, the number of musical theatre productions being toured throughout Australia is increasing, and there is a growing demand for high quality performers. As a graduate, you'll be skilled in singing, acting and dancing and be equipped to perform in cabaret, theatre, television, film and musical theatre, as well as in more diverse entertainment mediums such as festivals, theme parks and cruises. There is endless variety in this broad area of entertainment.

*Admission was based on special entry requirements only

Bachelor of Photography

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|--|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241282 Queensland College of Art, South Bank | 3F or 6P | 18/64 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Photography influences the ways we express ourselves, how we perceive the world, and the forming of public opinion. In this degree, you will interrogate and challenge the meaning of the image, notions of authorship and the medium itself, through speculative, innovative and informed practice. Led by internationally recognised experts you will receive grounding in historical and current lens-based practices (still and moving images), complemented by an in-depth exploration of the philosophical underpinnings of the medium and the subjects it addresses. **Majors:** Advertising photography; documentary photography; photographic art practice.

Career opportunities: The key to graduate success is applying the transferable skills and knowledge gained here to an ever-widening scope of professions, from the traditional fields of arts, film and communication industries, commercial advertising, and entrepreneurship, to positions with non-government agencies, consultancy and policy-development roles, education and research.

Combined degrees: Refer to entry for: B Photography/B Business.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Design/B Photography.

Bachelor of Photography/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 241372 Queensland College of Art, South Bank & Nathan | 4F or 8P | 16/66 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree enables you to refine your photography craft and artistic vision and develop practical business skills. As a student, you'll develop core competencies such as critical and analytical thinking, business communication and decision-making. Graduates are skilled in the practice of photography and in developing conceptual and craft skills, as well as being able to effectively and efficiently manage creative ventures from a business perspective.

Majors: *Photography:* advertising photography; documentary photography; photographic art practice. *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Career opportunities: You will be prepared to work anywhere in the world in advertising and design, fine art and public art, or news, photojournalism and documentary photography. You may find roles in advertising photography, commercial photography, art practice, arts administration, public art, curatorship, picture editing, photojournalism, documentary photography.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Design/B Photography.

| QUEENSLAND UNIVERSITY OF TECHNOLOGY | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| Bachelor of Communication (Advertising and Public Relations) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 421242 Kelvin Grove & Gardens Point | 3F | 9/82 | 9/82 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: Communication skills are the foundation of twenty-first century careers. By developing expertise in written, spoken, visual and digital formats, you can set the pace for today's global communication industries. The advertising and public relations major equips you to create and plan campaigns, manage reputations and relationships with a variety of stakeholders, undertake market and audience research, and delve into the psychological habits of the consumer. Combine your major with additional study areas, work integrated learning, internships with industry partners, international exchange and study tour opportunities. You collaborate with students from other disciplines to provide a richer learning experience that reflects real-world working environments.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Career opportunities: Account specialist, advertising, communication, events and festival coordinator, media planner/adviser, public relations.

Program outline: Communication skills are the foundation of twenty-first century careers. By developing expertise in written, spoken, visual and digital formats, you can set the pace for today's global communication industries. The entertainment industries major equips you with the critical thinking skills and professional know-how to successfully navigate the dynamic creative practices, industrial structures, and legal mechanisms in such global industries as film, television, music, games and sports. You learn how to research, implement, and critically assess a range of strategic activities, from identifying talent, developing pitches, and negotiating contracts to engaging culturally diverse audiences and evaluating the impact of new technologies. Combine your major with additional study areas, work integrated learning, internships with industry partners, international exchange and study tour opportunities. You collaborate with students from other disciplines to provide a richer learning experience that reflects real-world working environments.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

Career opportunities: Booking agent, entertainment producer, promoter, sales and distribution agent, talent manager.

Bachelor of Creative Industries

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 421192 Kelvin Grove | 3F | 15/68 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: This program sets you up with skills and experiences to create your own opportunities and career outcomes in the creative sector and beyond. Learn entrepreneurial and

digital skills, take on real industry challenges through work integrated learning opportunities and establish links to creative start-ups. Choose a combination of study areas to suit your individual creative interests and career aspirations. You may select a second major or minors from creative industries or across QUT, to develop depth of knowledge in up to three disciplines.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Creative and professional writing; drama and performance; entertainment; fashion communication; interactive and visual design; media and communication; music and sound; screen content production.

Career opportunities: Depending on major: events marketing and promotion, festivals coordination, media analysis and advising, music or theatre production, fashion merchandising, publishing, digital communication, entertainment programming, social media management. You are equipped to work in creative roles in diverse organisations and industries as well as to launch your own creative business, and well placed to move between sectors and apply your skills and knowledge in diverse fields of employment.

Double degrees: Refer to entries for: B Business/B Creative Industries; B Creative Industries/B Human Services; B Creative Industries/B Information Technology; B Creative Industries/B Laws (Hons).

Bachelor of Creative Industries/Bachelor of Human Services

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 429062 Kelvin Grove | 4F | 13/72 | 13/72 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: Creativity is used in many areas of community and cultural development, youth arts and disability arts. The human services component provides the essential knowledge, values, ethics, and skills for professional practice in human services and includes supervised professional placements. You can focus on youth services or child and family services. Creative industries core units develop networking, project management and creative thinking skills, and you select a creative industries major to suit your career aspirations.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Creative Industries. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Cultural development roles in community and government organisations, program development with marginalised people, media and cultural policy, youth, aged, child and family, corrective and disability services.

Bachelor of Creative Industries/Bachelor of Information Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|-------------------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 409872 Kelvin Grove & Gardens Point | 4F | 16/66 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: You develop a suite of complementary technological, digital media and creative skills. You will learn to merge the creative and imaginative with the technical to develop sophisticated and innovative digital products. You can diversify your skill set with a range of areas of interest, including interactive and visual design, film and television, animation, and creative and professional writing. You specialise your technical skills by choosing a major in either computer science or information systems.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Creative Industries and Bachelor of Information Technology.

Career opportunities: Simulation designer or developer, games producer or designer, animator, special effects developer, sound designer, mobile entertainment and communications developer.

Bachelor of Creative Industries/Bachelor of Laws (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|-------------------------------------|--------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |

They learn to speak how the professionals do as they are guided through languages

such as C++, JavaScript and C#. Expert teachers provide face-to-face guidance throughout the entire course to ensure students stay on track while working to deliver real-world projects in a state-of-the-art, studio-based environment. **Note:** Duration is one and a quarter years full-time. Part-time study available for eligible applicants (excluding international student visa holders). SAE Australia is offering flexible, blended learning in its teaching so that SAE students can access their studies from any location. **Specialisations:** Games design (advanced game design, foundations of 3D graphics, game audio, games as media, level development and psychology of play); games programming (applied mathematics, game engine architecture, games technology, programming and tools development).

Career opportunities: Level, user interface, lighting, systems or content designer, software, tools, game play, back end, network, security engineer.

☆ All qualified applicants were offered a place.

| Diploma of 3D Animation Production | | | | | |
|------------------------------------|--|--|----------|----------------------------------|---|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 062002 Brisbane | 2 ^{3/4} F or 1 ^{1/3} p | ☆ | ☆ | Sep 2020 Feb 2021 May 2021 | 27 Aug 2020 14 Jan 2021 29 Apr 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years; interview. **Additional entry information:** SAE will contact applicants to arrange an interview. For information about the interview, contact SAE Brisbane on 1800 723 338.

Course outline: Students are exposed to face-to-face time with expert lecturers and experience with the latest tools and software. They take a practical first look at modelling, lighting, shading, animation and rendering to gain a holistic, foundational understanding of the 3D production process. Engaging in collaborative studio-based learning to produce a short animation in response to a client brief, they are guided through the production methods needed to pitch effective creative concepts to potential producers. To complement their technical skills, graduates have employability skills, introductory project management skills and scholarly techniques for higher education. On completion, students are eligible for up to 80 credit points towards the Bachelor of Animation (3D Modelling), Bachelor of Animation (Character Animation) or Bachelor of Animation (Visual Effects). **Note:** Duration is seven months full-time. Part-time study available for eligible applicants (excluding international student visa holders). SAE Australia is offering flexible, blended learning in its teaching so that SAE students can access their studies from any location.

Career opportunities: Junior 3D modeller, junior 3D animator, junior 3D visualisation specialist, junior character designer, freelance animator.

☆ All qualified applicants were offered a place.

Prerequisites: Completion of Year 12 or attained age 17 years; interview. **Additional entry information:** SAE will contact applicants to arrange an interview. For information about the interview, contact SAE Brisbane on 1800 723 338. Interview.

Course outline: Students learn the key fundamentals in audio production, through face-to-face time with expert lecturers and many hours on the latest tools and software. Students amplify their talents, refine their skills and are industry ready after being trained in music production and sound design techniques, while also receiving great insight into the music industry. Students work collaboratively with local music groups to produce a recording of a rehearsal or live performance and develop the skills to prepare a production brief. This allows them to practice applying music production skills to meet a client's brief. To complement the technical skills, graduates have employability skills, introductory project management skills and scholarly techniques for higher education. On completion, students are eligible for up to 80 credit points towards either the Bachelor of Audio (Studio Production) or Bachelor of Audio (Post Production). **Note:** Duration is seven months full-time. Part-time study available for eligible applicants (excluding international student visa holders). SAE Australia is offering flexible, blended learning in its teaching so that SAE students can access their studies from any location.

Career opportunities: Assistant sound engineer, staging crew, studio engineer, live sound operator/assistant, radio/broadcast personnel, voiceover recordist/engineer, junior sound editor, studio administrator, sound designer.

☆ All qualified applicants were offered a place.

| Diploma of Augmented and Virtual Reality | | | | | |
|--|--|--|----------|----------------------------------|---|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 061182 Brisbane | 2 ^{3/4} F or 1 ^{1/3} p | ☆ | ☆ | Sep 2020 Feb 2021 May 2021 | 27 Aug 2020 14 Jan 2021 29 Apr 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years; interview. **Additional entry information:** SAE will contact applicants to arrange an interview. For information about the interview, contact SAE Brisbane on 1800 723 338.

Course outline: For those wanting to be part of the exciting and expanding industry of virtual reality (VR) and augmented reality (AR), SAE can help them gain the core technical and design skills to work with these technologies. In a matter of months, students learn the key fundamentals of VR and AR. Learning in a world-class environment, they'll create on the latest software, with face-to-face guidance from expert lecturers who will give them a deep knowledge in augmented reality,

SAE Creative Media Institute (continued)

virtual reality, mixed reality, haptic technologies, human-computer interaction and prototyping. Students learn the technical workflows associated with common augmented and virtual reality platforms, including scripting and asset pipeline, apply design and project management processes and develop scholarly skills. On completion, graduates are eligible for up to 80 credit points towards the Bachelor of Games Development (Game Design). **Note:** Duration is seven months full-time. Part-time study available for eligible applicants (excluding international student visa holders). SAE Australia is offering flexible, blended learning in its teaching so that SAE students can access their studies from any location.

Career opportunities: Augmented reality application designer, virtual reality application designer, interaction designer, app developer.

design, and drawing. Internships with arts industries can be undertaken or students can study for a session at universities overseas.

Career opportunities: Practising artist, fine art researcher and other design-related fields.

* Admission was based on special entry requirements only.

Bachelor of Contemporary Music

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 053011 Lismore | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Assumed knowledge: Competency on a musical instrument; basic music theory literacy.

Additional entry information: Applicants wishing to study the performance audition stream or the songwriting/composition audition stream must complete the audition/interview process. For information, visit scu.edu.au/music. **Closing date:** Applicants wishing to study the performance or songwriting/composition audition streams who have not been contacted by the end of January should contact the University on 1800 626 481 to arrange a date for their interview.

Course outline: This degree prepares graduates for a portfolio career in music, the multifaceted career pathway that is now most common for contemporary musicians. Students learn in a professional music industry environment, using state-of-the-art facilities and working with lecturers who are all practising musicians with strong industry links. Students can tailor the degree to focus on production, performance, songwriting or other professional areas of the music industry. They participate in collaborative practical music-making activities throughout the degree and the APRA AMCOS songwriters' workshops featuring visiting artists. Situated in a region with vibrant creative industries, students benefit from numerous high profile music events such as Splendour in the Grass, Byron Bay Bluesfest and the Falls Festival. This course can also be studied at Coomera, by direct application to SCU. Visit scu.edu.au/study-at-scu/why-scu/locations/coomera/.

Specialisations: Music education; new media arts; performance; screen; songwriting/composition; sound production.

Career opportunities: Performer, songwriter, producer, sound engineer, music educator, session musician, musical director, arranger, music event promoter, band and venue manager.

|-------------------|-----|---|---|----------|-------------|
| 555005 South Bank | 3CL | ♦ | ♦ | Feb 2021 | 14 Jan 2021 |
|-------------------|-----|---|---|----------|-------------|

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: **Acting and performance major:** The course offers lively, detailed and focused training in acting, voice and body skills; regular performance opportunities to play to live audiences; intense development of the acting student's creative voice as an independent performance maker. Plays, readings, online resources and academic materials are designed to inspire, challenge and motivate the training actor. Students are expected to develop as actors and performers who think for themselves, respect their own ideas and ideals, and use theatre and film as a means to share those ideas and ideals. Students are encouraged to understand and explore their place of performance in a contemporary world. **Drama and performance major:** Graduates will be able to work across a variety of media and collaborate with performance makers, educational institutions and community organisations. As a graduate, you will learn to operate in varied organisational contexts, engaging in both non-profit and commercial activities. A range of elective units is on offer to expand the student's skills base and knowledge including study in music, visual arts, gaming, fashion and digital design. **Note:** These courses are delivered by TAFE Queensland in partnership with the University of Canberra. They are Commonwealth supported place courses. For more information, visit tafeqlld.edu.au/study-with-us/what-it-costs/hecs-help.html. **Majors:** Acting and performance; drama and performance.

Career opportunities: Depending on major: Actor/performer, performance making, arts worker, arts producing, drama teaching.

|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 536029 Mt Gravatt | 3CL | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age; portfolio.

Additional entry information: Portfolios are separate to the QTAC application. Contact TAFE Queensland on 1300 308 233 for more details regarding the portfolio process. Applicants who have completed Year 12 and have successfully completed LMT31407/MST30816/MST30819 Certificate III in Applied Fashion Design and Technology through TAFE Queensland are not required to submit a portfolio. **Closing date:** QTAC applications for this course close: 30 November 2020 for semester 1, 2021 and 17 May 2021 for semester 2, 2021 entry. To be considered after this date, interested applicants should contact TAFE Queensland, Mt Gravatt on 1300 308 233.

Course outline: Delivered in partnership with the University of Canberra, the Bachelor of Creative Industries (Applied Fashion) offers students a unique opportunity to study fashion. A major strength of this course is its position within a specialist design, visual arts, and multimedia institution with

TAFE Queensland (continued)

the potential for students to work alongside other cultural and creative disciplines. The course prepares students for careers in the highly competitive fashion industry by ensuring that graduates have the vocabulary and industry knowledge they need to succeed. Students in this course are expected to be autonomous with a strong work ethic, focused and highly motivated. The course is located in a dynamic and creative studio environment. Individual development is nurtured through experimentation, exploration and innovation. The course aims to initially develop students' key skillsets covering research, design, manufacturing and pattern cutting, which underpin and inform a personal design philosophy and the chosen area of specialism. As students learn to excel in design, they are encouraged to venture outside the immediate discipline of fashion design and visual media to assess the needs of the ever-changing global economy to provide design solutions for the future. The course engages with many market levels, from couture to high street, through a range of projects, many of which are sponsored by specific labels or companies. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information, visit tafeqld.edu.au/study-with-us/what-it-costs/hecs-help.html.

Career opportunities: Fashion coordinator, production manager, fashion designer.

Combined diplomas/degrees: This program can be combined with the following course at TAFE Queensland, Mt Gravatt: D Applied Fashion Design and Merchandising. Refer to separate course information under TAFE Queensland.

❖ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age; portfolio.

Additional entry information: Applicants will need to provide evidence of their technical skills and ability. Portfolios are to be submitted directly to the relevant TAFE Queensland campus; contact the relevant campus for portfolio requirements. Applicants are selected on the basis of their portfolio only. **Closing date:** QTAC applications for this program close: 30 November 2020 for semester 1, 2021 entry; and 17 May 2021 for semester 2, 2021 entry. To be considered after these dates, interested applicants should contact the relevant TAFE Queensland campus directly.

Course outline: This course is ideal for people seeking to advance or develop skills in graphic design, digital arts and visual communications. Students gain a diverse range of skills in technical and theoretical design principles and their application in everyday design. Students expand on their creative talents through practical exercises in web design, photography, typography, branding, packaging, digital and online design, illustration and portfolio design, all while working in a collaborative, studio environment. Students have access to commercial grade studios and industry representatives. In the degree course students will explore how, as humans, we communicate and organise information in visually accessible ways, and develop a well-rounded understanding of the theory and practice of communication design. The course investigates both a traditional print-based design perspective and one which covers web-based applications and new technologies. The degree has a strong focus on visual communication in the global marketplace and how to design for both business and consumer audiences across different cultural contexts. You'll graduate with a thorough knowledge of typography, logotype design, layout, publication design, environmental graphics, packaging and digital design. **Note:** This combined qualification leads to the awards of the Diploma of Graphic Design and Bachelor of Digital Design (Visual Communication Design). The degree is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in the diploma course who are not eligible for a subsidised enrolment will pay full

fee. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. The degree is a Commonwealth supported place.

Career opportunities: Typesetter, creative entrepreneur, illustrator, digital artist, web page designer, multimedia designer, graphic designer.

| Diploma of Music Industry/Bachelor of Creative Industries (Contemporary Music Practice) | | | | | |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Additional entry information: Entry to the performance specialisation requires a successful audition/interview. Audio demo/portfolio submission is separate to the QTAC application. TAFE Queensland will send out official correspondence inviting audio demo/portfolio submission once the QTAC application has been submitted. Applicants will be contacted if they are required to attend an audition. Contact the TAFE Queensland campus for audition/interview requirements.

Closing date: QTAC applications for the performance specialisation close: 30 November 2020 for entry to semester 1, 2021. To be considered after this date, interested applicants should contact the relevant TAFE Queensland campus directly.

Course outline: This dual award offering covers a broad area of music knowledge. The performance stream in the diploma focuses on composition techniques, developing and maintaining stage craft, performing as part of a group, preparing a program for performance and providing freelance services. In the sound production stream, students will be trained to develop sound designs, create a final sound balance, set up and operate lighting cues and effects, mix recorded music, edit sounds and manage audio for outdoor events. The Bachelor of Creative Industries (Contemporary Music Practice) aims to give students a thorough grounding in 21st century contemporary music practice. It covers music composition, performance, and theory, with embedded analytical studies of historical, cultural and technological applications in commercial contexts. It focuses on the nurturing and developing of a holistic, creative and entrepreneurial approach to music making, in order to prepare the student with the best chance of success in a highly competitive and global marketplace. **Note:** For 526042 and 526126 the diploma component is undertaken at Coomera, and the bachelor component is undertaken at South Bank. The degree course is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. The degree is a Commonwealth supported place. **Specialisations:** Diploma specialisations: performance; sound production. Contact TAFE Queensland for more information.

Career opportunities: Music professional, musician (instrumental), composer, sound engineer, music producer, sound designer, DJ.

* Admission was based on special entry requirements only.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: The diploma course is designed for cross-disciplinary artists, performers, and storytellers looking to explore and experiment with cinematic storytelling techniques. The course has also been designed to be creatively and personally empowering with self-devised projects and outcomes tailored to meet individual student needs. Led by industry experts, this immersive and hands-on course will give students valuable screen production skills in camera operation, lighting, sound recording and editing. Students also have the opportunity to design and produce their own short screen productions. The degree offers a structured course of learning and training in the craft of acting and performance. The course is presented in an innovative partnership between TAFE Queensland and the University of Canberra, preparing graduates with the skills, knowledge, and outlook to build a sustainable career in the performing arts industry. The course offers: lively, detailed and focused training in acting, voice and body skills; regular performance opportunities to play to live audiences; intense development of the acting student's creative voice as an independent performance maker. Plays, readings, online resources and academic materials are designed to inspire, challenge and motivate the training actor. Students are expected to develop as actors and performers who think for themselves, respect their own ideas and ideals, and use theatre and film as a means to share those ideas and ideals. **Note: The diploma component is undertaken at Mount Gravatt, and the bachelor component is undertaken at South Bank.** Applicants offered a place in the diploma who are not eligible for a subsidised enrolment will pay full fee. Fee subsidies and VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. The degree is delivered by

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: The industry-focused diploma provides students with the specialised knowledge to operate individually or collaboratively in the film, television and interactive media industry. This course provides students advanced skills to work in this creatively challenging sector. Students develop a greater understanding of screen and television production and, depending on your specialisation, gain skills in editing, sound recording, story boarding, story line development, compositing, and animation. The Bachelor of Digital Design (Digital Media) is a specialist course that focuses on the essential practical knowledge needed to create complex interactive media. Students will gain up-to-date skills using industry-standard technologies in virtual and augmented reality, digital photography, digital audio, interactive fiction, video and animation to create digital media stories and experiences for the 21st century. Students will graduate with the expertise needed to find work in this flourishing creative industry and, more importantly, the knowledge to adapt to whatever the future holds. **Note:** For 536091, the diploma is offered at Mt Gravatt and the degree is offered at South Bank. This combined qualification leads to the awards of Diploma of Screen and Media and Bachelor of Digital Design (Digital Media). The degree is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in the diploma who are not eligible for a subsidised enrolment will pay full fee. Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This dual qualification gives students the advanced skills necessary to work in this creatively challenging sector. The industry-focused Diploma of Screen and Media helps students develop a greater understanding of screen and television production, editing, sound recording, story boarding, storyline development, digital simulation and animation, and the testing of interactive media and game design. In the Bachelor of Digital Design (Game Design), students will gain experience in the design and creation of games and interactive digital media. This will include the theoretical and practical skills and knowledge required to work in either a technical or creative role. Students will develop an understanding of the game design and production process, from concept development and idea generation through to the production methodologies that are applied in today's leading game studios. Students will gain a thorough understanding of game design developing skills in areas such as game design and game art. This will include key concepts such as game mechanics, artificial intelligence, 3D graphics, animation and real-time technology. These areas of expertise will be enhanced by exposure to essential knowledge required to participate and engage with the game and interactive design industry. This will include areas such as teamwork, the problem-solving strategies and contemporary production methodologies. **Note: For 526231, the diploma component is undertaken at Coomera, and the bachelor component is undertaken at South Bank.** This combined qualification leads to the awards of Diploma of Screen and Media and Bachelor of Digital Design (Game Design). The degree is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. The degree is a Commonwealth supported place. **Specialisations:** *Diploma specialisations:* animation and visual effects; interactive media. Contact TAFE Queensland for more information.

Career opportunities: Game designer, software engineer, simulation developer/designer, 3D modeller/environment artist, studio production manager, interactive media developer, games/interactive media designer, animator/character animator, multimedia designer.

The TAFE Queensland campus will send out official correspondence inviting portfolio submission once the QTAC application has been submitted. Applicants are selected on the basis of their portfolio only. Contact TAFE Queensland on 1300 308 233 for more details regarding the portfolio process. **Closing date:** QTAC applications for this program close: 30 November 2020 for semester 1, 2021 entry. To be considered after this date, interested applicants should contact the relevant TAFE Queensland on 1300 308 233.

Course outline: This diploma enhances and develops further learning within the broader creative arts field. The visual arts industry comprises a broad range of sectors with diverse employment outcomes. Business and entrepreneurial skills play an increasingly prominent role for individual artists and practitioners. The diploma course enables students to specialise in core areas of visual culture and professional practice with electives in painting, printmaking, drawing, sculpture, digital media technology, photomedia, ceramics, millinery and fashion accessories. The degree provides students with an open and supportive studio environment to define and shape your career as a visual artist. It begins with hands-on traditional skills and techniques and grounds your understanding of contemporary culture historically and theoretically. It explores contemporary arts interface with digital technologies and expands into cross media, multi-disciplinary visual arts practice. The course has an industry engagement/employment focus and explores different genres of arts practice, art communities, curating, design/commercial opportunities and contemporary visual identities. This degree course will allow you to build your skills and understanding of contemporary art and culture and to develop and maintain a strong practice in the Visual Arts sector. Graduates become practising artists who develop their careers in a wide range of art, design and culturally related fields including gallery exhibitions. **Note:** This combined qualification leads to the awards of the Diploma of Visual Arts and Bachelor of Creative Industries (Visual Arts). The degree is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in the diploma who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. The degree is a Commonwealth supported place.

Career opportunities: Arts professional, visual arts and crafts professional, commercial photographer, printmaker, sculptor, painter (visual arts), milliner, costume jewellery designer, fashion accessories designer, potter or ceramic artist, graphic designer.

* Admission was based on special entry requirements only.

TAFE QUEENSLAND

Diploma of Applied Fashion Design and Merchandising

The diploma program at Coomera and South Bank can be combined with B Creative Industries (Contemporary Music Practice) at South Bank. Refer to the separate course entry under TAFE Queensland for specific specialisations and locations.

* Admission was based on special entry requirements only.

☆ All qualified applicants were offered a place.

| Diploma of Photography and Photo Imaging | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 517096 Nambour | 1CL | * | * | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 555096 South Bank | 1CL | * | * | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age; portfolio.

Additional entry information: Portfolios will need to be submitted directly to the relevant TAFE Queensland campus. Contact TAFE Queensland on 1300 308 233 for portfolio requirements. Applicants are selected on the basis of their portfolio only. **Closing date:** QTAC applications for this program close: 30 November 2020 for semester 1, 2021 entry; and 17 May 2021 for semester 2, 2021 entry. To be considered after these dates, interested applicants should contact the relevant TAFE Queensland campus directly.

Course outline: Learners develop transferable skills to work in portrait, wedding, commercial, documentary, editorial, landscape or fashion photography, or pursue a career as a visual artist. This course gives students the specialised training to communicate through visual images, produce images for publication and display, build and launch a small business website, and financially plan and market a small business. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Photographer's assistant, photographer, photo re-toucher/enhancer, photographic designer.

Combined diplomas/degrees: The Diploma of Photography and Photo Imaging can be combined with other programs as listed below to attain the awards of Diploma of Photography and Photo Imaging from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Photography and Photo Imaging for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

D Photography and Photo Imaging/B Photography:

517096 Nambour/Griffith University (1CL & 2F)

555096 South Bank/Griffith University (1CL & 2F)

* Admission was based on special entry requirements only.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This industry-focused course provides students with the specialised knowledge to operate individually or collaboratively in the film, television and interactive media industry. This course provides students advanced skills to work in the creatively challenging sector. Students develop a greater understanding of screen and television production and, depending on their specialisation, gain skills in editing, sound recording, story boarding, story line development, compositing, and animation. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. Fee subsidies and VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Screen producer, interactive media designer.

☆ All qualified applicants were offered a place.

| Diploma of Visual Arts | | | | | |

The program at South Bank can be combined with B Creative Industries (Visual Arts) at South Bank. Refer to separate course entry under TAFE Queensland.

* Admission was based on special entry requirements only.

THE UNIVERSITY OF QUEENSLAND

AUSTRALIA

THE UNIVERSITY OF QUEENSLAND

QUEENSLAND

Bachelor of Music (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 723002 St Lucia | 4F | ◇ | ◇ | Feb 2021 | 23 Dec 2020 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); audition. **Additional entry information:** Applicants must nominate their preferred audition instruments or intention to study composition on their QTAC application (maximum of three). Applicants may audition with one or two of the following instruments: bassoon; cello; clarinet; classical guitar; double bass; flute; harp; horn; oboe; percussion; piano; trombone; trumpet; tuba; viola; violin; voice; other. Applicants must also submit a separate Application for Audition form directly to the School of Music. Audition forms are available at music.uq.edu.au/auditions. Applicants unable to attend in person due to exceptional circumstance may email the School of Music to request submission of a recording. Applicants will be notified of approval by 16 October 2020. Academic performance is also considered; an ATAR of 78.10–99.95 is highly desirable. **Closing date:** All applications for audition must be received by the School of Music by Thursday, 13 August 2020. QTAC applications for this program close Wednesday, 30 September 2020.

Program outline: The Bachelor of Music (Honours) is for students wishing to pursue a professional career in music, and integrates the development of practical skills with theoretical and historical musical knowledge. You undertake practical study in your chosen instrument or voice for the first three years of the program, as well as courses in musicology, musicianship, and electives in other music study areas, followed by a research project in the final year of the program. You have opportunities to take part in master classes and student performances, including the Vice-Chancellor's Concert Series. There are also opportunities to participate in the Queensland Symphony Orchestra Internship program and the UQ Global Experience program. An audition is required for enrolment in this program: music.uq.edu.au/auditions.

Career opportunities: On graduation, you are well-equipped to pursue a range of professional music careers including orchestral and vocal performer, music educator, music journalist, music composer, orchestral or choral conductor, recording/sound engineer, arts administrator, and diversional therapist (further study required). **Special note:** If you wish to specialise in music education, enrol in the five-year dual program of Bachelor of Music (Honours)/Bachelor of Education (Secondary).

◇ Admission was based on special entry requirements in addition to academic achievement.

| TORRENS UNIVERSITY AUSTRALIA | | | | | |
|------------------------------------|------------|--|------------|----------------------------------|--------------------------------|
| Bachelor of Branded Fashion Design | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 041251 Fortitude Valley | 3F or 4-6P | New Course | New Course | Feb 2021 Jun 2021 Sep 2021 | 14 Jan 2021 3 Jun 2021 + |
| 042251 Online | 3X or 4-6X | New Course | New Course | Feb 2021 Jun 2021 Sep 2021 | 14 Jan 2021 3 Jun 2021 + |

Prerequisites: ATAR 60. Other admissions pathways are available to applicants. International students also require an IELTS 6.0 with no skills band less than 5.5.

Course outline: The fashion industry is looking for a new breed of designer. Individuals who can combine fresh and inspiring designs, with an understanding of how to produce for commercial success, are the ones who will thrive. The branded fashion designer's role is to find the most creative, strategic, sustainable and cost-effective solution. Developing a commercial awareness of how to create, build and sustain a brand and align it with a target market is a critical skill. The Bachelor of Branded Fashion Design focuses on the design, production and branding of garments. You learn how to create and brand a range of design solutions, and use the latest software to communicate your product design ideas. Discover how to produce clothing designs according to project budgets and timelines, and find out how to manage the integrity and positioning of a brand. Investigate the theory behind design and marketing, evaluate communication and branded fashion strategies, explore the role of social media in marketing and scrutinise current, present and future fashion trends. You'll enhance your forecasting, project-management and drawing skills, and discover the difference between fashion and clothing, and brand and designer labels.

Career opportunities: Fashion design, colour and material theory, design development and costing, fashion buying and merchandise planning, fashion illustration and technical drawing, fashion production, print design and theory.

+ Refer to Course Search at qtac.edu.au for offer round information.

Prerequisites: ATAR 60. Other admissions pathways are available to applicants. International students also require an IELTS 6.0 with no skills band less than 5.5.

Course outline: The Bachelor of Communication Design is a comprehensive design qualification that was developed and is now taught by leaders in the visual communication design world; from brand and design consultants, to graphic designers and creative directors. In this degree, you will focus on the creation of visual messages, ideas and information for a range of audiences. You will develop broad visual communication design knowledge informed by theoretical and technical knowledge and to apply those skills to real world graphic design outcomes. Throughout the course, you will explore essential areas of communication design including typography, image generation, branding, information design, packaging and branded environments. An emphasis on creativity, design thinking, collaborative practice and problem solving will add depth to your practice. In your final year, the Bachelor of Communication Design will provide you with the opportunity to complete an internship with one of our industry partners giving you fantastic studio experience, fresh contacts, and material for your CV and portfolio.

Career opportunities: Graphic designer, art director, photographer, illustrator, advertising, print media, magazine design and publishing, copywriter, typographer, finished artist, packaging designer, book designer, information architect, interactive graphic designer.

Prerequisites: ATAR 60. Other admissions pathways are available to applicants. International students also require an IELTS 6.0 with no skills band less than 5.5.

Course outline: A degree in interaction design gives you the essential research, design and development knowledge and skills required to make your mark in this exciting interdisciplinary field where human senses and emotions meet the digital interface. Placed at the intersection of design, media and technology, it is one of the fastest growing (and most career-rich) sectors of the global economy. The degree covers the theory and practice of user experience design, information architecture, graphic and interface design, human-computer interaction, nonlinear storytelling, scripting and development, user behaviour and psychology, research, innovation and strategic thinking. Graduates are able to design and craft compelling interactive experiences for web, mobile, social and online, across sectors as diverse as advertising, entertainment, education and beyond. In your final year, you can apply for an internship in a professional interaction design studio, and get the chance to work on live project work for a real world client. You will also have the chance to complement your studies by completing elective subjects in motion design, 3D

Torrens University Australia (continued)

design and animation or communication design. You can pick and mix elective subjects to further tailor your degree to your goals.

Career opportunities: User experience designer, interaction designer, front-end developer, graphic designer (digital agency), information architect, mobile interface/application designer, online/digital producer, web designer.

Course outline: A degree in interaction design gives you the essential research, design and development knowledge and skills required to make your mark in this exciting interdisciplinary field where human senses and emotions meet the digital interface. Placed at the intersection of design, media and technology, it is one of the fastest growing (and most career-rich) sectors of the global economy. The degree covers the theory and practice of user experience design, information architecture, graphic and interface design, human-computer interaction, nonlinear storytelling, scripting and development, user behaviour and psychology, research, innovation and strategic thinking. Graduates are able to design and craft compelling interactive experiences for web, mobile, social and online, across sectors as diverse as advertising, entertainment, education and beyond. In your final year, you can apply for an internship in a professional interaction design studio, and get the chance to work on live project work for a real world client. You will also have the chance to complement your studies by completing elective subjects in motion design, 3D design and animation or communication design. You can pick and mix elective subjects to further tailor your degree to your goals.

Career opportunities: User experience designer, interaction designer, front-end developer, graphic designer (digital agency), information architect, mobile interface/application designer, online/digital producer, web designer.

Prerequisites: ATAR 58. Other admissions pathways are available to applicants.

Course outline: This course will teach you how to combine fresh and inspiring designs with a commercial awareness of how to create, build and sustain a brand and align it with a target market. It will challenge both your creative and business mind as you focus on the design, production and branding of garments. You'll learn how to create a brand and experiment with a range of design solutions (think creative, strategic, sustainable and cost-effective) using the latest software. You'll graduate with a professional-calibre portfolio that opens doors.

Career opportunities: Product developer, designer, branded fashion entrepreneur, merchandise planner, buyer, public relations, digital print designer.

Prerequisites: ATAR 50. Other admissions pathways are available to applicants.

Course outline: The fashion industry is looking for a new breed of designer. Individuals who can combine fresh and inspiring designs, with an understanding of how to produce for commercial success, are the ones who will thrive. The branded fashion designer's role is to find the most creative, strategic, sustainable and cost-effective solution. Developing a commercial awareness of how to create, build and sustain a brand and align it with a target market is a critical skill. Learn the basics for what it takes to create, build and sustain a brand and align it with a target market.

Career opportunities: Fashion agency junior, production assistant, content administrator, online fashion site assistant, design/studio intern.

| 042361 Online | 1X or 2X | New Course | New Course | Feb 2021 Jun 2021 Sep 2021 | 14 Jan 2021 3 Jun 2021 + |

Prerequisites: Year 12 or equivalent. Other admissions pathways are available to applicants. International students also require an IELTS 5.5 with no skills band less than 5.0.

Course outline: This course will give you a foundational introduction to the design profession. You don't need to commit to a full degree, and you don't need a design background to enrol. You'll sample four specialist design areas – branded fashion design, communication design, digital media design, interior design – and see where it leads. If you decide to continue on to a bachelor degree, you'll get credit towards your degree.

Career opportunities: Designer, finished artist, graphic designer, interactive designer, web designer, 2D/3D animator, interior designer.

Prerequisites: Interview. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Want to be a part of one of the fastest growing industries in Australia? The social assistance industries are due to expand at double the pace of all other industries over the next five years. The skills areas predicted to grow most are care providers and creatives. Be prepared by enrolling in the Bachelor of Creative Arts and Community Wellbeing at USQ. Specialise in either music, theatre, or visual art and learn how to use your creativity to activate positive change and generate wellbeing in diverse communities. As well as work in the creative industries use your skills in other areas like youth work, refugee settlement, aged care, hospitals/allied health, correctional services, and local government. **Note:** It is a requirement that Queensland-based students hold a current positive notice indicating that they are deemed suitable for working with children and young people whilst studying the Bachelor of Creative Arts and Community Wellbeing. Further information about the Blue Card or Exemption Card suitability process is available from the Blue Card Services via bluecard.qld.gov.au. **Majors:** Music; theatre; visual art.

Career opportunities: Work in the creative industries and have the added employability to apply your talents and abilities in other areas like community services (youth, indigenous, aged, refugee, homeless, unemployed, disability), hospitals/allied health, correctional services, local government, and charity organisations.

| Bachelor of Film and Screen Production | | | | | |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This program provides students with advanced skills in writing narrative and poetry. It is taught by industry professionals and features hands-on teaching by published authors. Aimed at those seeking careers in publishing, editing and affiliated industries, the program explores a variety of styles and genres in creative writing, offering options in writing poetry, the short story, the novel, young adult fiction and writing for the illustrated book.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Author, editor, publisher, educator, professional writer, journalist, freelance writer, blogger, web content writer.

Combined degrees: Refer to entry for: B Laws/B Creative Industries (Creative Writing and Publishing).

| Bachelor of Creative Industries (Screen Media) | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 011371 Sunshine Coast | 3F or 6P | 20/62 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: There are more opportunities than ever in the screen media industries. Find your niche and explore the changing nature of film and TV. You work with industry professionals and learn the processes of creating screen content, from screenwriting to post-production. You gain in-depth knowledge of the media and communication sectors, screen aesthetics, and the cultural and historical impacts of screen production. This program sets you up for a range of screen media careers, including screen editor, screenwriter, producer, film and television critic, and media policy adviser. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Screen editor, filmmaker, screenwriter, cinematographer, producer, transmedia creator, film and television critic, policy adviser, program researcher.

| Bachelor of Creative Industries (Theatre and Performance) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 011471 Sunshine Coast | 3F or 6P | 19/63 | 18/64 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Begin your career in the theatre and performance industry. In this program, you study acting, directing, devising, theatre history, leadership, script-writing, voice and design. You work with a professional director to create a public performance work and undertake an internship in a theatre organisation. Through these experiences, you develop practical skills and valuable industry networks. This program is designed and facilitated by practising theatre and performance-makers. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Director, actor, playwright, producer, educator, performer, community arts worker.

| Bachelor of Design | | | | | |
|------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 011191 Sunshine Coast | 3F or 6P | 17/65 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014191 Moreton Bay | 3F or 6P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Designers are critical to the way we communicate, interact, learn, play, and solve problems. Design combines established and innovative technical skills with imagination and creativity. At USC, you are encouraged to realise your creative passions, skills, imagination, and style through design experimentation in an open and supportive studio-based environment. With a solid foundation of academic and industry expertise, and a focus on design thinking, you learn to create original design solutions that are aesthetically pleasing, functional, sustainable, and engaging. **Note:** *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021.

Majors: Animation and visualisation design; interactive and UX design; serious games design; visual communication. Not all majors available at Moreton Bay.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Animator, visual communication designer, interactive designer, video designer, fashion designer, photographer, web designer, game designer/developer.

Combined degrees: Refer to entries for: B Business/B Design.

| Bachelor of Design (Interactive and UX Design) | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 011291 Sunshine Coast | 3F or 6P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Putting people at the centre of interactive design and user experience (UX) techniques is the recipe to a successful and exciting career in digital media. In this dynamic and hands-on program, you learn how to create exciting visual representations of online applications and services, develop responsive web designs, and design custom mobile applications and graphical user interfaces for augmented and virtual reality. You work with technology, including USC's powerful visualisation tools that can immerse audiences in a limitless range of audio-visual experiences. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Interactive designer, user experience designer, video designer, web designer, web app developer, multimedia designer, mixed reality designer.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Design (Visual Communication) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 011391 Sunshine Coast | 3F or 6P | 16/66 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Develop design skills to specialise in visual communication in this integrated cross-media degree. Develop a deep understanding of visual communication, computer literacy and design practice. Design theory, hands-on experience with industry software and an internship in your final year prepare you for an exciting career in design. Choose elective subjects to focus on interactive and user experience design, game development, creative advertising, public relations, journalism, creative writing, marketing or other areas. In final year, you exhibit your work in the USC Art Gallery. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Art direction, graphic design, packaging, branding, advertising, interactive multimedia, animation, information and visualisation, publishing, photography, illustration.

| Diploma in Creative Industries | | | | | |

EDUCATION

| AUSTRALIAN CATHOLIC UNIVERSITY | | | | | |
|---|------------|--|----------|----------------------|---------------------------|
| Bachelor of Early Childhood Education (Birth to Five Years) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 113531 Brisbane | 4F or 8P | 15/69 | 13/74 | Feb 2021 | 14 Jan 2021 |
| 113535 Distance ed | 4FL or 8FL | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Assumed knowledge:** General Mathematics (Units 3 & 4, C).

Course outline: This course is for students interested in teaching children from birth to five years, who see themselves as future educational leaders in the field, with units that address individual teacher identity and professional development. Students gain a strong grounding in curriculum and are well equipped with the knowledge and skills to respond to the diversity within the sector. **Note:** In addition to on-campus study, this course is available by flexible delivery, which means students have the opportunity to study the entire degree fully online or in a blended mode and can choose between online and on-campus units according to individual preference. This course does not lead to primary or secondary teacher registration. **Other requirements:** Students must complete professional and volunteer experience in line with the requirements of the Australian Children's Education and Care Quality Authority, as continuous, full-time blocks. This consists of prior-to-school based learning experiences, structured observational tasks, community engagement, and Professional Experience Program in prior-to-school settings. A Suitability Card is required; refer to institution.

Career opportunities: Four-year trained early childhood teacher, early childhood leadership, management and advocacy, kindergarten teacher, policy developer. This course does not lead to registration with the Queensland College of Teachers.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Education (Early Childhood and Primary) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 113541 Brisbane | 4F or 8P | 17/65 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** To apply for all initial teacher education courses you must complete a suitability for teaching assessment as part of your application. The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to QTAC website.

Course outline: This course provides the professional and academic education for graduates to become teachers in primary schools and early childhood settings. By selecting religious education and/or theology units, graduates will be eligible to teach in Catholic and other faith-based schools. Students not seeking such accreditation take alternative studies. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts

as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. For successful completion of all initial teacher education courses, students must demonstrate they have met mandatory approved benchmarks in both literacy and numeracy, evidenced through LANTITE (Literacy and Numeracy Test for Initial Teacher Education). Transferring into an ITE course from another institution, does not reset your LANTITE sitting allowance. If you have not met the standard for either component after your first attempt, it is very important that you contact the Course Coordinator immediately to discuss your options.

Career opportunities: Early childhood teacher, primary school teacher, educator, policy developer.

The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to QTAC website.

Course outline: This combined course prepares graduates to teach in secondary schools with specialist knowledge in two different curriculum areas. To develop discipline expertise, students select one major and one minor from literature, history, visual arts, drama, business studies, mathematics, music or study of religions. Geography is also available as a minor only. The teaching component covers key areas in learning and educational theory and fosters development of the basic professional knowledge, skills and attitudes required of an effective classroom teacher.

Note: This course normally takes four years of accelerated study or equivalent part-time study.

Majors: Business studies; drama; English/literature; history; music; theological studies/study of religions; visual arts. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to QTAC website.

Course outline: Gain the skills and expertise to become a secondary mathematics teacher. As a graduate of this course, you will be a qualified mathematics teacher proficient in innovative curriculum, teaching and assessment practice. This course includes university-level mathematics, extending your knowledge to ensure you have a deep understanding of the content in the secondary school curriculum and where it might lead. You will develop a contemporary understanding of the variety of ways students learn mathematics and the diversity of teaching approaches needed to ensure all students understand mathematics. To develop discipline expertise, in addition to the mathematics major, students select one major and one

| 113311 Brisbane | 3F or 6P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Applicant must have completed Year 12 or equivalent.

Course outline: This degree is aimed at students who aspire to develop their careers in schools and educational settings but in fields other than teaching. The course offers, as well, a pathway into an initial teacher education degree such as the Bachelor of Education (Primary) or the Bachelor of Education (Early Childhood and Primary) degrees. The focus of this course is contemporary education. Graduates have opportunities to develop their knowledge and skills in areas such as learning theory, educational technology and curriculum studies, in addition to good foundations in disciplinary knowledge.

Career opportunities: Corporate trainer, educational designer, curriculum writer, educational consultant, vocational educator, adult learning adviser. Further study enables students to become an early childhood, primary or secondary school teacher.

| CHRISTIAN HERITAGE COLLEGE | | | |  | |
|--|----------------------|--|----------|---|---------------------------|
| Bachelor of Arts/Bachelor of Education (Secondary) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 091201 Carindale | 4F or 8P or 4X or 8X | 15/68 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); completion of Year 12 or attained age 17 years; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to QTAC website. With regards to teaching areas, applicants must nominate one major and one specialisation (minor) from the areas of study. The minor selected cannot be the same area as the major. It is highly desirable that applicants select teaching areas that they have successfully studied in their Senior schooling.

Course outline: This combined degree, which leads to a single award, prepares graduates to teach in secondary school contexts and gain significant knowledge in two selected curriculum areas. Students combine education and Christian studies with a major in a humanities area and a minor in another curriculum area. Exploration of the learning needs of students aged 12–18 (Years 7–12) and curriculum processes of secondary schools are linked with professional experiences that focus on the selected curriculum areas. **Note:** Modes of study can be combined. Contact CHC for information. **Majors:** Biblical studies; drama; English; history. Contact CHC for other majors available via cross-institutional study. **Specialisations:** *Minors:* accounting; biblical studies; business; drama; English; health and physical education; history; mathematics.

Other requirements: Students must complete 80 days of supervised practicum and a 30-day internship during the course. Students may have to travel and incur costs associated with travel and accommodation. Students are generally placed in Brisbane and South-East Queensland, although placements are available further afield. Students experience at least one placement outside Brisbane and are encouraged to consider rural placements. A Suitability Card is required; refer to institution. Students undertaking an Initial Teacher Education program are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators (ITE).

Career opportunities: Teaching in two teaching areas from Years 7–12 in Christian, independent and government schools, administrator in education, other training contexts.

| Bachelor of Education (Primary) | | | | | |
|---------------------------------|----------------------|--|----------|----------------------|---------------------------|

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); any General subject from the Sciences Learning Area (Units 3 and 4, C); completion of Year 12 or attained age 17 years; Teaching Personal Statement.

Additional entry information: For information regarding the Teaching Personal Statement, refer to QTAC website.

Course outline: This course prepares graduates to teach across the key learning areas in primary school contexts (Prep–Year 6). Students combine education and Christian studies with core curriculum studies, and complete professional experiences in primary school classrooms.

Note: Modes of study can be combined. Contact CHC for information. **Specialisations:** English; humanities and social sciences; mathematics; science.

Other requirements: Students must complete 80 days of supervised practicum and a 30-day internship during the course. Students may have to travel and incur costs associated with travel and accommodation. Students are generally placed in Brisbane and South-East Queensland, although placements are available further afield. Students experience at least one placement outside Brisbane and are encouraged to consider a rural placement. A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education program are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators (ITE).

Career opportunities: Teaching Prep–Year 6 in Christian, independent and government schools, administrator in education, other training contexts.

Dual degrees: This course can be combined with other CHC degree courses. Contact CHC for information.

Additional entry information: For information regarding the Teaching Personal Statement, refer to QTAC website.

Program outline: This course develops well-rounded graduates qualified for professional registration as teachers throughout Australia. In addition to building the skills required to teach effectively in a wide range of contemporary educational settings, this course prepares future teachers who have the disposition for engaging in, and contributing to, the teaching profession through a commitment to ongoing professional learning. A feature of this course is the opportunity for students to gain a nationally recognised Diploma of Early Childhood Education and Care within the first two years of the course. **Note:** Students studying on campus in Gladstone, Cairns and Townsville are supported through a combined delivery of on-campus and online study. Term 3 offerings are supported through a combined delivery of on-campus and online study.

Other requirements: A Suitability Card is required and vaccinations as stipulated prior to placement; context and jurisdiction specific requirements such as mandatory reporting, first aid certificate, CPR, anaphylaxis, and asthma management are also required. Students undertake 125 days of planned teaching practice in schools and other learning sites. Students undertaking an Initial Teacher Education (ITE) course are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators. For full course requirements, visit cq.edu.au/courses.

Career opportunities: Teaching in day care centres, kindergartens, preschools, prep year or primary schools to Year 6.

GRIFFITH UNIVERSITY

Bachelor of Education

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 223342 Mt Gravatt | 3 ^{1/2} F or 8P | 17/65 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 261422 Logan | 3 ^{1/2} F or 8P | 16/66 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 232272 Gold Coast | 3 ^{1/2} F or 8P | 18/64 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details; Teaching Personal Statement.

Additional entry information: For information regarding the Teaching Personal Statement, refer to QTAC website. The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission. **Primary education:** Students selecting primary education from year 2 also need to have completed a General science subject (Units 3 and 4, C).

Secondary education: It is recommended that students select teaching areas that they have successfully studied in their senior schooling. In particular, for the mathematics teaching area – Mathematical Methods or Specialist Mathematics and for chemistry, physics or biology teaching areas – Chemistry, Physics or Biology respectively. All applicants who completed their secondary schooling in a country other than Australia, Canada, New Zealand, Republic of Ireland, UK or USA must attain an IELTS – academic (or equivalent) of 7.5 overall (with a minimum score of 8 in speaking and listening, and minimum score of 7 in each of the other subtests), obtained within two years prior to the start of the program, or the successful completion of one year of full-time bachelor level study where the language of instruction is English completed in Australia, Canada, New Zealand, Republic of Ireland, UK or USA. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applications for the February intake close 28 January 2021. Applications for the July intake close 17 June 2021.

Program outline: By studying this innovative degree, you will be equipped to teach in either primary or secondary settings. You can complete this degree in just three and a half years, giving you a head start in your teaching career. In your foundation year, you'll be equipped with a thorough understanding of fundamental teaching principles from a global perspective, with a focus on digital learning. You'll then select a major in either primary or secondary education, with the option to study a double major. You'll also undertake professional practice in every year of your studies. **Note:** Students study over three trimesters each year, completing the program in 3.5 years. Students from any campus can travel between campuses to undertake their selected major or minors. **Majors: Primary majors:** early childhood education (Logan); health and physical education (Gold Coast); special needs education (Mt Gravatt). **Primary minors:** English education (Mt Gravatt, Gold Coast, Logan); mathematics education (Mt Gravatt, Gold Coast); science education (Mt Gravatt, Gold Coast). **Secondary majors:** junior secondary education (Mt Gravatt, Gold Coast); learning support (Mt Gravatt). **Other requirements:** A Suitability Card is required; refer to institution. Students undertaking an initial teacher education program will need to successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) to graduate from the program. Students are permitted three test attempts in total for each component. If students fail three test attempts for each component, they will not be able to graduate.

Career opportunities: Griffith University graduates are in demand and find employment in the independent, Catholic and State education systems in Queensland as well as nationally and overseas. You will be prepared for a career as a teacher in the public or private sector which can lead to senior positions such as a head of curriculum or positions with central school administration such as policy adviser or curriculum officer or principal. Your education degree can also lead to many other areas of work. Rather than teaching in schools, you could choose to follow a different pathway and work in training settings in industry and government, outdoor education, adult literacy, libraries, educational research, education policy, or consultancy.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); any General subject from the Sciences Learning Area (Units 3 and 4, C); completion of Year 12 or attained age 17 years; Teaching Personal Statement.

Additional entry information: For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: The course prepares teachers to work with children from birth to eight years, with specific emphasis on kindergarten, Preparatory year and Years 1–3. It includes professional experience commencing in the first year of the course. Students undertake practical work in a variety of educational sites, including rural and remote locations, and wider community settings.

Note: All education students must participate in a five-day intensive Professional Orientation Program on campus in the final year of their program. Online education students can study six subjects consecutively per year (one eight-week subject for six study periods a year), with the exception of professional experience placement in Australian educational institutions as required for professional accreditation. Students studying at Cairns campus will study up to 50% of their subjects online. Students without a General science subject can study the ED0195:03 Bridging Science for Teachers subject prior to commencing. **Other requirements:** A Suitability Card is required; refer to institution. All students must meet the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) standard prior to their final placement and Graduate Teacher Performance Assessment (GTPA). Refer to <https://teacheredtest.acer.edu.au>. Applicants from non-English speaking backgrounds must meet the minimum English language requirements; refer to institution.

Career opportunities: Early childhood teacher, child care administrator.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Education)/B Education (Early Childhood Education). This course can be combined with the following course at TAFE Qld: D Early Childhood Education and Care. Refer to entry for the diploma under TAFE Qld.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Additional entry information: Please note that RATEP is only available to people who identify as an Australian Aboriginal person and/or a Torres Strait Islander person. Proof of identity documentation is required. Applicants must also be located near RATEP sites in Queensland; visit jcu.edu.au/college-of-arts-society-and-education/education/ratep. Sites may change.

Course outline: The course allows Indigenous people in remote and regional Queensland communities to undertake a Bachelor of Education. It examines learners and learning theories, curriculum studies, and approaches to teaching and assessment. Professional experience involves practical work in schools and other educational settings. Teacher coordinators at RATEP centres support students who study using web and print-based materials and interactive communication technologies. Students attend on-campus and professional experience activities throughout the course. **Specialisations:** English/literacy. **Other requirements:** A Suitability Card is required; refer to institution. All students must meet the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) standard prior to their final placement and Graduate Teacher Performance Assessment (GTPA). Refer to <https://teacheredtest.acer.edu.au>.

Career opportunities: Teaching in government and non-government service industries, administrator in government education departments, child care administrator, community development worker.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Diploma of Higher Education (Education) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 310091 Townsville | 1F or 2P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 320091 Cairns | 1F or 2P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: This course is for students who do not qualify for entry to bachelor degrees or students seeking additional skills development before bachelor degree study. Students study an education subject from the first year of the Bachelor of Education (Primary), Bachelor of Education (Early Childhood Education) and Bachelor of Education (Secondary) while they gain foundation knowledge and skills. Successful completion of the diploma allows entry to JCU degree programs with credit transfer for some subjects successfully completed.

Combined diplomas/degrees: Refer to entries for: D Higher Education (Education)/B Education (Early Childhood Education); D Higher Education (Education)/B Education (Primary); D Higher Education (Education)/B Education (Secondary).

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Diploma of Higher Education (Education)/Bachelor of Education (Early Childhood Education) | | | | | |
|---|-----------|--|----------|----------------------|---------------------------|

QUEENSLAND UNIVERSITY OF TECHNOLOGY

Bachelor of Education (Early Childhood)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------------------|------------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 404162 Kelvin Grove or Distance ed | 4F or 8P or 4–8X | 16/66 | 14/70 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); any General subject from the Sciences Learning Area (Units 3 and 4, C); completion of Year 12 or attained age 18 years; Teaching Personal Statement.

Additional entry information: For more information regarding the Teaching Personal Statement, refer to the QTAC website. Applicants who have failed two or more attempts of either component of the National Literacy and Numeracy Test for Initial Teacher Education Students, and have not passed it in a later attempt, are not eligible for entry.

Program outline: Students are prepared to teach in early childhood settings. Students are supported by specialist academics and experience real-world opportunities that prepare them to teach. Professional experience placements provide the opportunity to work in real educational settings, supervised by practising professional educators. Students must take the majority of their professional experience in an Australian primary school setting. Students also take professional experience in prior-to-school settings.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** External study will be phased in over three years, with the first and second year units available via external study in 2020, third year in 2021, and fourth year in 2022. Students with a completed Diploma of Early Childhood Education and Care or equivalent receive 96 credit points of advanced standing. Students with the above qualification or equivalent and who have the appropriate levels of early childhood work experience receive 144 credit points of advanced standing. Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Other requirements:** A Suitability Card is required; refer to institution. Students must successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate.

Career opportunities: Early childhood teacher, leadership roles in childcare settings.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); completion of Year 12 or attained age 18 years; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website. Applicants who have failed two or more attempts of either component of the National Literacy and Numeracy Test for Initial Teacher Education Students, and have not passed it in a later attempt, are not eligible for entry.

Program outline: This double degree equips graduates to be the creators of original content for the creative industries, or to apply their creative abilities to educational settings and the teaching profession. The fine arts component incorporates studio and/or project-based practice. Students are also prepared to be secondary school teachers in two teaching areas, one being a fine arts teaching area. Professional experience placements provide the opportunity to work in real educational settings, supervised by practising professional educators.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** A Suitability Card is required; refer to institution. Students must successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate.

Career opportunities: Refer to Bachelor of Fine Arts and Bachelor of Education (Secondary).

Bachelor of Education (Secondary)/Bachelor of Fine Arts (Dance)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 429432 Kelvin Grove | 4 ^{1/2} F | 8/84 | 8/84 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); completion of Year 12 or attained age 18 years; Teaching Personal Statement; successful audition. **Additional entry information:** You must register with QUT. A QUT \$70 service fee applies. For information regarding the Teaching Personal Statement, refer to the QTAC website. Applicants who have failed two or more attempts of either component of the National Literacy and Numeracy Test for Initial Teacher Education Students, and have not passed it in a later attempt, are not eligible for entry. **Closing date:** Apply to QTAC plus register for an audition with QUT by 5pm Monday, 28 September 2020.

Program outline: This double degree equips graduates to be the creators of original content for the creative industries, or to apply their creative abilities to educational settings and the teaching profession. The fine arts component incorporates studio and/or project-based practice. Students are also prepared to be secondary school teachers in two teaching areas, one being a fine arts teaching area. Professional experience placements provide the opportunity to work in real educational settings, supervised by practising professional educators.

The QUT Offer Guarantee does not apply to this course. **Note:** Deferment is not available for this course. **Other requirements:** A Suitability Card is required; refer to institution. Students must successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate.

Methods or Specialist Mathematics. **Additional entry information:** For information on the Teaching Personal Statement, refer to the University website.

Course outline: With this combined degree, graduates can teach in both primary and secondary schools (kindergarten to Year 12), significantly expanding their career opportunities. Students complete curriculum studies in six key learning areas for primary school teaching and one secondary teaching subject in English, mathematics, geography or modern history. Students complete significant blocks of professional teaching experience. This course is also available online with some on-campus workshops; contact Southern Cross University. **Majors:** English; geography; mathematics; modern history. **Other requirements:** Students must meet professional experience requirements before undertaking placements. Students undertaking an Initial Teacher Education program are expected to undertake and meet the benchmark in the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE).

Career opportunities: Primary school teacher, secondary school teacher (in English, geography, mathematics or modern history).

♦ Refer to institution.

Bachelor of Arts/Bachelor of Education (Secondary)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 050861 Gold Coast | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 050811 Lismore | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 050851 Coffs Harbour | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years; Teaching Personal Statement.

Assumed knowledge: *Gold Coast:* English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). *Lismore and Coffs Harbour:* English; General Mathematics, Mathematical Methods or Specialist Mathematics.

Additional entry information: For information on the Teaching Personal Statement, refer to the University website.

Course outline: This combined degree prepares graduates to teach in up to two secondary teaching areas in English, mathematics, modern history, biology, chemistry, earth and environmental science, personal development, health and physical education (PDHPE), geography, physics, society and culture, or Aboriginal studies. Alternatively, students can study one secondary teaching area and choose from a range of electives to tailor their studies. Students complete significant blocks of professional teaching experience. The course is primarily delivered in online mode. Teaching areas in chemistry and personal development, health and physical education (PDHPE), are only offered at Lismore. Some online units require attendance at on-campus workshops; contact Southern Cross University. **Majors:** *Teaching majors – Lismore:* biology; chemistry; earth and environmental science; geography; personal development, health and physical education; society and culture (for students who complete modern history or geography). *Teaching majors – Online:* Aboriginal studies (for students who complete modern history or geography); biology; earth and environmental science; English; geography; mathematics; modern history; society and culture (for students who complete modern history or geography). **Note:** Some online units include on-campus workshops. For more information, contact Southern Cross University.

Other requirements: Students must meet professional experience requirements as outlined on the SCU website before undertaking placements. Students undertaking an Initial Teacher Education program are expected to undertake and meet the benchmark in the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE).

Career opportunities: Secondary school teacher in schools and colleges. Graduates can teach in up to two subjects or specialise in one area.

♦ Refer to institution.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course gives students the skills and practical knowledge to design and implement early childhood programs, by understanding the emotional, physical, cognitive and social needs of young children. Successful completion of the course qualifies graduates to design and implement early childhood education and care programs. Graduates are equipped with the skills needed to plan, implement and evaluate programs in line with approved learning frameworks and regulatory requirements. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeql.edu.au/study-with-us/what-it-costs/index.html for information. **Other requirements:** A Suitability Card may be required. Students studying this course externally may be required to undertake a workplace observation. Contact the relevant TAFE Queensland campus for details.

Career opportunities: Early childhood educator, out of school hours care coordinator, early childhood centre director.

Combined diplomas/degrees: The Diploma of Early Childhood Education and Care can be combined with other programs as listed below to attain the awards of Diploma of Early Childhood Education and Care from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary.

All mandatory university admission and English language requirements must be met before university enrolment is finalised. For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake. **For B Education, additional prerequisites apply to the degree component. Applicants offered a place in these courses may need to satisfy these additional entry requirements before progressing to the degree.** For more information, contact the relevant university directly.

To apply for a combined diploma/degree, applicants must select the Diploma of Early Childhood Education and Care for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

THE UNIVERSITY OF QUEENSLAND**Bachelor of Arts/Bachelor of Education (Secondary)**

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 707202 St Lucia | 4F or 8P | 13/72 | 11/77 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to QTAC website.

Program outline: This dual degree allows you to take two degrees and gain a teaching qualification underpinned by strong disciplinary knowledge in your selected teaching areas. The arts component provides content knowledge in a wide choice of majors. The secondary education component provides the skills, knowledge and practical experience required for teacher registration and employment. **Majors:** Ancient history/history; Chinese; Chinese translation and interpreting; drama; economics; English; film and television studies; French; geography; German; Japanese; legal education studies; mathematics; media and digital cultures; music; popular music and technology; psychology; Spanish. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Secondary school teacher, in industry or business where a knowledge of teaching skills and processes is sought.

Bachelor of Business Management/Bachelor of Education (Secondary)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 710301 St Lucia | 4F or 8P | 9/82 | 9/82 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to QTAC website.

Program outline: Gain a teaching qualification underpinned by strong disciplinary knowledge in your selected teaching areas. The business management component provides content knowledge to teach business organisation and economics while the secondary education component provides the skills, knowledge and practical experience required for teacher registration and employment. **Majors:** Business economics. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Secondary school teacher, industry or business where a knowledge of teaching skills and processes is sought.

Bachelor of Education (Primary)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 742401 St Lucia | 4F | 12/75 | 11/77 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information on the Teaching Personal Statement, refer to QTAC website.

Program outline: This four-year program provides you with the high-level academic knowledge and professional skills necessary to foster children's learning and development from Prep (the first year of school) through to Year 6. You cover all aspects of the Australian curriculum, while developing vital knowledge about teaching and learning, child development, diversity and inclusion, and Indigenous education. You are ready to enter the classroom after a minimum of 80 days of supervised professional experience across your program, where you demonstrate your competence to meet the Australian Professional Standards for Teachers.

Minors: English and literacy; humanities and social sciences; mathematics and numeracy; science. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate.

Career opportunities: Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia, and some worldwide. Once registered, you can work as a primary school teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, mentor, curriculum adviser, or a guidance or career officer or head of department.

| Bachelor of Music (Honours)/Bachelor of Education (Secondary) | | | | | |
|---|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 723202 St Lucia | 5F | ♦ | ♦ | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement; audition.

Additional entry information: For information regarding the Teaching Personal Statement, refer to QTAC website. Refer to Bachelor of Music (Hons) for audition information. Most offers will be made for Bachelor of Music (Hons) in the 23 December 2020 offer round, however for music dual degrees (Bachelor of Music (Hons)/Bachelor of Education (Secondary), the offer round is 14 January 2021. Applicants must ensure they order their preferences accordingly. Refer to qtac.edu.au/applications/apply-here/preferences. **Closing date:** Refer to Bachelor of Music (Hons).

Program outline: Complete two degrees and gain a teaching qualification underpinned by strong disciplinary knowledge in your selected teaching areas. This course is tailored specifically for students who want to pursue a career in music education. It offers you two years of intensive training on your chosen instrument (including voice) and three years of combined music and education courses. Graduates are prepared for the variety of teaching expected of music teachers throughout primary and secondary schools. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Secondary school teacher, industry or business where knowledge of teaching skills and processes is sought.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Science/Bachelor of Education (Secondary) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 731302 St Lucia | 4F or 8P | 10/79 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C); Teaching Personal Statement.

Additional entry information: For information regarding the Teaching Personal Statement, refer to QTAC website.

Program outline: Combine your interest in science with the necessary skills, knowledge and practical experiences required for teacher registration. You'll receive a thorough preparation for your teaching areas through your professional studies in education. Study essential and specialised topics in science or mathematics in your science component. Secondary teaching is a rewarding career with mathematics and science teachers in demand worldwide and throughout Australia. **Majors:** Archaeological science; biochemistry and molecular biology; biomedical science; chemistry; computer science; ecology; genetics; geographical sciences; marine science; mathematics; microbiology; physics; plant science; psychology; zoology. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Secondary school teacher, or in industry or business where knowledge of teaching skills and processes is sought.

| UNIVERSITY OF NEW ENGLAND | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| Bachelor of Education (Early Childhood and Primary) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 666981 Armidale | 4F or 8P | ♦ | ♦ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years; Teaching Personal Statement; NSW teacher education course entry requirements. **Additional entry information:** English (Units 3 and 4, A); a minimum of two other General subjects (Units 3 and 4, A). Contact the University for more information about the Teaching Personal Statement. Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This course offers two career options for graduates. It is an initial teacher education qualification that encompasses working with children from birth to age 12 in both early childhood and primary settings. Professional understanding of children's growth and learning is integral to the course. Students develop the skills, knowledge and attitudes of a successful early childhood and primary teacher. For external study, contact the UNE Future Students Team. **Note:** This course is accredited with the New South Wales Education Standards Authority (NESA) and the Australian Children's Education and Care Quality Authority (ACECQA).

Other requirements: The course includes 135 days of professional experience that can range from a few days through to six weeks (75 days in a primary school setting and 60 days in various early childhood settings). Students must complete a number of requirements prior to undertaking a professional experience placement; refer to institution for details. In Queensland, a Blue Card is required. Teacher education students must pass the National Literacy and Numeracy Test for Initial Teacher Education Students before their final-year professional experience placement; visit

education.gov.au/resources/literacy for more information. Students must also complete a Teaching Performance Assessment during their final professional experience placement.

Career opportunities: For primary teaching: Early childhood teacher or education related career choices e.g. director of children's services, coordinator of family day care scheme, teacher-director of a preschool, children's services TAFE teacher or VET trainer, early childhood consultant for non-profit organisations, assistant director of child and family services, early childhood specialist for family-oriented organisations.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Education (K–12 Teaching) | | | | | |

Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This course is an initial teacher education program that prepares graduates to teach from Kindergarten to Year 6 with an emphasis on special and inclusive education. The course gives students the opportunity to develop the skills, knowledge and attitudes needed to become a successful primary teacher, with a primary teaching specialisation as mandated by the Australian Institute for Teaching and School Leadership (AITSL) in Literacy and Numeracy in the Inclusive Classroom. Students are encouraged to be independent learners who can adapt efficiently and constructively to meet the changes that occur in the teaching profession. **Note:** This course is accredited with the New South Wales Education Standards Authority (NESA). **Other requirements:** The course includes 70 days of supervised school experience in block placements of three to seven weeks and 10 days of online professional experience. Students must complete a number of requirements prior to undertaking a professional experience placement; refer to institution for details. In Queensland, a Blue Card is required. Teacher education students must pass the National Literacy and Numeracy Test for Initial Teacher Education Students before their final-year professional experience placement; visit education.gov.au/resources/literacy for more information.

Career opportunities: The Bachelor of Special and Inclusive Education (Primary) prepares teachers to work in an inclusive setting (local primary school) or a special class (within a local primary school or within a special school).

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

UNIVERSITY OF SOUTHERN QUEENSLAND

Bachelor of Early Childhood

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 908151 Toowoomba | 3F or 7P | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 928151 Springfield | 3F or 7P | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 908155 External | 3X or 7X | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); any General subject from the Sciences Learning Area (Units 3 and 4, C).

Program outline: Students specialise in educating and caring for children from birth to five years. Emphasis is placed on child-centred learning, leadership advocacy, and the administrative and management skills required to run a childcare centre. Graduates have teaching expertise and are positioned to work in a range of early childhood learning environments. Professional experience placements help students gain teaching and caring experience in these areas. Additional engagement activities are available throughout the program, allowing students to network with current teachers and industry specialists. **Other requirements:** A Blue Card or Exemption Card is required, refer to institution.

Career opportunities: Childcare centres, community-based children's organisations, director of children's activities on cruise ships/in holiday resorts, after school care, nanny.

| 908415 External | 4X or 9X | 15/68 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to QTAC website. With regards to teaching areas, it is highly desirable that applicants select teaching areas that they have successfully studied in their Senior schooling, or equivalent, to satisfy teaching area prerequisites.

Program outline: This program gives students the skills, knowledge and experience for a stimulating and rewarding career as a teacher. Students learn to design and deliver effective teaching programs for a diverse range of learners. Core courses prepare students for their area of specialisation in early childhood, primary or secondary teaching and help to deliver graduates who are prepared and confident in their teaching ability. Students study with professionals who have experience in the classroom and learn in a flexible, engaging and dynamic environment.

Specialisations: *Arts learning areas:* drama; film, television and new media; music; visual art. *English learning area:* English. *Health and physical education learning area:* health and physical education. *Humanities and social sciences learning areas:* accounting; business studies; economics; geography; history; legal studies. *Mathematics learning area:* mathematics. *Sciences learning areas:* biology; chemistry; earth and environmental science; physics; psychology.

Technologies learning areas: design and technology; digital technology; food and nutrition.

Other requirements: A Blue Card or Exemption Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators.

Career opportunities: Depending on major: early education, primary, middle or secondary teacher, community-based children's organisations, after school care, director of child care centre.

❖ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Education (Early Childhood)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 017401 Sunshine Coast | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 018611 Caboolture | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 012811 Gympie | 4F or 8P | ♦ | ♦ | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); any General subject from the Sciences Learning Area (Units 3 and 4, C); completion of Year 12 or attained age 17 years; Teaching Personal Statement.

Additional entry information: For information regarding Teaching Personal Statement, refer to QTAC website. Applicants from a non-English speaking background must attain an Academic IELTS score of at least 7.5 with a minimum of 8.0 in speaking and listening and 7.0 in all other subtests, obtained within two years prior to the commencement of the program.

Program outline: Students develop knowledge and skills required to provide integrated education services for young children and their families in early childhood and primary school settings (from Prep to Year 3). Students focus on early childhood learning experiences and teaching practices for children aged from birth to eight years. The program offers opportunities for students to gain knowledge and build relationships with multiple disciplinary teams and community-based agencies through professional experience. **Note:** *Gympie:* Students complete first-year subjects at Gympie; the remainder of the degree is completed at Sunshine Coast. However subjects in second, third and fourth year that are shared with the Bachelor of Primary Education may be taken at the Gympie campus subject to availability. **Other requirements:** Students must complete 95 days of supervised professional experience, a 20-day internship and 75 hours of wider field experience. They must have a valid Suitability Card (Blue Card) before commencing professional experience; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Early childhood teacher, primary school teacher, early childhood centre leader/director, private tutor, education consultant, youth support worker, overseas teacher, children's advocate.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Education (Secondary)/Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 017221 Sunshine Coast | 4F or 8P | 16/66 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014221 Moreton Bay | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); completion of Year 12 or attained age 17 years; Teaching Personal Statement. **Additional entry information:** For information regarding Teaching Personal Statement, refer to QTAC website. Applicants from a non-English speaking background must attain an Academic IELTS score of at least 7.5 with a minimum of 8.0 in speaking and listening and 7.0 in all other subtests, obtained within two years prior to the commencement of the program.

Program outline: This program provides graduates with professional knowledge, skills, and discipline expertise in two of the following teaching areas: English, geography, history, drama, Japanese, music, screen media, psychology, biology, chemistry or mathematics. This double degree provides entry to the profession for those seeking to teach Years 7-12. The program develops secondary teachers who draw on discipline and pedagogical knowledge to teach within disciplinary frameworks and integrated curriculum structures, based on inquiry and problem-solving in real-world contexts. **Note:** Japanese and Psychology study areas are only available for students admitted in Semester 1. Some combinations of teaching areas will take longer than four years to complete. Refer to online listing for further information. *Moreton Bay:* The following study areas are not available at *Moreton Bay*: theatre and performance, music, Japanese. Only first and second year subjects offered at Moreton Bay in 2021. **Other requirements:** Students must complete 80 days of supervised professional experience, completed as full-time blocks as program approved. Most of this experience must be completed in a Queensland school. Students must also complete 30 hours of wider field experience. Students must undergo a criminal history check and obtain a Suitability Card before the first workplace experience; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students

University of the Sunshine Coast (continued)

must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Teacher in secondary schools, private practice, community education centres, private colleges, universities, careers in related discipline areas.

ENGINEERING AND TECHNOLOGY

CQUniversity AUSTRALIA

Bachelor of Aviation (Flight Operations)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 812241 Bundaberg | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 822241 Cairns | 3F or 6P | 18/64 | 16/66 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 852245 Online | 3X or 6X | 14/70 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course provides the academic and aeronautical knowledge that is required to become a professional airline pilot. To gain the flight training required to become a commercial pilot, students must complete the Graduate Diploma of Aviation (Flight Operations). All practical flight training components after students' first solo flight are delivered in the Graduate Diploma of Aviation (Flight Operations). **Note:** On-campus students may be required to study some units online. **Other requirements:** Students are required to gain a "Class 1" medical certificate at their expense during the first term of their studies. Students also are required to obtain at their expense a Student Pilot Licence and Aviation Security Identification Card (ASIC). To gain the flight training required to become a commercial pilot, students must complete the Graduate Diploma of Aviation (Flight Operations). All practical flight training components after students' first solo flight are delivered in the Graduate Diploma of Aviation (Flight Operations). Applications for the graduate diploma are direct to the University. Students must attend residential schools on campus in Cairns.

Career opportunities: Operational and management positions within the aviation, aerospace and information technology industries.

| 850315 Online | 4X or 8X | 14/70 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course develops students' problem-solving, teamwork and communication skills and incorporates project-based learning so they can graduate work ready. First year provides a generic understanding of engineering, allowing students to experience each different area of engineering before choosing a specialisation. The civil, electrical and mechanical specialisations are accredited by Engineers Australia as meeting Stage 1 Competency Standard for Professional Engineer. A benefit of studying this course at CQUniversity is our strong relationships with industry practitioners that offer support through scholarships, guest lectures and work integrated learning. **Note:** Some units have compulsory residential schools for online students. **Majors:** Civil engineering; electrical engineering; mechanical engineering; mechatronics (Mackay); mining engineering. **Other requirements:** Students must complete 12 weeks of industry experience and must submit a formal report verifying the type of work undertaken. This is in accordance with current recommendations of the accrediting body, Engineers Australia. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Public and private sectors in energy, transportation, manufacturing, construction, mining, education.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Engineering (Honours) (Civil Construction) and Diploma of Construction Management

| 850512 Online | 4 ^{1/2} X or 9X | ♦ | ♦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students will gain the skills and qualification needed for a career as a civil engineer skilled in high-level engineering design, and managing the construction process. This course equips students with skills in financing, project scheduling and coordination of consultants and specialist contractors, along with skills in problem-solving, teamwork and professional practice. Students will also gain foundational technical content in civil engineering. Students will also complete a major individual project that integrates both civil engineering skills and construction management skills to confirm your ability to work as a civil engineer and a construction management specialist. **Note:** Some units have compulsory residential schools for online students. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. This is in accordance with current recommendations of the accrediting body, Engineers Australia. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Government departments, construction, building and sub-contracting companies.

| 850502 Online | 4 ^{1/2} X or 9X | ♦ | ♦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course equips you with skills and knowledge in building design factors such as codes and statutes, building sustainability, and contracts together with foundational technical content in civil engineering. This course has a strong focus on learning in context so you will apply theory to authentic scenarios throughout your course including industry projects. As part of your studies, you will complete a major individual project that integrates both civil engineering skills and building design skills to confirm your ability to work as a civil engineer and a building design specialist. **Note:** Some units have compulsory residential schools for online students.

Other requirements: Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. This is in accordance with current recommendations of the accrediting body, Engineers Australia. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Design, architecture, planning, building or engineering firms, government departments and corporations with a large building portfolio.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

♦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Engineering (Honours) (Control and Instrumentation) and Bachelor of Information Technology (Application Development)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 820601 Cairns | 5F or 10P | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |
| 850601 Rockhampton | 5F or 10P | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |
| 850503 Online | 5X or 10X | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course will equip students with the skills to become a control and instrumentation engineer skilled in both high-level engineering design, and software and hardware implementation of engineering systems. Students will develop skills in problem solving, teamwork and professional practice together with learning foundational technical content. This course has a strong focus on learning in context so students will apply theory to authentic scenarios throughout the course. **Note:** Some units have compulsory residential schools for online students.

Other requirements: Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. This is in accordance with current recommendations of the accrediting body, Engineers Australia. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Control systems design, development and maintenance of such systems associated with electrical power, resource, telecommunications, agriculture and automation industries.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Engineering (Honours) and Diploma of Professional Practice (Co-op Engineering)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 810302 Bundaberg | 4 ^{1/2} F or 9P | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |
| 820309 Cairns | 4 ^{1/2} F or 9P | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |
| 830302 Gladstone | 4 ^{1/2} F or 9P | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |
| 840302 Mackay | 4 ^{1/2} F or 9P | 10/79 | 8/84 | Mar 2021 | 14 Jan 2021 |
| 850302 Rockhampton | 4 ^{1/2} F or 9P | 9/82 | 8/84 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course features 48 weeks of paid work placement as well as project-based learning, allowing students to develop the professional skills required to work as an engineer and graduate with one year of industry experience. The education and training focuses on developing skills desired by employers, including effective teamwork and problem-solving. First year provides a generic understanding of engineering, allowing students to experience each different area of engineering before choosing a specialisation. The civil, electrical and mechanical specialisations are accredited by Engineers Australia as meeting Stage 1 Competency Standard for Professional Engineer. **Note:** Some units have compulsory residential schools for online students. Units at Cairns are delivered by a combination of on-campus study, workshops and laboratory sessions.

Specialisations: Civil and humanitarian engineering; electrical engineering; mechanical engineering; mechatronics (Mackay); resource systems engineering. **Other requirements:** Students undertake 48 weeks of industry placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Public and private sectors in energy, transportation, manufacturing, construction, mining, education.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Engineering Technology (Specialisation)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 811381 Bundaberg | 3F or 6P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

| 851385 Online | 3X or 6X | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course develops skills and enables students to combine an understanding of engineering concepts with modern technology. The education and training equips students with the skills to inventively apply, modify and adapt engineering practices to meet engineering challenges and problems for communities, society and the environment. Students can tailor their course by choosing from a wide range of majors to suit their personal interests and career goals. Six weeks of industry placement allows students to apply their skills and increase their employability by gaining on-the-job experience. **Note:** Students studying online must attend compulsory on-campus residential schools for some units. Units at Cairns are delivered by a combination of on-campus study, workshops and laboratory sessions. **Specialisations:** Civil; electrical; mechanical. **Other requirements:** Students complete six weeks' industry practice. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Public and private sectors in energy, transportation, manufacturing, construction, mining, education.

Combined diplomas/degrees: For mechanical engineering specialisation, this program can be combined with the following courses at TAFE Qld: AdvD Engineering; D Engineering – Technical. Refer to entries for the advanced diploma and diploma under TAFE Qld.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Associate Degree of Aviation (Flight Operations)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 812251 Bundaberg | 2F or 4P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 822251 Cairns | 2F or 4P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 852255 Online | 2X or 4X | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course prepares students for a career as a commercial pilot. Students gain the academic and aeronautical knowledge required to achieve a Commercial Pilot Licence and Command Instrument Rating. Students gain a thorough understanding of the theories and practices in aviation technology and explore the associated ethical, legal and security issues.

Other requirements: Students are required to gain a "Class 1" medical certificate at their expense during the first term of their studies. Students also are required to obtain at their expense a Student Pilot Licence and Aviation Security Identification Card (ASIC). To gain the flight training required to become a commercial pilot, students must complete the Graduate Diploma of Aviation (Flight Operations). All practical flight training components after students' first solo flight are delivered in the Graduate Diploma of Aviation (Flight Operations). Applications for the graduate diploma are direct to the University. Students must attend residential schools on campus in Cairns.

Career opportunities: Aviation.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Associate Degree of Engineering

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 850385 Online | 4P | 16/66 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: The Associate Degree of Engineering allows students to develop the skills required to become an engineering associate and gain knowledge of engineering principles relevant to the testing, inspection, drawing, adaptation, commissioning, management or operation of on-site equipment, plant and systems. There is the opportunity to tailor studies to areas of interest by selecting from majors in civil, electrical, mechanical or mining engineering or engineering geology. The Associate Degree of Engineering course is based on the project-based learning philosophy which offers the opportunity to learn in context. This approach is designed to

CQUniversity Australia (continued)

produce work-ready graduates with industry-relevant skills. **Note:** Students attend a CQUniversity location or other designated location (eg mine site) for compulsory residential schools in some units. Students are advised to check unit details before enrolling to determine whether a unit has a residential component. **Specialisations:** Civil engineering; electrical engineering; engineering geology; mechanical engineering; mining engineering. **Other requirements:** Students are required to complete a minimum of six weeks' industry practice at engineering para-professional level prior to enrolling in Engineering Associate Project, or complete an industry-based project. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Public and private sectors in energy, transportation, manufacturing, construction, mining, education.

| GRIFFITH COLLEGE | | | |  | | |
|------------------------|----------|--|----------|---|---|--|
| Diploma of Engineering | | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round | |
| | | Unadjusted | Adjusted | | | |
| 086291 Mt Gravatt | 1F or 2P | ☆ | ☆ | Oct 2020 Feb 2021 Jun 2021 | 8 Oct 2020 14 Jan 2021 3 Jun 2021 | |
| 086091 Gold Coast | 1F or 2P | ☆ | ☆ | Oct 2020 Feb 2021 Jun 2021 | 8 Oct 2020 14 Jan 2021 3 Jun 2021 | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: The program provides the basis for further studies in engineering. Studies include engineering materials, engineering practice, mathematics, computing and programming, electronics, and engineering mechanics. **Note:** Subject to satisfactory completion of the diploma, students can articulate with 40 credit points into Griffith University's Bachelor of Laws program.

Career opportunities: Local council and state government departments, small to large multinational consulting firms, civil and structural consulting firms, electrical engineer, civil engineer, marine engineer, software engineer, systems engineer, manufacturing engineer.

Combined diplomas/degrees: Refer to entries for: D Engineering/B Engineering (Hons); D Engineering/B Engineering Technology in Electronic and Computer Engineering; D Engineering/B Industrial Design.

☆ All qualified applicants were offered a place.

| Diploma of Engineering/Bachelor of Engineering (Honours) | | | | | | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: This program equips students to work as engineering technologists or senior technical officers in planning, designing, operating, and maintaining electronic engineering works. Students develop the skills in hardware and software design and implementation required for employment in leading edge, high technology fields, including communications, microelectronics, computer systems, biomedical engineering and control systems (robotics). Refer to the separate entries for Griffith College's Diploma of Engineering and Griffith University's Bachelor of Engineering Technology in Electronic and Computer Engineering.

Career opportunities: Design, implementation and maintenance of electronics, computer and communications systems, the development of sensor systems and embedded micro-controller systems.

☆ All qualified applicants were offered a place.

| Diploma of Engineering/Bachelor of Industrial Design | | | | | | |
|---|--------------------------|--|----------|----------------------------------|---|--|

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This course combines a creative engineering approach with industrial design innovation. Students graduate with an ability for innovation and creativity in industrial design, while working within the principles of engineering, and learn through project-based design studios, technical learning studios and learning through making. Students experience traditional engineering learning and have the chance to develop their engineering knowledge, professional practice and design skills, and bring them together for project work throughout the degree. The degree takes a hands-on approach to teaching that uses advanced technologies such as 3D printing.

Career opportunities: Industrial designer, product designer, entrepreneur, creative designer-maker, designer for medical applications, designer in a specialist area such as automotive or digital fashion.

☆ All qualified applicants were offered a place.

| GRIFFITH UNIVERSITY | | | |  Griffith UNIVERSITY | |
|---|----------|--|----------|---|---------------------------|
| Bachelor of Construction Management (Honours) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 234891 Gold Coast | 4F or 8P | 17/65 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Develop an in-depth knowledge and the practical skills required to manage and direct complex construction projects with this degree. You'll learn about sustainable construction, project development and management, construction economics, and site and safety operations in a global context. You'll study core construction areas including construction measurements and estimating, tendering, planning and procurement, with a strong focus on IT applications in the built environment. In your final year, you'll develop your professional skills through an industry placement.

Career opportunities: As a graduate, you'll be prepared for a rewarding career as a construction professional. Your industry knowledge combined with strong skills in problem-solving, decision-making, communication and technology, will prepare you for leadership roles across the full spectrum of construction projects. You'll find employment opportunities in positions such as construction manager, site manager and supervisor, project manager, cost estimator, construction economist, property developer, manager and contract administrator.

Bachelor of Engineering (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 229231 Nathan | 4F or 8P | 18/64 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 234861 Gold Coast | 4F or 8P | 15/68 | 12/75 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This is your chance to make a difference to the way the world works. You could make your mark on major global systems and infrastructure or be at the forefront of localised urban projects. This degree has a major focus on learning by doing, with hands-on projects from first year, so you'll be engineering from day one. Choose from nine major areas of engineering to hone-in on an area that interests you and distinguish you from other graduates. You'll learn from experts conducting cutting-edge research with government and leading industry partners. **Note:** An option exists to exit with a Bachelor of Engineering Science on completion of three years of study.

Majors: Civil engineering (Gold Coast, Nathan); electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); electronic and energy engineering (Nathan); electronic and UAV engineering (Nathan); environmental engineering (Nathan); mechanical engineering (Gold Coast, Nathan); mechatronics (Nathan); software engineering (Gold Coast, Nathan).

Career opportunities: Engineering roles are predicted to be one of the fastest growing industries over the next 10 years. This holistic engineering degree will give you the foundational skills in engineering principles, with majors that can take you just about anywhere. You will be prepared to work across a wide array of industries as a civil, electronic, electrical, mechanical or software engineer.

Double degrees: Refer to entries for: B Engineering (Hons)/B Aviation; B Engineering (Hons)/B Business; B Engineering (Hons)/B Computer Science; B Engineering (Hons)/B Data Science; B Engineering (Hons)/B Environmental Science; B Engineering (Hons)/B Industrial Design; B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Science.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Engineering/B Engineering (Hons).

Bachelor of Engineering (Honours)/Bachelor of Aviation

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 229251 Nathan | 4F | 15/68 | 13/72 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree gives you two clear career pathways. As a graduate, you may choose to be a qualified commercial pilot with engineering qualifications, knowing that airlines prefer their pilots to have an engineering qualification. Or, you could choose to be an engineer with flight qualifications, recognising that engineering companies building aircraft or aviation systems prefer flight qualified engineers. It's all achievable through this unique degree. **Note:** Students study over three trimesters each year, completing the five-year program in four years. **Majors:** *Engineering:* electronic engineering; mechanical engineering.

Career opportunities: As a graduate, you'll be qualified as an electronics engineer and will have completed the full theory component for your commercial pilot's licence. This is an amazing opportunity to become an elite pilot at the leading edge of aviation, or to become a highly qualified engineer in the aviation industry. Students wishing to obtain their pilots licence will also need to enrol in the Graduate Diploma in Flight Management to complete the flight training practical component of their licence.

Bachelor of Engineering (Honours)/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 229221 Nathan | 5F or 10P | 12/75 | 10/79 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 234851 Gold Coast | 5F or 10P | 14/70 | 12/75 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Studying engineering and business at Griffith will give you the managerial knowledge and engineering expertise needed to successfully run complex projects or your own company. You'll develop knowledge and skills in your preferred engineering major combined with an understanding of key business issues such as organisational behaviour, communication, economics and quality control. In your final year, you can enhance your employment opportunities and gain valuable contacts through an industry-based project or placement. **Majors:** *Engineering – Gold Coast:* civil engineering; electrical and electronic engineering; mechanical engineering. *Engineering – Nathan:* civil engineering; electronic engineering; environmental engineering; mechanical engineering. *Business:* Asian engagement (Nathan only); behavioural science;

business analytics; economics; employment relations (Nathan only); event management; finance; government and international relations; human resource management; innovation and entrepreneurship; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); taxation (Nathan only); tourism management.

Career opportunities: By combining these two fields, you can apply your specialised knowledge of business and engineering to roles such as project manager, business manager, chief engineer, supply chain manager and consulting engineer in private and public sectors.

Bachelor of Engineering (Honours)/Bachelor of Computer Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 234871 Gold Coast | 5F or 10P | 14/70 | 11/77 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree is focused on the future with a cutting-edge blend of computer science and engineering. For a more specialised career path, this dual degree allows you to complement your engineering knowledge with a range of supporting computer science skills and understanding. You'll develop knowledge and practical skills in planning, management, design and build of engineering projects as well as communication, research and critical analysis skills. **Majors:** *Engineering:* civil engineering; electrical and electronic engineering; mechanical engineering. *Computer science:* data science and artificial intelligence; software development.

Career opportunities: With an internationally recognised qualification, the future is promising for dual computer science and engineering professionals. With these two complementary degrees, you'll be prepared for engineering roles across a number of industries that require design, innovation and creative development using the latest technology.

| 234801 Gold Coast | 5F | New Program | New Program | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 229271 Nathan | 5F | New Program | New Program | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree will enable you to provide data-based insights based on your specific expertise in engineering, to improve decision-making, reduce costs and increase efficiencies. You'll gain knowledge in your chosen engineering major and skills to access the insights data provides and lead the way in translating data into actionable information, including manipulation, modelling, interpretation and visualisation. In your final year you can enhance your employability through an industry placement to gain practical experience and valuable industry networks. **Majors:** *Engineering – Gold Coast:* civil engineering; electrical and electronic engineering; mechanical engineering; software engineering. *Engineering – Nathan:* civil engineering; electronic engineering; environmental engineering; mechanical engineering; software engineering.

Career opportunities: Depending on your major, you may find opportunities in aviation, construction, manufacturing, natural resources, telecommunications, transport or software development as well as opportunities as a Business Analyst, Data Scientist, Insights Analyst or Data Scientist across a range of industries.

Bachelor of Engineering (Honours)/Bachelor of Environmental Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 224701 Nathan | 5F or 10P | 15/68 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 234821 Gold Coast | 5F or 10P | 13/72 | 12/75 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: With this double degree, you can tackle environmental issues armed with knowledge across both engineering and science. With specialist skills in engineering paired with insights into social and natural sciences, you'll be well prepared to find practical solutions to pressing environmental issues. In final year, you'll complete an industry experience, preparing you for entry to the workforce. **Majors:** *Engineering – Gold Coast:* civil engineering; electrical and electronic engineering; mechanical engineering. *Engineering – Nathan:* civil engineering; electronic engineering; environmental engineering; mechanical engineering. *Environmental science:* ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: Graduates of this degree are prepared for careers as engineers or environmental scientists, equipped to bring engineering together with social and natural sciences to find solutions for complex environmental issues such as climate change. You'll find employment in government departments, environmental agencies, civil construction projects, consultancies, waste management, mining, oil, smelting and manufacturing industries.

| Bachelor of Engineering (Honours)/Bachelor of Industrial Design | | | | | |
|---|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 234881 Gold Coast | 5F or 10P | 11/77 | 8/84 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Now you can combine the creative skills of industrial design with the practical solutions of mechanical engineering. This double degree will arm you with the techniques and technical skills you need to excel in this vibrant industry. You'll study a combination of in-depth theoretical mechanical engineering frameworks and industrial design principles and concepts like development, problem-solving and model making. This degree gets you hands-on learning from year one and delivers you a qualification that employers find hard to ignore. **Majors:** Engineering: mechanical engineering.

Career opportunities: You'll be at the forefront of a number of rapidly growing career paths. You can choose to design consumer products, putting your skills into play to make every day more user-friendly. Or you can choose to specialise in the design and manufacture of products for a range of industries including mining, transportation, building services and medical supplies.

| Bachelor of Engineering (Honours)/Bachelor of Information Technology | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Two of the fastest growing sectors for jobs growth are engineering and IT, and this double degree has these two disciplines at its core. You'll develop the knowledge and practical skills in planning, management, design and build of engineering projects, with your choice of major allowing you to specialise in the area you're most interested in. You'll also achieve a high level of core IT technical knowledge and a specialisation in either information systems or networks and security. **Majors:** Engineering – Gold Coast: civil engineering; electrical and electronic engineering; mechanical engineering. Engineering – Nathan: civil engineering; electronic engineering; environmental engineering; mechanical engineering. Information technology: information systems; networks and security.

Career opportunities: With highly sought after qualifications in engineering and science, you'll find inspiring career opportunities in government, construction companies, telecommunications, mining, oil, smelting and manufacturing industries, and research organisations.

| Bachelor of Engineering (Honours)/Bachelor of Science | | | | | |
|---|-----------|--|----------|----------------------|---------------------------|

Program outline: Engineering is a precise practice, and this double degree will arm you with the science disciplines to help you excel. You'll study applied mathematics or physics and learn to balance the numbers with the art of creative and critical thinking. You'll also gain highly useful skills in mathematical modelling. In final year, you can enhance your employability through an industry placement. With an internationally recognised qualification, you'll be prepared for work on complex projects in Australia and overseas. **Majors:** Engineering – Gold Coast: civil engineering; electrical and electronic engineering; mechanical engineering. Engineering – Nathan: civil engineering; electronic engineering; environmental engineering; mechanical engineering. Science: applied mathematics; physics.

Career opportunities: With highly sought after qualifications in engineering and science, you'll find inspiring career opportunities in government, construction companies, telecommunications, mining, oil, smelting and manufacturing industries, and research organisations.

Bachelor of Engineering Technology in Electronic and Computer Engineering

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 229241 Nathan | 3F or 6P | 20/62 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will prepare you for work as an engineering technologist, advising on planning, designing, operating and maintaining electronic engineering works. You will study engineering, mathematics, computing, digital electronics, design, instrumentation, communications, and materials and testing before developing skills in hardware and software design and implementation to work in communications, microelectronics, computer systems, biomedical engineering and control systems (robotics). Subject to eligibility, students can transfer to the Bachelor of Engineering (Honours) in second year.

Career opportunities: As a graduate, you'll be qualified as an electronics engineer and will have completed the full theory component for your commercial pilot's licence. This is an amazing opportunity to become an elite pilot at the leading edge of aviation, or to become a highly qualified engineer in the aviation industry. Students wishing to obtain their pilots licence will also need to enrol in the Graduate Diploma in Flight Management to complete the flight training practical component of their licence.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Engineering/B Engineering Technology in Electronic and Computer Engineering.

| Bachelor of Industrial Design | | | | | |
|-------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 234522 Gold Coast | 3F or 6P | 15/68 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Combine creative engineering with design innovation in this hands-on degree. You'll learn through making, using advanced technologies such as 3D printing, giving you the chance to develop your engineering knowledge and design skills. You'll learn about design process, material characteristics, mechanics and electronics as well as 3D computer modelling, creative thinking and digital media. This degree gives you the chance to develop an understanding of how a product is created, from design to delivery, in a global context.

Career opportunities: You'll be prepared for work as an industrial designer, innovator, product designer, entrepreneur, creative designer-maker, designer for medical applications, or in automotive or digital fashion.

Double degrees: Refer to entry for: B Engineering (Hons)/B Industrial Design.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Engineering/B Industrial Design.

| JAMES COOK UNIVERSITY | | | | | |
|-----------------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Engineering (Honours) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 314021 Townsville | 4F or 8P | 14/70 | 12/75 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 324021 Cairns | 4F or 8P | 13/72 | 12/75 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: A common first year of study provides a broad skills base, and students develop sound theoretical knowledge and gain opportunities for hands-on practical experience. Engineering design, communication and project management are central to the course. Students undertake a full-year thesis in the final year, completing a significant research project. Students choose one major and one of several minors such as maths, physics, software or sustainability. **Note:** Not all majors are available at Cairns and there is no mid-year entry to majors offered in Cairns.

Majors: Townsville: chemical engineering; civil engineering; electrical and electronic engineering; mechanical engineering. Cairns: electrical and electronic engineering; electronic systems and internet of things engineering. **Other requirements:** Students must complete 60 days of engineering professional practice prior to graduation and hold a Senior First Aid certificate at time of graduation.

Career opportunities: Depending on specialisation: consultancies, construction firms, mining and minerals processing, transportation agencies, microelectronic and telecommunication designers, process engineering, manufacturers and suppliers, computer hardware designers, software

James Cook University (continued)

developers, designers and manufacturers of industrial products, environmental management agencies, government departments.

Combined degrees: Refer to entries for: B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Science.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Engineering and Applied Science)/B Engineering (Hons).

| Bachelor of Engineering (Honours)/Bachelor of Information Technology | | | | | |
|--|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 314071 Townsville | 5F or 10P | 13/72 | 12/75 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 324071 Cairns | 5F or 10P | 14/70 | 11/77 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Students take a common first year of engineering subjects to develop a broad skills base and then choose a preferred engineering major. Engineering design is a central theme of the course. This five-year program allows students to combine their engineering degree with a major in information technology. **Note:** Not all majors are available at Cairns. No majors are available for mid-year entry in Cairns. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology. **Other requirements:** Students must complete 60 days of engineering professional practice prior to graduation and have a Senior First Aid certificate at time of graduation.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology.

| Bachelor of Engineering (Honours)/Bachelor of Science | | | | | |
|---|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| QUEENSLAND UNIVERSITY OF TECHNOLOGY | | | | | |
|-------------------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Engineering (Honours) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 412502 Gardens Point | 4F | 14/70 | 12/75 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: Students enter a common first semester of foundation study that provides a broad grounding in engineering disciplines, prior to selecting their desired stream of study. Primary study areas include chemical process, civil, computer and software systems, electrical, electrical and aerospace, mechanical, mechatronics and medical engineering. Other specialisations are available from second year, allowing students to further tailor their course.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** **Chemical process:** equipment design, chemical reactions, process control and industrial processes; **civil:** structural/geotechnical analysis, transport, water, municipal and waste management; **computer and software systems:** production of high quality, cost-effective software solutions with embedded systems application; **electrical:** power, control, signal processing; **electrical and aerospace:** design of electrical systems for aircraft; **mechanical:** mechanics, automotive, materials, fluid and thermodynamics; **mechatronics:** industrial automation and integrated systems; **medical:** combines mechanical engineering with anatomy, physiology, biomechanics, biomaterials, and bio-engineering. **Other requirements:** To graduate, students must complete 60 days of approved professional work in an engineering environment.

Career opportunities: Depending on specialisation: consulting engineer, governments, construction companies, environmental specialist, computer manufacturers, communications and digital signal processing products manufacturers, cable and network equipment manufacturers, defence agencies, electricity utilities, mining industry, telecommunications companies, automated systems and robotics, project manager, designer, instrumentation engineer, civil aviation safety authority, power generation and supply.

Double degrees: Refer to entries for: B Business/B Engineering (Hons); B Design/B Engineering (Hons); B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Mathematics; B Engineering (Hons)/B Science.

Combined diplomas/degrees: For civil engineering major, this program can be combined with the following course at TAFE Qld: AB Civil Engineering and Adv Dip Engineering. Refer to entry for the associate degree and advanced diploma under TAFE Qld.

| Bachelor of Engineering (Honours)/Bachelor of Information Technology | | | | | |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree equips students with the skills and knowledge to provide a range of professional civil engineering services in regional, national and international environments. It prepares graduates for work in the planning, design, construction and maintenance of civil engineering infrastructure such as buildings, roads, bridges, dams, pipelines, transport systems, and water supply and waste water treatment facilities. Students have access to specialist civil engineering software and state-of-the-art laboratories. In final year, students undertake industry experience. This course is also available online, contact Southern Cross University.

Specialisations: Civil engineering **Other requirements:** Students complete 60 days of compulsory industry experience relevant to engineering, which can be undertaken in one or more settings under the supervision of experienced engineers.

Career opportunities: Civil engineers in settings that include municipal and government road authorities, water supply and management agencies, construction companies, railway departments and companies, natural resource management organisations, consulting engineering companies, airport authorities, mining companies, irrigation authorities, research organisations, and in tertiary education (with further study).

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree is one of just a few specialist undergraduate professional engineering courses in Australia to train industry-ready graduates for work in water engineering, coastal engineering and catchment management. The course addresses an increasing need for engineering expertise in these fields that is currently only available through on-the-job training and/or postgraduate qualifications. Studies include coastal engineering and management, floodplain engineering and management, project management, hydraulic engineering, water and wastewater engineering, engineering geochemistry and hydrology. This course is also available online, contact Southern Cross University. **Majors:** Coastal systems engineering.

Other requirements: Students complete 60 days of compulsory industry experience relevant to engineering, which can be undertaken in one or more settings under the supervision of experienced engineers.

Career opportunities: Civil or environmental engineer in settings involving systems and infrastructure in the coastal zone, including municipal and government authorities, water supply and management agencies, construction companies, natural resource management organisations, consulting engineering companies, airport authorities, mining companies, irrigation authorities, research organisations, and education organisations.

| 054810 Lismore | 4F or 8P | New Course | New Course | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree equips students with the relevant skills and knowledge to provide a range of professional mechanical engineering services in regional, national and international environments. The course prepares graduates for work involving the design of machinery, computer-aided design and manufacturing, water supply, vibration, acoustics and noise control, robotics, heat transfer and refrigeration, energy technology, consumer product design, pollution control, and production planning. Study streams in design and production system engineering, thermo-fluid mechanics and energy systems, and mechatronics and control systems cover all aspects of mechanical engineering. This course is also available online, contact Southern Cross University. **Other requirements:** Students complete 60 days of compulsory industry experience relevant to engineering, which can be undertaken in one or more settings under the supervision of experienced engineers.

Career opportunities: Mechanical engineer in regional, national and international environments in diverse industries including heavy machinery, power generation, mining, manufacturing, production planning, automotive, aerospace, medical, environment, building industries, consumer product design and building services, consulting engineering, ship building, railroads and robotics industries.

| TAFE QUEENSLAND | | | |  | |
|---------------------------------------|----------|--|----------|---|---------------------------|
| Associate Degree in Civil Engineering | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 555948 South Bank | 2CL | 25/57 | 25/57 | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Assumed knowledge: English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Additional entry information:** Successful applicants who do not have the assumed knowledge and are at risk of non-completion of the program may be required to undertake bridging studies prior to or during first semester. For more information about admission criteria, refer to tafeqld.edu.au/course/10250/associate-degree-civil-engineering.

Course outline: This course allows graduates to progress their career as engineering professionals and become technical consultants or engineering associates. In this associate degree, students develop skills in the application of civil and structural engineering technology. Students develop specialised knowledge of drafting and modelling structural, municipal and environmental engineering, project management and estimating skills. Teaching staff ensure students can synthesise elements of their theoretical and practical understanding through designing and implementing an engineering project to standards applicable to a modern civil or structural engineering practice. **Note:** FEE-HELP is available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/fee-help for information.

Career opportunities: BIM coordinator/collaborator, engineering associate, estimator, design drafter, project manager, civil/structural designer and modeller.

Combined diplomas/degrees: The Associate Degree in Civil Engineering can be combined with other programs as listed below to attain the awards of Associate Degree in Civil Engineering from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland

TAFE Queensland (continued)

students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined associate degree/degree, applicants must select the Associate Degree in Civil Engineering for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone associate degree or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

AB Civil Engineering/B Construction Management (Honours)

555948 South Bank/Griiffith University (2CL & 4F)

AB Civil Engineering/B Engineering (Honours) (Civil):

555948 South Bank/Griiffith University (2CL & 2.5F)

555948 South Bank/Queensland University of Technology (2CL & 2.5–3F)

Advanced Diploma of Electronics and Communications Engineering

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 597292 Eagle Farm | 2CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C) or completed Engineering Trade Certificate III.

Course outline: In this course, learners develop expert skills to design and validate electronics and communication equipment and systems, manage risk, provide technical advice and estimate and manage projects. Study areas may include develop strategies to address environmental and sustainability issues in the energy sector, develop design briefs for electrotechnology projects, commission electronics and communications systems, modify/redesign electronics and communications systems, implement and monitor energy sector OHS policies and procedures, and manage computer systems/electronics projects. **Note:** VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Senior technical officer – electronics and communications engineering.

☆ All qualified applicants were offered a place.

Advanced Diploma of Engineering

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 596942 Acacia Ridge | 2CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** A pass in Year 10 English; Maths.

Course outline: This course helps students develop the specialised skills and knowledge required to become a mechanical engineering technician or associate. In this course, students gain detailed drafting and design skills, and learn how to oversee the installation and maintenance of machinery. Students also develop knowledge of engineering processes and principles, project management, quality systems, and team building. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Engineering associate, mechanical engineering technician.

Combined diplomas/degrees: The Advanced Diploma of Engineering can be combined with other programs as listed below to attain the awards of Advanced Diploma of Engineering from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Advanced Diploma of Engineering for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

AdvD Engineering/B Engineering (Honours):

596942 Acacia Ridge/Queensland University of Technology (2CL & 3F)

TAFE Queensland students are required to articulate to QUT within 3 years of their QTAC offer.

☆ All qualified applicants were offered a place.

Advanced Diploma of Engineering Technology – Electrical

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 597952 Eagle Farm | 2CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: In this course, learners develop the expert skills needed to design and validate electrical equipment and systems. Graduates work in areas including electrical design, project management, process control, variable speed drives and programmable logic controllers. Study areas include use engineering applications software on personal computers, fabricate, assemble and dismantle utilities industry components, use drawings, diagrams, schedules, standards, codes and specifications, and solve problems in electromagnetic devices and related circuits. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will

pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Electronic engineering draftsman, electronic engineering technician.

☆ All qualified applicants were offered a place.

Diploma of Electronics and Communications Engineering

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 597293 Eagle Farm | 1 1/2CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Assumed knowledge: English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: In this course, students develop extensive skills in configuring computer networks as well as programming and fault-finding micro-controller equipped devices. Students learn about electronic engineering redesign, commissioning electronic systems, risk assessment, and technical documentation. Learners also gain soldering, cabling and termination skills. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Technical officer – electronics and communications engineering.

☆ All qualified applicants were offered a place.

Diploma of Engineering – Technical

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 596941 Acacia Ridge | 1CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** A pass in Year 10 English; Maths.

Course outline: This course covers a comprehensive theoretical and semi-technical base for working in the mechanical, mechatronic, manufacturing and maintenance fields at a para-professional level. Students advance their skills in mathematics, materials science, quality assurance, engineering drawing and computing, as well as management and maintenance strategies. This course emphasises the transfer of theoretical concepts to practical real-world applications. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Engineering technician, engineering technologist, mechanical engineering technician.

☆ All qualified applicants were offered a place.

THE UNIVERSITY OF QUEENSLAND**Bachelor of Engineering (Honours)**

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717001 St Lucia | 4F or 8P | 9/82 | 8/84 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: The Bachelor of Engineering (Honours) prepares you for a career addressing some of the key challenges of the 21st century, such as water resourcing, infrastructure and communication, food and health services supply, and sustainable energy development. You'll choose from Australia's largest range of engineering majors, graduating with an honours qualification and skills that set you apart in a competitive job market. **Majors:** Chemical engineering*; chemical and biological engineering; chemical and environmental engineering; chemical and materials engineering; chemical and metallurgical engineering; civil engineering*; civil and environmental engineering; civil and geotechnical engineering; electrical engineering*; electrical and biomedical engineering; electrical and computer engineering; mechanical engineering*; mechanical and aerospace engineering; mechanical and materials engineering; mechatronic engineering (extended major only); mining engineering*; mining and geotechnical engineering; software engineering*. *An extended major is also available.

Other requirements: All engineering students must complete 450 hours of engineering professional practice prior to graduation.

Career opportunities: Graduates work as engineers and consultants in government, business and industry within Australia and overseas.

Dual degrees: Refer to entries for: B Engineering (Hons)/B Arts; B Engineering (Hons)/B Biotechnology (Hons); B Engineering (Hons)/B Business Management; B Engineering (Hons)/B Commerce; B Engineering (Hons)/B Computer Science; B Engineering (Hons)/B Economics; B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Mathematics; B Engineering (Hons)/B Science.

Bachelor of Engineering (Honours)/Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717401 St Lucia | 5 ^{1/2} F or 11P | 8/84 | 8/84 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: This course combines studies in engineering with a wide range of arts majors. In the engineering component, develop your understanding by applying science and engineering principles to engineering problems of commercial importance. This course emphasises essential workplace skills such as communication, teamwork, project management, problem-solving and lifelong learning. The arts component provides skills in written communication, problem-solving, critical thinking and interpersonal understanding that expand your employment opportunities.

Note: Options for accelerated study include summer semester or studying more courses throughout semesters one and two. **Majors:** *Engineering (Hons):* chemical; civil; electrical; mechanical; mining; software. *Arts:* Refer to Bachelor of Arts.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Arts.

Bachelor of Engineering (Honours)/Bachelor of Biotechnology (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717501 St Lucia | 5 ^{1/2} F or 11P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: This dual degree provides the practical and theoretical requirements for a professional engineering qualification and introduces you to the commercialisation aspects of the biotechnology industry. The biotechnology component applies scientific and engineering principles to living organisms to produce products and services of value to society. These include novel therapeutic drugs, vaccines, foods, fibres, diagnostic tests and alternative energy sources.

Note: Options for accelerated study include summer semester or studying more courses throughout semesters one and two. **Majors:** *Engineering (Hons):* chemical engineering. *Biotechnology:* process technology.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Biotechnology (Hons).

Bachelor of Engineering (Honours)/Bachelor of Business Management

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717301 St Lucia | 5 ^{1/2} F or 11P | 8/84 | 8/84 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: This degree gives you a high level of proficiency in your chosen engineering discipline and the skills to be successful in business. The engineering component develops specialised skills and knowledge to deliver practical solutions to some of society's most complex problems. Gain experience and valuable connections through professional practice in industry. The business management component is designed for aspiring business leaders and managers. **Note:** Specialist Mathematics is recommended for this course. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons):* chemical; civil; electrical; mechanical; mining; software. *Business management:* advertising; business economics; human resources; international business; marketing.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Business Management.

Bachelor of Engineering (Honours)/Bachelor of Commerce

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717201 St Lucia | 5 ^{1/2} F or 11P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: Gain specific practical and theoretical understanding relevant to your chosen field in engineering together with a focused background in commerce. The engineering component provides you with a strong foundation in mathematics, science and engineering designed to meet engineering demands now and in the future. The commerce component equips you with the fundamental principles of commerce and the business environment. **Note:** Specialist Mathematics is recommended for this course. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering*

(*Hons*): chemical; civil; electrical; mechanical; mining; software. *Commerce:* Refer to Bachelor of Commerce.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Commerce.

Bachelor of Engineering (Honours)/Bachelor of Computer Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717721 St Lucia | 5 ^{1/2} F or 10P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: This dual degree allows you to combine studies in engineering with emerging computer science technologies. The engineering component develops specialised skills and knowledge to deliver practical solutions to some of society's most complex problems, while the computer science component combines algorithms and data structures with the practical challenges of implementing them in hardware and software systems. You can gain experience through professional practice in industry, making valuable connections. **Majors:** *Engineering (Hons):* chemical; civil; electrical*; electrical and biomedical; electrical and computer; mechanical; mechatronic; mining. *An extended major is also available. *Computer science:* Refer to Bachelor of Computer Science.

Career opportunities: Refer to the Bachelor of Engineering (Honours) and the Bachelor of Computer Science.

Bachelor of Engineering (Honours)/Bachelor of Economics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717601 St Lucia | 5 ^{1/2} F or 11P | 7/87 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: Develop a solid understanding of economic concepts and techniques such as how to question, analyse, model and predict economic trends and outcomes, while learning engineering principles and skills and attaining a high level of engineering proficiency. You graduate with the ability to predict how current and forecasted economic trends may impact engineering projects. **Note:** Specialist Mathematics is recommended for this course. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons):* chemical; civil; electrical; mechanical; mining; software. *Economics:* Refer to Bachelor of Economics.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Economics.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 717701 St Lucia | 5 ^{1/2} F or 11P | 7/87 | 8/89 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: Combine theory and practice of modern computing with another field in engineering. Gain a strong foundation in mathematics, science and engineering design principles, which are further developed through practical application. The IT component is a hands-on, project-focused program, based on international standards for computer science and information systems. **Note:** Options for accelerated study include summer semester or studying more courses throughout semesters one and two. **Majors:** *Engineering (Hons):* chemical; civil; electrical; mechanical; mining. *Dual or extended majors:* electrical; electrical and biomedical; electrical and computer mechatronics. *Information technology:* Refer to Bachelor of Information Technology.

Career opportunities: Software/hardware engineer, professional engineer, robotics engineer, systems designer, information architect, data scientist.

Bachelor of Engineering (Honours)/Bachelor of Mathematics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| 927362 Springfield | 5F or 8P | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C). **Additional entry information:** External students must complete a minimum of five units of study per year, or be eligible for 16 units of credit, to complete the program within the maximum duration.

Program outline: This program prepares students for careers in both engineering and science. Students explore real-world problems from multiple scientific perspectives. Students choose an engineering major and combine it with their choice of science major. This combined degree uses theoretical knowledge and practical experience to produce graduates who are successful in their chosen career pathway. **Note:** None of the Bachelor of Science majors are available at the Springfield campus. However, Springfield students may be able to take a Science major externally. **Majors:** *Engineering:* agricultural; civil; computer systems; electrical and electronic; environmental; instrumentation control and automation (external only); *mechanical; power. *Science:* biology; computing; environment and sustainability; food science; human physiology; mathematics; physical sciences; plant agricultural science; statistics; wine science. *Students taking the mechanical engineering major cannot complete the science computing major within 40 units. **Other requirements:** Students must complete 60 days of work experience in an engineering workplace.

Career opportunities: Professional engineer with expertise in a science discipline. Depending on the engineering major: professional engineering (civil), agricultural hydrology, soil conservation, machinery manufacture, environmental management, urban development, computer hardware design, networking, communications, food processing, power stations, telecommunications, manufacturing industries, transport industries, robotics, port authorities. Depending on science specialisation: science journalism, statistical officer, research, biologist, computer systems programmer, network administrator, specialist scientist, technical officer, technical/ sales representative in pharmaceutical, medical and biotechnological industries, molecular biologist, microbiologist, conservation and biodiversity management, natural resource management, national parks, food product development, food safety, mathematician, financial analyst, agribusiness, vineyard or winery operation.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Program outline: Students are prepared for a career in one of Australia's most rapidly changing industries. Students benefit from working with modern technology and tools including satellite imagery and laser measurement systems for 3D mapping and visualisation of the natural built environment. Students develop practical experience with the technical, analytical and leadership skills they'll need to succeed. Students apply these newly acquired skills and knowledge to a final-year research project. **Note:** External students must attend at least one, week-long, residential school in Springfield and Toowoomba during most years of the program. **Majors:** *Toowoomba and external:* geographic information systems (GIS); surveying. *Springfield:* surveying. **Other requirements:** Attendance at field excursions and practice courses in the form of residential schools is compulsory.

Career opportunities: Land development, mining, engineering surveying, geographic information systems (GIS), remote sensing, town planning, mapping.

| 927801 Springfield | 3F or 6P | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 907805 External | 3X or 6X | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Program outline: This program offers a practical, skill and knowledge-based degree where students learn about geographical information systems or surveying. Students gain hands-on experience with modern technology and tools including satellite imagery and laser measurement systems. Along with developing analytical and leadership skills, this program allows students to acquire practical knowledge to work on a range of surveying projects including land development, mining or becoming a professional geographic information systems manager or spatial information analyst. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** *Toowoomba and external:* geographic information systems (GIS); surveying. *Springfield:* surveying. **Other requirements:** Attendance at field excursions and practice courses in the form of residential schools is compulsory.

Career opportunities: Land development, mining, engineering, surveying, geographic information systems, remote sensing, town planning and mapping.

❖ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Associate Degree of Engineering | | | | | |
|---------------------------------|----------|--|----------|----------------------------------|---|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 907052 Toowoomba | 2F or 4P | 20/62 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 927052 Springfield | 2F or 4P | 18/64 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 907055 External | 2X or 4X | 17/65 | 16/66 | Nov 2020 Feb 2021 Jul 2021 | 8 Oct 2020 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Additional entry information: Applicants must nominate on their QTAC application one preferred major of study.

Program outline: Students gain industry-driven knowledge and the skills to apply practical analysis and technical principles to their chosen specialisation. This program prepares students for employment as associate engineers or can be used as a pathway to a bachelor's degree. This program expands students' knowledge in a range of technologies and equipment to assist in the design, management and construction of engineering projects. Students develop the basic problem-solving skills that can be applied to engineering problems, while gaining an understanding

University of Southern Queensland (continued)

of the principles of sustainability. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** *Toowoomba*: agricultural engineering; civil engineering; electrical and electronic engineering; mechanical engineering; mining engineering.

External: agricultural engineering; civil engineering; electrical and electronic engineering; instrumental control and automation engineering; mechanical engineering; mining engineering.

Springfield: civil engineering; electrical and electronic engineering; mechanical engineering.

Other requirements: All students must complete 30 days of work experience in an engineering workplace.

Career opportunities: Depending on specialisation: with engineering consultants, government agencies, companies associated with mining, resources, farming, agricultural products, construction, research and development, manufacturing, processing, materials testing.

Associate Degree of Spatial Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 907062 Toowoomba | 2F or 4P | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 927061 Springfield | 2F or 4P | 22/60 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 907065 External | 2X or 4X | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Additional entry information: Applicants must nominate on their QTAC application one preferred major of study.

Program outline: This program arms students with the technical and analytical skills for a career in one of the country's most rapidly changing industries. Students acquire knowledge of innovative technologies including satellite imagery and laser measurement systems. Students develop critical insights into spatial science through study of surveying, mapping, engineering systems, land development, town planning, environmental management, land law, and sustainable development.

Note: External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** *Toowoomba and external:* geographic information systems (GIS); surveying; urban and regional planning. *Springfield:* surveying.

Other requirements: Attendance at field excursions and practice courses in the form of residential schools is compulsory.

Career opportunities: Land development, mining, engineering surveying, geographic information systems (GIS), remote sensing, town planning, mapping.

❖ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

UNIVERSITY OF THE SUNSHINE COAST**Bachelor of Engineering (Civil) (Honours)**

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 013731 Sunshine Coast | 4F or 8P | 15/68 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014731 Moreton Bay | 4F or 8P | 16/66 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students learn how to design, construct, operate, maintain and recycle the physical and natural environments. They gain a broad foundation in engineering and mathematics. Students develop skills in problem-solving, teamwork and communication, and gain technical, business management and scientific environmental knowledge. They examine current engineering professional practice with emphasis on the creative nature of engineering. **Note:** *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021.

Other requirements: Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Government agencies, construction companies, engineering consultancies, building industry, water supply authorities, mining industry, research organisations.

Combined degrees: Refer to entry for: B Engineering (Civil) (Honours)/B Environmental Science.

Bachelor of Engineering (Civil) (Honours)/Bachelor of Environmental Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 013751 Sunshine Coast | 5F or 10P | 13/72 | 13/72 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014751 Moreton Bay | 5F or 10P | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students learn how to design, construct, operate, maintain and recycle the physical and natural environments as civil engineers and to become skilled environmental professionals managing human interaction with the natural environment. The program develops the scientific base needed to make judgements on the conservation and use of natural ecosystems and resources, while providing a broad foundation in engineering. **Note:** *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Government agencies, construction companies, engineering and environmental consultancies, mining industry, research, parks and wildlife, resource management.

❖ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Engineering (Electrical and Electronic) (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 014711 Moreton Bay | 4F or 8P | 16/66 | 13/72 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students learn how to design, develop and maintain electrical systems as electrical engineers. They learn the fundamentals of engineering; develop in-depth skills in electrical and electronic engineering theory, standards and practice; and develop advanced problem solving, communication and project management skills. The program also covers renewable energy power systems and the importance of sustainable development. **Note:** Only first and second year subjects offered in 2021. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Power generation, transmission and supply industry, data communication, automation and robotics, engineering consultancies, aerospace, mining, defence.

| Bachelor of Engineering (Mechanical) (Honours) | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013741 Sunshine Coast | 4F or 8P | 15/68 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014741 Moreton Bay | 4F or 8P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students investigate energy generation, dynamic mechanisms, simulation, manufacturing and fluid flow control. They learn how to design new machines and devices and develop better manufacturing methods and systems. Students undertake foundation studies in engineering and the sciences and courses leading to competence in engineering research, engineering design and operation and management of engineering systems. Guest lecturers from industry ensure high-level exposure to current engineering professional practice. **Note:** *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021.

Other requirements: Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Mining, chemical processing, pharmaceutical, manufacturing, oil and gas, automotive, aviation, electrical power, transport, defence, agriculture.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Engineering (Mechatronic) (Honours) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 014721 Moreton Bay | 4F or 8P | 17/65 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students learn how to design, develop and maintain complex machines that require multiple technologies to function. They learn the fundamentals of mechanical engineering, electronic engineering and computer engineering. These devices could be as simple as a domestic microwave oven to the futuristic self-drive vehicles or interactive robots. To be effective in a multi-disciplinary engineering team, students learn the fundamental theories, standards and code of practice, and develop advanced problem solving, communication and project management skills. **Note:** Only first and second year subjects offered in 2021. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Automation, robotics, automotive, manufacturing, food processing industries, power generation, agriculture, pharmaceutical companies, aerospace, mining, defence.

HEALTH AND RECREATION

| AUSTRALIAN CATHOLIC UNIVERSITY | | | | | |
|--------------------------------|----------|--|----------|-------------|-------------|
| Bachelor of Biomedical Science | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115941 Brisbane | 3F or 6P | 20/62 | 17/65 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This course prepares graduates with a concern for the common good to apply a broad and coherent body of knowledge with strong professional and industry focus. Our graduates are expected to make their own contributions to the medical science field by pursuing careers in biomedical research or by working in diagnostic pathology laboratories. Our majors and minors offer a more thorough understanding of several key areas of biomedicine such as physiology, pharmacology, chemistry, and nutrition science. After graduation, biomedicine professionals are expected to work with cutting-edge technology and to collaborate within healthcare teams to create novel solutions to global and national health challenges. Graduates may also choose to complete postgraduate degrees in medicine and allied health. **Majors:** Physiological pharmacology. **Other requirements:** Students must undertake one unit of workplace learning with an external organisation of their choice, and one unit focusing on community engagement.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal research and quality assurance, science communication, research in universities, hospitals or the public health sector.

Double degrees: Refer to entries for: B Biomedical Science/B Business Administration; B Biomedical Science/B Laws.

| Bachelor of Biomedical Science/Bachelor of Business Administration | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115961 Brisbane | 4F or 8P | ✦ | ✦ | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This double degree provides students with an understanding of business management and how organisations work. This enhances their professional careers in biomedical contexts across a range of organisations. Students learn how the human body functions, what causes disease and how disease is treated. The biomedical science component trains students in the core areas of anatomy, physiology, biochemistry, pharmacology, immunology and microbiology. Students are introduced to each of these disciplines via core units and are expected to undertake detailed study in at least one discipline through elective units. **Other requirements:** Students must undertake two units of workplace learning with an external organisation of their choice.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal, research and quality assurance working in hospitals, universities or the public health sector.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Exercise and Sports Science | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115711 Brisbane | 3F or 6P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course focuses on exercise and health in the context of elite sport, recreational physical activity, and community wellbeing, and the roles and benefits of exercise and healthy lifestyles. Students graduate with a strong academic base in exercise prescription, sports performance analysis and physical activity across the lifespan, in the context of the scientific principles of fitness and health and their application. **Other requirements:** Students undertake 140 hours of appropriate professional experience.

Career opportunities: Exercise scientist, sports scientist, sports coach, exercise physiologist, health and fitness consultant.

Double degrees: Refer to entries for: B Education (Secondary)/B Exercise Science; B Exercise Science/B Business Administration.

| Bachelor of Exercise Science/Bachelor of Business Administration | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115921 Brisbane | 4F or 8P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This double degree combines core curricula from exercise science and business administration. Students gain extensive knowledge of how the human body works, with a specific focus on the role of exercise in health, wellbeing and performance. Students learn how to grow a business through an understanding of markets and application of business marketing. **Other requirements:** Students must complete a structured community engagement experience as a volunteer in a not-for-profit organisation.

Career opportunities: Corporate health and fitness, family and community services, health and fitness industry, government agencies, state sporting associations, rehabilitation clinics, personal training.

| Bachelor of High Performance Sport | | | | | |
|------------------------------------|--------------------------------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115981 Brisbane | 2 ^{1/2} F or 3F or 6P | 18/64 | 14/71 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In this degree, you will gain skills in sports performance and analysis, exercise programming, and in the strength and conditioning of athletes. You'll learn to design and deliver programs that enhance athletic performance and reduce the likelihood of injury and illness. This degree provides extensive knowledge and skills in human performance, from the physiological, psychological, biomechanical, nutritional and skill-based perspectives. **Note:** The two-and-a-half year course map is only available to students commencing in semester 1 and requires students to enrol in summer and winter units, which might not be feasible/attractive for some students. Therefore, a course map is also offered for students seeking a traditional three-year progression. **Other requirements:** Students must complete 200 hours of appropriate professional experience as part of course accreditation requirements.

Career opportunities: Sport and recreation departments, high performance sport organisations, corporate fitness, strength and conditioning coach, sports or rehabilitation scientist/coach.

| Bachelor of Midwifery | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115512 Brisbane | 3F or 6P | 15/69 | 13/74 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Graduates of this course are eligible for endorsement as entry-level midwives according to the internationally defined role of the midwife. Students acquire the skills and knowledge to manage normal pregnancy and childbirth and provide effective postnatal, maternal and newborn care in any maternity setting. Students undertake a variety of clinical units throughout the course in maternity hospitals and community facilities. **Other requirements:** For criminal record check and health requirements, refer to institution. Students undertake approximately 1000 hours of professional experience.

Career opportunities: Midwife, consultant midwife, clinical specialist, prenatal educator, researcher, family care unit or child health centre professional.

| Bachelor of Nursing | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115412 Brisbane | 3F or 6P | 20/62 | 17/65 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course develops caring professional nurses who are proactive and adaptable, competent and ethical clinicians, and creative and critical thinkers. Across the course, theory is consistently embedded in clinical practice through the inclusion of one Integrating Practice unit every semester. Clinical placement areas include aged care, community nursing, high dependency nursing, medical/surgical nursing, mental health, paediatrics, palliative care, and perioperative nursing. Students may also take up the opportunity to engage with communities overseas and gain unique educational and cultural experiences working in care facilities in developing countries. **Other requirements:** For criminal record check and health requirements, refer to institution. Students undertake at least 800 hours of professional experience.

Career opportunities: Registered nurse in a range of private, public and community environments.

Double degrees: Refer to entries for: B Nursing/B Business Administration; B Nursing/B Paramedicine.

| Bachelor of Nursing/Bachelor of Business Administration | | | | | |
|---|--------------------------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115312 Brisbane | 4 ^{1/2} F or 9P | 19/63 | 16/67 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Graduates of this course are prepared to meet the evolving business management expectations of health services. In the range of practice settings from hospitals to aged care, general practice, private practice and the community, health is increasingly seen as a business, and nurses must contribute to the success of that business through effective management of staff and financial resources. **Other requirements:** For criminal record check and health requirements, refer to institution. Students undertake at least 800 hours of professional experience in nursing.

Career opportunities: Private, public and community nursing environments that require an understanding of business processes.

| Bachelor of Nursing/Bachelor of Paramedicine | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115611 Brisbane | 4F or 8P | 18/64 | 14/71 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Graduate as both a qualified nurse and paramedic, gaining practical experience in a range of health care environments such as rural and remote areas where multi-skilled practitioners are highly valued. In addition, innovative simulation activities provide a rounded and robust learning experience to prepare for real-world clinical and professional challenges.

Other requirements: Students must take a medical and physical capacity test prior to commencing clinical placement with an Australian ambulance service. This is an ambulance service mandatory requirement. For criminal record check and health requirements, refer to institution. Students undertake at least 800 hours of professional experience in nursing and at least 480 hours of professional experience in paramedicine and 80 hours of simulations.

Career opportunities: Registered nurse, paramedic, medical dispatcher, medical/surgical nurse, accident and emergency nurse. On graduation, and subsequent to an internship year with an ambulance service, students can become qualified/registered paramedics. They are also eligible for postgraduate training to become intensive/critical care paramedics.

| Bachelor of Occupational Therapy | | | | | |
|----------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115821 Brisbane | 4F or 8P | 16/67 | 13/74 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Additional entry information: Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: Occupational therapists play an important role in the lives of individuals and communities to enable participation in occupations of self-care, productivity and leisure. Occupational therapists need to know how humans function as occupational beings, requiring a range of skills that enable them to practice competently and safely. Students develop the ability to analyse and assess occupational performance, apply and evaluate interventions to enable occupational performance and collaborate and communicate effectively with clients, their families and colleagues. **Other requirements:** Students undertake approximately 1000 hours of professional experience across four years.

Career opportunities: Public and private hospitals, community health centres, rehabilitation centres, private practice, nursing homes, aged-care facilities.

| Bachelor of Paramedicine | | | | | |
|--------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115461 Brisbane | 3F or 6P | 20/62 | 15/69 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course develops professional paramedics who are emotionally intelligent and motivated to improve communities. Students will learn how to deliver compassionate primary, urgent and/or emergency health care in challenging and dynamic environments and gain critical thinking and problem-solving skills that enable them to cope in high-pressure environments. Students gain reasoning critical thinking and problem-solving skills that enable them to cope in high-pressure environments. Students will undertake five clinical practice units in a variety of healthcare situations. In addition, innovative simulation activities provide a rounded and robust learning experience to prepare for real-world clinical and professional challenges.

Other requirements: Students must undertake a medical and physical capacity test prior to commencing clinical placement with an Australian ambulance service. This is an ambulance service mandatory requirement. For criminal record check and health requirements, refer to institution. Students undertake at least 520 hours of professional experience and 80 hours of simulations.

Career opportunities: Paramedic with an Australian ambulance service and in some international ambulance or health organisations. Graduates are also eligible for postgraduate training to become intensive/critical care paramedics.

Double degrees: Refer to entry for: B Nursing/B Paramedicine.

| Bachelor of Physiotherapy | | | | | |
|---------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 115811 Brisbane | 4F | 11/78 | 8/86 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Additional entry information: Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: As a physiotherapist, you will work with people who have problems with their cardiorespiratory, musculoskeletal or neurological systems. By learning the necessary skills to optimise movement and function, you'll help people overcome movement disorders, either

present at birth or associated with ageing or life-changing events. Students undertake clinical placements throughout the program, starting in year one. Fourth-year students undertake four to six placements of five weeks' duration, encompassing a range of clinical physiotherapy areas including musculoskeletal outpatients, neurology and cardiorespiratory plus a selection of specialised and/or elective areas. **Other requirements:** Students undertake at least 1000 hours of professional experience across four years.

Career opportunities: Physiotherapist specialising in rehabilitation, paediatrics, women's health, sports physiotherapy, cardiorespiratory, orthopaedics, gerontology and ergonomics.

Bachelor of Speech Pathology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 115631 Brisbane | 4F | 18/64 | 16/67 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology, Physics, Health or Physical Education (Units 3 and 4, C). **Additional entry information:** Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: This course prepares students to assess and manage communication disorders and encompasses all aspects of communication including speech, writing, reading, signs, symbols and gestures. Students study the theoretical and practical aspects of speech, hearing, language, voice, and difficulties in swallowing and feeding. The course is designed to expose students to speech pathology practice from the first year of the degree. **Note:** The course is currently accredited with Speech Pathology Australia in Brisbane, Melbourne, and North Sydney. Accreditation means that all graduates are eligible to apply for membership of Speech Pathology Australia. The course is undergoing a scheduled review of its accreditation status in 2020, for 2021 onwards. **Other requirements:** Students undertake approximately 750 hours of professional experience across four years.

Career opportunities: Public and private hospitals, acute care and outpatient facilities, schools, community health centres, early childhood clinics, private practice.

BOND UNIVERSITY

Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 020712 Gold Coast | 4 ^{2/3} F | ◇ | ◇ | May 2021 | 12 Mar 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Mathematical Methods or Physics (Units 3 and 4, C); Bond University Medicine Test; interview.

Additional entry information: Entry to this course is highly competitive and limited to Australian citizens, Australian permanent residents, holders of an Australian Humanitarian visa and New Zealand citizens (but not New Zealand permanent residents). Applicants will be selected initially on their academic rank, followed by their psychometric test outcome and finally, their interview rank. Progression to each stage of the selection process is not automatic and Bond will invite selected applicants to each stage. For additional application and assessment information, including prerequisite information, visit bond.edu.au/medical-program. This program is for applicants who have completed Year 12 and who have not previously completed tertiary studies at a bachelor degree level or higher. **Closing date:** QTAC will accept applications and changes of preference from 14 January 2021 to 28 January 2021. **Note:** All required supporting documentation must be submitted to QTAC by 29 January 2021. Late and incomplete applications will not be considered.

Course outline: The Bond Medical Program comprises two sequential degrees: the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of year 5. Learning and teaching in the BMedSt occurs in small group sessions comprised of interactive cases through problem-based learning, as well as clinical skills laboratories, simulation activities, community and clinical placements and a cultural immersion experience. This is followed, in the MD, by clinical rotations in hospital and community healthcare settings, as well as face-to-face teaching at timetabled education sessions. During this time, students undertake a research or professional project, or a capstone experience and prepare a portfolio of their work. For more information about the Bond Medical Program, visit bond.edu.au/medical-program.

Career opportunities: With further study, general practitioner or medical specialist in private practice, the public health system, community health centres, corporations, and in medical research.

◇ Admission was based on special entry requirements in addition to academic achievement.

| 851725 Online | 3X or 6X | ◆ | ◆ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course equips students with the skills to conduct and analyse accident investigations based on knowledge and techniques relevant to road, rail, air and industrial environments. Education and training focuses on areas including accident phenomenology, investigation methods, forensic engineering, accident analysis and occupational health and safety. Students develop skills to prevent the recurrence of accidents. **Note:** On-campus students may need to complete some units online. All students attend compulsory residential schools at the crash lab in Bundaberg throughout the duration of the course. Some units have compulsory attendance requirements at other CQUniversity campuses. *Bundaberg, Gladstone, Rockhampton & Brisbane:* Students can attend on-campus lectures for the first two years of the course in core AF & OHS subjects. Some third year subjects are also available internally. *Mackay:* Students can attend on-campus lectures for the first two years of the course in core AF & OHS subjects. Some second and third year subjects are also available internally. **Other requirements:** Personal protective equipment and a crash kit are required for learning sessions at the crash lab. For full course requirements, visit cq.edu.au/courses.

Career opportunities: Roles in industries such as primary industry, rural safety, manufacturing, mining, transport, aviation, government departments, police force.

◆ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Allied Health

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 850511 Rockhampton | 3F or 6P | ◆ | ◆ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 850515 Online | 3X or 6X | 17/65 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This is a practical course designed to develop well-rounded skills and provide students with a foundation learning opportunity. Studies focus on human body systems, the role of allied health practitioners, and health care in contemporary society. This exciting course reflects the contemporary direction of the national agenda on health and has a multi-disciplinary approach. You will undertake field placements during your studies and gain real-life experience. **Note:** Students studying online must attend compulsory on-campus residential schools in Rockhampton for some units. **Other requirements:** Students are required to undertake work-based placement in a relevant facility. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cq.edu.au/courses.

Career opportunities: Health promotion, public health, health research, health education.

◆ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Echocardiography and Cardiac Physiology/Graduate Diploma of Echocardiography

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 881851 Brisbane | 4F or 8P | 14/70 | 13/72 | Mar 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2020.

Program outline: Enjoy the opportunity to join a niche medical profession with no prior degree in health sciences. This course is the first Australian course allowing undergraduate entry to this growing field within diagnostic medical imaging. Graduates will be able to apply knowledge of cardiac physiology, measurement science and practical echocardiographic scanning skills in the diagnostic setting. This is a high demand course and places are limited. **Note:** Students can elect to complete their first-year units online, but must study on campus for the second, third and fourth years of the course. Students who elect to study units online must attend compulsory residential schools at their nominated campus. **Other requirements:** Students must meet specific pre-clinical

CQUniversity Australia (continued)

health, safety, security and licensing requirements prior to each placement, and must disclose any condition that may put themselves or the public at significant risk while on placement. Students undertake a total of 2000 hours of full-time clinical study. As placements are located throughout Australia and availability is limited in each community, students may be placed at locations that are not of their choosing. Students must prepare financially and personally to relocate for placements, and are responsible for the associated costs. Students must apply for admission to the Register of Accredited Student Sonographers during the second year, prior to the clinical placement in term 3. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: This course prepares you to practise as an echocardiographer in public and private hospitals and community health care services.

Bachelor of Exercise and Sport Sciences

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 828621 Cairns | 3F or 6P | 16/66 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 848621 Mackay | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 858621 Rockhampton | 3F or 6P | 15/68 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 858625 Online | 3X or 6X | 14/70 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course equips students with practical skills in the various disciplines relevant to exercise and sport sciences such as anatomy and physiology, nutrition, exercise physiology, biomechanics, exercise and sport psychology, motor control and learning, and exercise prescription and delivery. Students gain a comprehensive understanding of the processes and mechanisms of the human body as they relate to exercise and sport science and have the flexibility to pursue an area of interest, with a choice of minor in biomedical sciences, secondary teaching or sport management. **Note:** Students studying online attend compulsory residential schools for some units. **Other requirements:** Across the three-year course, students will complete up to 240 hours of work integrated learning through voluntary experience and observation in professional practice placements, working with the general population, sporting populations, and rehabilitation or special populations. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Sporting organisations, corporate health and fitness, sports institutes and academies, coaching and development, rehabilitation clinics, physical education teaching (with further study).

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Medical Imaging

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 841681 Mackay | 4F | 13/72 | 12/75 | Mar 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2020.

Program outline: This is a high demand course and places are limited. This course prepares students to work as radiographers and enables them to provide safe and accurate imaging examinations in a wide range of clinical environments. Students are trained in a state-of-the-art, purpose-built environment and use the latest technology to ensure they graduate work ready. Education and training focuses on developing key competencies so students are confident in digital technology, community engagement and remote and rural innovation. By completing extensive work placements, students gain practical experience and apply their skills and knowledge in a real-world setting. **Note:** Students can complete the first year online with subsequent years on campus at Mackay. Students who study units online may be required to attend residential schools at Mackay. **Other requirements:** Students must meet specific pre-clinical health, safety, security and licensing requirements prior to each placement, and must disclose any condition that may put themselves or the public at significant risk while on placement. Students undertake 56 weeks of full-time clinical study. As placements are located throughout Queensland and availability is limited in each community, students may be placed at locations that are not of their choosing. Students must prepare financially and personally to relocate for placements, and are responsible for the associated costs. All students must be registered with the Medical Radiation Practice Board of Australia. As per Health Practitioner Regulation National Law, all students are placed on the student register of the Australian Health Practitioner Regulatory Agency (AHPRA) for the duration of their course. Education providers are obligated to notify AHPRA of any student impairment that may place the public at substantial risk of harm. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Diagnostic radiographers in public and private practice and community health care services.

| Bachelor of Medical Laboratory Science (Honours) | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 851681 Rockhampton | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 851685 Online | 4X or 8X | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course allows students to build technical and evaluative skills to assess and implement recommendations for best practice in patient testing, monitoring and education. Students will develop an advanced level of communication skill to ensure positive interactions with both patients and other health professionals. Through opportunities in professional practice, case-based studies and research projects, students will develop clinical decision-making and problem-solving abilities to enable students to successfully perform duties as a medical laboratory scientist upon graduation. **Note:** Students are required to complete compulsory residential schools for some units. Residential schools typically take place at CQUniversity Rockhampton.

Other requirements: Students must undertake compulsory clinical placement during their studies for some units. Students must provide evidence of completion of mandatory checks prior to commencement of work-integrated learning.

Career opportunities: Medical laboratory scientist.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Medical Science (Specialisation)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 851701 Rockhampton | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 851705 Online | 3X or 6X | 15/68 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This is a practical course designed to ensure students graduate with knowledge in sciences, study and research skills, and professional health experience. While studying this course students will have the flexibility to specialise and pursue career opportunities in biotechnology, clinical measurement, nutrition or pathology. This unique program has been developed alongside industry professionals and gives students the opportunity to complete placements in real-world settings, allowing students to further enhance employability and put learning into practice. **Note:** Online students attend several compulsory residential schools/workshops. **Specialisations:** Biotechnology; clinical measurement; nutrition; pathology.

Other requirements: This course has up to 480 hours of work experience. Before commencing work placement or work integrated learning courses, students must gather the following to provide to the head of program and their workplace supervisor: current National Police Check (not older than three years), or current Blue Card for Queensland residents; completed Queensland Health student health professionals' clinical placement or field work orientation checklist; current first aid certificate; evidence of immunisations as per the CQUniversity policy for vaccination of students in health courses. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Biotechnology scientist, clinical physiologist, medical laboratory scientist, nutritionist.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Medical Sonography and Graduate Diploma of Medical Sonography

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 881691 Brisbane | 4F | 7/87 | 6/89 | Mar 2021 | 14 Jan 2021 |
| 841691 Mackay | 4F | 12/75 | 10/79 | Mar 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2020.

Program outline: This course is the first of its kind in Australia and allows you to enter a niche medical profession with no prior degree in health sciences. Medical sonographers take diagnostic images using ultrasonic equipment to create still, video or 3D studies of anatomy and diagnostic data. They scan, analyse and modify images to optimize the information and require highly developed patient care and communication skills. This is a high demand course and places are limited. **Note:** Students will study most of this course on-campus, however, the first year is delivered online, with two compulsory two-day residential schools. These residential schools must be attended at the campus of admission. **Other requirements:** Students must meet specific pre-clinical health, safety, security and licensing requirements prior to each placement, and must disclose any condition that may put themselves or the public at significant risk while on placement. Students undertake a total of 2000 hours of full-time clinical study. As placements are located throughout Australia and availability is limited in each community, students may be placed at locations that are not of their choosing. Students must prepare financially and personally to relocate for placements, and are responsible for the associated costs. Students must apply for admission to the Register of Accredited Student Sonographers during the second year, prior to the clinical placement in term 3. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Public or private practice, health services, research and development, specialised fields such as obstetric clinics, sports medicine, vascular clinics.

| 800429 Townsville | 3F or 6P | 17/65 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 850425 Online | 3X or 6X | 18/64 | 17/65 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course is designed to develop theoretical, practical and research knowledge, enabling students to become effective nursing professionals. Education and training incorporates a combination of online interactive learning, face-to-face teaching and clinical placements to ensure students graduate highly employable, confident and work ready. Students develop a broad range of skills and learn from a team of dedicated and experienced educators.

Note: Students studying on campus at Cairns, Mackay and Townsville are supported through a combined delivery of on-campus and online study. Online students attend compulsory residential schools for some units. **Other requirements:** On accepting an offer for this course, it is strongly recommended that students start gathering evidence to complete the mandatory checks required to attend clinical placement. These include working with children check; Australian Federal Policing check; criminal record screening; vaccinations; CPR and first aid certificates; completion of Australian State Health documentation; manual handling competency. A total of 800 hours clinical placement in an off-campus healthcare setting is an integral component of the course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Acute hospital services, community health services, mental health services, residential care services, Indigenous health services, remote and rural health.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course develops expertise in identifying occupational health and safety hazards in the workplace. Studies equip students with knowledge, skills and initiatives in occupational hygiene, workplace rehabilitation, ergonomics, safety, and occupational health and safety management. Students have the option to study a minor in environmental studies, human factors, liberal studies, public health or safety science. The course provides hands-on experiences, including participation in work placement. **Note:** Students studying full-time on campus may need to complete some units online. Depending on units selected, students may be required to attend compulsory on-campus residential schools. *Bundaberg, Gladstone, Rockhampton and Brisbane:* Students can attend on-campus lectures for the first two years of the course in core AF & OHS subjects. Some third year subjects are also available internally. *Mackay:* Students can attend on-campus lectures for the first year of the course in core AF & OHS subjects. Some second and third year subjects are also available internally. **Specialisations:** Environmental studies; human factors; liberal studies; public health; safety science. **Other requirements:** Students complete 120 hours of work placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks, which could include construction induction white card, police check and vaccinations. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Manufacturing, mining, construction, service industries, employer associations, defence force, health, government and rural safety.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

❖ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Occupational Therapy (Honours) | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course equips students with practical skills, enabling them to use specific activities to help patients participate in life roles. The course provides students with an underpinning knowledge in professional practice, human body systems, psychology and contemporary health care. Education and training includes occupational therapy units covering a wide range of practice contexts, and develops skills in areas such as assessment, service development, evaluation and critical thinking, enabling students to graduate work ready. This course has full accreditation with the Occupational Therapy Board of Australia. **Note:** Students who study units online may be required to attend residential schools. **Other requirements:** Students complete a minimum of 1000 hours of professional practice. Before commencing work placement or work integrated learning units, students must gather the following to provide to the head of program and their workplace supervisor: current National Police Check (not older than three years), or current Blue Card for Queensland residents; completed Queensland Health student health professionals' clinical placement or field work orientation checklist; current first aid certificate; evidence of immunisations as per the CQUniversity policy for vaccination of students in health courses. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Occupational therapist in public or private practice, community welfare, rehabilitation, health services, research and development.

| Bachelor of Oral Health | | | | | |
|-------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 858701 Rockhampton | 3F or 4P | 13/72 | 12/75 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C); completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2020.

Program outline: This is a high demand course and places are limited. This course equips students with a broad skill set to ensure they graduate work ready. Students develop skills to perform preventive and operative dentistry for patients and provide specialist dental practices. In addition, the education and training provides students with underpinning industry knowledge so they can educate and promote oral health in small group and community settings. The course has a strong focus on work integrated learning in pre-clinical and clinical settings. This course is accredited by the Australian Dental Council and approved by the Dental Board of Australia.

Other requirements: This course involves extensive training in a clinical environment, initially using simulator technologies before progressing to full-time clinical placements in an oral health environment. In final year, students spend four days per week in full-time clinical placements as part of the course requirements. Before commencing work placement, students must gather the following to provide to the appropriate academic supervisor and their workplace supervisor: signed clinical placement agreement; current senior first aid and CPR certificate; evidence of immunisations as per the CQUniversity policy for vaccination of students in health courses; police check. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Oral health therapist in public or private sector, research, health services management, public health and education.

| 801719 Townsville | 3F or 6P | 16/66 | 12/75 | Mar 2021 | 14 Jan 2021 |
| 851715 Online | 3X or 6X | 15/68 | 12/75 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course equips students with the skills to become a paramedic. Students develop foundation knowledge in sciences, human body systems, study and research skills and paramedic practice. Study focuses on disease processes and emergency treatment, and includes practical placements in paramedic care, enabling students to graduate work ready and highly sought after by employers. This course is fully accredited by the Council of Ambulance Authorities.

Note: Units at Cairns and Townsville are delivered by a combination of on-campus study, workshops, residential schools and online study. Depending on courses selected, students may be required to attend on-campus residential schools, which may include interstate travel.

Other requirements: Students are required to undertake a minimum of 600 hours of work placement in the health industry, primarily with the Queensland Ambulance Service (QAS). Students must submit all QAS mandatories and CQUni requirements to the School's work integrated learning officers nine weeks prior to commencing work placement. These include QAS medical assessment; Blue Card; identification verification by a prescribed person; student orientation checklist; current first aid and CPR certificate; evidence of immunisations as per the CQUniversity policy for vaccination of students in health courses. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Australian and New Zealand ambulance services, private paramedic services supporting mines, industry and the resource sector.

Bachelor of Physiotherapy (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 811422 Bundaberg | 4F | 13/72 | 11/77 | Mar 2021 | 14 Jan 2021 |
| 851422 Rockhampton | 4F | 12/75 | 11/77 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C); completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2020.

Program outline: This is a high demand course and places are limited. This course develops skills and enables students to practise as physiotherapists. Students develop the skills and confidence to assess, treat and manage a range of conditions for people of all ages. Education and training focuses on ways to prevent injuries and promote health and wellbeing - skills that are highly valuable in the industry. The course includes a large practical component through both university-based units and clinical education placements in a range of settings. **Note:** Students undertake some units online and attend compulsory residential schools. **Other requirements:** Students undertake five clinical education placements, each of five weeks' duration. Before commencing work placement or work integrated learning units, students must gather the following to provide to the head of program and their workplace supervisor: current National Police Check (not older than three years), or current Blue Card for Queensland residents; completed Queensland Health student health professionals' clinical placement or field work orientation checklist; current first aid certificate; evidence of immunisations as per the CQUniversity policy for vaccination of students in health courses. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Public or private practice, community welfare, rehabilitation, health services, research and development, specialised fields such as sports physiotherapy.

Bachelor of Podiatry Practice (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 851401 Rockhampton | 4F | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Podiatrists are health professionals who prevent, diagnose, treat and rehabilitate medical and surgical conditions of the feet and lower limbs. Education and training explores a variety of health sciences topics such as anatomy, physiology, microbiology, psychology, paediatrics, biomechanics, musculoskeletal conditions, diabetes, pharmacology, and surgery. Practical learning experiences are integral to the course, and students benefit from completing clinical placements. This course has conditional accreditation from the Australian and New Zealand Podiatry Accreditation Council. **Other requirements:** This course involves extensive training in a clinical environment with students completing 1000 hours of clinical placement. Students must gather the following to provide to the head of program and their workplace supervisor: current National Police Check (not older than three years), or current Blue Card for Queensland residents; completed Queensland Health student health professionals' clinical placement or field work orientation checklist; current first aid certificate; evidence of immunisations as per the CQUniversity policy for vaccination of students in health courses. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Hospitals; multi disciplinary health clinics; community health centres; private practice.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Public Health (Specialisation)

| 851795 Online | 3X or 6X | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course develops broad skills and knowledge in public health, while developing specialised expertise in health promotion and environmental health. Public health refers to a collection of disciplines that share a common aim to prevent disease, promote health and improve wellbeing among the population as a whole, rather than focusing on individuals. Students have the opportunity to complete practical placements in real-world settings. **Note:** Units at Bundaberg, Rockhampton, Cairns and Townsville are delivered by flexible delivery with a combination of on-campus study and residential schools. Units are delivered in supported online mode and students attend on-campus residential school in Rockhampton. **Majors:** Environmental health; health promotion; nutrition. **Specialisations:** Built environment; environmental health; environmental science; exercise science; health promotion; Indigenous studies; management and human resources; nutrition science; occupational health and safety. **Other requirements:** Students undertake placement in a professional environment relevant to their chosen specialisation. Prior to a work placement or internship, a prospective employer may require

students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Environmental health technical officer, environmental health worker, health promotion project officer.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Science (Chiropractic)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 880501 Brisbane | 3F or 6P | 15/68 | 14/70 | Mar 2021 | 14 Jan 2021 |
| 840501 Mackay | 3F or 6P | 12/75 | 10/79 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students develop clinical skills to become confident in diagnosing and managing patients presenting for care. The course has a strong focus on nutrition, rehabilitation and other lifestyle adaptations designed to optimise musculoskeletal health. Within a patient-centred learning environment, students will develop a range of patient assessment procedures and therapeutic approaches designed to manage common musculoskeletal issues. The Bachelor of Science (Chiropractic) is an evidence-based degree designed to provide students with the qualification needed to apply to enter the professional qualification, the Master of Clinical Chiropractic. Graduation from the Master of Clinical Chiropractic course renders students eligible to apply for registration as a chiropractor in Australia and overseas. **Note:** Students who study units online may be required to attend residential schools. **Other requirements:** Prior to clinical placements, students must undergo health and other checks required for working in a clinical environment. Students must be registered with the Chiropractic Board of Australia. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Chiropractic assistant.

Bachelor of Speech Pathology (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 851411 Rockhampton | 4F | 11/77 | 10/79 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course equips students with valuable skills to enable them to work with people of all ages who have communication or swallowing difficulties. Education and training includes a broad range of disciplines such as psychology, medical sciences, and linguistics and phonetics, designed to ensure students graduate work ready. Students complete placements in a variety of practice settings. **Note:** Students who study units online may be required to attend residential schools. **Other requirements:** Students must complete a number of clinical placements hours. Prior to a work placement or internship, students must undertake health or security checks, which may include current National Police Check (not older than three years), or current Blue Card for Queensland residents; completed Queensland Health student health professionals' clinical placement or field work orientation checklist; current first aid certificate; evidence of immunisations as per the CQUniversity policy for vaccination of students in health courses. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Education departments, community health centres, hospitals, rehabilitation centres, disability agencies, mental health, private practice, university teaching and research.

| 850495 Online | 2X or 4X | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course is designed to prepare students for occupational health and safety roles at paraprofessional level. The course equips students with knowledge and skills in ergonomics, science and occupational health and safety management and is constantly updated in consultation with industry, ensuring students graduate with up-to-date skills and are work ready. **Note:** Students studying full-time on campus may need to complete some units online. Depending on units selected, students may be required to attend on-campus residential schools, which may involve interstate travel. *Bundaberg, Gladstone, Rockhampton and Brisbane:* Students are able to attend on-campus lectures for the two years of the course in core AF & OHS subjects. *Mackay:*

Students can attend on-campus lectures for the first year of the course in many core subjects. Some second year subjects may also be available internally.

Career opportunities: Ergonomics, industrial safety officer, occupational hygienist and risk management in areas such as primary industry, rural safety, manufacturing, mining, services industry, employer associations, defence force, health industry and government authorities.

Prerequisites: Applicant must be 17; completion of Year 12 or attained age 17 years.

Assumed knowledge: English (Units 3 and 4, C).

Program outline: This qualification reflects the role of an enrolled nurse working under supervision of a registered nurse. This course covers the application of skills and knowledge required to provide nursing care for people across the health sector, and has mandatory on-and-off-the-job training components. The off-the-job training is conducted as the theoretical component of the course. The on-the-job training is clinical placement - unpaid work experience that is undertaken at the end of each term at a relevant health facility. **Note:** Online students are required to attend compulsory residential schools. Students nominate their preferred campus at the time of application. Places are limited at some campuses therefore students may be required to attend an alternative campus. On-campus commitments require students to attend two weeks at the start of term and three days each month. **Other requirements:** On accepting an offer, it is strongly recommended that students commence gathering evidence to complete the mandatory checks required to attend clinical placement. These include working with children check; Australian Federal Policing check; criminal record screening; vaccinations; CPR and first aid certificates; completion of Australian state health documentation; manual handling competency. A total of 400 hours' clinical placement in an off-campus healthcare setting is an integral component of the course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Enrolled nurse.

✦ All qualified applicants were offered a place.

Griffith College

Diploma of Health Care

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 081591 Gold Coast | 1F or 2P | ✦ | ✦ | Feb 2021 | 23 Dec 2020 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C). **Additional entry information:** This program is not available to applicants who hold a qualification in nursing acceptable for registration with the Australian Health Practitioner Regulation Agency/Nursing and Midwifery Board of Australia.

Program outline: This program provides the basis for further studies in nursing. Studies include anatomy and physiology, clinical health assessment, effective communication, health care practices, medications and safe administration, and understanding research in practice.

Note: Subject to satisfactory completion of the diploma, students can articulate with 40 credit points into Griffith University's Bachelor of Laws program. **Specialisations:** Nursing.

Career opportunities: Professional nursing in a healthcare environment, aged care, emergency, mental health, paediatrics, midwifery, palliative care, intensive care, cancer, medication/surgical, community practice, women's health.

Combined diplomas/degrees: Refer to entry for: D Health Care/B Nursing.

✦ All qualified applicants were offered a place.

| 081461 Gold Coast/ Griffith University – Gold Coast | 5F or 10P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |
| 081451 Gold Coast/ Griffith University – Nathan | 5F or 10P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C).

Program outline: This program enables students to become occupational therapists capable of working in a range of settings and roles, including emerging and innovative opportunities. Students gain a strong understanding of the philosophy of occupational therapy and the core practice skills and processes. Courses prepare students to work with individuals, groups and entire communities, and to influence policy and society. Students complete a minimum of 1000 hours of supervised practice placements. For more course information, visit Bachelor of Occupational Therapy at Griffith University. **Note:** Students must meet all professional practice requirements. For more information, refer to griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: A range of health and social care settings.

☆ All qualified applicants were offered a place.

Diploma of Health Sciences/Bachelor of Paramedicine

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 088972 Gold Coast | 4F or 8P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); one of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C).

Program outline: This program prepares graduates for careers as ambulance paramedics. Clinical decision-making, problem-solving and critical thinking are encouraged through use of simulated learning techniques and clinical placements. Foundation knowledge in human body systems, paramedic practice, emergency treatment of disease and response to trauma are embedded in the course. The program prepares graduates to work holistically with individuals, groups and entire communities. **Note:** Progression to the bachelor's degree is limited to a quota of five places per intake.

Career opportunities: Queensland or New South Wales ambulance paramedic.

☆ All qualified applicants were offered a place.

Diploma of Health Sciences/Bachelor of Pharmacology and Toxicology

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C).

Program outline: This diploma and degree provide a pathway to a career in physiotherapy. The program enables students to become physiotherapists capable of working in a range of settings and roles, including emerging opportunities. Students take biomedical, physical and behavioural science courses as well as physiotherapy academic and clinical courses. This program provides an innovative, student-centred and employability-focused curriculum with a strong emphasis on client-centred and evidence-based practice, as well as experiential and inter-professional learning. **Note:** Students must meet all professional practice requirements. For more information, refer to griffith.edu.au/griffith-health/fit-for-professional-practice. Progression to the bachelor's degree is limited to a quota of two places per intake.

Career opportunities: Hospitals, private practice, community health centres, schools, sporting teams, research, the armed forces.

☆ All qualified applicants were offered a place.

Diploma of Health Sciences/Bachelor of Science

| 088061 Gold Coast/ Griffith University – Gold Coast | 3–3 ^{1/2} F or 6–7P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This program provides students with the scientific knowledge combined with the analytical and communication skills for careers in biological, clinical, chemical, computing, physical, mathematical and environmental sciences and policy. Students choose from a range of majors in accordance with their interests and career plans. Students gain practical skills by working in the field and on projects in the laboratory, depending on their area of study. In final year, students can undertake capstone projects and participate in industry internships to gain work experience in Australia or overseas. **Majors:** Applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences; geography; marine biology; physics; wildlife biology.

Career opportunities: Microbiologist, pharmaceutical scientist, biochemist, chemist, biotechnologist, marine biologist, mathematician, physicist, researcher, teacher (with further study).

☆ All qualified applicants were offered a place.

Diploma of Health Sciences/Bachelor of Sport Development

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| 088041 Gold Coast/ Griffith University – Gold Coast | 4F or 8P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); one of Biology, Chemistry, Physics, General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This program is for students interested in promoting sport and recreation activities in the community. It builds on a strong foundation in basic biological sciences (anatomy and physiology) and the science of exercise. It also covers sports/facility management and education courses, including community and Indigenous sport and recreation and sport coaching.

Career opportunities: Sports development officer, sport and recreation officer, community development officer, sport administrator, sport program manager, sports coach.

☆ All qualified applicants were offered a place.

GRIFFITH UNIVERSITY**Bachelor of Biomedical Science**

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 228212 Nathan | 3F or 6P | 16/66 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 233412 Gold Coast | 3F or 6P | 12/75 | 9/82 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** The Griffith ATAR 90+/IB 33+ Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Help build a healthy society by applying new scientific knowledge to medicine and healthcare as a biomedical scientist. In this degree, you'll learn methods for researching, diagnosing and treating disease, emphasising applications to biomedical research, medicine and healthcare services. The knowledge and skills developed during this degree can be applied to medicine, biomedical research and other healthcare professions such as pharmacy, speech pathology, and rehabilitation counselling. It is also excellent preparation for entry into postgraduate study, including the Doctor of Medicine.

Career opportunities: You'll be prepared for work as a biomedical scientist, healthcare technician and biomedical sales representative in hospitals, health departments, medical research institutes, university and government research organisations, and in the pharmaceutical, diagnostic, biotechnology and other health-related industries. As a graduate, you may choose to pursue further study to broaden your career opportunities. You will be well placed to apply for Griffith's graduate-entry medical degree program, the Doctor of Medicine; or a range of masters degree programs in health professions, including pharmacy, speech pathology and rehabilitation counselling. You may also choose to continue with postgraduate research or coursework study.

Combined diplomas/degrees: Refer to entries under Griffith College for: D Health Sciences/B Biomedical Science; D Science/B Biomedical Science.

Bachelor of Biomedical Science (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233432 Gold Coast | 3F | 6/89 | 2/97 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Program outline: Biomedical scientists help society by applying new scientific knowledge to medicine and healthcare. By completing an Honours degree, students are introduced to medical science research under the guidance of an experienced biomedical researcher. While working in a multidisciplinary team, you will be prepared for entry into higher degree research and gain skills that are attractive to potential employers. Advanced research training is taken in the laboratories of research centres at Griffith, such as the Menzies Health Institute Queensland or the Griffith Institute for Drug Discovery. **Note:** Students study over three trimesters each year, completing the four year program in three years.

Career opportunities: You will be prepared for work as a biomedical scientist, healthcare technician and biomedical sales representative in hospitals, health departments, medical research institutes, university and government research organisations, and in the pharmaceutical, diagnostic, biotechnology and other health-related industries. You will also be well placed to undertake a PhD to pursue a career as a research scientist. You may also choose to apply for our graduate entry medical degree program, the Doctor of Medicine*, or a range of masters degree programs in health professions, including pharmacy, speech pathology and rehabilitation counselling. *This qualification is an extended masters program (AQF level 9).

Bachelor of Child, Youth and Family Practice

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|-------------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 263131 Logan | 3F or 6P | New Program | New Program | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 276105 Distance ed | 3X or 6X | New Program | New Program | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Fostering healthy families and creating safe environments for children are key goals for communities. In this degree, you will learn about welfare service delivery centred on young people and families from experts with strong links to the health sector, government and community. You will study the processes and structures related to providing services in specialist areas such as childcare, education, welfare, development and learning. It's a hands-on learning experience delivered with a personal touch, whether you're studying on campus or online.

Other requirements: This program requires students to undertake placements. Some placements may be outside the Brisbane metropolitan/Gold Coast area including northern New South Wales and (by negotiation) interstate. Distance education students should be aware that if they live in remote or rural areas, they may be expected to travel to professional placements that may incur accommodation and living expenses. A Griffith University placement officer will help find suitable local placements. However, this cannot always be guaranteed. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be qualified to lead child and family programs in the early years' health and community services sector. You'll also be qualified for positions in Aboriginal and Torres Strait Islander services, child and family welfare, child protection and child safety services, community-based organisations, community development, family support services, foster care services, services for women, welfare organisations, and policy and research.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Child, Youth and Family Practice.

Bachelor of Clinical Exercise Physiology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233732 Gold Coast | 4F or 8P | 14/70 | 10/79 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Program outline: Exercise is a form of medicine, and that's increasingly understood by the health profession. The people responsible for administering this medicine are exercise scientists and exercise physiologists; in this degree, you'll become accredited as both. You will gain a deep knowledge of the human body and how it is affected by exercise while learning how to design and deliver safe and effective exercise interventions for clients with medical conditions. Completing 360 hours of supervised clinical placement during this degree will enable you to put theory into practice in a workplace setting. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Accredited exercise physiologists (AEPs) work in areas like return-to-work assessment, chronic disease management, exercise prescription or special populations, weight loss management, musculoskeletal and cardiopulmonary rehabilitation. These roles may be within

private practice or the public healthcare system. AEPs can register with Medicare, DVA, NDIS and private health funds to be a healthcare provider.

Bachelor of Dental Health Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233812 Gold Coast | 3F | 1/99 | 1/99 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applications for this program close 29 December 2020. After this date, no new applicants can apply, but existing applicants can reorder this preference.

Program outline: This degree is the first step towards a career in dentistry. It provides foundational knowledge in health science and oral health biology, providing the basis for further study required to become a dentist. You will benefit from hands-on training in real-life settings from the first year of your studies in our modern health clinic and laboratories while working alongside registered dentists and dental specialists. Graduates can apply for entry into the Master of Dentistry, which provides the education required to apply for registration as a dentist in Australia, New Zealand and Canada. **Other requirements:** This program requires students to undertake clinical placements. Prior to professional placement, students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Dental practitioners diagnose, prevent and treat dental diseases. As a graduate of this degree and our Master of Dentistry, you'll be qualified to work as a registered dentist, with opportunities in private practice, hospitals, community dental clinics and the armed services. Further study and research can lead to a career in academic teaching and research or specialty practice.

✦ Selection within the rank or additional ranks were used in the selection process. Refer to institution for more information.

Bachelor of Dental Hygiene

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233761 Gold Coast | 3F | 6/89 | 2/97 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Program outline: This degree prepares you for a career as a dental hygienist working as a dental practitioner with a focus on patient education and the prevention of dental diseases. It is a clinical qualification covering a range of activities including oral health assessment, diagnosis, treatment, management and education. You will study and work alongside dentists, dental technologists, dental prosthetists and dental specialists in real-life dental settings, in Griffith's modern dental clinic and in our training facilities in the state-of-the-art Griffith Health Centre.

Other requirements: Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a graduate of this degree, you will be qualified to work as a registered dental hygienist with opportunities in general dental practice, specialist dental practice and community dental clinics.

Bachelor of Dental Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233832 Gold Coast | 3F | 11/77 | 8/84 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Dental technologists (or dental technicians as they are often referred to) are highly skilled members of the dental team. They combine art and science skills to construct custom-made dental devices such as dentures, crowns, bridges and orthodontic appliances to replace, restore and correct defects that may affect our facial appearance, and the ability to use our teeth properly. They generally work behind the scenes in laboratories, and not directly on patients. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Dental technologists or technicians work closely with referring dental practitioners and specialists. You'll be able to own and operate a dental laboratory or work in a laboratory in the public or private sector. Studying the Bachelor of Dental Technology/Bachelor of Dental Prosthetics double degree may qualify you as both a dental technician, a dental prosthetist, prosthodontic technician, conservative technician, or orthodontic technician. As well, graduates of the Bachelor of Dental Technology may be eligible to apply for the Bachelor of Dental Prosthetics – Graduate entry only program.

Bachelor of Dental Technology/Bachelor of Dental Prosthetics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233792 Gold Coast | 4F | 10/79 | 7/87 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C).

Program outline: This double degree is ideal for those interested in developing hands-on practical skills in designing and making dentures, crowns and bridges combined with diagnosing, designing and fitting removable dentures directly to patients. In this degree, you'll graduate with two qualifications and be able to work as both a dental technician and a dental prosthetist. Because the two degrees share the same subjects in their first two years, this double degree can be finished in just four years full-time study. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: With this qualification, graduates will find employment opportunities in the public and private health sectors through government health department clinics and private practice as a dental prosthetist or clinical dental technician. You may also find employment opportunities as a prosthodontic technician and clinician or expand your horizons through self-employment by establishing a new business.

Bachelor of Exercise Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 233322 Gold Coast | 3F or 6P | 18/64 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Learn to apply the science of exercise to develop interventions that improve human health, fitness wellbeing and performance by studying this degree. Exercise scientists apply their knowledge at the individual, community and population levels to build healthier, happier societies. Graduates of the program are eligible for accreditation through Exercise and Sports Science Australia (ESSA), as an accredited exercise scientist. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You will be prepared for work as an exercise specialist for community or sports organisations as a clinical scientist specialising in cardiac, respiratory and sleep medicine; as a rehabilitation, sports or recreation manager; a strength and conditioning coach; or as an occupational health and safety officer.

Double degrees: Refer to entries for: B Exercise Science/B Business; B Exercise Science/B Psychological Science.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Exercise Science.

Bachelor of Exercise Science/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 231342 Gold Coast | 4 ^{1/2} F or 9P | 19/63 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This integrated program provides students with the skills and competencies to meet the requirements for professional sports management. Foundation studies include physiology, anatomy, biology, psychology, business decision making and the purpose of business, followed by advanced studies in exercise psychology, anatomy, biomechanics, neuroscience, and sport management. **Majors:** Business: sport management. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Public and private sector, country and recreational club manager, events manager, managerial strategy and organisation, sports and recreation manager, sports science manager.

Bachelor of Exercise Science/Bachelor of Psychological Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 231642 Gold Coast | 4 ^{1/2} F or 9P | 17/65 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This program combines exercise science studies with professional grounding in the core topics of psychology. In this double degree, you'll acquire skills in problem analysis and evaluation, data handling and communication, and an awareness of group behaviour, group processes and physiological wellbeing. Foundation studies include physiology, anatomy, biology and psychology, followed by advanced studies in exercise physiology, anatomy, biomechanics, neuroscience and psychology. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be able to work as a consultant in sport and exercise behaviour, exercise specialist, rehabilitation adviser or manager, cardiac technician or respiratory scientist. You'll also be qualified to work in guidance and health management.

Bachelor of Health Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 233312 Gold Coast | 3F or 6P | 20/62 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree is one of the most flexible and innovative within the field of health. With a wide range of electives including nutrition, climate change and toxicology and majors such as environmental health, environmental toxicology, information technology and communication and media, this degree enables you to design a program of study that suits your interest and aims. It looks at health through a combination of disciplines to explore how different areas of human biology and environmental factors relate to health and disease. An ideal introduction to the future of health. **Majors:** Communication and media; environmental health; environmental toxicology, information technology. Non-major options also available.

Career opportunities: Accredited environmental health professional, scientist in academia, health and bioscience industries, and clinical health-related careers with further study.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Health Science.

Bachelor of Human Services

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 263312 Logan | 2–3F or 6P | ✦ | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 233451 Gold Coast | 2–3F or 6P | ✦ | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 276055 Distance ed | 2–3X or 6X | ✦ | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Guided by experts with links to the health sector, you'll learn through hands-on experience how to improve the lives of peoples social, economic, personal and communal wellbeing. This includes families in need, younger or older people, and people living with injury or disability. Graduates have the ability to work with individuals, families and communities to bring real change to people's lives. This degree is highly flexible with full-time, part-time and online study options available. **Note:** Students must be available full-time in the final trimester for a professional placement. An accelerated pathway enabling completion of the degree in a shorter timeframe (2–2.5 years full-time) is available. Students study over three trimesters each year, including Trimester 3. Distance education students must be available to attend 15 days' face-to-face intensive study at the Gold Coast campus throughout the program. **Other requirements:** Students must undertake placements. Some placements may be outside the Brisbane metropolitan/Gold Coast area including northern New South Wales and (by negotiation) interstate. Distance education students should be aware that if they live in remote or rural areas, they may be expected to travel to professional placements that may incur accommodation and living expenses. A Griffith University placement officer will help find suitable local placements. However, this cannot always be guaranteed. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be prepared for a career in community planning and development, welfare services, family support, mental health services, correctional services, policy development

Griffith University (continued)

and research, rehabilitation services, women's services, working with older persons, youth work and other related fields.

Double degrees: Refer to entry for: B Human Services/B Criminology and Criminal Justice.

Combined diplomas/degrees: This program can be combined with the following course at TAFE Qld: D Community Services. Refer to entry for the diploma under TAFE Qld. Refer to entry under Griffith College for: D Social and Psychological Science/B Human Services.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Human Services/Bachelor of Criminology and Criminal Justice

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 263911 Logan & Mt Gravatt | 4F or 8P | ✦ | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 233581 Gold Coast | 4F or 8P | 19/63 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 276015 Distance ed | 4X or 8X | ✦ | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this double degree, you'll develop an understanding of the vital importance of human services within Australia's legal and social systems. You'll be prepared for work in areas such as community development, welfare services and correctional services. You'll learn from the latest research and from experts with strong links to the health sector, government and community. You'll have the opportunity to use this knowledge to carry out supervised practice in a professional human service setting in your final year placement. **Note:** Human services courses are conducted at Logan and Gold Coast, criminal justice courses are conducted at Mt Gravatt and Gold Coast, and all courses are also available online. Distance education students must be available to attend five days of compulsory face-to-face intensive study at the Gold Coast campus, and up to 10 days of additional face-to-face intensive study throughout the program. **Other requirements:** Students must undertake placements. Some placements may be outside the Brisbane metropolitan/Gold Coast area including northern New South Wales and (by negotiation) interstate. Distance education students should be aware that if they live in remote or rural areas, they may be expected to travel to professional placements that may incur accommodation and living expenses. A Griffith University placement officer will help find suitable local placements. However, this cannot always be guaranteed. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll find work in areas such as welfare services, family support, mental health services, correctional services, policy development and research, rehabilitation services, women's services, and youth work. You'll also find opportunities in policing and security, probation and parole, child protection, crime analysis, courts and justice services and crime prevention regulatory agencies.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Medical Laboratory Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 233862 Gold Coast | 4F | 11/77 | 10/79 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this degree, you'll develop the knowledge and skills to work as a medical scientist. Medical scientists perform diagnostic tests of blood, tissues, and other bodily fluids to help doctors diagnose diseases such as glandular fever, diabetes, swine flu and cancer. Pathology-based results often form the basis for decisions on an individual's diagnosis, treatment and subsequent therapeutic monitoring. As a graduate, you will also be equipped to apply techniques used in forensic investigation and research in the food, animal and cosmetic industries.

Other requirements: Students must undertake clinical placements. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be able to work in hospital laboratories, private pathology laboratories, state health laboratories and universities. Scientists also work in fertility clinics, forensic medicine, defence forces, Australian Red Cross and research and development departments of scientific companies.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Medical Laboratory Science.

Bachelor of Medical Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 228272 Nathan | 2F | 1/99✦ | 1/99✦ | Mar 2021 | 14 Jan 2021 |
| 233422 Gold Coast | 2F | 1/99✦ | 1/99✦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** This program is for 2020 Year 12 applicants or applicants who completed Year 12 no more than three years prior to application and who have not previously attempted tertiary study at diploma level or higher. Griffith Guaranteed Admission Schemes do not apply to this program.

Closing date: Applications for this program close 29 December 2020. After this date, no new applicants can apply, but existing applicants can reorder this preference.

Program outline: This degree puts high-achieving high school leavers on a fast track to a Doctor of Medicine. You'll learn about sciences underpinning medicine—chemistry, anatomy, physiology, biochemistry, microbiology, molecular genetics, psychology, genes and disease, and legal and ethical principles of healthcare. In second year, you'll take courses in immunology, infectious disease, pharmacology, metabolism and structural biochemistry and epidemiology. With a GPA of 5.0 and a pass in Human Skills for Medicine, you'll gain a provisional place in the Doctor of Medicine. **Note:** The Doctor of Medicine is an extended masters program (AQF level 9). Students study over three trimesters each year, completing the three year program in two years.

Career opportunities: If you progress to the Doctor of Medicine, you will be preparing for a career in specialist clinical practice, primary care medicine, medical, translational and clinical research and healthcare services.

✦ Selection within the rank or additional ranks were used in the selection process. Refer to institution for more information.

Bachelor of Midwifery

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---------------------------|---------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 263392 Logan & Gold Coast | 3F or 2P & 2F | 7/87 | 4/94 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Applicants must nominate on their QTAC application their hospital preferences from the following list: Logan, Redlands, Toowoomba, Gold Coast and Sunshine Coast University Hospitals. While the university endeavors to provide placement preferences, this is not guaranteed. On rare occasions students may need to either relocate to undertake a placement, or enrol part time until their preferred site becomes available. Griffith Guaranteed Admission Schemes do not apply to this program.

Closing date: Applications for this program close 29 December 2020. Applications lodged after 11 December 2020 may not be considered in time for the 14 January offer round.

Program outline: Learn from by expert clinicians, researchers and award-winning teachers who lead the field in midwifery education, research and practice. In this degree, you'll follow 20 women throughout their pregnancy to six weeks after birth, requiring you to be on-call to attend the labour and birth – an immersive, highly valued learning experience. Our blended learning approach includes clinical practice and theory, face-to-face in workshops, via simulated practice, active online learning and extensive compulsory midwifery practice in a range of settings.

Note: Commencing students will be required to attend Logan/Gold Coast campuses. Program duration is three years. Eligible students may complete the first year part-time over two years. Students commence clinical experiences during Trimester 1, so it is essential that all mandatory requirements are undertaken before (or as soon as) offers are received. A health check, including immunisation status (especially hepatitis B immunity), a Suitability Card and an Australian National Police Check (at own expense) are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) before the first placement. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice. **Other requirements:** Students are allocated to a partner hospital for their whole program.

Career opportunities: Employment opportunities from this program are excellent with close to 100% of graduates gaining employment within three months of graduation. As a midwife you'll find opportunities in a variety of public and private healthcare settings, midwifery private practice, maternity and neonatal care, rural and remote health, international aid organisations, teaching, research and academia.

Bachelor of Nursing

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 225312 Nathan | 3F or 6P | 13/72 | 9/82 | Mar 2021 | 14 Jan 2021 |
| 263112 Logan | 3F or 6P | 13/72 | 10/79 | Mar 2021 | 14 Jan 2021 |
| 233112 Gold Coast | 3F or 6P | 13/72 | 9/82 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** This program is not for applicants who hold an AQF Diploma of Nursing from an accredited Australian provider and are registered as an Enrolled Nurse with AHPRA, or a Diploma of Health Care from Griffith College. These applicants must apply for the B Nursing – Advanced Standing. This program is not available to applicants who hold a qualification in nursing acceptable for registration with the Australian Health Practitioner Regulation Agency/Nursing and Midwifery Board of Australia.

Griffith University (continued)

Program outline: Nursing is the science of professional caring. In this degree, you'll develop the knowledge and skills required to provide excellent nursing care. You'll hone these skills through clinical placements across the health sector and you may have the opportunity to undertake rural, remote and overseas placements. You will learn from leading experts in this degree with Griffith ranked #1 in Australia and #4 in the world for Nursing and Midwifery, following the release of the 2019 Shanghai Ranking of World Universities. **Note:** Students can take this program part-time but attendance at day classes is generally required. Part-time students must be available full-time for professional placements. **Other requirements:** Students must undertake placements. A health check, including immunisation status, a Working with Children check and Australian Federal Police check are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) by the end of the first trimester. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll find career opportunities in hospitals, in the community and in urban, rural and remote settings. You'll be prepared for a career in professional nursing in any healthcare setting or, if you wish, you may be eligible to apply for entry to our nursing postgraduate degrees, which focus on acute care, critical care, and emergency nursing.

Double degrees: Refer to entry for: B Nursing/Grad Cert Paediatric Nursing.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Care/B Nursing.

Bachelor of Nursing/Graduate Certificate in Paediatric Nursing

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 225351 Nathan | 3F & 1P | 12/75 | 9/82 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** This program is also not for applicants who hold a Diploma of Nursing and are an Enrolled Endorsed Nurse. These applicants must apply for the B Nursing/Graduate Certificate in Paediatric Nursing – Advanced Standing. This program is not available to applicants who hold a qualification in nursing acceptable for registration with the Australian Health Practitioner Regulation Agency or Nursing and Midwifery Board of Australia.

Program outline: Responding to a shortage of paediatric nurses and growing opportunities in Australia and overseas, Griffith has designed this unique combined degree to provide advanced knowledge and specialist skills in paediatric nursing. This is Australia's first Commonwealth-supported pathway to paediatric nursing and includes a guaranteed placement opportunity with potential for fixed-term employment. You'll will graduate with two qualifications: Bachelor of Nursing—three years full-time, Nathan campus; Graduate Certificate in Paediatric Nursing—one year part-time, online. Together, these qualifications provide a sound theoretical and practical background in nursing for children. **Note:** Students can take the Bachelor of Nursing part-time but attendance at day classes is generally required. Part-time students must be available full-time for professional placements. The Graduate Certificate in Paediatric Nursing is part-time and online only. Students can spread their graduate certificate studies across three trimesters.

Other requirements: Students must undertake placements for the Bachelor of Nursing. A health check, including immunisation status, a Working with Children check and Australian Federal Police check are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) by the end of the first trimester. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Graduating with two qualifications, you'll be well positioned to work in specialist paediatric settings. Your bachelor degree will prepare you for general nursing opportunities in hospitals, in the community, and in urban, rural and remote settings.

Bachelor of Nutrition and Dietetics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233852 Gold Coast | 4F or 4P & 2F | 11/77 | 8/84 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); Biology (Units 3 and 4, C); Chemistry (Units 3 and 4, C). **Additional entry information:** The Griffith ATAR 90+/IB 33+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You'll develop knowledge and skills to work as a dietitian and learn how to help improve the health of individuals and the community through their food choices. You'll learn through extensive hands-on experience in state-of-the-art facilities, including a purpose-built teaching kitchen and a nutrition clinic in the Griffith Health Centre. You'll develop knowledge in chemistry, anatomy, physiology and biochemistry before taking advanced study in human nutrition and dietetics. In the final phase of your degree, you'll complete 20 consecutive weeks of full-time professional placement in a variety of sites across Queensland and interstate. As a graduate, you can put your knowledge to professional practice in the areas of medical nutrition therapy, food service management, and community and public health nutrition. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a nutrition and dietetics professional, you'll be helping people achieve better health outcomes through food. In this field, you'll also partner with other health disciplines to curate programs to deliver patient needs. The Nutrition and Dietetics program at Griffith University encourages you to take an entrepreneurial approach to your career development. You will be qualified to work in the traditional roles in the health industry as a dietitian/nutritionist in private and public hospitals, community health services, health promotion and public health units, and in the emerging areas of private practice, and the food and pharmaceutical industries.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Nutrition and Dietetics.

Bachelor of Occupational Therapy

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 225422 Nathan | 4F or 4P & 2F | 10/79 | 7/87 | Mar 2021 | 14 Jan 2021 |
| 233552 Gold Coast | 4F or 4P & 2F | 10/79 | 7/87 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology, Physics or Psychology (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details.

Additional entry information: Griffith Guaranteed Admission Schemes do not apply to this program.

Program outline: You'll develop the skills needed to work as an occupational therapist, delivering life-changing outcomes to people of all ages. You'll learn how to enable people to do the activities—occupations—they need or want to do in order to live a meaningful life, but have difficulty doing so. You'll learn occupational therapy theory and practice, occupational science as well as psychology, sociology and anatomy, and apply your knowledge during practical placements from the first year of your degree, preparing you to be job ready for the wide range of opportunities available to occupational therapists. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be prepared for a career in a variety of workplaces, including in hospitals, schools, homeless shelters, refugee detention centres, universities and government departments. You will also have the professional and entrepreneurial skills to create your own opportunities. You'll be able to work with individuals, groups and communities in social enterprises, charities, large companies, schools and prisons.

Bachelor of Paramedicine

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233912 Gold Coast | 3F | 6/89 | 2/97 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Biology, Chemistry, Physics, Psychology, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Program outline: This degree will prepare you to work as a paramedic in a range of settings. You'll gain clinical decision-making, problem-solving and critical thinking skills, learn about human body systems, paramedic practice in emergency and non-emergency situations, legal and ethical aspects of healthcare as well as communication and interpersonal skills. You'll also develop strong practical skills through clinical simulations delivered in Griffith's extensive range of simulation facilities and apply your new range of knowledge, skills, and processes during a range of clinical placements. **Other requirements:** Students are required to undertake supervised clinical practice placements. Before they enrol, students must meet all professional practice requirements including a criminal history check, first aid certificate and CPR certificates, immunisation and health record, manual drivers' licence (desirable), Queensland Ambulance Service (QAS) medical assessment, and Working with Children (Blue Card) check. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Graduates of this degree will be able to apply for employment, following registration as a paramedic, as a graduate level paramedic within Australia and selected international countries. Other career areas include the military and commercial paramedic opportunities. This degree will also leave you well placed to apply for our graduate entry medical degree (Doctor of Medicine).

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Paramedicine.

Bachelor of Pharmacology and Toxicology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 233921 Gold Coast | 3F or 6P | 18/64 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C).

Additional entry information: The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Pharmacology and toxicology require an understanding of the properties of chemicals and how they interact with biological systems. You'll learn about drugs and poisons, how they act on the body, and how to develop new medicines. You'll learn through hands-on experience in state-of-the-art facilities, including immersive virtual learning environment, laboratories, and have the opportunity to specialise in distinct areas. This degree has a strong jobs and industry focus, providing a pathway to many new careers in within the health industry. The pre-clinical major provides the opportunity to specialise in pre-clinical areas that prepare you for qualifications in health disciplines such as pharmacy, medicine and dentistry. The pharmaceutical industry major provides the opportunity to prepare you for an exciting career in the pharmaceutical industry. You may also opt for a no major pathway, which includes more than 30 electives, allowing you the flexibility to create your own program of study that suits your interests and aims. **Majors:** Pharmaceutical industry; pre-clinical. A no-major pathway is also available.

Griffith University (continued)

Career opportunities: You'll be prepared for work in a wide variety of public and private sector positions, including as a regulatory scientist, pharmaceutical sales representative, medical science liaison, clinical trials monitor, pharmacy technician, research assistant, laboratory support technician, environmental scientist, or formulation chemist. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Bachelor of Pharmacy

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 233901 Gold Coast | 4F | 15/68 | 11/77 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C).

Additional entry information: The Griffith ATAR 90+/IB 33+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will put you on the path to a career in the pharmacy, pharmaceutical, biotechnology or nutraceutical industries. You'll learn through hands-on experience in state-of-the-art facilities, including immersive virtual learning environment, formulation, pharmacology and analytical laboratories, and during professional practice placements. Our course structure enables you to learn while integrating the science of pharmacy with clinical practice, and our focus on interprofessional learning means that you'll be well equipped to be part of the healthcare team after you graduate. **Other requirements:** Students complete placements in community and hospital pharmacies, and within the pharmaceutical industry. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Griffith pharmacy graduates are held in very high regard, with a reputation for being more work ready, with hands on practical skills. With the Bachelor of Pharmacy, you'll be prepared for a career in community and hospital pharmacy and medication management. You'll also be able to enter careers in the pharmaceutical, biotechnology, nutraceutical and related industries in areas including management, sales, marketing, business development, and local and national government agencies related to medicine use and regulation.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Pharmacy.

Bachelor of Physiotherapy

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 225432 Nathan | 4F | 6/89 | 2/97 | Mar 2021 | 14 Jan 2021 |
| 233722 Gold Coast | 4F | 6/89 | 2/97 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C).

Additional entry information: Griffith Guaranteed Admission Schemes do not apply to this program.

Program outline: Experience an innovative, student-centred and employability-focused curriculum with a strong emphasis on client-centred and evidence-based practice. As a graduate, you will be capable of working as a physiotherapist in a range of settings and roles. You will undertake biomedical, physical and behavioural science courses as well as physiotherapy academic and clinical courses. From the end of your third year, you will participate in a series of full-time professional placements, which will allow you to put your skills and knowledge into practice. Before graduation, you must demonstrate physiotherapy knowledge and skills required for entry-level clinical physiotherapy practice. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Physiotherapists aim to enhance the movement and function of individuals and populations across the lifespan especially when actual or potential impairments and disability relate to the musculoskeletal, cardiorespiratory, and neurological systems. Physiotherapists work in various settings such as hospitals, private practices, community health centres, schools, sporting teams and the armed forces. Physiotherapists may also be employed at universities to teach and conduct research or consult for industry and government bodies.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Physiotherapy.

Bachelor of Psychology (Honours)

| | | Unadjusted | Adjusted | | |
| 225512 Mt Gravatt | 4F or 8P | 13/72 | 10/79 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 231632 Gold Coast | 4F or 8P | 13/72 | 10/79 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You will gain a broad understanding of the major fields of psychology and acquire research experience by completing an independent research project during an additional

year of study. Under supervision, you'll design, administer and interpret tests to understand intellectual, behavioural and emotional states, counsel people about personal, health, vocational and social difficulties, learn how to apply psychological theories, and provide follow-up support services. Honours adds a fourth year to the Bachelor of Psychology, and eligibility is subject to academic achievement. **Minors:** Clinical and counselling; development and community; health and sport/exercise; organisational; psychological science. **Other requirements:** Students must undertake a placement in fourth year. Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: By studying this degree, you'll be qualified for professional employment and probationary registration to work as a general psychologist in areas such as clinical, health, community, educational, organisational, or forensic settings; job placement and recruitment; counselling; guidance; and social research. You can also pursue further studies to work in specialist fields, including becoming a clinical psychologist, organisational psychologist, or other specialist psychologist.

Bachelor of Public Health

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 234152 Gold Coast | 3F or 6P | 20/62 | 14/70 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This degree focuses on the systems and practices that shape the health of nations, communities and individuals and the environments in which we live, work and take our leisure. It explores issues that influence the ability to be healthy, from the micro level including personal behaviours to macro level influences such as the legislative and policy environment, globalisation, technology, environmental degradation and social structures. Public health is the science of healthy populations, centred on hygiene, epidemiology, disease and injury prevention. As a graduate, you'll be qualified to work in public health roles across the world, helping to improve the health of people and their communities. **Other requirements:** Students must undertake placements. A health check including immunisation status, a Suitability Card and national police records check are required. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a graduate, you will be qualified to work as a health promotion officer or a public health officer in a number of fields including health education, mental health, women's health and policy development. You will find work in local state and government departments and agencies, non-government organisations, health centres, schools and community organisations. You may also choose to pursue further study. You'll be well placed to apply for our graduate entry medical degree, the Doctor of Medicine, especially if you are interested in becoming a public health physician.

Bachelor of Sport Development

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 233562 Gold Coast | 3F or 6P | 20/62 | 14/70 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics, General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You'll learn about sport development and delivering recreation activities in the community. This degree explores four main streams of study: sport and exercise science, sport management and marketing, health promotion and sports coaching. You'll also study the specialist field of community development through sport and gain comprehensive knowledge of the academic and applied aspects of sport, health and fitness. You'll also undertake studies in physiology, biomechanics, sport psychology, sociology, sports management, sport policy, fitness and sports coaching. **Note:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be prepared for a career in a wide range of community sport and recreation areas, including health promotion and sport development in amateur and professional sporting organisations. You'll also be qualified to work in sport and recreation centres and resorts, national and state sporting organisations, event management and sport marketing media. Potential roles include, sports development officer, sport and recreation officer, community development officer, sport administrator, sport program manager, sports coach.

Double degrees: Refer to entry for: B Sport Development/B Business.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Sport Development.

Bachelor of Sport Development/Bachelor of Business

| 233741 Gold Coast | 4F or 8P | 20/62 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics, General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Griffith University (continued)

Program outline: This degree develops a strong foundation in community sport, health, fitness and business skills, to prepare you for a career in community sport and recreation. You'll explore studies in human anatomy and physiology, health, physical activity, exercise and health promotion, performance analysis, fitness training and coaching, psychology, and communication along with business and management as part of our re-designed Bachelor of Business degree. Graduates will be qualified to work in sports development, management and marketing roles with community and professional sporting clubs and bodies. **Note:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice. **Majors:** *Business:* sport management.

Career opportunities: You'll be prepared for a career in a wide range of community sport and recreation areas, including health promotion and sport development in amateur and professional sporting organisations. You'll also be qualified to work in sport and recreation centres and resorts, national and state sporting organisations, event management and sport marketing media. Potential roles include sports development officer, community development officer, sport administrator, sport program manager, sports coach, health promotion officer, program staff and managers at sport and recreation centres and resorts, executive officers with national and state sporting organisations, event managers/coordinators, and sport marketing and media officers.

JAMES COOK UNIVERSITY

Bachelor of Biomedical Sciences

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 316071 Townsville | 3F or 6P | 17/65 | 16/66 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Students develop an understanding of the normal structure, biochemistry, and physiology of the mammalian body and the processes leading to disease. They work in well-equipped laboratories with scientists involved in cutting-edge medical research, are exposed to current technologies, and develop widely transferable skills. The course is multidisciplinary, drawing from fields of study including anatomy and physiology, pharmacology and biochemistry, microbiology and parasitology, immunology and epidemiology, and pathology and pathobiology.

Majors: Medicinal and pharmaceutical sciences; microbiology and immunology; molecular and cell biology; physiology and pharmacology. **Other requirements:** Students undertake clinical placements at health facilities across northern Queensland during their studies. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Medical research institutes, biotechnology companies, diagnostic services, government positions related to health policy.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Biomedical Sciences.

| Bachelor of Clinical Sciences (Honours) | | | | | |
|---|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 317291 Townsville | 4F or 8P | 8/84 | 8/84 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: This course has a strong clinical focus and gives students a comprehensive grounding in biomedical science through the study of the normal functions of the human body and the mechanisms of disease. Years one and two include foundation anatomy, physiology, microbiology and biochemistry studies. Third year students develop skills to make independent, evidence-based decisions that inform other health practitioners. In their final year, students undertake an honours year that includes clinical placements throughout north Queensland, and Australia. **Other requirements:** Students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. A Suitability Card and Australian Federal Police check may be required; refer to institution.

Career opportunities: Clinical scientist.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Clinical Sciences (Hons).

| Bachelor of Dental Surgery | | | | | |
|----------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 327091 Cairns | 5F or 7P | 7/87 | 7/87 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); completion of Year 12 or attained age 17 years. **Additional entry information:** In addition to applying through QTAC, applicants must submit a *JCU Application Form* to the Division of Tropical Health and Medicine. The *JCU Application Form* is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms. **Closing date:** Domestic applicants: QTAC applications and *JCU Application Form* submissions close 30 September 2020. International applicants: QTAC applications and *JCU Application Form* submissions close 31 August 2020.

Course outline: This five-year course is a broad-based program encompassing all aspects of existing dental practice, with a special focus on tropical, rural and Indigenous practice. The curriculum integrates basic sciences with dental clinical sciences and preventative oral health strategies. There is early exposure to clinical practice, with a curriculum dedicated to acquiring clinical skills. The final year is dedicated entirely to clinical experience with students undertaking placement in Queensland Health dental facilities across northern Queensland. **Note:** Part-time study not permitted in Semester 2, Year 2, and Years 3, 4 and 5. **Other requirements:** Students must undertake clinical placement at dental facilities across northern Queensland during their studies. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students enrolled in dental courses must undergo testing for blood-borne viruses (BBVs) including hepatitis B, hepatitis C and human immunodeficiency virus (HIV) before, or on entry to the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Dentists in private practice, public sector clinics, defence forces.

| Bachelor of Medical Laboratory Science (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 316121 Townsville | 4F or 8P | 11/77 | 10/79 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: This course has a strong clinical focus and provides students with a comprehensive grounding through the study of the normal functions of the human body and the mechanisms of disease. Students study a combination of foundation subjects and subjects to develop the skills to make independent, evidence-based decisions that inform other health practitioners. In final year, students undertake clinical placements throughout Australia or internationally. The course is accredited by the Australian Institute of Medical Scientists.

Other requirements: Students in fourth year participate in three months of clinical placement in a regional medical laboratory, which may include laboratories in Papua New Guinea. Students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. A Suitability Card and Australian Federal Police check may be required; refer to institution.

Career opportunities: Laboratory scientist in public hospitals, private medical pathology laboratories or veterinary diagnostic laboratories, food and water microbiology, pharmaceutical industry.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Medical Laboratory Science (Hons).

| Bachelor of Medicine, Bachelor of Surgery | | | | | |
|---|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 317012 Townsville | 6F | 5/92 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); completion of Year 12 or attained age 17 years. **Additional entry information:** Selection is based on a combination of written application, academic results and interview. In addition to applying through QTAC, applicants must submit a *JCU Application Form* to the Division of Tropical Health and Medicine. This form is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms. Current domestic Year 12 applicants must request their school submit a *Prediction of Academic Achievement* form to JCU. This form is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms/domestic-applicants. Students will be invited for an interview based on their academic results and the evaluation of the written component of the *JCU Application Form*. Interview panels use specific criteria to assess applicants and identify attributes suited to a career in medicine. Interviews will be held in early December 2019 and early January 2020. This degree is primarily for Year 12 applicants. A limited number of places may be available for graduates or non-Year 12 applicants. **Closing date:** Domestic applicants: QTAC applications and *JCU Application Form* submissions close 30 September 2020. International applicants: QTAC applications and *JCU Application Form* submissions close 31 August 2020.

Course outline: This comprehensive six-year course covers the essential requirements of an Australian medical degree with special emphasis on tropical medicine and the health of rural and remote communities and Indigenous Australians. Graduates can work as interns in Australian or New Zealand hospitals and take further training in any branch of medicine. Solid clinical experience begins early with placement in rural locations and regional cities. Students in fifth and sixth year are placed in clinical school sites such as Cairns, Mackay and Townsville.

Other requirements: Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: With further study, general practitioners or medical specialists working in community settings, private practice, public or private hospitals, in medical research.

| 316139 Flexible delivery | 3FL or 6FL | 16/66 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Students develop skills in communication, assessment of clients, planning and implementing nursing interventions, and managing and evaluating nursing care. In addition, the course offers scientific, biophysical and humanistic behavioural knowledge. Clinical education is an integral part of the course. Students participate in supervised clinical practice in a variety of hospitals, health agencies and community settings. Students are required to attend clinical placement away from their base during their studies. **Note:** Applicants for mid-year may have to undertake part-time study in semester 2. This mixed-mode delivery course is offered part-time and involves a combination of distance education and approximately one week per teaching period of residential school on-campus study at Townsville or Cairns for some subjects.

Other requirements: Students must participate in prescribed professional and clinical placements at their own expense. Prior to taking clinical placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Public and private health systems, in schools, with corporations, the defence forces, aid organisations.

Combined degrees: Refer to entry for: B Nursing Science/B Midwifery.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Nursing – Pre-Registration.

| Bachelor of Nursing Science/Bachelor of Midwifery | | | | | |
|---|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 317122 Townsville | 4F or 5P | 13/72 | 12/75 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 30 November 2020.

Course outline: The course provides a strong academic foundation focusing on competent, culturally appropriate, evidence-based midwifery and nursing practice. The practice-based curriculum blends basic and applied sciences with the art of nursing and woman-centred midwifery care. It prepares practitioners with skills across both nursing and midwifery. Clinical placements ensure that students apply theory to practice in a range of settings, with a focus on practice in rural, remote and tropical contexts. **Note:** The part-time option is only available for Level 1. For Level 2 onwards, students must be enrolled full-time. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Public and private health sectors across a range of health areas.

| Bachelor of Occupational Therapy (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 316101 Townsville | 4F or 6P | 17/65 | 14/70 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Occupational therapists assist people to overcome challenges caused by injury, illness, psycho-emotional difficulties, developmental delay, or the effects of ageing. Graduates are prepared to work with people in a range of health and community settings through fieldwork placements throughout north Queensland, with some interstate and international placements. In their final two years of study, students engage in either a research or professional honours project relevant to contemporary occupational therapy practice. **Note:** Levels 1 and 2 can be completed part-time however levels 3 and 4 must be completed full-time. **Majors:** Professional honours (full-time only); research honours (full-time only). Students must achieve a minimum GPA of 5.5 across levels one and two to be offered a position in the research honours major.

Other requirements: Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Public and private hospitals, medical rehabilitation units, retirement homes, psychiatric clinics, hospitals, workplace health and safety.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Occupational Therapy (Hons).

| Bachelor of Pharmacy (Honours) | | | | | |
|--------------------------------|----------|--|------------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 316151 Townsville | 4F or 8P | 14/70 | 12/75 | Feb 2021 | 14 Jan 2021 |
| 326151 Cairns | 4F or 8P | New Course | New Course | Feb 2021 | 14 Jan 2021 |
| 336151 Mackay | 4F or 8P | New Course | New Course | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Students gain the communication, legal, ethical, management, and research skills required for modern pharmacy practice in hospitals, the community, industry, research, or educational settings. The course covers chemistry and biochemistry, drug and dosage form design, anatomy and physiology, disease states, pharmacology, pharmacokinetics, pharmacodynamics, therapeutics, public health and health promotion, and rural and remote practice. This course is accredited by the Australian Pharmacy Council. **Other requirements:** A 600-hour placement program requires students to undertake experiential learning in both hospital and community practice, with a period in a rural area. Overseas placement opportunities and multi-disciplinary placement experiences are also available. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Community, hospital and industrial pharmacies, pharmacy administration, research and education, government, the military.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Pharmacy (Hons).

| Bachelor of Physiotherapy | | | | | |
|---------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 317031 Townsville | 4F | 8/84 | 8/84 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Physiotherapists are health professionals who assess and diagnose problems with human movement, then plan and administer treatment to restore function or minimise dysfunction after disease or injury. Studies include health science subjects, anatomy/physiology, and specialised areas such as movement analysis, manual techniques, exercise prescription and therapeutic massage. Clinical placements ensure students apply theory to practice in various settings, including rural, remote, tropical, national and international contexts.

Other requirements: Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Private practice, hospitals, health centres, schools, aged care, sporting organisations.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Physiotherapy.

| Bachelor of Psychological Science | | | | | |
|-----------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 311081 Townsville | 3F or 6P | 15/68 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: First year consists of introductory subjects in psychology and sociology. Second and third-year studies include a range of psychology subjects - social, abnormal, intercultural, environmental and forensic, lifespan development, brain and behaviour, memory and cognition, psychological assessment, statistical and research methods, and cognitive neuroscience. High achieving students who successfully complete the Bachelor of Psychological Science can study a Bachelor of Psychological Science (Honours) or the Graduate Diploma of Psychology.

Career opportunities: Human service organisations including the health sector, educational facilities, consumer research, marketing, human resource management.

Combined degrees: Refer to entries for: B Business/B Psychological Science (not accounting major); B Sport and Exercise Science/B Psychological Science.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Psychological Science.

| Bachelor of Speech Pathology (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 317041 Townsville | 4F or 6P | 15/68 | 14/70 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology, Physics, Psychology or Health (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Speech pathologists diagnose and treat people with communication and/or swallowing disabilities. The course develops knowledge in anatomy, linguistics and health science, as well as skills for assessing and treating speech, language, voice, fluency, and swallowing disorders. The focus is on rural and remote practice, issues relevant to Indigenous people, and interdisciplinary learning. Clinical placements start in second year with final-year placements outside Townsville. This course is accredited by Speech Pathology Australia.

Note: Levels 1 and 2 can be completed part-time however levels 3 and 4 must be completed full-time. **Majors:** Professional honours; research honours. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Education departments, community health centres, hospitals, rehabilitation centres, disability agencies, mental health, private practice, university teaching, research.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Speech Pathology (Hons).

| Bachelor of Sport and Exercise Science | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 316111 Townsville | 3F or 6P | 18/64 | 18/64 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Students focus on how physical activity enhances human performance in occupational, educational, sport, exercise and leisure settings. Foundation studies include anatomy, physiology and psychology, followed by applied and advanced studies in exercise physiology, sports medicine, functional anatomy, biomechanics, health promotion, sport and exercise nutrition, and sport and exercise psychology. This course is accredited by Exercise and Sports Science Australia. **Other requirements:** Students must complete 140 hours of practical experience with sporting, professional and community bodies including institutes/academies of sport, hospitals, professional sporting clubs, defence forces, fitness centres, and other allied health services. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Community and corporate health and fitness, government agencies associated with sport, physical activity and health, sports academies, research.

Combined degrees: Refer to entry for: B Sport and Exercise Science/B Psychological Science.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Sport and Exercise Science.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

Bachelor of Clinical Exercise Physiology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425422 Kelvin Grove | 4F | 12/75 | 9/82 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); at least one of Biology, Chemistry or Physics (Units 3 & 4, C).

Program outline: Graduates can work in hospitals and clinical settings as specialists in rehabilitation, injury prevention, clinical diagnostics and exercise programming. Students complete 500 hours of professional placement to develop knowledge and skills for the assessment, prescription and delivery of exercise programs to help patients with chronic disease and injury. Students undertake units in anatomy, psychology, nutrition, biomechanics, and motor control.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Other requirements: Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Exercise physiologist, exercise therapist, rehabilitation specialist, exercise programming.

Bachelor of Health Information Management

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425391 Kelvin Grove | 3F or 6P | 13/72 | 13/72 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: Graduates are skilled in information systems and data analysis that support health care, planning, public health and medical research. Students develop skills in new technology, people and project management, clinical coding, and data and information management within health and medicine. Studies in the disciplines of business, health, and information technology prepare graduates for a role in this emerging area. Studies are complemented with placements and visits to professionals in hospitals, government agencies, and not-for-profit organisations.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. Some units may require block attendance.

Other requirements: Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Health information services manager, clinical data manager, health data and casemix analyst, clinical coder/coding, auditor/coding educator, ehealth project officer.

Bachelor of Medical Imaging (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 418182 Gardens Point | 4F | 4/94 | 1/99 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Physics (Units 3 & 4, C).

Program outline: Graduates can use techniques such as x-ray to produce high-quality images that are then used to diagnose, manage and treat an injury or disease. Following foundation studies, students build skills using specialist equipment for digital radiography, general x-ray, mobile x-ray, mammography and dental. Students also develop competency in computer systems and software that is used throughout industry. Students complete extensive professional placement in hospital and private imaging facilities. The honours component is embedded in the course and provides a strong foundation in research skills and critical thinking.

The QUT Offer Guarantee does not apply to this course.

Other requirements: Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Imaging technologist or diagnostic radiographer in hospitals and radiology practices, medical equipment sales.

Bachelor of Medical Laboratory Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 418201 Gardens Point | 4F or 8P | 22/60 | 14/70 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Program outline: Graduates perform tests on human and veterinary specimens such as blood, bodily fluids, stool, urine, and tissue biopsies, and can interpret and analyse results to identify blood diseases, viruses and parasites, immunity disorders, and genetic mutations. Graduates are skilled in all areas of clinical pathology including immunology, haematology, cytogenetic and transfusion science. Final year includes a 12-week professional placement. Students can choose an elective that supports their career aspirations, such as pharmacology, business, Indigenous health, or research techniques.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Medical laboratory scientist in the pathology industry in private laboratories or hospitals, medical research, postgraduate studies in medicine or medical science.

Bachelor of Nursing

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 425231 Kelvin Grove | 3F or 6P | 13/72 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Additional entry information: You must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information on acceptable English Language tests, visit qtac.edu.au.

Program outline: Graduates are highly-skilled nurses with an understanding of contemporary nursing practice and innovative nursing care. Course content focuses on the importance of patient-centred care and nursing practice that is culturally safe, evidence based, and respectful. Students complete 840 hours of professional placement in block periods. Placements are available in public and private hospitals and community centres in Brisbane and regional and rural Queensland.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** If starting in July, you must take a compulsory clinical practice unit in the summer semester prior to their final year of study. For part-time, daytime attendance is required. Some lectures and tutorials may have evening sessions. If you have completed a Diploma of Nursing or equivalent within 10 years of admission to the course and have current AHPRA registration as an Enrolled Nurse (Division 2) (General) without restriction, you can receive one year (96 credit points) of credit transfer and can complete the course in two years full-time or equivalent. You will need apply for this advanced standing after receiving a QTAC offer. Deferment is not available for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Public and private hospitals and nursing homes, community health, armed services, school health, Indigenous health, pathology laboratories, alcohol and drug dependence.

Double degrees: Refer to entries for: B Nursing/B Behavioural Science (Psychology); B Nursing/B Paramedic Science; B Nursing/B Public Health.

Bachelor of Nursing/Bachelor of Behavioural Science (Psychology)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425112 Kelvin Grove | 4F | 10/79 | 10/79 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Additional entry information: You must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test.

Program outline: This course prepares graduates to meet the requirements for a nursing career and also provides the skills to deal with situations where knowledge of human behaviour, advanced communication, and expert interpersonal skills would be an advantage, such as when working as a nurse in a mental health, emergency, palliative care, or cancer unit. Students complete 840 hours of professional placement in hospital and healthcare settings. Registration as a psychologist requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** Students must take a compulsory clinical practice unit in the summer semester prior to their final year of nursing study. Deferment is not available for this course.

Queensland University of Technology (continued)

Other requirements: Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Community health, public and private hospitals, registered nurse, registered psychologist (with further study).

Bachelor of Nursing/Bachelor of Paramedic Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425992 Kelvin Grove | 4F | 7/87 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C). **Additional entry information:** You must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test.

Program outline: This course combines two complementary areas of clinical care, which offers graduates greater flexibility in the workforce. Graduates are trained in all areas of nursing required for practice as a registered nurse and are also eligible for employment as ambulance paramedics.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** All students undertake a summer semester enrolment at the end of first year. Deferment is not available for this course. **Other requirements:** A Blue Card is required prior to clinical placement; refer to institution. Before undertaking clinical placements with the Queensland Ambulance Service (QAS), students must meet the medical, physical and functional requirements of QAS for student paramedics, have a hepatitis B vaccination, and have a criminal history check.

Career opportunities: Clinical healthcare settings, nursing, ambulance paramedic with the Queensland Ambulance Service and interstate or international agencies.

Bachelor of Nursing/Bachelor of Public Health

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425282 Kelvin Grove | 4F | 7/87 | 7/87 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C). **Additional entry information:** You must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test.

Program outline: Graduates can apply nursing knowledge and skills to public health areas such as Indigenous health, population health issues and risk factors for illness. Professionals skilled across these disciplines can choose to work as a nurse in the clinical environment or as a public health professional, developing new programs and initiatives that improve community health and prevent disease.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** Students must take a compulsory clinical practice unit in the summer semester prior to their final year of nursing study. Deferment is not available for this course.

Other requirements: Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Clinical healthcare settings, health promotion agencies, nursing.

Bachelor of Nutrition and Dietetics (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425442 Kelvin Grove | 4F | 5/92 | 4/94 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Program outline: Graduates have advanced knowledge in the science of nutrition and can use this knowledge to advise on appropriate diet, food preparation, and menu planning to treat disease. After foundation studies in chemistry, anatomy and physiology, nutrition communication and food and nutrition, students advance to studies in biochemistry, medical physiology and nutrition science. Students provide specialised advice to clients from many cultural and social backgrounds through placements at the QUT Health Clinics and external settings. The honours component is embedded within the course and provides students with a strong foundation in research and critical thinking.

The QUT Offer Guarantee does not apply to this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Dietitian in hospitals, medical nutrition therapy, food service consultant, community or public health nutritionist, researcher, private practice and community health.

Bachelor of Nutrition Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425332 Kelvin Grove | 3F | 14/70 | 14/70 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Program outline: Graduates focus on nutrition issues that affect the whole population. With scientific knowledge about how food and nutrition can impact diet and prevent chronic disease, graduates are employed in a number of industries to analyse food supply, eating behaviours, and government policy, and to promote healthy lifestyle choices. Professional placements provide an understanding of how nutrition can be applied in diverse environments. Students can choose elective units in social media, exercise and sport, business, and biosciences.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Community health centres and public health areas, government agencies, educational institutions, food industry, corporate environments.

Combined degrees: Refer to entry for: B Communication (Professional Communication)/B Nutrition Science.

Bachelor of Paramedic Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 425592 Kelvin Grove | 3F | 9/82 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: This course prepares graduates as ambulance paramedics. Foundation studies in the anatomy and physiology of the human body and an introduction to health and disease concepts and statistical methods in health are followed by advanced units with an increasing emphasis on clinical skills through supervised practice with the Queensland Ambulance Service. Students complete placements in metro and regional areas of Queensland, or travel overseas and work on shift with paramedics in other services.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Note: All students undertake a summer semester enrolment at the end of first year. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution. Before undertaking clinical placements with the Queensland Ambulance Service (QAS), students must undertake a health and fitness test, have a hepatitis B vaccination, and have a criminal history check.

Career opportunities: Ambulance paramedic with agencies such as the Queensland Ambulance Service and other clinical settings.

Combined degrees: Refer to entry for: B Nursing/B Paramedic Science.

Bachelor of Pharmacy (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 418512 Gardens Point | 4F | 15/68 | 11/77 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Program outline: Graduates have expert knowledge about how drugs interact with the body and how they can be used safely for therapeutic purposes. Students complete more than 500 hours of professional placement in hospitals and community pharmacies and in healthcare roles where pharmacists are increasingly being employed. Studies focus on priority health areas of patient care such as musculoskeletal, cardiovascular and mental health conditions. The honours component develops advanced skills for leadership in an evolving profession.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Community and hospital pharmacies, the pharmaceutical industry, government, research agencies, academic institutions.

| Bachelor of Podiatry | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 425222 Kelvin Grove | 4F | 10/79 | 9/82 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Program outline: Using physical therapy and surgical techniques, graduates can diagnose and treat heel pain, running injuries, footwear problems and corrections, skin problems, tendon and joint injuries. Students develop knowledge in anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine before completing 1000 hours of professional placement at QUT Health Clinics and external facilities. Students participate in biomechanics/musculoskeletal clinics, sports clinics, diabetes foot complication clinics, paediatric clinics, and general podiatric clinics.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Private practice, hospitals, community health centres.

| Bachelor of Public Health | | | | | |
|---------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 425372 Kelvin Grove | 3F | 13/72 | 13/72 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: Graduates understand how factors such as gender, socioeconomic status, and access to education can affect health. They apply this knowledge to develop and deliver health programs, services and policies that improve the health and wellbeing of whole populations. Students complete studies in sociology, epidemiology, statistics and evaluation, before choosing electives in community nutrition, Indigenous studies, family and gender studies, science, general psychology, counselling, or health management. Local, rural and overseas placements are available.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Health policy and project management, community health, public health education and promotion, project officer, consultant for health organisations.

Double degrees: Refer to entries for: B Communication (Professional Communication)/B Public Health; B Human Services/B Public Health; B Nursing/B Public Health.

| Bachelor of Radiation Therapy | | | | | |
|-------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 418192 Gardens Point | 4F | 6/89 | 3/96 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Physics (Units 3 & 4, C).

Program outline: Graduates plan and deliver highly accurate radiation treatment, and offer emotional support and care for cancer patients. Professional placement begins in first year and is completed in private and public radiation therapy facilities throughout Queensland and at some interstate sites. Studies cover interaction of radiation and body tissue and treatment planning using clinical software, and treatment delivery.

The QUT Offer Guarantee does not apply to this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Radiation therapist in public hospitals and cancer care centres.

| Bachelor of Sport and Exercise Science | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 425302 Kelvin Grove | 3F | 18/64 | 14/70 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); at least one of Biology, Chemistry or Physics (Units 3 & 4, C).

Program outline: Graduates can apply complex knowledge to the design, delivery and evaluation of exercise programs, interventions and assessments that meet the specific needs of their client in a non-clinical setting. Students complete 300 hours of professional placement with sporting associations, fitness centres, school coaching programs, strength and conditioning programs, and academies of sport. Students take units in exercise psychology, injury prevention and rehabilitation, resistance training and performance analysis.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer

for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Exercise scientist, sports scientist, strength and conditioning training, corporate health, community health, sport science research.

| Bachelor of Vision Science/Master of Optometry | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 425312 Kelvin Grove | 5F | 5/93 | 2/98 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C); Physics (Units 3 & 4, C).

Program outline: Optometrists examine eyes and the visual system to protect and improve vision and to detect and diagnose eye disease. Optometrists may prescribe therapeutic medications for a range of eye conditions. The bachelor component provides a theoretical foundation in the life sciences, vision sciences and clinical science. On completion of the Bachelor of Vision Science with a GPA of 4.00 (or better), students enter the Master of Optometry to complete their clinical practice studies in the QUT Optometry Clinic and other healthcare settings. Practical studies include working with Indigenous patients and children with low vision.

The QUT Offer Guarantee does not apply to this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Optometry practice, contact lens practice, paediatric vision, occupational and public health vision, low vision practice in private practice, vision science research.

| SOUTHERN CROSS UNIVERSITY | | | |  Southern Cross University | |
|--------------------------------|----------|--|----------|---|---------------------------|
| Bachelor of Biomedical Science | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 059661 Gold Coast | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course provides a scientific understanding of the structure and function of the human body and the interrelationships between health and disease. Students develop problem-solving and critical reasoning skills, and learn how to apply those skills to their chosen discipline. Students undertake approximately 420 hours of professional placements to gain workplace experience. Graduates may qualify for entry into a range of graduate health professional programs including postgraduate pharmacy and physiotherapy or choose to pursue medicine or other careers. **Note:** For students commencing in July, course duration is 3.5F or 7P.

Career opportunities: Biomedical, health, university and government researcher, hospital, veterinary and pathology laboratories and scientific sales, quality assurance, health departments, pharmaceutical and cosmetic industries. Graduates can pursue postgraduate studies in the medical field.

♦ Refer to institution.

| Bachelor of Clinical Sciences (Osteopathic Studies) | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 055111 Lismore | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 059761 Gold Coast | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course has a strong clinical focus and provides students with a comprehensive grounding in biomedical science and health. Graduates have the knowledge and skills to continue with postgraduate study with four units of credit towards the Master of Osteopathic Medicine, which is necessary for registration as an osteopath. Total full-time duration for both courses is four years, during which students undertake 800 hours of supervised professional placement. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Police and health record checks are required before undertaking placements; refer to Southern Cross University.

Career opportunities: This course plus our Master of Osteopathic Medicine provides a professional, entry-level program for graduates to be eligible to register as osteopathy practitioners.

♦ Refer to institution.

Bachelor of Exercise Science and Psychological Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 055155 Coffs Harbour | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 055112 Lismore | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 055261 Gold Coast | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This double degree provides understanding of the structure and function of the human body as it relates to movement, the interrelationships between health and disease, and the psychological bases of human behaviour. Graduates might pursue careers with therapeutic connections to sport and exercise such as professional athlete counselling and rehabilitation or choose to pursue postgraduate study to become a psychologist. Students complete a 140-hour exercise science professional placement in the third year of the course. Facilities include fully-equipped exercise physiology, biomechanics and biochemistry labs, multi-purpose sports hall and weight training gymnasium. **Note:** For students commencing in July, course duration is 4.5F or 9P. **Majors:** Human movement; physiology; psychological science.

Career opportunities: Psychologist (with additional postgraduate training) or careers that have therapeutic connections to sport and exercise, such as professional athlete counselling, rehabilitation, or counselling within schools and colleges.

♦ Refer to institution.

Bachelor of Midwifery

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 055861 Gold Coast | 3F or 6P | ♦ | ♦ | Mar 2021 | 14 Jan 2021 |
| 055451 Coffs Harbour | 3F or 6P | ♦ | ♦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry; Biology. **Additional entry information:** Applicants must demonstrate English language proficiency to the current standards of registration as a midwife by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with minimum 6.5 in each of the four bands – Listening, Speaking, Writing, and Reading.

Course outline: This course develops graduates for entry to professional midwifery practice. It prepares graduates to provide high quality woman-centred care through safe and effective midwifery practice in accordance with the Australian Nursing and Midwifery Council Midwife standards for practice. Graduates are equipped to apply sound evidence-based reasoning skills to their midwifery practice and collaborate effectively in multidisciplinary teams to promote effective outcomes. Students undertake 1000 hours of supervised placements. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Specialisations:** Anatomy and physiology; midwifery theory and practice; primary healthcare; psychosocial sciences; women's health. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Registered midwife or clinical midwifery consultant in public and private hospitals, community maternity and neonatal healthcare settings; group practice midwife, clinical midwifery consultant, midwifery educator, midwifery unit manager, independent midwife (with further training); in Australia and in New Zealand.

♦ Refer to institution.

Bachelor of Nursing

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 055471 Gold Coast | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 055011 Lismore | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 055151 Coffs Harbour | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English; General Mathematics, Mathematical Methods or Specialist Mathematics.

Additional entry information: Applicants must demonstrate English language proficiency to the current standards of registration as a nurse by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with 7.0 in each of the four bands – Listening, Speaking, Writing, and Reading.

Course outline: This degree provides an outstanding combination of practical training while building knowledge about health assessment, diagnosis, person-centred care and plan development. The degree aims to produce graduates with the competence, confidence and flexibility to adapt to changes and contribute to innovation in the nursing profession and the healthcare system. Supervised clinical placements provide students with practical experience in settings relevant to their areas of study. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of

vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Registered nurse in surgical theatres, paediatrics, community health and education and primary care, practice nurse in GP clinics, mental health, aged care, Indigenous health.

♦ Refer to institution.

Bachelor of Occupational Therapy

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 055961 Gold Coast | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 059151 Coffs Harbour | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Additional entry information: Applicants must demonstrate English language proficiency to the current standards of registration as an occupational therapist by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with 7.0 in each of the four bands – Listening, Speaking, Writing, and Reading.

Course outline: Occupational therapy assists people of all ages to participate in the everyday tasks and activities (occupations) that they need and want to do, whether at home, at work, at school or in the community. Occupational therapists transform and adapt environments, activities, equipment and enhance performance to support and promote meaningful engagement and participation. They may work with individuals, groups, government and non-government organisations, in private practice and communities. Students complete approximately 1000 hours of professional placement. **Note:** For students commencing in July, course duration is 4.5F or 9P.

Majors: Optional major in Indigenous Health. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Occupational therapist working with individuals, groups, government and non-government organisations, in private practice and communities, in aged care, hospitals, community health, mental health services, schools, industrial environments.

♦ Refer to institution.

Bachelor of Podorthotics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 055561 Gold Coast | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree provides the knowledge and skills required for graduates to become professional podorthotists. Podorthotics is about keeping people mobile and getting the best performance from their feet, footwear or orthoses. Podorthotists conduct comprehensive assessments of clients that may lead to them manufacturing corrective footwear, orthoses or other supportive devices to address conditions affecting the feet and human mobility. Students complete approximately 1000 hours of professional placement in various settings. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Podorthotist in private and allied health practices, in disability health services, footwear design and manufacture, sports industry, paediatrics. A podorthotist may also use their skills to make comfortable fashion footwear.

Double degrees: Refer to entry for: B Podiatry/B Podorthotics.

♦ Refer to institution.

Bachelor of Podiatry

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 059961 Gold Coast | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Additional entry information: Applicants must demonstrate English language proficiency to the current standards of registration as a podiatrist by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with 7.0 in each of the four bands – Listening, Speaking, Writing, and Reading.

Course outline: Podiatry involves the study, diagnosis and treatment of the foot, ankle and lower leg. This course prepares students for entry into professional podiatry practice. Students develop an understanding of the theoretical and practical components of podiatry, with small class sizes, state-of-the-art facilities and equipment. This course aims to produce knowledgeable, skilled, empathetic, ethical and innovative professionals who are able to provide effective assessment and intervention for people of different ages. Students complete approximately 1000 hours of clinical

Southern Cross University (continued)

placement. **Note:** For students commencing in July, course duration is 4.5F or 9P.

Other requirements: Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Podiatrist in private practice, community health settings, hospitals, specialised health teams, such as in diabetic care, in health promotion and education, or research.

Double degrees: Refer to entry for: B Podiatry/B Pedorthics.

♦ Refer to institution.

| Bachelor of Podiatry/Bachelor of Pedorthics | | | | | |
|---|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 055661 Gold Coast | 5F or 10P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Additional entry information: Applicants must demonstrate English language proficiency to the current standards of registration as a podiatrist by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with 7.0 in each of the four bands – Listening, Speaking, Writing, and Reading.

Course outline: Podiatry involves the study, diagnosis and treatment of the foot, ankle and lower leg. Pedorthics is a new allied health specialisation that focuses on biomechanics and improving foot function to promote better mobility. This double degree is ideal for careers in both disciplines, and particularly for podiatrists who can extend their practice into the manufacture of medical-grade footwear and other orthotic devices. It enables students to develop an understanding of the theoretical and practical components of podiatry and pedorthics, with a focus on general and specialist knowledge and skills. Students complete approximately 2000 hours of clinical placement.

Other requirements: Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: As a podiatrist and/or pedorthist in private practice, community health settings, hospitals or in specialised health teams, such as in diabetic care.

♦ Refer to institution.

| Bachelor of Speech Pathology | | | | | |
|------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 059861 Gold Coast | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 059051 Coffs Harbour | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Additional entry information: Applicants must demonstrate English language proficiency to a level required by the institution. Applicants from a non-English speaking background require a minimum IELTS of 7.5 overall with minimum 8.0 in Listening and Speaking and minimum 7.0 in Writing and Reading. Refer to institution for more information.

Course outline: This course prepares students for entry into professional speech pathology practice. Speech pathologists assess and treat adults and children exhibiting acquired or congenital disorders of speech, fluency, voice, language and swallowing and multimodal communication. Students become knowledgeable, skilled, empathetic, ethical and innovative professionals able to provide effective assessment and intervention for people of different ages. Students complete approximately 1000 hours of professional placement. **Note:** For students commencing in July, course duration is 4.5F or 9P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Speech pathologists work in diverse settings including private practice, the corporate sector, schools, community health centres, nursing homes and mental health services.

| TAFE QUEENSLAND | | | | | |
|--------------------------------|----------|--|----------|-------------|-------------|
| Bachelor of Dental Prosthetics | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 555145 South Bank | 3CL | 25/57 | 25/57 | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Additional entry information: A high degree of manual dexterity is required for success as a dental prosthetist. For more information about admission criteria refer to tafeqld.edu.au/courses/17880/bachelor-of-dental-prosthetics.page. Successful applicants who do not have the recommended study and are at risk of non-completion of the program may be required to undertake bridging studies as part of first semester.

Course outline: Dental prosthetists work independently to provide complete and partial dentures, dental appliances, and mouth-guards to the public. This course is suitable for both students wanting to take their existing oral health qualification to the next level, and students with no prior dental experience wanting to forge a new career path with a clinical qualification. Students learn to issue, maintain and examine dental prosthetics, insert and try-in dentures, take impressions, and undertake production and technical work. This is a highly technical course, with units providing broad and coherent knowledge in pathophysiology, pharmacology, radiology, and clinical skills.

Note: FEE-HELP is available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/fee-help for information. **Other requirements:** Required immunisations prior to clinical practice: hepatitis B, tetanus and whooping cough (pertussis). Recommended immunisations prior to clinical practice: seasonal influenza, varicella-zoster virus (chicken pox) and MMR (measles, mumps, rubella) vaccines.

Career opportunities: Registered dental prosthetist, health practitioner.

| Diploma of Anaesthetic Technology | | | | | |
|-----------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 555536 South Bank | 2CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: Students will learn how to confidently assist the anaesthetist in preparing the client for their anaesthetic. This will include checking and maintaining the anaesthetic machine, preparing anaesthetic medications, monitoring clinical measurements, assisting with airway management techniques and anticipating and responding to any anaesthetic emergency. Industry health professionals will guide students to ensure their transition into the health sector is a success. TAFE Queensland's designated learning space, with state-of-the-art anaesthetic machines, vital signs monitors, difficult intubation equipment, and simulator mannequins, will prepare graduates for real-world situations while under the supervision of industry professionals. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. **Other requirements:** Prior to commencing clinical placement, students may be required to satisfy requirements relating to a criminal history check, Suitability Card, vaccinations, and Senior First Aid certificate.

Career opportunities: Anaesthetic technician.

| 570775 Warwick | 2ML | ☆ | ☆ | Apr 2021 | 5 Mar 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Additional entry information: Successful applicants will be required to complete the Basic Key Skills Builder (bksb) assessment and attain competence at or above Exit Level 3 in the Australian Core Skills Framework (ACSF) in both reading and numeracy before enrolment can be finalised. The bksb is a Commonwealth approved literacy and numeracy online assessment tool. *Kingaroy (566775), Warwick (570775), Roma (565775) and Toowoomba (568775):* for these campuses, preference is given to applicants who reside in these regions. Successful applicants must undertake a clinical placement; students will be notified of locations after commencement of study.

Course outline: This course is the essential minimum requirement to work as an enrolled nurse. This course provides learners with the advanced skills to perform clinical assessments, contribute to nursing care of people with complex needs, administer and monitor medications and IV therapy, research and apply evidence to practice. This course is accredited by the Australian Nursing and Midwifery Accreditation Council. Our graduates are eligible to apply for enrolled nurse status with the Nursing and Midwifery Board of Australia. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. Prospective applicants are encouraged to make early contact with the relevant campus regarding on campus attendance and clinical placement requirements. **Other requirements:** Prior to commencing vocational placement, students may be required to satisfy requirements relating to a criminal history check, Suitability Card, vaccinations, and Senior First Aid certificate.

TAFE Queensland (continued)

Career opportunities: Eligible to apply for registration as an enrolled nurse.

Combined diplomas/degrees: The Diploma of Nursing can be combined with other programs as listed below to attain the awards of Diploma of Nursing from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester 1 university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Nursing for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

| Doctor of Medicine (MD) (Provisional Entry for School-Leavers) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 721302 St Lucia & Clinical Schools | 7F | 4/94 | 1/99 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Applicants must sit the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) in the year of application and undertake a Multiple Mini Interview (MMI). An ATAR 95 or equivalent is required. The Doctor of Medicine (MD) is a postgraduate medical training program. Provisional entry sets aside a future place in the program and is available to domestic and international students completing Year 12 in the year of application. To progress to the MD program, applicants must complete their first bachelor level degree in the minimum timeframe at UQ, achieve a minimum GPA of 5.0 and complete two subject prerequisites. Entry to this course is highly competitive, and not all applicants with an ATAR 95 or selection rank 99 will be offered a place. Offers will be based on the following criteria: number of places available and the applicant's final ranking, based on the combined score of ATAR, MMI and aggregate UCAT ANZ score. Details of the UCAT ANZ, including registration procedures, are available at ucat.edu.au/ucat-anz. **Rural Background Student Sub Quota:** To help address shortages of medical professionals in rural areas, 28% of the places available are designated to students from a rural background. Visit future-students.uq.edu.au/rural-background-sub-quota for more information regarding the Rural Background Student Sub Quota.

Program outline: The Doctor of Medicine is designed to develop the knowledge, skills and personal qualities expected of leading junior doctors. There are two entry pathways: Provisional Entry (for school leavers) or Direct Entry (for university graduates). Across the program, students transition from studying specific cases in classes with a tutor to undertaking clinical placements in hospitals. Years 1 and 2 combine the study of basic and clinical sciences with training in research, ethics, public health and clinical skills. Students also complete an apprentice-style observership to gain insight into life as a doctor. Years 3 and 4 involve undertaking placements at a clinical school. **Note:** After completion of the first degree, students are located primarily at St Lucia in year 1 and at hospitals in years 2 to 4. **Other requirements:** Students who receive a provisional entry offer may choose any bachelor level program at UQ (minimum three year degree). Enrolment in the first degree is subject to meeting all additional entry requirements for that degree, such as subject prerequisites or auditions. Provisional entry students should note the recommended entry pathways; refer to medicine.uq.edu.au/pathways-medicine. All students must complete their first bachelor program at UQ within the minimum time specified for that program, achieve a minimum GPA of 5.0 and complete two subject prerequisites before progressing to the medical

program. On admission to the medical program, the following requirements must be met: first aid certificate (including CPR); Blue Card; criminal history background check; and compliance with an immunisation schedule.

Career opportunities: Graduates are ready to embark on a host of different and complementary career pathways. They may become experts in patient care, public health, clinical academia and teaching, research or work for aid organisations, the defence forces or set up their own private practice.

| Doctor of Medicine (MD) Provisional Entry for School-Leavers (Bonded Medical Places) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 721402 St Lucia & Clinical Schools | 7F | 4/94 | 1/99 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Applicants must take the University Clinical Aptitude Test (UCAT) in the year of application and undertake a Multiple Mini Interview (MMI). An ATAR 95 or equivalent is required. The Doctor of Medicine (MD) is a postgraduate medical training program. Provisional entry sets aside a future place in the program and is available to domestic and international students completing Year 12 in the year of application. To progress to the MD program, applicants must complete their first bachelor level degree in the minimum timeframe at UQ (minimum of three years study prior to entry). Entry to this course is highly competitive, and not all applicants with an ATAR 95 or a selection rank 99 will be offered a place. Offers will be based on the following criteria: number of places available that year and the applicant's final ranking, based on the combined score of ATAR, MMI and aggregate UCAT ANZ score. Details of the UCAT, including registration procedures, are available at ucat.edu.au.

Rural Background Student Sub Quota: To help address shortages of medical professionals in rural areas, 28% of the places available will be designated to students from a rural background. Visit future-students.uq.edu.au/rural-background-sub-quota for more information regarding the Rural Background Student Sub Quota.

Program outline: The Doctor of Medicine is designed to develop the knowledge, skills and personal qualities expected of leading junior doctors. There are two entry pathways: Provisional Entry (for school leavers) or Direct Entry (for university graduates). Across the program, you'll transition from studying specific cases in classes with a tutor to undertaking clinical rotations in hospitals. Years 1 and 2 combine the study of basic and clinical sciences with training in research, ethics, public health and clinical skills. You'll also complete an apprentice-style observership to gain insight into life as a doctor. Years 3 and 4 involve undertaking rotations at a clinical school. Each clinical rotation is eight-weeks long. **Note:** After completion of the first degree, students are located primarily at St Lucia in year 1 and at hospitals in years 2 to 4.

Other requirements: Students accepting an MD offer under the Bonded Medical Places (BMP) scheme must commit to working in an area of workplace shortage for one year after they have completed their professional training. A Deed of Agreement (the BMP contract) is signed at the end of the first degree. Students who receive a provisional entry offer may choose any bachelor level program at UQ (minimum three year degree). Enrolment in the first degree is subject to meeting all additional entry requirements for that degree, such as subject prerequisites or auditions. Provisional entry students should note the recommended entry pathways; refer to medicine.uq.edu.au/pathways-medicine. All students must complete their first bachelor program at UQ within the minimum time specified for that program and achieve a minimum GPA of 5.0 before progressing to the medical program. On admission to the medical program, the following requirements must be met: first aid certificate (including CPR); Blue Card; criminal history background check; and compliance with an immunisation schedule.

Career opportunities: Medical practitioner in private practice, public health, academia, research, aid organisations, defence forces.

| Bachelor of Clinical Exercise Physiology (Honours) | | | | | |
|--|---------------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 729801 St Lucia | 4F or 4P & 2F | 5/92 | 4/94 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: The Bachelor of Clinical Exercise Physiology (Honours) prepares you for an exciting career as an accredited exercise physiologist and accredited exercise scientist. Accredited exercise physiologists are recognised allied health professionals who design and deliver exercise interventions for the prevention and management of a range of musculoskeletal, cardiovascular, metabolic, neurological, cancer and mental health conditions. The degree is the only four-year undergraduate clinical exercise physiology program in Australia where you graduate with an honours qualification. **Note:** You can undertake the first two years of the degree on a part-time basis, however the final two years must be full-time. **Other requirements:** At the end of year one, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: You may work in a variety of settings, including private practices, home health services, hospitals or clinical services, research centres, and community health and fitness centres. Other careers include biomechanist, cardiac scientist, respiratory technician, strength and conditioning specialist, rehabilitation professional, health promotion officer, corporate health and fitness adviser, health educator, fitness consultant, community recreation officer and exercise science researcher.

| Bachelor of Dental Science (Honours) | | | | | |
|--------------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 712002 Herston & St Lucia | 5F | 4/94 | 1/99 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Chemistry (Units 3 and 4, C).

Additional entry information: Applicants must take the University Clinical Aptitude Test (UCAT). Information on the UCAT, including registration procedures, is available online at ucat.edu.au. Entry to this course is highly competitive. Not all applicants with an OP1 or a selection rank of 99 were offered a place in previous years. UCAT scores were used as a secondary selector.

Program outline: The Bachelor of Dental Science (Honours) educates the next generation of dental professionals in the most advanced oral health facility in Australia. With small cohorts and dedicated, specialist teachers, you will master the science and technical skills required to care for patients, and prevent, diagnose and treat oral diseases and abnormalities. You will be workforce-ready when you graduate, with extensive clinical experience and in-depth knowledge of general practice in dentistry, orthodontics, paediatric dentistry, periodontics, prosthodontics, oral medicine, oral and maxillofacial surgery and public health. **Note:** Students attend the Herston and St Lucia campuses throughout the program and attend major external clinical placements in year 5.

Other requirements: On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details of these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Once registered with the Dental Board of Australia, you can establish your own private practice, work within an established practice, or join a partnership. Within the public sector, there are opportunities to work within hospitals, community health services, or school-based dental clinics across Australia. The Australian Defence Force also accepts dental officers on a short-service or permanent basis. Postgraduate study offers opportunities to develop specific interests and qualify as a specialist in a recognised field such as orthodontics, prosthodontics, oral medicine, dento-maxillofacial radiology, endodontics, periodontics, and special-needs dentistry.

| Bachelor of Exercise and Nutrition Sciences | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 720102 St Lucia | 3F or 6P | 12/75 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: As part of the Bachelor of Exercise and Nutrition Sciences program, you will learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether you're interested in exercise and nutrition, or a broader career in health, this program will help you make a positive change in the wellbeing of others.

Career opportunities: Graduates frequently combine a Bachelor of Exercise and Nutrition Sciences with a postgraduate qualification to specialise in non-clinical or clinical areas such as dietetics, medical practice and physiotherapy. Other students use their skills to work in graduate entry roles such as nutrition assistant, fitness or weight loss consultant, or research assistant.

Dual degrees: Refer to entry for: B Exercise and Nutrition Sciences/M Dietetics Studies (students must successfully complete the bachelor program before progressing to the masters).

| Bachelor of Exercise and Nutrition Sciences/Master of Dietetics Studies | | | | | |
|---|--------------------------------------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 729602 St Lucia | 3F & 1 ¹ / ₂ F | 4/94 | 3/96 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: As part of the Bachelor of Exercise and Nutrition Sciences, you learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether you're interested in exercise and nutrition, or a broader career in health, this program helps you make a positive change in the wellbeing of others. **Note:** The undergraduate degree is delivered at St Lucia and must be completed in three years full-time. The master's degree is delivered with a combination of lectures at St Lucia and placements at healthcare facilities and must be completed on a full-time basis.

Other requirements: Students must complete the Bachelor of Exercise and Nutrition Sciences at UQ within the minimum time specified with a minimum annual GPA of 5.0 before progressing to the one and a half year Master of Dietetics Studies program. On admission to the masters program, the following requirements must be met: Blue Card, current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Refer to Bachelor of Exercise and Nutrition Sciences. In addition, graduates of the Master of Dietetic Studies may pursue careers in public, private and not-for-profit sectors as clinical dietitians, community nutritionists, public health nutritionists, sports dietitians and food industry dietitians.

| Bachelor of Exercise and Sport Sciences (Honours) | | | | | |
|---|--|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 729302 St Lucia | 4F or 1 ¹ / ₂ F & 7P | 7/87 | 6/89 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: This program allows you to make an essential contribution to wellbeing, rehabilitation and performance. This program focuses on understanding how to enhance human performance, how the body responds to exercise and physical activity, and how to conduct research that could help build healthier communities and stronger athletes.

Other requirements: At the end of year 1, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. This program may be completed part-time, however, semesters that include a placement must be studied full-time. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Prescribing and delivering exercise and physical activity programs in the fitness industry; developing strength and conditioning programs to assist elite athletes and sporting teams; delivering workplace health promotion and executive health management programs; conducting diagnostic measurements (cardiac, sleep, respiratory or neurophysiology) in hospitals or other clinical services.

| Bachelor of Health Sciences | | | | | |
|-----------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 729002 St Lucia | 3F or 6P | 11/77 | 9/82 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: In this flexible three-year program, you gain a broad understanding of human health, studying fields including biomedicine, health behaviours, public health and evidence-based practice. You specialise in clinical health, nutrition or public health, and get hands-on experience during your final semester of study with a minimum of 90 hours of supervised work experience.

Majors: Clinical health; nutrition; public health.

Career opportunities: Graduates pursue rewarding careers as health promotion or public health officers, or in health administration. Others pursue clinical careers through further study.

Dual degrees: Refer to entry for: B Health Sciences (Nutrition)/M Dietetics Studies.

| Bachelor of Health Sciences (Nutrition)/Master of Dietetics Studies | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to QTAC website.

Program outline: This program prepares you to be a specialist health, sports or physical education teacher in secondary schools, with junior science as your secondary teaching area, or in related areas such as sports education, outdoor recreation or health promotion. You'll help young people explore a range of sport and physical activities, develop self-esteem, and acquire social skills. As part of the program, you complete placements where you'll work with young people

The University of Queensland (continued)

in primary and secondary schools. **Note:** The degree can be undertaken part-time; however, semesters that include a placement must be undertaken full-time. **Other requirements:** Before commencing practical courses, the following requirements must be met: first aid certificate (including CPR) and Blue Card. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Graduates can pursue a broad range of careers, not only as a specialist teacher of physical education, health education and junior science, but also as a health promotion officer, sports coach, corporate health officer, and roles in sports academies, charities and institutes.

| Bachelor of Midwifery | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 728402 St Lucia | 3F | 4/94 | 4/94 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Additional entry information: To enrol in this program, You must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English language test. For more information, refer to English language proficiency on the QTAC website.

Program outline: This program prepares you for a career in safely guiding expectant parents through pregnancy, birth and the weeks that follow. You undertake extensive supervised practical experience throughout the program, and during your final year you extend your clinical knowledge to ensure you meet the Nursing and Midwifery Board of Australia National Competency Standards. This program is delivered through a clinical schools' model; after four weeks' intensive training, you attend small group-based teaching sessions at a clinical school, and lectures at UQ St Lucia.

Note: Within your home hospital group, you undertake extensive practical placements at Mater or a variety of other hospitals throughout South-East Queensland. For more information, visit nmsw.uq.edu.au/clinical-placements. Generally, students remain in the same home hospital group for the duration of their studies. Students in Mater home hospital groups attend lectures at St Lucia and small group teaching and clinical simulation at Mater South Brisbane. Students in other home hospital groups attend lectures and small group teaching at St Lucia and clinical skills simulation at a partner hospital site. **Other requirements:** On application, applicants will be required to demonstrate their English language proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Midwife in public or private health, maternity and neonatal care, teaching, research, rural and remote health, and aid organisations.

Dual degrees: Refer to entry for: B Nursing/B Midwifery.

| Bachelor of Nursing | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 728502 St Lucia | 3F | 9/82 | 8/84 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Additional entry information: To enrol in this program, You must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English language test. For more information, refer to English language proficiency on the QTAC website.

Program outline: The Bachelor of Nursing integrates lecture-based study with clinical placements in major teaching hospitals. You undertake extensive supervised practical experience throughout the program, and during your final year, you can undertake a placement in a specialist area including acute care, aged care, mental health, Indigenous health, rural health, public health or community health. **Note:** Within your home hospital group, you undertake extensive practical placements at a variety of hospitals throughout South-East Queensland. For more information, visit nmsw.uq.edu.au/clinical-placements. Generally, students remain in the same home hospital group for the duration of their studies. Students attend lectures and workshops at St Lucia and group-based clinical teaching sessions in clinical simulation centres. **Other requirements:** On application, applicants will be required to demonstrate their English language proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Registered nurse in various public, private or community healthcare settings; critical care and emergency; mental health; aged care; research; and academic and clinical teaching.

Dual degrees: Refer to entry for: B Nursing/B Midwifery.

| Bachelor of Nursing/Bachelor of Midwifery | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Additional entry information: To enrol in this program, You must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English language test. For more information, refer to English language proficiency on the QTAC website.

Program outline: This dual degree provides you with a broad set of skills that encompass the disciplines of nursing and midwifery. Midwives safely guide expectant parents through pregnancy, birth and the weeks that follow through effective midwifery practice. Nurses are able to work in a variety of areas, including acute care, aged care, mental health, Indigenous health, rural health, public health or community health. You undertake extensive practical experience, starting in first semester. **Note:** The clinical placements are delivered through a home hospital group model at Mater or other hospitals in South-East Queensland including Metro North, Metro South, West Moreton and Darling Downs. Generally, students remain at the same home hospital group for the duration of their studies. For more information, visit nmsw.uq.edu.au/clinical-placements. Students in Mater home hospital groups attend lectures at St Lucia and small group teaching and clinical skills simulation at Mater South Brisbane. Students in other home hospital groups attend lectures and small group teaching at St Lucia and clinical skills simulation at a partner hospital site. **Other requirements:** On application, applicants will be required to demonstrate their English language proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Refer to Bachelor of Midwifery and Bachelor of Nursing.

| Bachelor of Occupational Therapy (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 724002 St Lucia | 4F | 7/87 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: Occupational therapists help people of all ages overcome barriers that affect their ability to engage in the everyday activities that are meaningful and important to them. They use a range of treatment strategies designed to enhance the person's ability, such as modifying the task or environment, developing their skills, and/or education. Through this program, you will gain a thorough understanding of the theory and practice of occupational therapy, including foundation knowledge from the anatomical, physiological, social behavioural, and psychological sciences.

Other requirements: On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Graduates work as occupational therapists in public and private hospitals; country or community health centres; rehabilitation units (medical, vocational, psychiatric); regular and special schools; special centres providing development and training for persons with a social, intellectual or physical disability; independent living centres; workplace health and safety units; nursing homes; psychiatric clinics and hostels; residential and rehabilitation centres for people with an intellectual disability; centres of tertiary education; research institutions; or private practice.

| Bachelor of Pharmacy (Honours) | | | | | |
|--------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 725002 St Lucia | 4F or 8P | 10/79 | 8/84 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Chemistry (Units 3 and 4, C).

Program outline: The Bachelor of Pharmacy (Honours) prepares you to play a vital role in the healthcare system. As a pharmacist, you can work in a community pharmacy, hospital pharmacy, industry, research or a range of other settings. Pharmacists improve people's lives through education, disease prevention, patient counselling, medication reviews and more. In dedicated laboratories and mock pharmacies at the Australian Pharmacy Centre of Excellence, UQ students learn about the properties of medicines, how medicines affect the body and the pharmacy profession. **Note:** Students attend the St Lucia campus and the Pharmacy Australia Centre of Excellence, Woollongabba. **Majors:** Clinical and experimental therapeutics.

Other requirements: On admission, the following requirements must be met: Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Graduates enjoy one of the highest graduate employment rates of any occupation in Australia. UQ's pharmacy program leads to careers in community and hospital pharmacies as well as industrial pharmacy. UQ graduates have also gone on to senior positions within both the pharmacy and healthcare industries, as well as government. They have also used

The University of Queensland (continued)

pharmacy as a platform for further study in medicine, a career in academia, or a career in research and development.

| Bachelor of Physiotherapy (Honours) | | | | | |
|-------------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 726002 St Lucia | 4F | 4/94 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: Physiotherapists help to get people moving, from office workers with stiff necks, to elite athletes, children with disability and elderly people with degenerative conditions. As a Physiotherapy (Honours) student, you'll become a skilled healthcare professional who helps people improve their mobility, function and reduce pain. From your first year, you will build a strong foundation of applied study in medical science, physiotherapy science, anatomy, professional ethics, psychology and therapeutic exercise, to prepare you to care for people with musculoskeletal, neurological, respiratory and other conditions. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Graduates work as physiotherapists in hospitals, community health centres and agencies, rehabilitation units, preschool and school programs and private practice offering treatments to a full range of patients. They may specialise in areas such as sports physiotherapy, musculoskeletal physiotherapy, paediatrics, neurology, cardiorespiratory, orthopaedics or other fields of particular interest, or work in research or consultancy roles in educational, industrial or government institutions.

| Bachelor of Speech Pathology (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 727002 St Lucia | 4F | 6/89 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: The Bachelor of Speech Pathology (Honours) prepares you to help people of all ages with speech, language, fluency and voice disorders, people who have feeding or swallowing difficulties, and people who want to modify their accents or voices. You will learn about anatomy, linguistics, physiology, psychology, swallowing and communication disorders in the areas of voice, fluency, hearing, speech, and language function. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Graduates work as speech pathologists in general, paediatric and geriatric hospitals; community health centres; rehabilitation units; aged care facilities; mental health services; preschools, schools, kindergartens and childcare settings; centres for people with specific disabilities such as cerebral palsy, intellectual impairment, autism or hearing impairment; centres of tertiary learning; research institutions; and private practice.

| TORRENS UNIVERSITY AUSTRALIA | | | | | |
|---|------------|--|------------|----------------------------------|--------------------------------|
| Bachelor of Health Science (Aesthetics) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 041141 Fortitude Valley | 3F or 4-6P | New Course | New Course | Feb 2021 Jun 2021 Sep 2021 | 14 Jan 2021 3 Jun 2021 + |

Prerequisites: ATAR 60. Other admissions pathways are available to applicants. International students also require an IELTS 6.0 with no skills band less than 5.5.

Course outline: Want to drive beauty innovation and lead the aesthetics industry? In this course, you'll benefit from high-quality scientific training matched with high-level, hands-on practical experience in the latest cutting-edge practices, techniques and therapies for aesthetics and dermal treatments. You'll graduate at the forefront of your field – confident to both develop and incorporate innovations into your professional practice – and take the aesthetics field to the next level.

Career opportunities: Aesthetic clinician, dermal therapist, pre- and post-operative patient care support, wound healing clinic and/or practice manager, paramedical aesthetician, IPL and laser technician, educator and industry trainer.

| Bachelor of Health Science (Clinical Nutrition) | | | | | |
|---|------------|--|------------|----------------------------------|--------------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 041161 Fortitude Valley | 3F or 4-6P | New Course | New Course | Feb 2021 Jun 2021 Sep 2021 | 14 Jan 2021 3 Jun 2021 + |

Prerequisites: ATAR 60. Other admissions pathways are available to applicants. International students also require an IELTS 6.5 with no skills band less than 5.5.

Course outline: Evidence-based clinical nutrition is underpinned by the holistic understanding of nutritional principles, food as medicine traditions, therapeutics and nutritional biochemistry. Clinical nutrition practitioners understand and address the nutritional, dietary and lifestyle factors which impact wellbeing throughout the lifespan, during illness and disease. This is achieved through personalised nutrition education and the development of a treatment and prevention plan which includes therapeutic meal planning, nutritional supplementation and prescription. In this course, you will study how nutritional, dietary and lifestyle factors can impact our health, and how therapeutic nutritional intervention can achieve wellbeing. You will gain hands-on experience at the Wellbeing Centre under the guidance of experienced nutritionists, treating public patients. This will prepare you to confidently start practice in the community.

Career opportunities: Private practice, sporting clubs and gyms, government and non-government organisations, complementary and multi-modality clinics, health retreats and day spas, community education, research, product development, corporate health consultancy, corporate roles in regulatory affairs, sales and marketing, writing for health journals, textbooks and media, self-employment and consulting.

+ Refer to Course Search at qtac.edu.au for offer round information.

| Bachelor of Health Science (Naturopathy) | | | | | |
|--|------------|--|------------|----------------------------------|--------------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |

Prerequisites: ATAR 60. Other admissions pathways are available to applicants.

Course outline: Naturopathy today occupies an important and prominent role in the contemporary health-care system due to the guiding principles of disease prevention, encouraging the body's inherent ability to heal, treatment of the whole person using an individualised prescriptions, education of patients on beneficial health practices and in taking responsibility for their own health. Naturopathy combines the core science, herbal and nutritional medicine subjects with traditional energetic medicines and iridology. This will be accompanied by subjects covering the biomedical sciences, essential for all healthcare professionals. You will gain hands-on experience at the Practice Wellbeing Centre under the guidance of experienced naturopaths, treating public patients. This will prepare students to confidently start practice in the community.

Career opportunities: Private practice, complementary and multi-modality clinics, health retreats and day spas, community education, research, product development, corporate health consultancy, corporate roles in regulatory affairs, sales and marketing, writing for health journals, textbooks and media.

+ Refer to Course Search at qtac.edu.au for offer round information.

| Bachelor of Health Science (Western Herbal Medicine) | | | | | |
|--|------------|--|------------|----------------------------------|--------------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 041181 Fortitude Valley | 3F or 4-6P | New Course | New Course | Feb 2021 Jun 2021 Sep 2021 | 14 Jan 2021 3 Jun 2021 + |

Prerequisites: ATAR 60. Other admissions pathways are available to applicants.

Course outline: Western herbal medicine has been practiced by many cultures for thousands of years and is derived from European and Anglo-American traditions. A contemporary Western Herbal Medicine Practitioner understands the history and philosophy of herbal practice and is trained to formulate individualised herbal prescriptions using medicinal plants from around the world. An evidence-based practice approach is taken to incorporate research and scientific evidence in prescribing decisions. Western Herbal Medicine Practitioners use a holistic approach to healthcare. As a part of your practice, you will also learn how to provide basic dietary and lifestyle advice to your clients. You will also gain hands-on experience at the Wellbeing Centre under the guidance of experienced Western Herbal Medicine Practitioners, treating public patients. This will prepare you to confidently start practice in the community.

Career opportunities: Private practice, complementary and multi-modality clinics, health retreats and day spas, community education, research, product development, corporate health consultancy, corporate roles in regulatory affairs, sales and marketing, writing for health journals, textbooks and media.

| Bachelor of Nursing | | | | | |
|------------------------|------------|--|------------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 043101 Gotha St | 3F or 4-6P | New Course | New Course | Feb 2021 | 14 Jan 2021 |

Prerequisites: Year 12 certificate with ATAR 60 or above or equivalent or a completed (current) Diploma of Nursing and registration with the Australian Health Practitioner Regulation Agency (AHPRA). All students must provide evidence of meeting at least one of the Nursing and Midwifery Board of Australia (NMBA) English language standards listed below prior to enrolment. Visit nursingmidwiferyboard.gov.au/Registration-Standards/English-language-skills.aspx. International students also require an IELTS 7.0 with no skills band less than 7.0.

Course outline: The Bachelor of Nursing will prepare you to enter a career as a registered nurse in the Australian healthcare environment. You will learn vital skills in assessment and clinical decision-making, person-centred care, professional communication, enquiry and research, awareness of diversity and self-care practices. The course will provide you with an opportunity to deliver care in multiple health care, industry and community settings, in complex environments of healthcare systems. Please also enquire about the pathway Diploma of Nursing offered through our partner college, THINK Education. **Other requirements:** All applicants must be 18 years of age prior to clinical placement; declare their physical and mental fitness to safely perform the duties associated with direct care work; be able to demonstrate satisfactory Police check, Working with Children check and immunisations; and meet inherent requirements.

Career opportunities: Acute care, chronic care, aged care, individual support, disability, rehabilitation, community and mental health, primary health and health promotion. On completion of the Bachelor of Nursing, you are eligible to apply for registration with the Australian Health Practitioners Agency (AHPRA) as a registered nurse (RN).

| Diploma of Beauty and Spa Practice | | | | | |
|------------------------------------|----------|--|------------|----------------------------------|--------------------------------|

| UNIVERSITY OF NEW ENGLAND | | | |  | |
|--|----------|--|----------|--|---------------------------|
| Bachelor of Clinical Exercise Physiology | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 666551 Armidale | 4F or 8P | + | + | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Assumed knowledge: Mathematical Methods; Health, Physical Education and/or science subjects.

Course outline: The course includes core studies in human structure, function and behaviour and further study on the acute and chronic physiological and psychological responses to exercise in healthy individuals and those with chronic and complex health conditions. In the first three years of study, students develop analytical, technical and professional skills in movement analysis, health and fitness assessment and exercise training for health and performance. The final year of study provides advanced training in chronic disease management, functional conditioning and clinical practice. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Other requirements:** Students complete 500 hours of workplace experience to practice exercise-based management of neurological, musculoskeletal, cardiopulmonary, metabolic and other health conditions.

Career opportunities: Exercise physiologist in a range of settings (hospital, private clinic, workplace health). Exercise physiologists are recognised allied health professionals with Medicare, the Department of Veteran Affairs and some private health insurers. Additional career opportunities are available in the clinical sciences (cardiac/respiratory/sleep technician), sports (strength and conditioning, sports science) and the health and wellbeing industry (personal trainer, health and wellbeing consultant/educator).

+ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Exercise and Sports Science | | | | | |

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 666541 Armidale | 3F or 6P | 13/74 | 10/79 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** General Mathematics or Mathematical Methods; Health, Physical Education and/or a science subject.

Course outline: This multidisciplinary program develops a comprehensive understanding of the scientific and applied aspects of sport, exercise and health. It includes core studies in human structure, function and behaviour and further study on the acute and chronic physiological and psychological responses to exercise. Students develop analytical, technical and professional skills in movement analysis, health and fitness assessment and exercise training for health and performance. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Other requirements:** Students complete 140 hours of workplace experience in the community.

Career opportunities: Health and physical activity promotion, sports science, health and fitness (personal trainer, strength and conditioning coach, health consultant/educator), clinical measurements (cardiac/respiratory/sleep technician) and postgraduate research/coursework in related disciplines.

| Bachelor of Nursing | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 666652 Armidale | 3F or 6P | 14/70 | 13/74 | Mar 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; a science subject. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This degree equips graduates with the key knowledge and skills necessary for the practice of nursing and can lead to postgraduate study. Graduates are eligible to become registered nurses in all Australian states and New Zealand. **Other requirements:** Students must meet the Inherent Requirements to complete this course. Clinical placement is an essential part of the Bachelor of Nursing. There are several mandatory requirements must be completed as part of the clinical placement process. The mandatory NSW Health Verification Requirements must be completed by week 9 of the first trimester of study. In addition, students must meet UNE requirements by week 9 of the first trimester of study. These include a valid Working with Children check for the state or territory in which the student will undertake placement, Overseas Criminal Record check (international students only), and a UNE approved Basic Life Support and Manual Handling Course. Students must also have a nursing uniform and personal protective equipment. Candidates must complete 800 hours of clinical practice (Rules (a), (c) and (d); 640 hours (Rule (b) EEN); which is undertaken in each trimester in health facilities in NSW.

Career opportunities: Registered nurse in a range of health care areas.

Bachelor of Pharmacy with Honours

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 666561 Armidale | 4F or 8P | 11/77 | 9/82 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** Chemistry; Mathematical Methods. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: Students develop a strong foundation in basic and pharmaceutical sciences core skills which are integrated with contemporary knowledge and application of pharmaceuticals and pharmacy practice. This program aims to produce graduates with the knowledge, skills and attributes necessary to commence supervised practice in a preregistration training program and to achieve the recognised competency standards for practice of pharmacy in Australia and New Zealand. This program has been granted accreditation by the Australian Pharmacy Council and is approved by the Pharmacy Board of Australia as a qualification leading to registration as a pharmacist in Australia. **Other requirements:** Students must meet the Inherent Requirements to complete this course. Additionally, the mandatory NSW Health Verification Requirements must be completed in the first six months of commencing in the program.

Career opportunities: Community pharmacy, hospital pharmacy, drug production, marketing or drug development in the pharmaceutical industry.

UNIVERSITY OF SOUTHERN QUEENSLAND**Bachelor of Biomedical Sciences**

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 906901 Toowoomba | 3F or 6P | 20/62 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 906905 External | 3X or 6X | 16/66 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: Discover the wonder of the human body with our Bachelor of Biomedical Sciences, one of only a few degrees in Australia that can be predominantly completed online, on-campus or in a combination of both modes to suit your needs. Our courses focus on human anatomy and physiology, microbiology, pharmacology, genetics, cell and molecular biology, nutrition and biochemistry. You study biomedical science laboratory techniques and investigate authentic medical problems, and produce scientific reports for biomedical experiments and mini research projects. The program also prepares students to undertake the Graduate Medical Schools Admissions Test (GAMSAT). **Note:** 15 days professional placement is required. Semester 2 entry is only available part-time. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a USQ Student Clinical Placement Policy Declaration.

Career opportunities: The Bachelor of Biomedical Sciences prepares students for a career in medical research institutes and universities, public and private research and development laboratories, and biotechnology, pharmaceutical and diagnostic companies. Graduates may also pursue further study in professional programs in the allied health sciences, medicine or higher degree research.

Bachelor of Medical Laboratory Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 906131 Toowoomba | 3F or 6P | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 906135 External | 3X or 6X | ❖ | ❖ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: Find out how blood groups are determined and what malaria parasites or leukaemia look like under the microscope through USQ's Bachelor of Medical Laboratory Science. Graduates are workplace-ready with skills in transfusion science, microbiology, haematology, histopathology and clinical biochemistry for a career as a medical laboratory scientist. Medical laboratory scientists perform analyses on blood and other body fluids and tissues to provide information that is vital in the prevention, diagnosis and treatment of human disease. This degree can be studied online or on-campus, and includes 52 days of hands-on clinical experience in a pathology laboratory. **Note:** External students must attend residential schools at the Toowoomba campus. Semester 2 entry is only available part-time. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a USQ Student Clinical Placement Policy Declaration. All students must complete 52 days of clinical experience in Australia.

Career opportunities: Graduates pursue careers in the public and private pathology laboratory industry or research, technical, advisory and commercial roles in the biomedical field.

❖ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Nursing

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 906392 Toowoomba | 3F or 6P | 22/60 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 936392 Ipswich | 3F or 6P | 21/61 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 906395 External | 3X or 6X | 18/64 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: With a combination of theory and clinical simulation in our well-resourced labs and nursing wards, USQ's Bachelor of Nursing prepares students for practice as registered nurses in hospitals, community settings, mental health settings, GP practices, clinics, rural and remote health services, and aged care facilities across Australia and the world. The program is aligned with current Australian professional nursing standards of practice and since almost 50 percent of the program is devoted to clinical experience, students graduate as skilled, knowledgeable and highly employable nurses. **Note:** External students must attend residential schools of one to two weeks' duration during most semesters of their program and a total of 840 hours of clinical placements at designated clinical facilities in Queensland. **Other requirements:** Prior to clinical practice, students must obtain and maintain a current CPR certificate, obtain a Blue Card and Australian Federal Police Criminal History Check Certificate, establish immunisation against hepatitis B, measles, mumps, rubella, pertussis (whooping cough) and varicella, take a tuberculosis test and be immunised against influenza (highly recommended), complete a Queensland Health Student Orientation Checklist, and sign a Queensland Health professional students checklist and deed polls, and a USQ Clinical Placement Declaration. All students must be able to meet the physical and other professional requirements of clinical practice within this program.

Career opportunities: Registered nurse, clinical nurse or nurse unit manager in public and private hospitals, community health, mental health, aged care, home health care, Indigenous health, occupational health, rural practice and overseas nursing.

Bachelor of Paramedicine

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 936152 Ipswich | 3F or 6P | 23/59 | 15/68 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English (Units 3 and 4, C).

Program outline: This program provides students with the skills and clinical knowledge needed to be a paramedic. Students are trained in the areas of patient assessment, decision-making and practical skill acquisition that is required for working in the challenging setting of paramedic practice. Students complete clinical placements with Queensland Ambulance Service and in other healthcare settings to gain hands-on experience. These experiences are enhanced by on campus training labs that include simulated ambulances to improve their practical skills and clinical decision-making. This program has been designed by leading medical and paramedic staff who understand paramedic practice. **Note:** Practical experience is an integral component of the program and each student is required to undertake and satisfactorily complete clinical practical experiences. **Other requirements:** Prior to undertaking clinical placements with Queensland Ambulance Service (QAS) students must meet the medical, physical and functional requirements of QAS for student paramedics and must have a current first aid certificate, Blue Card, evidence of hepatitis B status and have a current criminal history police check.

Career opportunities: Graduate ambulance paramedic. With further training: intensive care paramedic, flight paramedic, combat paramedic, clinical education, management roles.

Bachelor of Science – Human Physiology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|-----------------------------|----------|--|----------|----------------------------------|---|
| | | Unadjusted | Adjusted | | |
| 906829 Toowoomba & External | 3F or 6P | ❖ | ❖ | Nov 2020 Feb 2021 Jul 2021 | 8 Oct 2020 14 Jan 2021 3 Jun 2021 |

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Students explore the mechanical, physical and biochemical functions of healthy humans, their organs, and the cells of which they are composed. The main focus of physiology in this program is the function of organs and systems. Students can strengthen their appreciation of the connections between psychological and physiological aspects of human health by combining their program with another area of focus, such as psychology.

Career opportunities: Depending on specialisation: technical sales and marketing, science journalism, statistical officer, research, biologist, medicine (with further study), teaching (with further study), computer systems officer.

Double degrees: Refer to entries for B Arts and B Science; B Business and Commerce and B Science.

Combined degrees: Refer to entry for: B Engineering (Honours) B Science.

| Bachelor of Sport and Exercise Science | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 906111 Toowoomba | 3F or 6P | 19/63 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 936111 Ipswich | 3F or 6P | 17/65 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 906145 External | 3X or 6X | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C).

Program outline: The Bachelor of Sport and Exercise Science will develop your knowledge and skills to apply the science of sport and exercise and develop interventions that improve sport performance, health, and fitness, and assist in the prevention of chronic diseases. During your degree, studies will cover all aspects of sport and exercise science, including anatomy and physiology, psychology, strength and conditioning, exercise prescription, programing and delivery, alongside professional placements. **Note:** External students are required to attend mandatory residential schools at the Ipswich campus during most semesters. **Majors:** Sport and exercise science. **Other requirements:** Students must also complete a minimum of 140 hours exercise science placement during the degree at an appropriate placement site. The student's place of residence will be taken into account when placement is allocated, however all students need to be aware that they may need to travel.

Career opportunities: Sports coach, gym manager, recreation officer, personal trainer, sports development officer, sports performance director, medical company representative, sports scientist, sport manager, sports tourism or general health areas such as aged care.

|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 936211 Ipswich | 4F or 8P | 14/70 | 12/75 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 906215 External | 4X or 8X | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C).

Program outline: The Bachelor of Sport and Exercise (Honours) (Clinical Exercise Physiology) will provide you with the knowledge, skills and competencies to design, deliver and evaluate exercise interventions for people with medical conditions, injuries, or disabilities. This degree is the professional qualification you need to obtain accreditation as an exercise physiologist. During your degree, studies will cover all aspects of clinical exercise physiology, including anatomy and physiology, psychology, strength and conditioning, exercise prescription, programing and delivery, alongside professional placements. **Note:** External students are required to attend mandatory residential schools at the Ipswich campus during most semesters. **Other requirements:** Students must also complete a minimum of 140 hours exercise science placement during the degree at an appropriate placement site. In accordance with meeting Exercise and Sports Science Australia (ESSA) requirements, students will also be required to undertake at least 360 hours of clinical placements. The student's place of residence will be taken into account when placement is allocated, however all students need to be aware that they may need to travel.

Career opportunities: Accredited exercise physiologist, sports coach, personal trainer, sports development officer, sports performance director.

| Associate Degree of Biomedical Sciences | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 906931 Toowoomba | 2F or 4P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 906935 External | 2X or 4X | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: If you would like to work in a biomedical laboratory, our Associate Degree of Biomedical Sciences examines broad biomedical concepts and generates accurate scientific data. Explore areas such as human anatomy and physiology, microbiology, immunology, cell and molecular biology, nutrition and biochemistry to gain an understanding of what it is like to work in research and clinical laboratories. You experience hands-on learning in laboratory-based residential schools or fortnightly labs for most of the first-year courses and laboratory-based residential schools supported by online or on-campus learning in your second year. **Note:** External students have mandatory residential school requirements within the program.

Career opportunities: Graduates may have employment opportunities as a university and secondary school science laboratory technician or technical assistant in a public or private research laboratory. You will have contemporary laboratory skills to assist in roles in both research and teaching laboratories.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Associate Degree of Medical Laboratory Science | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| 906925 External | 2X or 4X | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: Gain the education and training necessary for a career as a medical technician or technical officer in the private and public pathology laboratory sectors with USQ's Associate Degree of Medical Laboratory Science. This degree also provides you with training for a career as a biomedical scientist with a research capability and/or a biomedical science support role. You gain practical experience through structured placements in a pathology laboratory and/or by attendance at residential schools. **Note:** 48 days of professional clinical placement is required for the program. External students also have mandatory residential schools as part of the program.

Other requirements: Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a USQ Student Clinical Placement Policy Declaration.

Career opportunities: As a graduate, you have the opportunity for employment as a medical technician or technical officer in the medical pathology industry, a medical or clinical research technician in the university, health or biotechnology sectors, or health, medical and scientific product marketers.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| UNIVERSITY OF THE SUNSHINE COAST | | | |  | | |
|-------------------------------------|----------|--|----------|---|---------------------------|--|
| Bachelor of Biomedical Science | | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round | |
| | | Unadjusted | Adjusted | | | |
| 013051 Sunshine Coast | 3F or 6P | 17/65 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 | |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students learn how the human body works and what happens when diseases, infections and clinical disorders occur. First-year studies include cell biology or bioscience, chemistry, science research methods, human anatomy and physiology. Advanced courses include physiology, medical genetics, pathophysiology, biochemistry, microbiology, molecular biology, immunology and pharmacology. Students may have the opportunity to undertake placements in hospitals, clinical trial centres, pharmaceutical companies, and medical research institutes. The program prepares graduates for entry into postgraduate medical courses. **Note:** *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Biomedical researcher, clinical technician (cardiac, sleep, respiratory diagnostics), clinical trials manager, microbiologist.

| 014771 Moreton Bay | 2F | New Program | New Program | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Additional entry information: Applicants must be current 2020 Year 12 students or returning from a gap year (where no post-secondary tertiary study has been attempted).

Program outline: Students learn how the human body works and what happens when diseases, infections and clinical disorders occur. First-year studies include cell biology or bioscience, chemistry, science research methods, human anatomy and physiology. Advanced level subjects include physiology, medical genetics, pathophysiology, biochemistry, microbiology, molecular biology, immunology and pharmacology. Students may have the opportunity to undertake placements in hospitals, clinical trial centres, pharmaceutical companies and medical research institutes. The course prepares graduates for entry into postgraduate medical courses.

Note: Subjects are offered in four teaching periods each year, allowing students to complete the program in two years. *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Biomedical researcher, clinical technician (cardiac, sleep, respiratory diagnostics), clinical trials manager, microbiologist.

| Bachelor of Clinical Exercise Physiology | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013251 Sunshine Coast | 4F or 8P | 17/65 | 15/68 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students learn to use exercise to improve the health of people with chronic or complex medical conditions like diabetes, obesity, heart disease, osteoporosis, high blood pressure, or arthritis. Studies include anatomy, physiology, pathophysiology, biomechanics, exercise physiology, psychology, motor learning, sports nutrition, and rehabilitation. Advanced courses focus on professional practice in clinical and community environments, with industry placement and workplace learning. Several first aid qualifications are incorporated.

Other requirements: Before undertaking clinical placements, students must provide evidence of hepatitis B immunisation, first aid and CPR training, undertake a criminal history check, and obtain or hold a current Suitability Card. Students must complete 500 hours of supervised placement. Students may be required to undertake some clinical placement hours outside the Sunshine Coast region in metropolitan and regional/rural areas. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Accredited exercise physiologist (exercise as medicine), exercise therapist, health science officer, personal trainer, rehabilitation consultant, exercise scientist.

| Bachelor of Dietetics | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013121 Sunshine Coast | 4F or 8P | 11/77 | 9/82 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Additional entry information: Applicants from a non-English speaking background must attain an IELTS score of at least 7.0 with a minimum of 6.5 in each subtest.

Program outline: This program leads to accreditation as a practising dietitian in the private and public health arenas. Practical experience is woven throughout the degree with opportunities to experience real-life work environments and learn about nutrition in the specialised teaching kitchen. Students gain experience through work placement in hospitals, community organisations and food service operations, supervised by experienced practitioners. Students may apply for entry into an embedded honours pathway after completion of two years of full-time study.

Other requirements: Placements are undertaken on a full-time basis. Before undertaking placement, students must show evidence vaccination for all vaccine preventable diseases, undergo a criminal history check and obtain a Suitability Card (Blue Card); refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Clinical dietitian, nutritionist, sports nutrition, private practice, community nutrition, public health nutrition, food service management, nutrition consultancy, research and education.

| Bachelor of Health Science | | | | | |
|----------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013321 Sunshine Coast | 3F or 6P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course prepares graduates for jobs in a range of specialised health science disciplines that address current and future global and local health needs of individuals, communities and populations. Health science disciplines include applied health promotion, applied environmental health, health communication, indigenous health and wellbeing, and prosthetics and orthotics. Students complete foundation study in health science and major in their chosen health discipline, which includes a placement. **Majors:** Applied environmental health; applied health promotion; health communication; Indigenous health and wellbeing; prosthetics and orthotics (only available for commencement in semester 1). **Other requirements:** Before undertaking workplace learning, students must obtain a Blue Card and may be required to undergo a criminal history check or other discipline-specific mandatory checks; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Health promotion officer, community development worker, public health officer, environmental health officer, orthotist, prosthetist.

| Bachelor of Medical Science (Griffith MD Provisional Entry for School-Leavers) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013231 Sunshine Coast | 3F | 1/99 | 1/99 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Additional entry information: This program is for 2020 Year 12 applicants or applicants who completed Year 12 no more than three years prior to application and who have not previously attempted tertiary study at diploma level or higher. **Closing date:** Applications lodged after 11 December 2020 may not be considered in time for the mid-January offer round. Applications for this program close 28 December 2020. After this date, no new applicants can apply, but existing applicants can reorder this preference.

Program outline: This highly competitive program provides high-achieving secondary school leavers with a direct pathway to graduate studies in medicine. Students learn about the human body and the impacts of diseases, infections and clinical disorders. They also build knowledge in public health and clinical practice. Students who achieve a program GPA of at least 5.0 and a pass grade in the course Communication Skills for Medicine will be offered provisional direct entry into Griffith University's Doctor of Medicine at the Sunshine Coast University Hospital. This program also provides a strong foundation for further research. **Other requirements:** Before undertaking a clinical placement, students must provide evidence of hepatitis B immunisation, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Medical practitioner (primary care and rural medicine), clinical practitioner, healthcare administrator, medical scientist, medical educator.

| Bachelor of Midwifery | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013471 Sunshine Coast | 3F or 6P | 6/89 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Additional entry information: All applicants must either be able to declare that English is their primary language (ie they have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America.); or they must attain an Academic IELTS score of at least 7.0 with a minimum of 7.0 in each subtest (obtained within one year prior to the commencement of the program). For more information, visit usc.edu.au/learn/how-do-i-apply/english-language-requirements#table-2.

Program outline: Students gain a formal qualification in midwifery. Graduates are prepared to meet the Nursing and Midwifery Board of Australia Competency Standards for the Registered Midwife. Students complete work integrated learning throughout their program to gain practical experience and engage with women in the community to gain an understanding of the childbearing journey. Clinical experiences are supervised and many include placement in clinics, community settings, maternity services and independent midwifery practices. **Other requirements:** Before undertaking clinical placement, students must obtain and maintain a current first aid and CPR certificate, provide evidence of hepatitis B immunisation, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Registered midwife in hospital or community settings, metropolitan, rural and remote locations or private practice.

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013351 Sunshine Coast | 3F or 6P | 18/64 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students explore the effects of diet on the body, the role of nutrition in growth and development and the impact of food choices on health. Studies integrate courses in biochemistry and physiology with food science, human nutrition, and social, cultural and behavioural issues in food and nutrition. Advanced courses include public health and community nutrition. Additional graduate study enables professional specialisation in areas such as dietetics, health promotion, public health, or exercise and sports science. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. Career opportunities: Food scientist/technologist, health science officer, nutritionist/nutrition educator, public health officer/practitioner.

| Bachelor of Occupational Therapy (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013421 Sunshine Coast | 4F or 8P | 13/72 | 12/75 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); one of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Additional entry information: Applicants from a non-English speaking background must attain an Academic IELTS score of at least 6.5 with a minimum of 6.0 in all other subtests, obtained within two years prior to the commencement of the program.

Program outline: Students gain skills to help people overcome limitations caused by injury or illness, psychological or emotional difficulties, developmental delay or the effects of ageing. They take courses in occupational therapy, biological and social sciences, public health, human development, functional anatomy and enabling occupation. They gain skills and experience with fieldwork placements in rural and urban settings. Students can select a research or project honours pathway at the end of second year (dependent on GPA).

Other requirements: Students may be required to undertake some clinical placements outside the Sunshine Coast region in metropolitan and regional/rural centres. Expenses for these and other placement requirements are incurred by the student. Placements in third and fourth years are undertaken on a full-time basis. Before undertaking clinical placements, students must obtain a Suitability Card, complete a criminal history check (from second year), hepatitis B immunisation and first aid and CPR training and purchase an occupational therapy student uniform; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Aged care worker, disability assessor, hand therapist, occupational therapist/rehabilitator, rehabilitation consultant.

| Bachelor of Paramedic Science | | | | | |
|-------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 013431 Sunshine Coast | 3F or 6P | 16/66 | 14/70 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Additional entry information: Applicants from a non-English speaking background must attain an Academic IELTS score of at least 7.0 with a minimum of 6.5 in all other subtests, obtained within two years prior to the commencement of the program.

Program outline: Students examine the contemporary role of paramedics as both professionals in the community and as an integral part of the greater medical, allied health and emergency services. Students develop clinical knowledge, skills and practice through both simulation and

ambulance service placements. Paramedic practice is studied across the paramedic and allied health disciplines of pre-hospital emergency care and primary health care practice. Clinical practicums are conducted with the Queensland Ambulance Service (QAS) and other health agencies. **Other requirements:** Prior to undertaking any clinical practicum, students must obtain a Blue Card, Apply First Aid (Senior) certificate, current Mental Health First Aid certificate, provide evidence of hepatitis B immunisation or failure to seroconvert, and undergo a criminal history check. In addition to these requirements, before undertaking clinical placements with the QAS, students must undergo a health and medical assessment and health-related fitness assessment. Clinical placement information is available on the QAS website. Students may be required to undertake some clinical placements outside the region or in a rural area. Students are also required to purchase the student paramedic uniform and personal equipment. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Ambulance paramedic, pre-hospital emergency carer, disaster and emergency worker, aeromedical, rescue and retrieval worker, remote and rural health carer, clinical educator.

| Bachelor of Recreation and Outdoor Environmental Studies | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |

| 014261 Moreton Bay | 3F or 6P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course is the only one of its kind in Queensland and provides a broad, versatile education in sport coaching, physical education teaching, outdoor environmental studies, and health education. In addition, it offers the flexibility to tailor studies to personal interests and career ambitions. Students complete 25 days outdoor environmental studies fieldwork on Fraser Island and other natural environments on the Sunshine Coast. Graduates may work as outdoor leaders or in environmental interpretation. **Note:** Practical subjects in this degree have physical components and location requirements. *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Outdoor leader, outdoor guide, sports coach, outdoor recreation officer, environmental interpretation guide, adventure tourism guide, ecotourism guide.

Combined degrees: Refer to entry for: B Education (Secondary)/B Recreation and Outdoor Environmental Studies.

| 013171 Sunshine Coast | 3F or 6P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This program provides students with core skills and knowledge (principles of sport, exercise testing and measurement, coaching science, functional anatomy, motor control and biomechanics) and an opportunity to pursue related studies in complementary fields. This program appeals to students who are interested in the sport industry and would like to pursue creative and innovative sport and fitness oriented careers including sporting event management, coaching and training, outdoor recreation, and working with sport and fitness related organisations.

University of the Sunshine Coast (continued)

Majors: *Sunshine Coast:* journalism; management; marketing; public relations; tourism, leisure and event management. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Sports journalist/marketer, sports administrator, public relations officer for teams, organisations and athletes, sports and tourism planner, sports business manager.

Associate Degree in Medical Laboratory Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 013131 Sunshine Coast | 2F or 4P or 2 ^{1/2} F or 5P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This program prepares students to pursue career opportunities in hospital and private pathology laboratories as qualified medical laboratory technicians. Students develop technical skills in general pathology, pathophysiology, haematology, histology, biochemistry, clinical chemistry, blood banking and medical microbiology. They undertake industry placements supervised by medical scientists to develop skills in laboratory medicine. Graduates can complete the Bachelor of Biomedical Science with one further year of full-time study. **Note:** Students commencing in semester 2 will take 2.5 years. Some semesters can only be taken part-time. Students must complete placement(s) in rural/regional locations and fund the cost for travel, accommodation, fuel, etc associated with placement. Students can apply for USC scholarships and bursaries to supplement these costs. Students must undertake mandatory online orientation courses for the organisations where they are placed, and are required to sign a confidentiality agreement regarding patient information. **Other requirements:** Before undertaking industry placement courses, students must obtain and provide evidence of vaccination against hepatitis B, measles, mumps, rubella, pertussis and varicella (chickenpox) and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Medical laboratory technician in pathology services, laboratory technician in scientific and educational technical services.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Diploma in Sport and Fitness

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 013161 Sunshine Coast | 1F or 2P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This program has been developed for students with an interest in all aspects of sports and fitness. It combines hands-on practice with key theory and knowledge to help advance career opportunities in sports and fitness. Students can take related courses in outdoor education, sports medicine or physiology, or enrol in other courses that fit their interests. The program provides a pathway for students who wish to pursue further study in sport and fitness at USC.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

HUMANITIES AND SOCIAL SCIENCES

AUSTRALIAN CATHOLIC UNIVERSITY

Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 112311 Brisbane | 3F or 6P | 16/67 | 15/69 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: As a Bachelor of Arts student, you will develop skills in understanding the world and its peoples, society and culture. Arts students develop key skills in interpersonal communication; creativity, research and problem solving. Subject diversity makes this course attractive to students seeking a liberal arts education in arts, humanities, creative or visual arts with flexibility to study the areas you enjoy while building skills as a foundation for employment or further specialised study. You can choose to undertake two majors, or a major and two minors plus a range of electives, tailoring the degree to suit your goals. Minors are available in each of the majors, and in the disciplines of communication, creative writing, and geography. Students are encouraged to take advantage of study opportunities at our campus in Rome or other overseas locations and to structure their individual academic programs to reflect their interests and career aspirations. **Majors:** Business studies; drama; education studies; history; English; mathematics; music; philosophy; sociology; study of religions; theological studies; visual arts. **Other requirements:** Students must take a number of core and program units.

Career opportunities: Government and non-government organisations, media and communications, arts and cultural organisations, higher education, business sector, not-for-profit organisations, historian, social scientist, political analyst, teaching (with further study).

Double degrees: Refer to entries for: B Arts/B Commerce; B Arts/B Global Studies; B Arts/B Laws; B Education (Secondary)/B Arts (Humanities).

Bachelor of Arts/Bachelor of Commerce

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 112611 Brisbane | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This double degree provides a liberal arts education and skills development focused on managerial decision-making, business and personal leadership and the ethics of values-based management. The course is designed for students who want to combine studies in arts, humanities or social sciences with specific skills within a business specialisation. **Majors:** Refer to Bachelor of Arts and Bachelor of Commerce. **Other requirements:** Students must complete a structured community engagement experience as a volunteer in a not-for-profit organisation.

Career opportunities: Human resource management, accounting, industrial relations, policy administration, marketing, research and management, advertising, retailing, wholesaling.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Arts/Bachelor of Global Studies

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 112371 Brisbane | 4F or 8P | 17/65 | 14/71 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This double degree program is for students interested in the social, political, cultural, environmental and economic changes shaping our world. The course combines a liberal arts education with studies of globalisation, world politics, justice and sustainability. It also involves overseas study or work experience. Students gain international perspectives and acquire skills valued in the global workplace. Students complete a total of 32 units including two majors, with at least two program core units or one major and two minors, plus elective studies. **Majors:** Refer to Bachelor of Arts. **Other requirements:** Students must take a number of core and program units and complete one semester of overseas study/internship in third year.

Career opportunities: Social entrepreneurship and companies with a global outreach, international relations, human rights, travel and tourism, public sector, government service (including diplomatic service), the United Nations.

| Bachelor of Social Work | | | | | |
|-------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 112051 Brisbane | 4F or 8P | 19/63 | 17/65 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This program provides education and training in social work that is informed by a critical understanding of the social science disciplines and orientated to the professional values and practices of the social work profession. The course prepares students for social work practice in a variety of areas such as community development, group work, family work, case management, policy analysis and development, research, social action and program planning. Throughout the course, there is an emphasis on social justice and human rights. **Other requirements:** Students undertake three practicum units totalling 1000 hours of supervised field education. They also undertake 50 hours of community engagement during their degree. These hours are complementary to, and run in conjunction with, units studied.

Career opportunities: Community development, group work, family work, case management, policy analysis and development, research, social action and program planning, youth and child welfare services, medical and health services, disability services, psychiatric and general mental health, community services, aged care, income support, mediation, research.

| Bachelor of Theology | | | | | |
|------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 112511 Brisbane | 3F or 6P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Framed by the Catholic intellectual tradition, students explore the richness and breadth of theological scholarship. The community engagement component offers an opportunity to explore Christian theology in a range of settings, including Indigenous and international. Global experience is encouraged. Students enhance their capacity to critically analyse, reflect on, and bring ethical perspectives to life and work, as well as their ability to evaluate and discriminate between multiple viewpoints, and to develop and articulate compelling arguments.

Majors: Biblical studies; Christian thought; liberal arts; philosophy.

Career opportunities: Chaplain, minister of religion, youth minister, social worker, pastoral associate or lay minister, community worker or advocate, primary school teacher or secondary school teacher (with further study), theology lecturer, researcher or academic, journalist or writer.

Double degrees: Refer to entries for: B Theology/B Global Studies; B Theology/B Laws; B Theology/B Philosophy.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Theology/Bachelor of Global Studies | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 112041 Brisbane | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course is for people interested in theology and the social, political, cultural, environmental and economic changes shaping our world. The global studies degree combines a Catholic theological education with global studies, environmental sustainability, global health, world politics and justice. Students can study abroad at one of over 60 international partner institutions and/or complete an internship. The theology degree includes study in the history of the Christian tradition and current theological scholarship, biblical studies, Christian thought and practice. **Majors:** Refer to Bachelor of Theology. **Other requirements:** Students must complete a unit of Christian Community Experience involving an active service engagement plus one semester of overseas study/internship in third year.

Career opportunities: Teaching (with further study), church agencies, ministries, chaplaincy, social inclusion, pastoral work and social work, research, journalism, international organisations, international relations.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Theology/Bachelor of Philosophy | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 112061 Brisbane | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The broad knowledge, skills and flexibility offered by a liberal arts program is enhanced by a focus on theology and philosophy. Students explore the foundations of the modern world and Western civilisation, and develop the ability to critically engage with and respond to the challenges faced by societies, governments, and organisations today. Global experience is encouraged. Students develop the skills to become attentive and careful interpreters of historical and contemporary texts and contexts, and to examine complex and confronting issues.

Majors: Biblical studies; Christian thought; philosophy.

Career opportunities: Theology/philosophy lecturer, researcher or academic; teacher or curriculum designer (with further study); journalist or writer; chaplain; minister of religion; youth minister; counsellor, social worker or psychologist (with further study); pastoral associate or lay minister; community worker/advocate; ethics consultant to businesses; bioethics or health care ethics consultant; public policy adviser; diplomatic or consular officer.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| | | Unadjusted | Adjusted | | |
| 094901 Carindale | 3F or 6P or 3X or 6X | 10/79 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years; interview.

Assumed knowledge: English (Units 3 and 4, B). **Additional entry information:** For information regarding personal suitability and interview requirements, contact CHC.

Course outline: The liberal arts train students to think critically, communicate effectively and understand the world in which they live. This course brings historical, literary, philosophical and theological perspectives to bear on central human questions from a Christian worldview perspective. **Note:** Modes of study can be combined. Contact CHC for information.

Majors: History; literature; philosophy; theology; drama. A 'no major' option is also available.

Career opportunities: A liberal arts education provides personal and academic preparation for, and facilitates success in, a broad range of careers.

| Bachelor of Counselling | | | | | |
|-------------------------|------------------------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 094601 Carindale | 3F or 6P or 3FL or 6FL | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years; interview. **Assumed knowledge:** English (Units 3 and 4, C). **Additional entry information:** CHC will contact applicants with interview details.

Course outline: This course develops students as counsellors by exploring counselling theories and skills and reflecting critically on the nature of humanity, its problems and mechanisms of change. Students are equipped to contribute in meaningful and constructive ways to the wellbeing of individuals, families and the wider community. The course includes studies in Christian worldview, human behaviour and counselling, and students gain practical experience through substantial supervised clinical fieldwork. Students are equipped for a career as a professional counsellor in both secular and church contexts. **Note:** Modes of study can be combined. Some units are only available on campus or in intensive mode. Contact CHC for information.

Other requirements: Students must complete 30 hours of personal counselling and 15 hours professional development (additional fees apply); refer to institution. A Blue Card is required prior to enrolling in second year (full-time equivalent); refer to institution.

Career opportunities: Counsellor, pastoral counsellor, school counsellor, youth counsellor.

Dual degrees: This course can be combined with other CHC degree courses. Contact CHC for information.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Human Services | | | | | |
|----------------------------|------------------------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 094201 Carindale | 3F or 6P or 3FL or 6FL | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Students reflect critically on the nature of human society, culture and behaviour, to enable individuals to contribute in meaningful and constructive ways to the wellbeing of the wider community. Students are equipped for a range of careers in the human services, in both church-related and secular settings, and undertake either a practicum or a coursework stream that explores theory and skills in the area of their chosen major. **Note:** Modes of study can be combined. Some units are only available on campus or in intensive mode. Contact CHC for information. **Majors:** Disability and aged care; family support and child protection; human behaviour; youth work. **Other requirements:** A Suitability Card is required for practicum purposes in selected majors; refer to institution.

Career opportunities: Personal support, aged care, rehabilitation or family support worker, pastoral carer, child protection officer, case manager, youth worker.

Dual degrees: This course can be combined with other CHC degree courses. Contact CHC for information.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Ministry | | | | | |
|------------------------|----------------------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 093201 Carindale | 3F or 6P or 3X or 6X | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years; pastoral reference.

Assumed knowledge: English (Units 3 and 4, C). **Additional entry information:** Personal suitability requirements apply. Contact CHC for information.

Course outline: This course provides an initial professional award for Christian ministry and leadership. It provides an understanding of ministry that prepares students to fulfil a variety of ministry roles in local churches and wider society. It includes biblical, theological and ministry knowledge together with their fundamental principles and tenets. The course develops academic skills for lifelong learning and equips students with the practical skills to function effectively in a professional ministry context. Students engage in practical ministry experience through practicum placements. **Note:** Modes of study can be combined. Contact CHC for information.

Specialisations: Ministry formation; ministry foundations; ministry practice.

Other requirements: A Blue Card or equivalent is required for practicum purposes; refer to institution.

Career opportunities: Pastoral and other leadership roles in the local church, charitable, non-profit or community organisations including church planters, missionaries, relief agency workers and chaplains.

Dual degrees: This course can be combined with other CHC degree courses. Contact CHC for information.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Diploma of Liberal Arts – Foundations of Wisdom | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course provides students with a comprehensive overview of the scientific discipline of psychology and its applications. The course is delivered in accordance with the foundational (level one) competencies for three-year undergraduate psychology programs as specified by the Australian Psychology Accreditation Council (APAC). Students will acquire an understanding of the underlying principles, theories and concepts within the discipline. In addition, students will develop knowledge of the range of core research areas that make up the discipline, and an understanding of the methodologies and statistical techniques used by researchers for information gathering and analysis. There will be opportunities for students to explore applied and professional uses of psychology. **Note:** Depending on units selected, students may be required to attend on-campus residential schools. Students in Bundaberg, Rockhampton and Adelaide have Level 1 units delivered on campus either face to face or via live video connection. Some units in Level 2 and Level 3 are delivered on campus, others are delivered in supported distance mode. Some units may require students to attend a residential school in Brisbane, Adelaide or Townsville.

Career opportunities: Management, industry, child safety officer, clinical work, counselling, neuropsychology, child development, education, forensic, health, coaching, school guidance officer.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Gain specialist skills in the disciplines of psychology and criminology in this course which offers a unique blend of criminology, psychology, sociology, law and forensic science units. Students explore the causes and consequences of crime and justice issues and how we can combat crime in our communities including technology-enabled crime, and learn how to provide

case management for a range of client types. A unique feature of this course is the option to complete a research project or work placement as part of a capstone unit. Graduates can undertake further study to qualify as a psychologist. **Other requirements:** Some elective units in this course contain compulsory residential schools and work placement.

Career opportunities: Criminal justice, police, customs, correction services and other law enforcement and regulatory agencies.

Prerequisites: Completion of Year 12 or attained age 17 years; completed bachelor's degree in any discipline.

Program outline: The aim of this course is to give students a comprehensive overview of the scientific discipline of psychology and its applications. The course is delivered in accordance with the foundational (level one) competencies for three-year undergraduate psychology programs as specified by the Australian Psychology Accreditation Council (APAC). Students will acquire an understanding of the underlying principles, theories and concepts within the discipline. In addition, students will develop knowledge of the range of core research areas that make up the discipline, and an understanding of the methodologies and statistical techniques used by researchers for information gathering and analysis. **Note:** *Online:* Depending on units selected, students may be required to attend on-campus residential schools. *Townsville:* Units are delivered in supported online study mode through ISL. Some units may require students to attend residential schools at other CQUniversity campuses. *Bundaberg and Rockhampton:* Level 1 units are delivered on campus either face to face or via live video connection. Some Level 2 and Level 3 units are delivered on campus. Most on-campus units are delivered by video connection to the Townsville campus from other CQUniversity campuses. Other units are delivered in supported distance mode. Some units may require students to attend a residential school in Brisbane, Adelaide or Townsville.

Other requirements: Students must submit a credit transfer application prior to enrolling in units.

Career opportunities: Human resource management, rehabilitation, school guidance counselling, scientific research, public health, defence, special education. To become registered as a psychologist, further study will be required.

Combined degrees: Refer to entry for: B Laws/B Science (Psychology).

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.
✦ Regular offers will be made.

| Bachelor of Social Work | | | | | |

| | | Unadjusted | Adjusted | | |
| 851505 Online | 4X or 8X | 15/68 | 14/70 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course enables students to be recognised as a professional and eligible for membership with the Australian Association of Social Workers. Over the course of four years, students will develop an understanding of the practice methods, skills, knowledge and values of the social work profession. With an emphasis on problem-based learning, students will gain valuable experience in critical and reflective thinking and practice. Students will have the opportunity to complete 2 field education placements where they will begin to apply their developing knowledge and skills and see in-practice examples of theory. **Note:** Students are required to attend a minimum of 20 days residential school attendance throughout the course. **Other requirements:** Students need access to computer facilities allowing interaction with staff and other students through email and online learning platforms and portfolio sites. Students complete up to 1000 hours of field education placements. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Health, government administration, child protection, youth justice, prisons, disability, aged care, mental health.

Program outline: This degree will broaden your career options by enabling you to acquire management skills in conjunction with skills in journalism, public relations, creative writing and literature, languages, history, sociology, and cultural studies. In the arts component, you'll be trained to think innovatively and communicate effectively. In the business component, you'll develop core business skills and knowledge, and specialise by choosing a major that suits your interests and career goals or choose no major and select from a range of courses that provide broad knowledge. **Majors:** *Arts:* art history and theory; Australian studies; communication and journalism; creative writing; criminal justice; drama; gender studies; history; Indigenous studies; Islam-West relations; journalism; language in society; languages (Chinese, French*, German*, Indonesian*, Italian, Japanese, Korean*, Modern Greek#, Russian*, Spanish); literary studies; politics and international studies; popular culture; psychology; screen studies; security studies; sociology; social justice; strategic communication and public relations. *Via cross-institutional study with The University of Queensland at the Nathan campus only. #Online via cross-institutional study with Flinders University, South Australia. *Business:* accounting; Asian business; Asian engagement (Nathan only); behavioural science; business analytics (Gold Coast only); economics; employment relations (Nathan only); event management; finance; financial planning; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); taxation (Nathan only); tourism management.

Career opportunities: You'll find employment opportunities in areas such as advertising, education, government, journalism, management, media and research.

Bachelor of Communication and Journalism

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 226211 Nathan | 3F or 6P | 18/64 | 15/68 | Mar 2021 | 14 Jan 2021 |
| 232301 Gold Coast | 3F or 6P | 20/62 | 15/68 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Our Bachelor of Communication and Journalism responds to the demand for graduates equipped with a comprehensive suite of communication skills, ready for the opportunities in new media. You'll develop advanced skills in digital media, public relations and journalism, and foster your skills in critical writing and editing, researching, multimedia production, and media innovation, along with your ability to think both critically and creatively. You'll apply your skills through a major industry project and have access to internships aligned with your interests.

Career opportunities: Graduates will be well equipped to work within strategic or public communication, corporate promotions, commercial communication, journalism, freelance writing, creative industries, public relations and communications firms, government and non-government organisations, not-for-profit and aid organisations, media and the film industry, entrepreneurial and start-up organisations. Possible roles include social media manager, community and stakeholder engagement manager, digital marketing and social media specialist, communications manager, events manager, public relations consultant, public relations professional, media liaison officer, promotions officer, copywriter, journalist, reporter, producer, researcher, editor, freelance writer, corporate promotions and communications.

Double degrees: Refer to entries for: B Communication and Journalism/B Business; B Communication and Journalism/B Government and International Relations; B Communication and Journalism/B Science.

Bachelor of Communication and Journalism/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 226221 Nathan | 4F or 8P | 18/64 | 15/68 | Mar 2021 | 14 Jan 2021 |
| 232321 Gold Coast | 4F or 8P | 16/66 | 14/70 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You'll graduate as a specialist who understands the contemporary communication and media landscape. You'll study the foundations of communication and journalism, such as digital media, critical writing and editing and multimedia production, alongside fundamental business concepts, including management, marketing and government-business relations. You'll apply your skills through two major projects in your final year, so you graduate with a professional portfolio of work, and you'll also have access to once-in-a-lifetime internships and international experiences. **Majors:** *Business:* accounting; Asian business; Asian engagement (Nathan only); behavioural science; business analytics (Nathan only); economics; employment relations (Nathan only); event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); tourism management.

Career opportunities: A business degree gives you the foundation to take your career just about anywhere. Depending on your major, you'll be prepared to use your extensive skills in a range of increasingly diverse settings including government, corporate and not-for-profit organisations. Your communication and journalism studies can lead to exciting careers in social media, community and stakeholder engagement, digital marketing, event management, public relations, strategic communications, media liaison, media analysis, promotions, copywriting, journalism, production, research, corporate promotions and communications.

Bachelor of Communication and Journalism/Bachelor of Government and International Relations

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 226231 Nathan | 4F or 8P | 16/66 | 15/68 | Mar 2021 | 14 Jan 2021 |
| 232331 Gold Coast | 4F or 8P | 15/68 | 14/70 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree will produce media professionals with the knowledge and understanding to work effectively within local, national and international political context either as journalists, political strategists or media advisers. It combines specialist training in essential aspects of contemporary media management, including producing key messages, news writing, desktop publishing and social media communication, with a deep understanding of public policy making, government, political campaigning and international advocacy. **Majors:** *Government and international relations:* international relations; politics and public policy.

Career opportunities: In addition to the careers listed for the Bachelor of Communication and Journalism, you will find opportunities providing advice to government and business leaders,

Griffith University (continued)

developing policy and managing programs with domestic and international organisations in areas such as economic, environmental and social policy, diplomacy, and trade relations.

Bachelor of Communication and Journalism/Bachelor of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 226241 Nathan | 4F or 8P | 12/75 | 12/75 | Mar 2021 | 14 Jan 2021 |
| 232341 Gold Coast | 4F or 8P | + | + | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree combines the specialised disciplines of biological, clinical, chemical, physical and mathematical sciences with the skills and capacity to communicate these within various professions, and to the broader public. Alongside scientific expertise, you'll graduate with a suite of communication, writing and media production skills that will add a critical dimension your career. You'll confidently navigate the contemporary context for science, where skills in global communication and media are critical. **Majors:** *Science:* applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences (Nathan); geography; marine biology (Gold Coast); microbiology (Nathan); physics; wildlife biology.

Career opportunities: With combined qualifications in communication and science, you will find broad employment opportunities across the science and technology, commercial and public sectors. In addition to the careers listed for the Bachelor of Communication and Journalism, depending on your science major, you will be prepared for work in environment-related jobs, for example as an environment consultant, environmental scientist or mine environment officer; in biological, chemical and clinical sciences as a microbiologist, pharmaceutical scientist, biochemist, chemist or biotechnologist; in physics and maths as a mathematician or physicist; or, with further study, in a broader role, for example as a patents officer or science teacher. You may also choose to undertake a fourth-year research Honours degree that can lead to a PhD and a career in research.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Counselling

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 225131 Mt Gravatt | 3F or 6P | 16/66 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 233591 Gold Coast | 3F or 6P | 14/70 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You'll gain the theoretical knowledge and applied skills that prepare you to register and practice as a professional counsellor. Students gain advanced theoretical knowledge and counselling skills by completing courses in counselling skills theory and practice, methods of coaching, group facilitation, career counselling, positive psychology, lifespan development, ethics and case management. This degree includes an internship and finishes with two counselling placements where you'll work with real clients in counselling organisations.

Other requirements: Students are required to undertake three placements. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be qualified to work in areas such as generic counselling, family and relationship counselling or as a correctional counsellor, addiction counsellor, and telephone counsellor. You can also pursue further studies or training towards becoming a career counsellor, rehabilitation counsellor, guidance counsellor, and mediator.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Counselling.

Bachelor of Government and International Relations

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 227651 Nathan | 3F or 6P | 18/64 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 231841 Gold Coast | 3F or 6P | 16/66 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Studying with a world leader, you will develop a deep understanding of policy, politics and power in the modern world and the forces that shape these dynamics at the global and domestic levels. You'll learn about political institutions and processes, business-government relations, and foreign policy and globalisation. You'll develop an understanding of politics and international relations before completing a major. You'll have the option to complete a parliamentary internship or a work placement in your final year, and have opportunities to study abroad or complete a global internship. **Majors:** International relations; politics and public policy. *Second majors:* Asian business; Chinese language; economics; French*; German*; Indonesian*; international business; Islam-West relations; Italian language; Japanese language; Korean

language*; Russian*; Spanish language. *Via cross-institutional study at The University of Queensland (available to Nathan students only).

Career opportunities: Politics and public policy provides opportunities administering advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. As a graduate with strong analytical and critical thinking skills, you will be able to pursue work in a broad range of sectors including the government, international organisations, media, political parties, a range of business environments and the not-for-profit sector. An international relations qualification gives you a huge range of employment options in Australia and internationally. You could find a job in foreign ministries, defence departments, and intelligence and aid organisations. You could also work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies.

Double degrees: Refer to entries for: B Business/B Government and International Relations; B Communication and Journalism/B Government and International Relations; B Government and International Relations/B Criminology and Criminal Justice; B Laws (Hons)/B Government and International Relations.

Combined diplomas/degrees: Refer to entries under Griffith College for: D Commerce/B Government and International Relations; D Hotel Management/B Government and International Relations.

Bachelor of Government and International Relations/Bachelor of Criminology and Criminal Justice

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 227921 Nathan | 4F or 8P | 19/63 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 231701 Gold Coast | 4F or 8P | 18/64 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree will give you a better understanding of the causes and consequences of complex crime and criminal justice issues and just how they are currently dealt with by government at local, national and global levels. It will combine the study of what makes criminals tick with an understanding of the justice system and policy making processes. With an appreciation of how policy is created and applied, plus an understanding of crime and criminal behaviour, you will be equipped to influence the policy underpinning the justice system to ultimately deter crime, rather than simply respond to criminal behaviour. **Majors:** International relations; politics and public policy.

Career opportunities: Policing, corrections, government, education, policy development, security, intelligence, regulatory law enforcement, crime prevention, customs, crime analysis, youth justice, courts and justice services.

Bachelor of Languages and Linguistics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 221132 Nathan | 3F or 6P | 20/62 | 15/68 | Mar 2021 | 14 Jan 2021 |
| 232252 Gold Coast | 3F or 6P | 20/62 | 15/68 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: The ability to communicate in other languages and cultural contexts is valuable in any career. When you study a language at Griffith, you won't just learn to speak and write the words, you'll also study linguistics—the science, nature and function of language and how it is used in society. You'll apply your knowledge of linguistics and your chosen language in challenges including second language learning and teaching, intercultural communication, and translating and interpreting. You'll learn in small classes, and whether you're a total beginner or fluent, you'll find courses to suit you. **Majors:** *Nathan:* Chinese; French; German; Indonesian; Italian; Japanese; Korean; linguistics; Modern Greek; Russian; Spanish. *Gold Coast:* Chinese; Italian; Japanese; linguistics; Modern Greek; Spanish. **Note:** French, German, Indonesian, Korean and Russian studies can be taken via cross-institutional study with The University of Queensland. Modern Greek can be taken online via cross-institutional study with Flinders University.

Career opportunities: You'll find employment opportunities throughout the world in education and teaching, translation and interpreting, tourism and hospitality, publishing and journalism, sales and marketing, advertising and public relations, international business, law, commerce, and the arts.

Bachelor of Psychological Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 225112 Mt Gravatt | 3F or 6P | 20/62 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 231612 Gold Coast | 3F or 6P | 20/62 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details.

Program outline: This degree will give you a thorough grounding in the application of clinical, developmental, biological, cognitive, social and organisational psychology. You'll learn how to apply psychological theories and use skills to work with people with personal, health, vocational and social difficulties, assisting them to reach their full potential. You'll also learn about thinking and perceiving, motivation, stress, health and group behaviour. Evaluating and understanding psychological tests and using interpersonal, counselling, coaching and group facilitation skills is also a key part of the degree. **Other requirements:** Students must undertake clinical placements. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be prepared for occupations in health management, social research, human resources, community and social welfare, justice, marketing, policy, counselling, coaching and guidance, commerce and business.

Double degrees: Refer to entries for: B Exercise Science/B Psychological Science; B Laws (Hons)/B Psychological Science; B Psychological Science/B Business; B Psychological Science/B Criminology and Criminal Justice; B Psychological Science/M Mental Health Practice; B Psychological Science/M Rehabilitation Counselling.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Psychological Science.

| | | Unadjusted | Adjusted | | |
| 222612 Nathan & Mt Gravatt | 4F or 8P | 18/64 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 231552 Gold Coast | 4F or 8P | 16/66 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Combining business with psychological science can give you the skills and knowledge needed to work as a specialist providing advice to organisations on management and personnel issues, and helping them develop training programs, set policies, or manage organisational change. **Majors:** Accounting; Asian business; Asian engagement (Nathan only); behavioural science; business analytics (Nathan only); economics; employment relations (Nathan only); event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); taxation (Nathan only); tourism management. **Other requirements:** Students must undertake clinical placements. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be ideally placed to directly enter a wide range of management positions in business, counselling, and training and development.

Bachelor of Psychological Science/Bachelor of Criminology and Criminal Justice

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 226521 Mt Gravatt | 4F or 8P | 19/63 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 232521 Gold Coast | 4F or 8P | 20/62 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree will give you insights into crime and the criminal justice system. In the psychological science component, you'll develop an understanding of human behaviour and the variables that affect it, which will help you understand how people can get caught up in the criminal justice system. In the criminology and criminal justice component, you'll study crime trends and learn how crime can be analysed and prevented. You'll have the option to complete a professional practice placement one day a week in your final year to gain experience in a justice-related workplace.

Career opportunities: You'll find work in probation and parole, community corrections, guidance, health management, family services, counselling, child protection, program and policy development, research and administration.

Bachelor of Psychological Science/Master of Mental Health Practice

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|-------------|-------------|-------------|
| | | Unadjusted | Adjusted | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Social science explores the world's complex social challenges and applies research and analysis to create positive change. You'll study and debate some of society's most intriguing issues, including sustainability, security, social justice and communication, along with the techniques to examine them, and devise practical solutions using data analysis. Solutions for contemporary challenges will come from people who can not only interpret the data but also understand the need for social impact studies, policy development, and effective public communication. **Majors:** Economics; environmental sustainability; global security threats; media, communication and social change; politics in Asia; social justice.

Career opportunities: Our degree is built around a tailored employability framework, so you'll have the tools and experience to start creating a successful and meaningful social science career, well before you graduate. Each of the majors in this degree represents a different perspective on the challenges of the future and will allow you to develop areas of expertise that can open doors to a broad range of careers, including working with government, political parties, private business, non-government organisations, not-for-profit organisations, community services, aid agencies, immigration, advocacy groups.

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: This course provides the first step towards a career as a registered psychologist and a foundation for careers where an understanding of human physical and emotional behaviour would be an advantage. Students choose areas of study that are of specific interest. Elective units include organisational psychology, forensic psychology and the law, human sexuality, family therapy, and community psychology. Students develop skills in social and developmental psychology, research methods, perception and cognition, counselling, and psychotherapy. Registration as a psychologist requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions.

Career opportunities: Human resources, market research, organisational development, policing, health and human services, counselling.

Double degrees: Refer to entries for: B Behavioural Science (Psychology)/B Business; B Behavioural Science (Psychology)/B Justice; B Behavioural Science (Psychology)/B Laws (Hons); B Behavioural Science (Psychology)/B Social Work; B Nursing/B Behavioural Science (Psychology).

| 409532 Kelvin Grove & Gardens Point | 4F | 11/77 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); and for accountancy, finance, financial planning, economics, and marketing majors – General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: Students develop a solid understanding of human behaviour and business, and how to apply these to organisational settings. The course is for students interested in developing high-level communication and social skills suitable for a career in counselling, management, human resources, marketing, training and development, finance, accounting, and other careers that would benefit from understanding the psychological aspects of the business environment. Registration as a psychologist requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Business.

Career opportunities: Human resources, management, finance, marketing, accounting, public relations, organisational or industrial psychologist (with further training), counselling, training and development.

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C).

Program outline: The course combines the complementary fields of psychology and law. Students develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution. Graduates enter the workforce with a solid scientific and practical base, suitable for the development of mental health and legal policies, research in the legal-psychological domain, and for careers as legal practitioners or psychologists in legal, corporate, government, social, and clinical arenas. Registration to practise as a psychologist or legal practitioner requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** Students have the opportunity to undertake a minor that focuses on technology and the law. Some units are offered in summer for students wanting to accelerate their study.

Career opportunities: Mental health, child protection, legal policy, research, legal practitioner, policy officer, public servant or psychologist in corporate and government areas.

| | | Unadjusted | Adjusted | | |
| 409022 Kelvin Grove & Gardens Point | 4F | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); and for accountancy, finance, financial planning, economics, and marketing majors – General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course prepares graduates for work in human service organisations that provide public, non-government and private services such as child and family, disability support and health services. Graduates can specialise in child and family services, disability services or services for young people. In the business degree, students complete eight core units to provide a broad-based introduction to business, and eight major units in a choice of ten business disciplines. This course has a strong focus on contemporary social issues, so students develop skills in casework and case management, social policy processes, group and team practice skills, advanced communication, community work, and understanding families and relationships. Students complete 550 hours of human services practical placement as part of the course, gaining the hands-on experience needed to build a successful career.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Business. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Refer to Bachelor of Human Services and Bachelor of Business.

| 503360 Townsville | 1 ^{1/2} ML | ✱ | ✱ | Jul 2021 | 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course is suitable for those looking to work in mental health in the specialised field of drug and alcohol services. Students develop the skills required to provide support and interventions to people with alcohol and drug issues, respond appropriately to issues of domestic violence and intoxication, and assess and promote social, physical, emotional and mental health and wellbeing. Students also learn to advocate on behalf of people with complex coexisting mental health, drug, and alcohol issues. **Note:** VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Mental health worker, alcohol and other drugs worker,

Combined diplomas/degrees: The Diploma of Alcohol and Other Drugs/Diploma of Mental Health can be combined with other programs as listed below to attain the awards of Diploma of Alcohol and Other Drugs/Diploma of Mental Health from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester 1 university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Alcohol and Other Drugs/Diploma of Mental Health for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone

TAFE Queensland (continued)

diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

Additional entry information: Successful applicants who do not currently work in the community services sector may be required to undergo student placement.

Course outline: This course gives students the skills and knowledge needed to work with young people and families in a number of different community settings. During this course, students cover a number of core skills and strategies needed to support children and families, how to respond to specific situations, work effectively with children and young people, and provide a safe environment. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Child protection worker, residential care worker.

Combined diplomas/degrees: The Diploma of Child, Youth and Family Intervention can be combined with other programs as listed below to attain the awards of Diploma of Child, Youth and Family Intervention from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester 1 university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Child, Youth and Family Intervention for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.
Additional entry information: Successful applicants may be required to undertake a vocational placement.

Course outline: This course gives students the high-level skills needed for a role with a community organisation. Learners will gain high-level communication skills and the ability to develop strategies to work with at-risk groups within the community. Learners also gain valuable research skills and be taught how to work within legal and ethical frameworks. **Note:** In addition to the standard diploma eligibility requirements for a fee subsidy, students must also be an existing worker in the community services and health industry, which includes parents and unpaid carers of NDIS participants. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Family support worker, case manager, welfare worker, community services worker, social housing coordinator.

Combined diplomas/degrees: The Diploma of Community Services can be combined with other programs as listed below to attain the awards of Diploma of Community Services from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester 1 university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Community Services for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

| THE UNIVERSITY OF QUEENSLAND | | | | | |
|---|----------|--|----------|-------------|-------------|
| Bachelor of Advanced Humanities (Honours) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 757101 St Lucia | 4F or 8P | 7/87 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: Aimed at high-achievers, this course exposes you to contemporary thinking in the humanities and prepare you for a range of careers in leading academic or professional organisations. As a Bachelor of Advanced Humanities (Honours) student, you'll engage with leading humanities researchers from your first year of study and participate in the University's research culture, applying and developing your analytical skills through practice-led learning.

Note: The course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. A Global Experience option is also available in the second year. **Majors:** Ancient history; art history; drama; English literature; history; mathematics; musicology; philosophy; studies in religion.

Career opportunities: This program prepares you for a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

| Bachelor of Advanced Humanities (Western Civilisation) (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 757201 St Lucia | 4F or 8P | 5/92 | 5/92 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: Embedded in a strong humanities degree, the extended major in Western Civilisation provides you with the opportunity to immerse yourself in a creative and diverse curriculum with a strong critical focus on the key intellectual movements which have shaped Western Civilisation from antiquity to the current day. You will read, study and critique major works of literature, art, music, politics, law, and religion, and develop an understanding of the dynamic interplay of social, historical and aesthetic forces that have contributed to evolving conceptions of the West. Encounter influential ideas that have driven revolutions and study works that are engaging and challenging. Courses focus on small-group discussion to address important questions about human nature and the political order and aim to develop essential skills of critical reasoning and evaluation. **Note:** The course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. A Global Experience option is also available in the second year. Fifteen scholarships will be available for this program each

year. Due to the staged introduction of courses, it may take longer than anticipated for students with credit to complete program requirements. **Majors:** Western Civilisation.

Career opportunities: This program prepares you for a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

| Bachelor of Arts | | | | | |
|------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 707001 St Lucia | 3F or 6P | 13/72 | 12/75 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: The Bachelor of Arts is UQ's largest program with over 40 study areas on offer, giving you the opportunity to explore the subjects you love across the humanities, social sciences and languages. You'll develop skills in written communication, problem-solving, critical thinking and interpersonal understanding, allowing you to think creatively, communicate effectively and examine the world around you. Structure your program with a range of majors and minors. Any major can also be studied as a minor. **Majors:** Aboriginal and Torres Strait Islander studies; ancient history; ancient history/history; anthropology; archaeology; art history; Chinese; Chinese translation and interpreting; classical languages; criminology; drama; economics; English; English literature; English as an international language; film and television studies; French; gender studies (minor only); geography; German; history; Indonesian; international relations; Italian; Japanese; journalism and mass communication; Korean; Latin American studies (minor only); linguistics; mathematics; media and digital cultures; music; music psychology (minor only); peace and conflict studies; philosophy; political science; popular music and technology; professional pathways: humanity and society (minor only); professional writing and communication; psychology; public policy; Russian; sociology; Spanish; sports studies; studies in Australian culture (minor only); studies in religion; writing.

Career opportunities: With a well-rounded education, the ability to think, analyse, and write effectively and with the specialist knowledge gained in your major, you'll graduate with a range of career opportunities in government, community, not-for-profit and international organisations.

Dual degrees: Refer to entries for: B Arts/B Education (Secondary); B Arts/B International Hotel & Tourism Management; B Arts/B Laws (Hons); B Arts/B Social Science; B Business Management/B Arts; B Commerce/B Arts; B Communication/B Arts; B Computer Science/B Arts; B Economics/B Arts; B Engineering (Hons)/B Arts; B Information Technology/B Arts; B Journalism/B Arts; B Mathematics/B Arts; B Music (Hons)/B Arts; B Science/B Arts.

| Bachelor of Arts/Bachelor of Social Science | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 707301 St Lucia | 4F or 8P | 11/77 | 11/77 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: Learn to identify and analyse social concerns and problems, develop positions on social issues, and propose possible interventions. The arts component provides skills in written communication, problem-solving, critical thinking, and interpersonal understanding. It offers a choice of subject areas in the humanities and social sciences. The social science component provides expertise to develop strategies and help find solutions to social issues in the local, national and international arenas. **Majors:** Refer to Bachelor of Arts and Bachelor of Social Science. Students cannot take the sociology major or extended major in the Bachelor of Arts.

Career opportunities: Refer to Bachelor of Arts and Bachelor of Social Science.

| Bachelor of Communication | | | | | |
|---------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 741001 St Lucia | 3F or 6P | 11/77 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: The Bachelor of Communication prepares you for a lifetime of creative and critical use of media and communication in industries, government and communities. This program gives you a strong foundation in writing, industry engagement (including internships), practice and production skills, and critical thinking. You'll develop expertise in multimedia and online content production, social media engagement and analytics, community and stakeholder engagement, and campaign development. You specialise by choosing a major, alongside electives, a second major or a minor. **Majors:** Digital media; public relations. Minors: Advertising; event management; health communication; interaction design; journalism; writing. Digital media and public relations are also available as minors.

Career opportunities: Communication is an expanding area of employment and the Bachelor of Communication is a preparation for careers in public relations, advertising, media planning and analysis; film and television; web design and management; business communication; health promotion; and more.

Dual degrees: Refer to entries for: B Communication/B Arts; B Communication/B Journalism; B Business Management/B Communication.

| Bachelor of Communication/Bachelor of Arts | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 741201 St Lucia | 4F or 8P | 11/77 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: The communication component develops critical awareness of how communication influences people's lives. Examine many forms of communication, including verbal, non-verbal and written, as well as various technologies through which information is transmitted. The arts component provides a flexible structure with a range of disciplines to choose from, and produces graduates with skills in written communication, critical thinking and problem-solving. You can choose from a range of majors, tailoring the degree to suit your career aspirations.

Majors: Refer to Bachelor of Communication and Bachelor of Arts. Students cannot take the journalism and mass communication, media and digital cultures, or professional writing and communication majors in the Bachelor of Arts.

Career opportunities: Refer to Bachelor of Communication and Bachelor of Arts.

| Bachelor of Communication/Bachelor of Journalism | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 741301 St Lucia | 4F or 8P | 9/82 | 9/82 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: This dual degree explores the practices of journalism and the way in which the media and communication work together. In the communication component, you develop a critical awareness of how communication influences people's lives and specialise in areas of interest that tailor your career path. In the journalism component, you study reporting, investigation, editing, and communication and media contexts of journalism, creative problem-solving and learn to be an independent and reflective professional. **Majors:** Digital media; public relations.

Career opportunities: Refer to the Bachelor of Communication and Bachelor of Journalism.

| Bachelor of International Studies | | | | | |
|-----------------------------------|----------|--|----------|-------------|-------------|

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 714112 St Lucia | 4F or 8P | 6/89 | 4/94 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Program outline: This program offers an integrated, cross-disciplinary perspective that combines broad and rigorous training in the foundations of politics, philosophy and economics. You will study insights from all three disciplines and examine current and future global challenges. This program equips you with versatile skills to address complex and challenging issues drawing on a historical, social, political and economic knowledge base. **Majors:** Economics; philosophy; politics.

Career opportunities: As a graduate of this program, you are employable in analytical and decision-making positions in the public, private and not-for-profit sectors, in roles such as an economic or social analyst, policymaker, public commentator, political adviser, and as a leader in international affairs and the diplomatic services.

| Bachelor of Psychological Science (Honours) | | | | | |
|---|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 757001 St Lucia | 4F or 8P | 9/82 | 7/87 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: This program is designed for students looking to undertake comprehensive studies in psychology, including the study of developmental, social, cognitive, biological, physiological and abnormal psychology – as well as study in research methods and report writing. Courses examine areas including child development, neuroscience, learning and cognition, social and organisational psychology, psychological assessment, psychological research methods and evaluation of research. With a range of psychology electives to choose from, you gain a thorough understanding of the fundamentals of psychology while gaining exposure to a variety of specialisations. **Note:** This program meets undergraduate requirements for professional registration when combined with two years' supervised experience as a psychologist.

Career opportunities: Graduates meet the academic requirements for registration as a provisional psychologist with the Psychology Board of Australia, as well as associate membership of the Australian Psychological Society. Further training is required for general registration as a psychologist. With full registration, you can pursue careers in clinical psychology, clinical neuropsychology, organisational psychology, educational and developmental psychology, sports and exercise psychology, and counselling. Broader career options include human resources, mental health services, youth and child support work, relationship counselling, residential care, family and social services, public and private sector management, marketing, advertising and market research, disability support services, aged care, juvenile justice and corrective services.

| Bachelor of Social Science | | | | | |
|----------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 747001 St Lucia | 3F or 6P | 13/72 | 11/77 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: In the Bachelor of Social Science, you develop a strong grounding in social justice, policy research, and links to industry. Our program provides a foundation in the practice-based skills, values and knowledge related to key social problems. Practical workforce skills include public policy design and evaluation, social impact assessment, public advocacy, social planning and research. **Majors:** Development; environment and society; health and society; social and public policy.

Career opportunities: You will be equipped with relevant and marketable skills including policy making and advocacy, public communication, cross-cultural awareness, report writing, project management and social research skills. These skills enable graduates to seek employment with organisations such as government departments, community service and advocacy agencies, healthcare providers, non-governmental organisations (NGOs), and in the business/private sector.

The University of Queensland (continued)

Dual degrees: Refer to entry for: B Arts/B Social Science.

| Bachelor of Social Work (Honours) | | | | | |
|-----------------------------------|---------------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 734001 St Lucia | 4F or 4P & 2F | 12/75 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: As a UQ Social Work (Honours) graduate, you will create a fairer, more inclusive society and champion the rights of the disadvantaged. The program combines core knowledge and skills in social work, social policy and research. You will learn about social work and the law, human development, professional ethics, current welfare and social issues in Australian society, and a range of related social science disciplines. **Note:** You can take the program part-time, but the semesters that have placement require full-time enrolment. Students commencing the program in semester 2 will take longer to complete the degree. **Other requirements:** Students must obtain a Blue Card before commencing a placement course, and hold it for the duration of the program. For more information, visit habs.uq.edu.au/placement-ready.

Career opportunities: Graduates work as social workers in a variety of government, community and private organisations. They work with individuals, groups and communities, such as abused children, people with disabilities, people with mental health issues, victims and perpetrators of domestic violence, people with eating issues, homeless people, survivors of sexual abuse, asylum seekers, elderly people, and people with drug and alcohol issues.

| UNIVERSITY OF NEW ENGLAND | | | | | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This interdisciplinary degree draws on criminology, forensic science, sociology of deviance, law, and criminal justice studies. Study includes criminal law, criminology, sociology, psychology, forensic science, and social work. In later years, students choose criminology elective units and undertake training in research methods, crime prevention, and social policy analysis to equip them with the skills for employment in the criminal justice sector. **Majors:** Criminal justice; justice and Indigenous people; justice, politics and society; policing and corrections.

Career opportunities: Police officer, crime prevention coordinator, juvenile justice officer, drug policy adviser, crime intelligence services.

Combined degrees: Refer to entry for: B Criminology/B Laws.

| Bachelor of Historical Inquiry and Practice | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 616031 Armidale | 3F or 6P | ★ | ★ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree focuses on the professional development of historians. As it is recommended for professional historians to study a discipline relevant to their chosen professional speciality, and because historical inquiry is accepted as elemental to various professions beyond those conventionally associated with history, the course allows students to combine history with other disciplines. This facilitates an education in, for example, historical fiction and writing, social history and criminology, family history and sociology, national history and languages, and cultural history and music.

Career opportunities: Heritage, museums and archives, libraries, diplomacy and international affairs, media, consultancy, editing and publishing, administration, public policy, teaching (with further study).

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of International Studies | | | | | |

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 617601 Armidale | 3F or 6P | ✦ | ✦ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: The central part of this course equips students with a broad grasp of society, politics, and languages. Students take more specialised studies in one of the areas listed. Language study allows a choice from Chinese, classical languages (Greek and Latin), French, German, Indonesian, Italian, Japanese, and Spanish. Students can also undertake the Bachelor of International and Language Studies, which involves an additional year of overseas study at a partner university in the country of their target language. For external study, contact the UNE Future Students Team. **Majors:** Global politics and peace; languages; societies.

Career opportunities: International government and non-government agencies, foreign affairs and the diplomatic service, trade and industry, travel, tourism, international sales and marketing.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Languages | | | | | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This course is for students wanting to pursue study in one or more languages (Chinese [Mandarin], French, German, Indonesian, Italian, Japanese, and Spanish). Students can spend two teaching periods studying university courses in the countries of their chosen languages. This in-country residence greatly enhances students' communicative skills and level of cultural awareness. For external study, contact the UNE Future Students Team. **Majors:** Chinese (Mandarin); French; German; Indonesian; Italian; Japanese; Spanish.

Career opportunities: Diplomatic service, foreign affairs, trade and industry, international teaching, travel, tourism, hospitality, social and welfare roles.

| Bachelor of Media and Communications | | | | | |
|--------------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree develops knowledge of media and communications in their cultural and historical contexts. Graduates understand and apply a range of methods for studying forms of communication – print, film, television, new media, and diverse writing practices – and their role in modern society. Students can study disciplines related to media and communications, such as literature, theatre, language, music, sociology, history, political studies, or psychology. For external study, contact the UNE Future Students Team. **Majors:** Media and culture; writing and publishing.

Career opportunities: Journalism, radio and television film production, public relations, corporate writing, editing and publishing, research, marketing communications, advertising and communication strategy.

| Bachelor of Psychological Science | | | | | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This accredited degree provides a thorough grounding in psychology. Students can also explore areas of interest with psychology units in diverse areas such as social psychology (the study of human social behaviour), biopsychology (the study of the brain), psychological assessment (conducting tests of human abilities and skills), and psychopathology (the study of mental illness). Graduates with sufficient grades are eligible for entry to accredited fourth year psychology programs. **Note:** This course includes an optional minor in criminology or major in counselling.

Career opportunities: A wide range of public, private and non-profit settings, human service organisations, employment agencies, counselling services, personnel management, market research, health and community services.

| Bachelor of Social Science | | | | | |
|----------------------------|----------|--|----------|----------------------|---------------------------|

| 616591 Armidale | 3F or 6P | ✦ | ✦ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This course gives students an ability to understand and research the social world from the points of view of both the individual (psychology) and the group (sociology). It equips students for the workplace by instilling the analytical and research skills they need in a complex environment. Students receive a solid grounding in both psychology and sociology. They can choose to specialise in psychology, sociology or another subject area. **Majors:** Aboriginal perspectives; criminology; health management; linguistics; organisational management; peace and developmental studies; political and international studies; psychology; social philosophy; sociology; urban and regional studies.

Career opportunities: Public and private sector, policy adviser, planning and research officer, market and social researcher, personnel officer, human resource management.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Social Work | | | | | |
|-------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 616561 Armidale | 4F or 8P | 13/73 | 11/77 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: This degree provides students with the knowledge, theories and practical skills required to work as a professional social worker and eligibility to become a member of the Australian Association of Social Workers. Covering all the core requirements of an accredited professional social work degree, the course emphasises practice in rural and complex community environments, and focuses on rights-based practice, mental health, Indigenous peoples, child protection and the law. **Other requirements:** UNE field education units are compliant with the Australian Association of Social Workers requirements for practical experience. Students undertake 1000 hours of fieldwork as two placements over two units.

Students must meet the Inherent Requirements to complete this course. Additionally, the mandatory NSW Health Verification Requirements must be completed in the first six months of commencing in the program. In addition, students must meet UNE requirements by week 9 of the first trimester of study. These include a valid Working with Children check for the state or territory in which the student will undertake placement.

Career opportunities: UNE's Bachelor of Social Work offers graduates career opportunities found in hospitals, government agencies (such as justice, housing and youth and child protection services), community-based family support and welfare agencies, women's refugees and community legal centres, city councils, mental health, disability and aged care facilities, schools and for-profit human services (e.g. private practice counselling, employment services).

Assumed knowledge: English (Units 3 and 4, C).

Program outline: This program is for students wanting a wide choice of study areas and is ideal for those who want to sample different areas before deciding on a specialisation. Students can choose courses from at least three to five different discipline areas. This program is a qualification in its own right but is often used as an admission pathway to degrees that are more focused on the student's chosen specialisation. **Note:** Not all courses can be completed at Springfield. Students continue their studies at Toowoomba or online if available. Some disciplines are not available online; refer to institution.

Career opportunities: Enhances careers where a tertiary qualification is required.

Prerequisites: English (Units 3 and 4, C). **Assumed knowledge:** General Mathematics (Units 3 and 4, C).

Program outline: With a practical focus, the counselling major equips students with the skills necessary to manage the demands on a human service practitioner and a solid foundation to work in community organisations. This program gives students the option to combine the eight-unit counselling major with a 12-unit psychology major to strengthen their job opportunities.

Majors: Students can complete the Bachelor of Science (Counselling) on-campus through a mixture of on-campus and external courses.

Career opportunities: Graduates look forward to careers in counselling, youth services, emergency accommodation, mental health, disability, employment services, refugee and migrant support, child protection, and crisis support.

Double degrees: Refer to entries for: B Arts and B Science; B Business and Commerce and B Science.

UNIVERSITY OF THE
SUNSHINE COAST

Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 011001 Sunshine Coast | 3F or 6P | 16/66 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014031 Moreton Bay | 3F or 6P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students gain essential knowledge and skills in critical thinking and analysis. They can design a degree to suit personal interests and career ambitions by selecting two majors or one major and two minors from a broad range of discipline areas such as creative writing, criminology, geography, history, Japanese, and psychology. The program is a strong base for further studies in education, law or honours. **Note:** Students can study all subjects at Sunshine Coast. Only first and second year subjects offered at Moreton Bay in 2021. Limited majors and minors are available at Moreton Bay. **Majors:** Creative writing and publishing; criminology; English; geography; history; international studies; Japanese; journalism; psychology; screen media studies; sociology; sustainability – society; theatre and performance. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Depending on major: applied sociology, community and welfare services, ecotourism, media, interpreting/translating (with further study), policy development, psychology (with further study), public administration, publishing, research, teaching (with further study).

Combined degrees: Refer to entries for: B Arts/B Business; B Arts/B Science; B Education (Secondary)/B Arts; B Laws/B Arts.

| Bachelor of Arts/Bachelor of Business | | | | | |
|---------------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 016001 Sunshine Coast | 4F or 8P | 17/65 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014411 Moreton Bay | 4F or 8P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This combined degree lets you choose studies in arts, social sciences and business, opening the door to a wide range of study and career possibilities. You may choose to combine complementary specialisations such as creative writing and marketing, international studies and international business, management and more. The program teaches skills and capabilities such as the capacity for critical, creative, innovative and lateral thinking; analytic and synthesising skills; problem solving skills; research skills; information management skills; and communication skills, as well as specialist knowledge drawn from the areas of chosen majors

and minors. **Note:** *Arts:* All majors and subjects are available at Sunshine Coast. Limited majors and minors will be available at Moreton Bay. *Business:* All majors and subjects are available at Sunshine Coast. Required subjects are offered at Caboolture, Fraser Coast, Gympie and Moreton Bay, however there may be a limited selection of majors and electives available at these campuses. *Moreton Bay:* Only first and second year subjects offered at Moreton Bay in 2021.

Majors: Refer to entries for B Arts and B Business.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Refer to Bachelor of Arts and Bachelor of Business.

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students learn how to report on events and decisions that shape lives. They gain practical skills in print, broadcast, and digital media. Courses are taught by industry professionals and include news writing, online journalism, broadcast journalism, feature writing, photography, media law, editing and investigative reporting. Students build a portfolio of professional-level work, participate in an internship and publish and present journalism with industry partners throughout their degree. Students graduate with knowledge and experience across all media, enhancing their job prospects. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Journalist/photojournalist, communication/media officer, news producer, speech writer, writer/editor, video journalist, digital content producer.

Combined degrees: Refer to entry for: B Laws/B Communication (Journalism).

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Learn to help people improve their mental health and emotional wellbeing. The program is designed to give you the skills to become a professionally accredited counsellor. You will be equipped with a range of counselling knowledge and skills to work ethically with clients who seek help. Explore counselling theories and skills, positive psychology, communication and relationships, family counselling and crisis intervention, grief and loss and cultural diversity. Choose electives to link with areas that will expand your career options. Our counselling staff are registered counsellors and qualified clinical supervisors. You gain practical experience in two approved placements, working a total of 500 hours. **Note:** *Fraser Coast and Gympie:* students complete first-year courses at Fraser Coast and Gympie; the remainder of the degree is completed at Sunshine Coast. *Moreton Bay:* only first year subjects offered at Moreton Bay in 2021.

Other requirements: Students must complete two internship placements at approved agencies. A Suitability Card (Blue Card) is required; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Mental health, welfare work, aged services, child protection, disability services, counselling individuals, families and groups, youth.

Combined degrees: Refer to entries for: B Counselling/B Human Services; B Social Science (Psychology)/B Counselling.

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students learn how the challenges people face are shaped by the society around us as well as through the internal factors that shape individual behaviour and personality. Students gain an in-depth understanding of individual, family and community practice. Practice skills are informed by a critical appreciation of the nature of contemporary Australian society and the causes of personal and social problems. Both disciplines have an emphasis on integrative theory and reflective approaches to practice. Graduates can apply for further study to become a registered counsellor with the Australian Register of Counsellors and Psychotherapists.

Note: *Moreton Bay:* only first year subjects offered at Moreton Bay in 2021.

Other requirements: Students must complete two internship placements at approved agencies. A Suitability Card (Blue Card) is required; refer to institution. | | | Unadjusted | Adjusted | | |
| 013441 Sunshine Coast | 4F or 8P | 10/79 | 8/84 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014441 Moreton Bay | 4F or 8P | 10/79 | 9/82 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: You obtain a foundational and advanced understanding of the core topics in psychology. This program allows you direct entry into the entry point for the profession of psychology ie, fourth year (providing GPA requirements are met). Courses introduce students to broad aspects of the discipline and the professional practice of psychology. Areas that are considered include the cognitive, social, perceptual, physiological, intercultural, Indigenous, and abnormal psychologies and their influence of human behaviour. Studies also cover human development, motivation and emotion, personality and assessment, and human associative learning. Electives enable students to link to areas such as counselling, human services, health promotion, and sports psychology. **Note:** *Moreton Bay:* only first and second year subjects are offered in 2021. **Other requirements:** Entry to the fourth year of the Bachelor of Psychology (Honours) is based on a student's GPA in the advanced level (200/300 coded) PSY courses. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Registration as a psychologist with probationary conditions, postgraduate studies in psychology.

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course equips students with the skills and knowledge for a successful career in the information technology industry. Designed with input from industry partners, the course offers innovative, up-to-date and industry-relevant units, as well as in-built practical experiences. Students have the opportunity to apply for an internship, which can be undertaken instead of completing a team-based project. **Note:** Units at Cairns and Townsville are delivered by a combination of on-campus study, workshops, residential schools, and online study.

Specialisations: Application development; business analysis; cyber security.

Other requirements: Students can undertake an internship instead of capstone units. Students may need to travel to and arrange appropriate accommodation in the location of the placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. Students need access to the internet and email. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Computer programmer, application programmer, systems analyst, systems administrator, database administrator, business analyst.

Combined degrees: Refer to entry for: B Laws/B Information Technology.

✦ Regular offers will be made.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course has been developed to provide students with the skills and knowledge necessary for a successful career in this growth industry. Completing this course provides students with a comprehensive understanding of a variety of key areas in IT and computer-based systems and includes a six month, paid work placement where students gain hands-on experience in the industry. Students can fast-track their studies by studying units in term 3. **Note:** Courses at Cairns and Townsville are delivered by a combination of on-campus study and workshops. **Specialisations:** Application development; business analysis; cyber security.

Other requirements: Students undertake a compulsory paid industry placement. The normal duration of the placement is six months. Students may need to travel to and arrange appropriate accommodation in the location of the placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. Students need access to a computer, the internet and email. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Computer programmer, application programmer, systems analyst, systems administrator, database administrator, business analyst, network/communication specialist.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This course provides students with a foundation for a fast-paced, challenging and dynamic career in the information technology industry. Core units provide students with a solid grounding in core information technology knowledge and skills as defined by the Australian Computer Society. The course allows students a wide choice of electives to pursue an area of interest. **Note:** Units at Cairns and Townsville are delivered by a combination of on-campus study, video connection and workshops. **Other requirements:** Students need access to the internet, email and a Microsoft Windows computer. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Developer, programmer, web developer, analyst programmer, business analyst, database administrator, ICT support technician, ICT customer support officer.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This diploma prepares graduates for employment in the information technology industry. Studies include programming, foundations of computing systems, web design and development, software development, introduction to computer systems networks, human computer interaction and academic and professional skills development. **Note:** Subject to satisfactory completion of the diploma, students can articulate with 40 credit points into Griffith University's Bachelor of Laws program.

Career opportunities: Communications specialist, database designer, hardware and software sales representative, software engineer, systems analyst, web page designer.

Combined diplomas/degrees: Refer to entries for: D Information Technology/B Creative and Interactive Media; D Information Technology/B Information Technology; D Information Technology/B Intelligent Digital Technologies.

- ✦ All qualified applicants were offered a place.

| Diploma of Information Technology/Bachelor of Creative and Interactive Media | | | | | | |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Students develop skills in design methods, electronic media, computation, and critical thinking. They combine these skills to produce imaginative concepts, functioning prototypes, digital audio-visual artefacts, and technically mediated interaction designs for everyday life. The program responds to shifts from the world's leading design and technology companies and arts institutions, which are now seeking practitioners with high-level creative and digital technology skills.

Career opportunities: Interactive media designer, web and mobile application developer, interactive media artist, web designer, digital content manager, creative director, games design and development, instructional designer.

| | | Unadjusted | Adjusted | | |
| 264222 Logan | 3F or 6P | 16/66 | 13/72 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this degree, you'll gain the entrepreneurial thinking and industry experience needed to succeed in the IT industry. What makes this degree stand out is the opportunity to put what you learn in the classroom into practice through work placements. We have a wide range of industry contacts and partnerships, ensuring our students get to experience hands-on learning from day one of their studies. This degree also gets you to think entrepreneurially about how you can use your applied IT skills to maximise your potential with your employer, or explore starting up your own business venture. **Majors:** Internet of Things (IoT) and robotics; programming for visualisation and entertainment.

Career opportunities: Information technology is an exciting and progressive field that caters for a diversity of interests. Depending on your strengths and passion, you can choose from a variety of careers ranging from building immersive environments and robots, to developing applications for mobile devices and designing online marketing tools. You'll be prepared for careers in commerce, industry, corporate IT, government or private consulting. You may find a job as a systems analyst, software developer, IT support and client services officer, database and systems administrator, technical writer, web developer, sales representative for IT vendors, educator or researcher.

| Bachelor of Computer Science | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith ATAR 80+/IB 28+ Guarantee and VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This premier technology degree combines the fundamental principles of computer science with practical software technology development skills. You'll study intelligent systems, software development, data mining and data analytics and gain skills in communication, leadership, innovative thinking and ethical practice. You'll also enhance your employment opportunities and gain valuable contacts through an industry-based project or placement. What's more, you will develop entrepreneurial thinking at Griffith's business accelerator space, giving you the skills needed to create your own start-up. **Majors:** Data science and artificial intelligence; software development.

Career opportunities: As a graduate, you'll be prepared for jobs such as a software developer, computer programmer, software engineer, web and mobile applications developer, data scientist, systems analyst, games developer, software systems architect and computer science researcher.

Double degrees: Refer to entry for: B Engineering (Hons)/B Computer Science.

| Bachelor of Information Technology | | | | | |
|------------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |

| 234312 Gold Coast | 3F or 6P | 20/62 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Be at the forefront of a constantly developing industry with this degree. You'll gain an understanding of the fundamentals of computing technology, learn how to design and build websites, and develop skills in computer programming, data management, systems development and human-computer interaction. From second year, you'll choose one of three majors and develop more advanced IT skills in areas such as software technologies, information security and IT services management. Learning at Griffith's business accelerator space, you will also gain the skills needed to create your own start-up. **Majors:** Information systems; networks and security; software development.

Career opportunities: Depending on your major, you may find a job as a systems analyst, business analyst, software developer, database administrator, systems administrator, network and security administrator, network architect, technical writer, web developer, app developer, game developer, computer engineer, educator or researcher. You'll be prepared for a career in commerce, industry, corporate IT, government or private consulting.

Double degrees: Refer to entries for: B Aviation/ B Information Technology; B Criminology and Criminal Justice/ B Information Technology; B Engineering (Hons)/ B Information Technology; B Information Technology/ B Business; B Science/ B Information Technology.

Combined diplomas/degrees: This program can be combined with the following course at TAFE Qld: D Website Development. Refer to entry for the diploma under TAFE Qld. Refer to entry under Griffith College for: D Information Technology/ B Information Technology.

| Bachelor of Information Technology/Bachelor of Business | | | | | |

| 418801 Gardens Point | 3F or 6P | 20/62 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This degree equips students to build and apply information technology solutions across diverse industries. A hands-on, work-integrated curriculum allows students to explore areas in information technology, and gain a deep understanding in their chosen specialty. Students use their creativity and people skills to maximise the impact of their technical know-how to enable them to deal with technologies that have not been invented yet.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Computer science; information systems.

Career opportunities: Depending on subject choice: business analyst, information technology consultant, database administrator, data analyst, website planner, application developer, games programmer, web administrator.

Combined degrees: Refer to entries for: B Business/B Information Technology; B Creative Industries/B Information Technology; B Communication/B Information Technology; B Design/B Information Technology; B Education (Secondary)/B Information Technology; B Engineering (Hons)/B Information Technology; B Information Technology/B Laws (Hons); B Information Technology/B Mathematics; B Science/B Information Technology.

Combined diplomas/degrees: This program can be combined with the following courses at TAFE Qld: D Information Technology Networking; D Software Development; D Website Development. Refer to entry for the diploma under TAFE Qld.

| Bachelor of Information Technology/Bachelor of Laws (Honours) | | | | | |
|---|--------------------|--|----------|----------------------|---------------------------|

| | | Unadjusted | Adjusted | | |
| 419622 Gardens Point | 5 ¹ /2F | 8/84 | 6/89 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This degree gives students the ability to practise law in light of the complex information and technology environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, students can choose to practise as computing professionals specialising in legal applications, information systems, or security. In the law component, students develop advanced legal research and writing skills, and skills in interviewing, advocacy and dispute resolution. The course covers all academic subjects required for admission to legal practice.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** Students have the opportunity to undertake a minor that focuses on technology and the law. Some units are offered in summer for students wanting to accelerate their study. **Majors:** Refer to Bachelor of Information Technology.

Career opportunities: Legal careers specialising in cyberlaw, intellectual property and legal regulation of the internet, legal practitioner, government lawyer, policy adviser. Refer also to Bachelor of Information Technology and Bachelor of Laws (Honours).

| Bachelor of Information Technology/Bachelor of Mathematics | | | | | |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: In first year, students build a foundation in mathematics and information technology. Mathematics students select units from the areas of applied mathematics, computational mathematics, mathematical modelling, operations research, scientific computation and visualisation, and statistics and statistical modelling. Information technology students receive a work-integrated curriculum, allowing them to explore areas in information technology and gain deep understanding in their chosen specialty.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Information Technology and Bachelor of Mathematics.

Career opportunities: Data visualisation, operations research, computational science, statistics, security, cryptology, complex system and scientific modelling. Refer also to Bachelor of Information Technology and Bachelor of Mathematics.

| 052361 Gold Coast | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: The degree prepares skilled graduates for a myriad of industries. The program focuses on the development of web-based business applications and includes an optional internship. Students undertake studies in programming, systems analysis and design, cyber security, database development, networking and communications theory. They learn about issues confronting the information and communications technology industry, including employer obligations, employee rights, impacts on society, and future directions of the industry. Students can also undertake a workplace internship. This course is also available online and at Coomera campus; contact Southern Cross University. **Majors:** Business analytics; digital enterprise; networks and cybersecurity; software development; user experience.

Career opportunities: Software developer, user-experience designer and developer, web or app developer, systems analyst, data analyst, network analyst.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course is delivered in partnership with the University of Canberra. Students will gain experience in the design and creation of games and interactive digital media. This will include the theoretical and practical skills and knowledge required to work in either a technical or creative role. Students will develop an understanding of the game design and production process from concept development and idea generation through to the production methodologies that are applied in today's leading game studios. Students will gain a thorough understanding of game design, developing skills in areas such as game mechanics, artificial intelligence, 3D graphics, animation and real-time technology. These areas of expertise will be enhanced by exposure to essential knowledge required to participate and engage with the game and interactive design industry. This will include areas such as teamwork, problem-solving strategies and contemporary production methodologies. Learning will be achieved through activities such as creating interactive works, engaging with the games industry and its members, reviewing both historical and contemporary creative work and literature. All students who complete the qualification will be given the opportunity to apply their skills to developing creative works. The games and interactive design industry is growing rapidly in local and international markets. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information, visit tafeqld.edu.au/study-with-us/what-it-costs/hecs-help.html.

Career opportunities: Game designer, software engineer, simulation developer/designer, 3D modeller/environment artist, studio production manager, interactive media developer, games/interactive media designer, animator/character animator, multimedia designer.

Combined diplomas/degrees: This program can be combined with the following courses at South Bank: D Screen and Media (Animation and Visual Effects) and D Digital and Interactive Games and the following course at Coomera: D Screen and Media (Interactive Media). Refer to separate course information under TAFE Queensland.

♦ Refer to University of Canberra.

| 555367 South Bank | 3CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: The diploma course will give students the advanced skills to excel in the digital and interactive games industry. The diploma course provides students with the specialised knowledge and skills to work within a collaborative design sector. Learners will also develop advanced understanding of design concepts and interactive computer game development. Bachelor of Digital Design (Game Design) students will gain experience in the design and creation of games and interactive digital media. This will include the theoretical and practical skills and knowledge required to work in either a technical or creative role. Students will develop an understanding of the game design and production process from concept development and idea generation through to the production methodologies that are applied in today's leading game studios. Students will gain a thorough understanding of game design developing skills in areas such as game design and game art. This will include key concepts such as game mechanics, artificial intelligence, 3D graphics, animation and real-time technology. These areas of expertise will be enhanced by exposure to essential knowledge required to participate and engage with the game and interactive design industry. This will include areas such as teamwork, problem-solving strategies and contemporary

TAFE Queensland (continued)

production methodologies. Learning will be achieved through activities such as creating interactive works, engaging with the games industry and its members. **Note:** Applicants offered a place in the diploma who are not eligible for a subsidised enrolment will pay full fee. The degree is delivered by TAFE Queensland in partnership with the University of Canberra. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. The degree is a Commonwealth supported place.

Career opportunities: Game designer, software engineer, simulation developer/designer, 3D modeller/environment artist, studio production manager, interactive media developer, games/interactive media designer, animator/character animator, multimedia designer.

☆ All qualified applicants were offered a place.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: Students develop the specialised skills and knowledge required to plan and create information and communications technology (ICT) database systems for a wide range of businesses. This course takes learners through the design, development and hosting stages in a number of project-based challenges. Students will gain key skills on database development including how to analyse project requirements to produce component specialisations, build using rapid application development (RAD) tools, and use structured query language (SQL) to define, create and manipulate database structures. Learners will also discover how to model data objects, data processes and preferred systems solutions. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Database designer and developer, database administrator, database analyst.

Combined diplomas/degrees: The Diploma of Database Design and Development can be combined with other programs as listed below to attain the awards of Diploma of Database Design and Development from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary.

All mandatory university admission and English language requirements must be met before university enrolment is finalised. For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Database Design and Development for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This qualification will ensure learners have the knowledge and skills to deliver strategic solutions to complicated IT requests. Students will become competent in administering a variety of networked computer system solutions. This course has a strong information technology base of core units with elective units in virtual computing environments and network design and construction. Study areas may include contribute to copyright, ethics and privacy in an ICT environment, manage system security and review and update disaster recovery and contingency plans. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Systems administrator, assistant system manager, internet/intranet systems administrator, assistant IT manager, internet/intranet administrator.

Combined diplomas/degrees: The Diploma of Information Technology Systems Administration can be combined with other programs as listed below to attain the awards of Diploma of Information Technology Systems Administration from TAFE Queensland and the relevant degree from the university. Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course teaches students to create and maintain websites in cloud hosting environments, understand Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS) and create web-based programs. Students will delve into emerging web technology trends and contribute to copyright, ethics and privacy within the information communications technology (ICT) environment. Learners will also discover the keys to database integration for websites as well as how to incorporate frameworks in modelling data structures in code. Students will learn agile methodologies with a modern toolchain and acquire foundation skills that teach web development. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Web developer, independent web developer, in-house web developer.

Combined diplomas/degrees: The Diploma of Website Development can be combined with other programs as listed below to attain the awards of Diploma of Website Development from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Website Development for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

D Website Development/B Applied Information Technology:

505234 Bundamba/Griffith University (1CL & 3F)

555234 South Bank/Griffith University (1CL & 3F)

568234 Toowoomba/Griffith University (1CL & 3F)

D Website Development/B Information Technology:

505234 Bundamba/Griffith University (1CL & 2F)

555234 South Bank/Griffith University (1CL & 2F)

555234 South Bank/Queensland University of Technology (1CL & 2F)

568234 Toowoomba/Griffith University (1CL & 2F)

D Website Development/B Intelligent Digital Technologies:

505234 Bundamba/Griffith University (1CL & 3F)

555234 South Bank/Griffith University (1CL & 3F)

568234 Toowoomba/Griffith University (1CL & 3F)

☆ All qualified applicants were offered a place.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Computer Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 733401 St Lucia | 3F or 6P | 9/82 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: The computer science program combines the theoretical studies of algorithms and data structures with the practical challenges of implementing them in hardware and software systems. Society relies on computer-based systems for the operation and support of services in finance, energy, transport, health and communications. Skills learnt in this program are used in fields ranging from bioinformatics to digital humanities, where sophisticated knowledge in programming and data analysis is used to manipulate massive data sets. **Majors:** Cyber security; data science; machine learning; programming languages; scientific computing.

Career opportunities: As a computer science graduate, you have the skills to play a key role in creating, developing, implementing and evaluating technology. As technology evolves, growing demand will create opportunities in finance, energy, transport, health, communications and more. You can expect to find employment in a range of professions. You are equipped with the foundational theory and practical skills to invent, develop and analyse systems that could affect billions of people worldwide.

Dual degrees: Refer to entries for B Computer Science/B Arts; B Computer Science/B Science; B Engineering/B Computer Science; B Mathematics/B Computer Science.

Bachelor of Computer Science/Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 733501 St Lucia | 4 ^{1/4} F or 8 ^{1/2} P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: This course offers exciting opportunities to specialise in emerging computer science technologies such as cyber security, data science and artificial intelligence while pursuing your interests in social sciences, humanities or languages. Your computer science studies explore programming, databases, operating systems, networks and algorithms. The arts component provides skills in written communication, problem-solving, critical thinking, and interpersonal understanding that expand your opportunities to work in different areas. **Majors:** Refer to the Bachelor of Computer Science and the Bachelor of Arts.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Arts.

Bachelor of Computer Science/Bachelor of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 733601 St Lucia | 4F or 8P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: This dual degree combines computer science and complementary areas of science to provide a strong science base for students. This course offers exciting opportunities to specialise in emerging technologies such as cyber security, data science and artificial intelligence. The science component provides a broad science education and in-depth knowledge in one or two scientific disciplines. You exit this program with strong analytical, logical, and development skills necessary to advance computing, its applications and beyond. **Majors:** Refer to the Bachelor of Computer Science and the Bachelor of Science.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Science.

Bachelor of Information Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 733001 St Lucia | 3F or 6P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: This program establishes your strong professional understanding of software and hardware with fundamental technical, analytical and problem-solving skills, interpersonal and project-work skills, programming languages, and design principles. **Majors:** Computer systems and networks; enterprise information systems; software design; software information systems; user experience design.

Career opportunities: Analysts, programmers, designers, developers, administrators, consultants, or project managers, working in small teams to complete projects within their organisation, or for external clients.

Dual degrees: Refer to entries for: B Business Management/B Information Technology; B Commerce/B Information Technology; B Engineering (Hons)/B Information Technology; B Information Technology/B Arts; B Information Technology/B Science; B Mathematics/B Information Technology.

Bachelor of Information Technology/Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 733201 St Lucia | 4F or 8P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: Study IT while pursuing interests in social sciences, humanities or languages. In the IT component, you can study through hands-on projects, programming languages, algorithms and information structure, and develop the ability to process data or information to solve problems. The arts component provides skills in written communication, problem-solving, critical thinking, and interpersonal understanding that expand your opportunities to work in different areas.

Majors: Refer to Bachelor of Information Technology and Bachelor of Arts.

Career opportunities: Refer to Bachelor of Information Technology and Bachelor of Arts.

Bachelor of Information Technology/Bachelor of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 733301 St Lucia | 4F or 8P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: The IT component is a hands-on, project-focused program based on international standards for computer science and information systems. You can study programming languages, algorithms, information systems, networks, operating systems and user experience design, and develop the ability to process data or information to solve problems. The science component provides a broad science education and in-depth knowledge in one or two scientific disciplines. **Majors:** Refer to Bachelor of Information Technology and Bachelor of Science.

Career opportunities: Refer to Bachelor of Information Technology and Bachelor of Science.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

UNIVERSITY OF NEW ENGLAND

Bachelor of Computer Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626241 Armidale | 3F or 6P | ♦ | ♦ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Assumed knowledge: Mathematical Methods.

Course outline: This degree provides students with the technical, problem-solving, and design skills needed for a modern career in software development or data science. Topics include parallel and distributed computing, databases, artificial intelligence, machine learning, interaction design and mobile development, reactive programming, modern web development, and scientific computing. The program also allows the flexibility to study topics from other disciplines as an application area. **Majors:** Data science; software development.

Career opportunities: Software design and development, web and mobile development, scientific technology, technology careers in banking and corporate sectors.

Combined degrees: Refer to entry for: B Computer Science/B Laws.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Computer Science/Bachelor of Laws

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626701 Armidale | 5F or 10P | ♦ | ♦ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Assumed knowledge: Mathematical Methods. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career that draws on legal skills. The law component includes compulsory fundamental units such as legal systems and method, criminal law, contracts, torts, property law, equity, and constitutional law. For external study, contact the UNE Future Students Team.

University of New England (continued)

Career opportunities: Private legal practice, law-related management careers in science, technology, the environment, finance, legal aid agencies.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| UNIVERSITY OF SOUTHERN QUEENSLAND | | | | | |
|------------------------------------|----------|--|----------|----------------------------------|---|
| Bachelor of Information Technology | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 903741 Toowoomba | 3F or 6P | 22/60 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 923741 Springfield | 3F or 6P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: Students develop the skills, knowledge and experience for a career in information technology, and learn to be problem-solvers and innovators across a range of industries. Students choose from a range of specialisations, learn best practice, gain valuable insights from information technology experts, and are well-equipped with the skills and knowledge to gain industry certification. Students build skills in problem-solving and teamwork, and are exposed to real information technology problems and solution processes. **Majors:** *Toowoomba and Online:* applied computer science; data analytics; information systems development; information technology management; networking and security. *Springfield:* information technology management; networking and security.

Career opportunities: Information architect, business or systems analyst, software engineer, operations manager, information technology manager, network administrator, website developer, computer programmer.

Double degrees: Refer to entry for: B Business and Commerce and B Information Technology.

Combined degrees: Refer to entry for: B Engineering (Honours) B Information Technology.

| 014291 Moreton Bay | 3F or 6P | ✦ | ✦ | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: You'll build core skills in programming, software development, artificial intelligence and data analysis. This industry-focused degree has specialisations in cloud and mobile computing, cyber security, wearable technology and the internet of things. You will develop future-proof, career-ready skills through project based and industry-aligned case studies and placements complemented by a portfolio of designs and products. Graduates find careers in areas such as software development, project management, network and telecommunications, and data analysis. **Note:** Only first and second year subjects offered in 2021.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Mobile app developer, full-stack web developer, DevOps engineer, embedded software developer, systems programmer, cyber-security analyst, network architect.

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Graduates create games with positive social impact. Students specialise in a development role, and work with other game writers, artists, programmers and designers to produce and publish games that meaningfully connect with their players and address real world needs. Students can undertake internships and projects, and enter one of the most diverse, distributed, and fastest-growing sectors of the games industry. Graduates can take on roles in regional businesses, not-for-profit organisations, and government, as well as dedicated game studios. **Note:** *Moreton Bay:* Only first year subjects offered at Moreton Bay in 2021.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: PC/mobile developer, computer programmer, games designer, mixed reality developer, game artist, game producer, narrative designer.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Information and Communications Technology | | | | | |

| 116601 Brisbane | 5F or 10P | New Course | New Course | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This double degree is designed to produce well-rounded graduates ready for legal practice and a range of professional careers in an increasingly global environment. As a graduate of this double degree, you will be well placed to develop specialist legal practice in a wide range of fields. This includes education, cultural institutions, commerce and industry, communications, community and charitable organisations, creative industries, social and policy research, tourism and travel. The course is designed for students who want to combine studies in arts, humanities or social sciences with sound legal skills. **Majors:** Business studies; drama; education studies; history; English; music; philosophy; sociology; study of religions; theological studies; visual arts. **Other requirements:** Students must take a number of core and program units in Arts, as well as legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Government and non-government organisations, media and communications, arts and cultural organisations, higher education, business sector, not-for-profit organisations, historian, social scientist, political analyst, teaching (with further study), private legal practice, legal offices, legal researching, in-house legal counsel.

Bachelor of Biomedical Science/Bachelor of Laws

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| | | Unadjusted | Adjusted | | |
| 115942 Brisbane | 5F or 10P | New Course | New Course | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This double degree is designed to produce well-rounded graduates ready for legal practice and a range of professional careers in an increasingly global environment. They will have a foundation on which to develop specialist legal practices in a wide range of fields, including the pharmaceutical and medical technology industries. The biomedical science component trains students in the core areas of anatomy, physiology, biochemistry, pharmacology, immunology and microbiology. Students learn how the human body functions, what causes disease and how disease is treated. **Other requirements:** Students must undertake two units of workplace learning with an external organisation of their choice, as well as legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal, research and quality assurance working in hospitals, universities or the public health sector, private legal practice, government regulatory bodies, in-house counsel for corporations.

Bachelor of Business Administration/Bachelor of Laws

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|------------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 116312 Brisbane | 5F or 10P | New Course | New Course | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course is designed to produce well-rounded graduates ready for legal practice and a range of professional careers in an increasingly global environment.

Other requirements: Students must complete a structured community engagement experience as a volunteer in a not-for-profit organisation, as well as legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Accounting, banking, human resource management, manufacturing, industrial relations, management, advertising, recruitment and staff development, retailing, wholesaling, practicing solicitor, legal offices, legal researching, government regulatory bodies.

Bachelor of Commerce/Bachelor of Laws

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|------------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 116412 Brisbane | 5F or 10P | New Course | New Course | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course provides the legal knowledge and skills to handle the demands of modern legal practice, as well as an insight into the frameworks, institutions and rule-making processes of commercial activity. **Majors:** Accounting; human resource management; informatics; management; marketing. **Other requirements:** Students must complete a structured community engagement experience as a volunteer in a not-for-profit organisation, as well as legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Depending on commerce major: accounting, business management, banking, human resource management, industrial relations, marketing, advertising, retailing, private legal practice, legal offices, legal researching, government regulatory bodies.

Bachelor of Laws

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| 116301 Brisbane | 5F or 10P | New Course | New Course | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This unique double degree provides a legal education informed by Christian values and an education in theology that is oriented to the professional values and practice of law. The law degree focuses on ethical behaviour, social justice, the common good and the law's interaction with theology. The theology degree includes study in the history of the Christian tradition and current theological scholarship, biblical studies, Christian thought and practice.

Majors: Refer to Bachelor of Theology. **Other requirements:** Students must complete a unit of Christian Community Experience involving an active service engagement, as well as legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Private legal practice, church agencies, ministries, chaplaincy, social inclusion, pastoral work and social work, research, journalism, international organisations, international relations, in-house counsel for corporations, legal officers.

Bachelor of Laws

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|--|---|
| | | Unadjusted | Adjusted | | |
| 856105 Online | 3X or 4X | 13/72 | 12/75 | Nov 2020 Mar 2021 Jul 2021 Nov 2021 | 27 Aug 2020 14 Jan 2021 3 Jun 2021 + |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: Students will learn all the areas of law required to satisfy professional accreditation through the Legal Practitioners Admissions Board. The course enables graduates to proceed to practice as a legal practitioner after completing the required professional training. The core areas of law covered in the course match those required for admission to the legal profession (Priestley 11) and other requirements of the Law Admissions Consultative Committee including statutory interpretation, criminal law and procedure, contracts, torts, federal and state constitutional law, equity (including trusts), administrative law, property, company law, evidence, ethics and professional responsibility and civil dispute resolution. **Note:** The full course cannot be completed in less than three years due to course structure. **Other requirements:** Some elective units may require students to complete clinical experience or an overseas placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: The Bachelor of Laws prepares graduates for a career as a legal professional. Aside from the traditional roles as a solicitor, barrister or in-house counsel, a law degree is useful for careers in academia, business, the public service and politics.

Combined degrees: Refer to entries for: B Laws/B Accounting; B Laws/B Arts; B Laws/B Business; B Laws/B Information Technology; B Laws/B Property; B Laws/B Science (Psychology).

+ Regular offers will be made.

Bachelor of Laws and Bachelor of Accounting

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this specialised degree, you'll learn about the causes of crime and society's response through the justice system. You'll gain a broad understanding of the many fields of study that criminology draws from, including psychology, law, sociology, politics and social work. You'll learn about crime trends and study courses about police, courts and criminal law, forensic psychology and homicide. Elective courses such as policing, working with offenders and victims, youth justice, and crime analysis and prevention allow you to specialise.

Career opportunities: As a criminologist, you will help society develop a better understanding of why people commit crimes, how better to protect against it and how to improve the rehabilitation of offenders and help victims of crime. This degree will open the door to a host of fascinating and rewarding careers in a diverse range of industries. You'll discover employment opportunities in policing and security, intelligence, probation and parole, child protection, crime analysis, courts and justice services, crime prevention and regulatory agencies. When you graduate, you'll be prepared for a career in areas such as law enforcement, working directly with offenders in welfare and counselling roles, and in criminological research and policy roles.

Double degrees: Refer to entries for: B Criminology and Criminal Justice/B Information Technology; B Forensic Science/B Criminology and Criminal Justice; B Human Services/B Criminology and Criminal Justice; B Laws (Hons)/B Criminology and Criminal Justice; B Psychological Science/B Criminology and Criminal Justice.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Criminology and Criminal Justice/B Criminology and Criminal Justice.

Program outline: Learn about the causes of crime and society's response to it while developing a core of IT technical knowledge related to information systems and network security in this innovative double degree. Graduates will have a broad body of knowledge in the fields of criminology and criminal justice and understand the role technology plays in committing and preventing crime. Additionally, you'll have an in-depth knowledge of the principles and concepts

Griffith University (continued)

of information and communication technology, such programming, modelling, human-computer interaction, data and information management and networking. **Majors:** *Information technology: networks and security.*

Career opportunities: You will find employment opportunities in police and law enforcement, cybersecurity, corrections, intelligence data collection and analysis, network security, digital forensics, crime prevention, non-police law enforcement and investigations.

Bachelor of Laws (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 226601 Nathan | 4F or 8P | 11/77 | 8/84 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 236601 Gold Coast | 4F or 8P | 11/77 | 8/84 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 90+/IB 33+ Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Get progressive practical experience, support, international opportunities, networks and theory to shape your ideal legal career. At Griffith, you'll develop in-depth knowledge of legal principles and practice and specialise by choosing from electives across five areas: global law and governance, law and commerce, environment and social justice, theories and contexts of law, and clinical and professional legal practice. You'll have access to practical experience from your first year of study and the opportunity to gain hands-on experience through the Griffith Legal Clinic program.

Career opportunities: This degree opens up a range of career opportunities within and beyond the legal environment. After gaining professional recognition, you'll be prepared for a career as a solicitor or barrister. Your skills could also pave the way for work as a lawyer in a law firm or large Australian or international corporation, a policymaker or law reformer working in the government or community sector, a human rights defender, or for a non-legal career as a journalist, politician, investment banker or management consultant. You could find opportunities in areas such as academia, administration, banking, finance, industrial relations, management and marketing.

Double degrees: Refer to entries for: B Laws (Hons)/B Arts; B Laws (Hons)/B Business; B Laws (Hons)/B Criminology and Criminal Justice; B Laws (Hons)/B Environmental Science; B Laws (Hons)/B Government and International Relations; B Laws (Hons)/B Psychological Science.

Bachelor of Laws (Honours)/Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: With this double degree, you'll develop an understanding of the fundamentals of business and specialised legal skills. As a graduate, you'll be prepared to help organisations make crucial decisions that can affect their success. In the law component, you'll focus on core areas of legal practice and crucial legal knowledge. You will have the opportunity to gain practical legal skills, insights and experience through clinical courses. In the business component, you'll learn about core business concepts before focusing on your chosen major. **Majors:** *Business:* accounting; Asian business; Asian engagement (Nathan only); behavioural science; business analytics (Gold Coast only); economics; employment relations (Nathan only); event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); taxation (Nathan only); tourism management.

Career opportunities: The corporate world values graduates in law and business. As a graduate, you'll have knowledge and skills in two disciplines that are in strong demand across the private and public sectors. You'll be prepared for a career in professional legal practice, commerce and industry, human resources, marketing, management, or the public service.

Bachelor of Laws (Honours)/Bachelor of Criminology and Criminal Justice

For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Combining your studies of law with studies in criminology and criminal justice will give you a holistic view and thorough understanding of the intersection between crime and the law. Criminology deals with the causes of crime and the treatment of criminals, making it highly beneficial to criminal lawyers. It draws on insights from many fields of study, including psychology, law, sociology, politics and social work. In this double degree, you'll develop the knowledge and analytical and practical skills you'll need for a professional career in law, criminology and criminal justice.

Career opportunities: Studies in law and criminology and criminal justice are complementary and a double degree will expand your career opportunities across the legal, crime prevention and criminal justice professions. With a Bachelor of Laws (Honours) you will be prepared for a career as a solicitor or barrister, after gaining professional recognition, along with many other options. The Bachelor of Criminology and Criminal Justice will offer you opportunities in policing and security, intelligence, probation and parole, child protection, crime analysis, courts and justice services, crime prevention and regulatory agencies. You will be prepared for a career in areas such as law enforcement, working directly with offenders in welfare and counselling roles, and in criminological research and policy roles. You can also find opportunities in business and government and in areas such as academia, administration, banking, finance, industrial relations, and management.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Criminology and Criminal Justice/B Laws (Honours)/B Criminology and Criminal Justice.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith ATAR 90+/IB 33+ Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Environmental problems generally involve issues of science, technology, economics, law and human values. In this double degree, you'll explore how understanding these issues can help resolve environmental problems. You'll develop an understanding of environmental economics, environmental ethics, environmental law and governance and the national and international policy context, and their relevance to environmental management. You'll be equipped with the skills required of an environmental practitioner and will have the opportunity to undertake capstone projects or an industry placement.

Career opportunities: You'll be prepared for professional practice in environmental and planning law, and careers in government, industry, environmental organisations and development companies.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 90+/IB 33+ Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Combining government and international relations with law will help you develop a solid understanding of the world. In the law component, you'll study core courses necessary for admission to practice and elective courses in areas such as global and international law and law and commerce. In the government and international relations component, you will learn about political institutions and processes, business-government relations, and foreign policy and globalisation. As part of this degree, you will have the opportunity to complete either a parliamentary internship or a work placement. **Majors:** Government and international relations; international relations; politics and public policy.

Career opportunities: You'll be prepared for a career in the legal profession, with a special interest in public law or international issues. You'll also find employment in areas such as diplomacy, strategic analysis or trade relations, in international aid and non-government organisations, or in businesses with overseas profiles.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** The Griffith ATAR 90+/IB 33+ Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Combining law with psychological science will give you a unique skill set that will prepare you for work either in the community sector or in commerce and industry. You'll learn how to apply psychological theories to topics such as thinking and perceiving, motivation, stress, health, criminal activity, and group behaviour. You'll also learn about the principles of counselling and how to evaluate and understand tests that measure intellectual, behavioural and emotional states. You'll undertake a professional practice placement to enhance your skills.

Career opportunities: You'll be prepared for work in community legal centres or in other support organisations and in business organisations. You'll also be well positioned to seek a career in forensic psychology.

| JAMES COOK UNIVERSITY | | | | | |
|-----------------------------------|-----------|--|----------|----------------------|---------------------------|
| Bachelor of Arts/Bachelor of Laws | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 311521 Townsville | 5F or 10P | 16/66 | 15/68 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 321521 Cairns | 5F or 10P | 14/70 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Students acquire the academic qualification for admission to practise as a lawyer. The course is suitable for students wanting legal knowledge and skills for work in other occupations. First-year students acquire foundation law skills and knowledge. In final year, students choose electives to develop specialist knowledge through the study of legal issues directly affecting society. When combined with an arts major, students graduate with a broad knowledge of society and culture, key communication skills, research and critical analysis. **Majors:** Refer to entry for Bachelor of Arts.

Career opportunities: Private practice as a barrister or solicitor in general practice, in the not-for-profit sector, government and non-government agencies, business, the public service.

| Bachelor of Business/Bachelor of Laws | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: Students gain the business expertise and legal qualifications needed to practise law. The business program focuses on preparing students for future professional employment and positions of leadership in organisations and the community. These skills complement a graduate's legal practice, particularly in management, corporate and commercial tax, and written communication. Law classes and workshops provide students with real-world experiences and involve judges, local law firms, government agencies, community organisations, and the local bar. **Majors:** Townsville: business intelligence and information systems; human resources management; management; marketing; sports and events management. Cairns: business intelligence and information systems; human resources management; management. **Online:** business intelligence and information systems; hospitality and tourism management; human resource management; international business; management; marketing; sports and events management.

| 321541 Cairns | 5F or 10P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Course outline: The course allows students to pursue qualifications in the legal field combined with a science major. There is a strong focus on professional relevance, practical skills and authentic experiences that allow students to gain an appreciation of the role of law in social, economic, environmental, and political sustainability contexts. Students learn the significance of the law in ensuring stable government, economic prosperity, and the protection and preservation of individual and cultural rights and the environment. **Note:** Some majors require attendance at block mode subjects at either Townsville or Cairns. Students may be required to attend block mode classes at a campus other than where they are enrolled, at their own expense. **Majors:** Refer to Bachelor of Science. Not all majors are available at both campuses. **Other requirements:** Students seeking admission as a legal practitioner in Queensland must include certain law subjects in later years of study.

Career opportunities: Bioethics, intellectual property, copyright and patent law, climate change, conservation and sustainability, science and national security policy.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course will provide students with a greater understanding of the skills and knowledge required to function within the challenging justice sector. Students will develop an innovative understanding of justice-related areas including legislation and legal frameworks, social justice, crime and corrections. The course has been designed in conjunction with industry practitioners from the Queensland Police Service, The Department of Justice and Attorney General, Australian Federal Police and Office of Industrial Relations. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Regulatory investigator, court services officer, corrective services officer, police officer, paralegal, customs and border force officer.

Combined diplomas/degrees: The Diploma of Crime and Justice Studies can be combined with other programs as listed below to attain the awards of Diploma of Crime and Justice Studies from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester 1 university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Crime and Justice Studies for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

D Crime and Justice Studies/B Criminology and Criminal Justice:

504472 Springfield/Griffith University (1CL & 2.5F)

568472 Toowoomba/Griffith University (1CL & 2.5F)

Career opportunities: Refer to Bachelor of Arts and Bachelor of Laws (Hons).

Bachelor of Business Management/Bachelor of Laws (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 711401 St Lucia | 5 ¹ / ₂ F or 10P | 3/96 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Program outline: Gain a comprehensive understanding of legal principles and institutions as well as a thorough and critical understanding of core areas of law and legal theory. Develop professional, clinical and legal analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution. The business management component gives you the knowledge and skills for effective management in national and international business environments. **Majors:** Refer to Bachelor of Business Management.

Career opportunities: Refer to Bachelor of Business Management and Bachelor of Laws (Hons).

Bachelor of Commerce/Bachelor of Laws (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 711901 St Lucia | 5 ¹ / ₂ F or 10P | 3/96 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: Gain a comprehensive understanding of legal principles and institutions as well as a thorough and critical understanding of core areas of law and legal theory. Develop professional, clinical and legal analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution. Learn how to apply business principles to contemporary business practices with a focus on accounting, financial planning, decision-making and control in organisations. **Majors:** Refer to Bachelor of Commerce.

Career opportunities: Refer to Bachelor of Commerce and Bachelor of Laws (Hons).

Bachelor of Criminology and Criminal Justice (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 718101 St Lucia | 4F or 8P | 9/82 | 8/84 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: The Bachelor of Criminology and Criminal Justice (Honours) focuses on professional practice and criminal law, providing you with high-level, industry-relevant skills to compete favourably in the growing international justice and criminology employment markets. As a criminologist, you will understand how the justice system works, why people commit crimes, and have the skills and knowledge to contribute towards preventing and controlling crime and social problems that face contemporary society.

Career opportunities: In a rapidly growing national and international employment market, you will be well positioned for a career at all levels of government, local companies and global corporations, and a range of non-government treatment and social service agencies.

| Bachelor of Economics/Bachelor of Laws (Honours) | | | | | |
|--|---------------------------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 714201 St Lucia | 5 ^{1/2} F or 10P | 4/94 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: Gain a comprehensive understanding of legal principles and institutions as well as a thorough and critical understanding of core areas of law and legal theory. Develop professional, clinical and legal analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution, and learn how to solve policy and decision-making challenges for business and government using a range of statistical and analytical tools, with a focus on a career as an economist and analyst. **Majors:** Refer to Bachelor of Economics.

Career opportunities: Refer to Bachelor of Economics and Bachelor of Laws (Hons).

| Bachelor of Humanities (Western Civilisation)/Bachelor of Laws (Honours) | | | | | |
|--|---------------------------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 707402 St Lucia | 5 ^{1/2} F or 10P | 3/96 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: This dual degree program allows you to combine studies in law with a Bachelor of Humanities (with an extended major in Western Civilisation). Through the law degree you will gain a comprehensive understanding of legal principles and institutions, as well as a critical understanding of core areas of law and legal theory. You will develop analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution; skills which will be valuable in your chosen career. The extended major in Western Civilisation will provide you with the opportunity to immerse yourself in a creative and diverse curriculum with a strong critical focus on the key intellectual movements which have shaped Western Civilisation from antiquity to the current day. You will graduate equipped with knowledge and insights applicable to many of the big problems that societies face today, and the collaborative and persuasive skills to bring about meaningful change. In combination, this dual program will provide you with highly developed knowledge and skills in written communication, problem-solving, critical thinking and interpersonal understanding. **Note:** The course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. Fifteen scholarships will be available for this program each year. Due to the staged introduction of courses, it may take longer than anticipated for students with credit to complete program requirements. **Majors:** Western Civilisation.

Career opportunities: Students of the dual degree will have knowledge of key works in the western humanities and the ability to critically apply this knowledge. This program prepares you for a career in the legal profession and a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

| Bachelor of Journalism/Bachelor of Laws (Honours) | | | | | |
|---|---------------------------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 737102 St Lucia | 5 ^{1/2} F or 10P | 3/96 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: Gain a comprehensive understanding of legal principles and institutions as well as a thorough and critical understanding of core areas of law and legal theory. Develop professional, clinical and legal analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution. In the journalism component, you study reporting, investigation, editing, and communication and media contexts of journalism, and learn to be an independent and reflective professional.

Career opportunities: Refer to Bachelor of Journalism and Bachelor of Laws (Honours).

| Bachelor of Laws (Honours) | | | | | |
|----------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 718001 St Lucia | 4F or 8P | 4/94 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: The Bachelor of Laws (Honours) promotes high-level knowledge and advanced legal skills. You build a strong foundation in legal research, writing, reasoning, analysis and interpretation through critical, rational and analytical thinking. Through the extensive co-curricular program, your academic studies are supported by wellbeing programs, and complemented by opportunities to participate in the moot program. You can also take advantage of the award-winning Pro Bono Centre, with the opportunity to apply your classroom learning to real-life situations and make important contributions to unmet legal needs.

Career opportunities: Graduates are employed as barristers or solicitors in private practice, public prosecutors, community lawyers, legal officers, and in-house counsel for large companies, while others pursue careers in areas such as investment banking, insurance, government and international relations, property development and management, or in the consulting industry, with industry associations, lobby and environmental groups, social service groups, research think tanks, community service organisations, or Legal Aid and community legal centres. The Bachelor of Laws (Honours) fulfils the academic requirements for admission as a legal practitioner throughout Australia. Further practical legal training is required before admission.

Dual degrees: Refer to entries for: B Arts/B Laws (Hons); B Business Management/B Laws (Hons); B Commerce/B Laws (Hons); B Economics/B Laws (Hons); B Humanities/B Laws (Hons); B Journalism/B Laws (Hons); B Science/B Laws (Hons).

| Bachelor of Science/Bachelor of Laws (Honours) | | | | | |
|--|---------------------------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 731401 St Lucia | 5 ^{1/2} F or 10P | 4/94 | 2/97 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: This dual degree is for lawyers who need to be highly conversant with modern science and its applications, and for scientists who need to be experts in law. You gain the knowledge to become a patent lawyer, working in areas related to environmental impact and litigation, the law and medicine, and maritime law. As a graduate working in the science field, you have an understanding of the legal complexities involved in commercialisation and intellectual property protection of scientific discoveries. **Majors:** Refer to Bachelor of Science.

Career opportunities: Refer to Bachelor of Science and Bachelor of Laws (Hons).

| UNIVERSITY OF NEW ENGLAND | | | | | |
|----------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Laws (3 Years) | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 654671 Armidale | 3F or 6P | + | + | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English. **Additional entry information:** This is a Year 12 admission pathway for applicants with an ATAR 90.00–99.95 or equivalent rank from a Year 12 program. Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: The degree includes core subjects and a range of elective subjects. Compulsory areas include contracts, torts, criminal law, constitutional and administrative law, equity, property, litigation, succession, and corporation law. For external study, contact the UNE Future Students Team.

Career opportunities: Solicitor or barrister in private legal practice, legal aid agencies, government departments.

Combined degrees: Refer to entries for: B Agriculture/B Laws; B Arts/B Laws; B Business/B Laws; B Computer Science/B Laws; B Criminology/B Laws; B Economics/B Laws; B Environmental Science/B Laws; B Science/B Laws.

Assumed knowledge: English (Units 3 and 4, C).

Program outline: If you are interested in studying why crime occurs and want to make a real difference to the people and communities affected by crime, USQ's Associate Degree of Criminology and Criminal Justice has been designed to prepare you for a rewarding career within or connected with the criminal justice system. Explore the nature and causes of crime, examine the function of the criminal justice system, and develop skills for researching crime and crime-related issues. You can gain industry experience and develop work-ready skills that can be directly transferred to a wide range of roles.

Career opportunities: Studies in criminology and criminal justice prepare students with relevant knowledge and skills for careers within the criminal justice system, child protection, crime research, strategic planning and development, policy development, security, research, government agencies, non-government organisations, and private enterprises.

✦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| UNIVERSITY OF THE SUNSHINE COAST | | | | | |
|----------------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Laws | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 018201 Sunshine Coast | 4F or 8P | 13/72 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: You gain legal knowledge and skills for a career in law and law-related fields. Law degree content has a practical focus, and includes all the subjects required for admission as a legal practitioner in Australia: legal practice and ethics, contracts, torts, criminal law and procedure, equity/trusts, civil procedure, evidence, constitutional law, property law, administrative law and corporate law. You gain practical skills from your first year. Law honours is available, usually without extending the time to complete your degree. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Solicitor, barrister, government legal officer, judge's associate, law academic, corporate in-house counsel, business and public service administration.

Combined degrees: Refer to entries for: B Laws/B Arts; B Laws/B Business; B Laws/B Commerce (Accounting); B Laws/B Communication (Journalism); B Laws/B Creative Industries (Creative Writing and Publishing); B Laws/B Criminology and Justice; B Laws/B Environmental Management; B Laws/B Science.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: You combine studies in law and arts to develop first-class legal knowledge and essential skills in critical thinking and analysis. Law program content has a practical focus and includes all the courses required for admission as a legal practitioner in Australia: legal practice and ethics, contracts, torts, criminal law and procedure, equity/trusts, civil procedure, evidence, constitutional law, property law, administrative law and corporate law. You gain practical legal skills from year one. A broad range of arts majors is available. **Note:** It is recommended that students planning to study part-time apply for the Bachelor of Laws rather than a double degree. **Majors:** Arts: creative writing and publishing; criminology; English; geography; history; international studies; Japanese; journalism; psychology; screen media studies; sociology; sustainability – society; theatre and performance. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Solicitor, barrister, government legal officer, corporate in-house counsel.

| Bachelor of Laws/Bachelor of Business | | | | | |
|---------------------------------------|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 018221 Sunshine Coast | 5F or 10P | 11/77 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: You gain legal knowledge and skills, and a strong grounding in the fundamentals of business. Law degree content has a practical focus and includes all the subjects required for admission as a legal practitioner in Australia: legal practice and ethics, contracts, torts, criminal law and procedure, equity/trusts, civil procedure, evidence, constitutional law, property law, administrative law, and corporate law. You gain practical legal skills from your first year. You can choose to complete a major to specialise in an area of business. **Note:** *Laws:* required subjects are only available at Sunshine Coast. It is recommended that students planning to study part-time apply for the Bachelor of Laws rather than a double degree. *Business:* all majors and subjects are available at Sunshine Coast. Required subjects are offered at Caboolture, Fraser Coast, Gympie, Moreton Bay and South Bank, however there may be a limited selection of majors and electives available at these campuses. **Majors:** *Business:* economics and finance; entrepreneurship; international business; management; marketing; tourism, leisure and event management.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Solicitor, barrister, government legal officer, corporate in-house counsel or others depending on the business major studied. Refer also to Bachelor of Business.

| Bachelor of Laws/Bachelor of Commerce (Accounting) | | | | | |
|--|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 018261 Sunshine Coast | 5F or 10P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: You combine studies in law with commerce and accounting to develop advanced legal, financial, and business knowledge and skills. Law degree content has a practical focus and includes all the subjects required for admission as a legal practitioner in Australia: legal practice and ethics, contracts, torts, criminal law and procedure, equity/trusts, civil procedure, evidence, constitutional law, property law, administrative law, and corporate law. Commerce subjects develop skills in accounting, financial management, consulting and advising.

Note: *Bachelor of Laws:* Required subjects are only available at Sunshine Coast. It is recommended that students planning to study part-time apply for the Bachelor of Laws rather than a double degree. *Bachelor of Commerce (Accounting):* Required subjects are available at Sunshine Coast. Required subjects are offered at Caboolture, Fraser Coast, Gympie, Moreton Bay and South Bank, however there may be a limited selection of electives available at these campuses.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Solicitor, barrister, company secretary, accountant, auditor, stockbroker, careers with an accounting or law focus.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Laws/Bachelor of Criminology and Justice | | | | | |
|--|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 018311 Sunshine Coast | 5F or 10P | 13/72 | 11/77 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This dual degree prepares you to work in legal practice or the related field of criminology. In addition to studying all the subjects required for admission as a legal practitioner in Australia, you gain an understanding of the causes and impacts of crime, and what works in reducing crime and improving justice. Your future career could include areas such as legal research, law reform research and policy development, advocacy, political advising, corruption and white collar crime investigations, prosecutions and prevention. **Note:** It is recommended that students planning to study part-time apply for the Bachelor of Laws rather than a double degree.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Solicitor, barrister, government legal officer, police, intelligence, customs, corrections, youth justice, child safety, legal administration, security, therapies, rehabilitation, legal research and policy development.

| Bachelor of Laws/Bachelor of Environmental Management | | | | | |
|---|-----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 018321 Sunshine Coast | 5F or 10P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: You prepare for a career in legal practice, industry, government or research. The law degree includes all the subjects required for admission as a legal practitioner in Australia and the opportunity for clinical placements. The environmental management degree features inquiry-based learning, field trips and the use of online resources to create an engaging learning experience. You have opportunities to undertake specialised research, gain practical experience through work placements, or study abroad. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Solicitor, barrister, government (local, state and national), conservation and research organisations in Australia and internationally.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| 018281 Sunshine Coast | 5F or 10P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: This dual degree prepares you to pursue a career in law, specialising in science-related fields. Law degree content has a practical focus and includes all the subjects required for admission as a legal practitioner in Australia. You gain practical legal skills from your first year. You can choose from a range of majors such as biology, biotechnology, chemistry, ecology, and mathematics. This diverse double degree develops your problem-solving and analytical skills.

Note: It is recommended that students planning to study part-time apply for the Bachelor of Laws rather than a double degree. **Majors:** Refer to Bachelor of Science.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Solicitor, barrister, patent attorney, government legal officer, scientist. Refer also to Bachelor of Science.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

PRIMARY INDUSTRIES AND ENVIRONMENT

| CQUniversity AUSTRALIA | | | | | |
|-------------------------|----------|--|----------|-------------|-------------|
| Bachelor of Agriculture | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 819632 Bundaberg | 3F or 6P | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |
| 829632 Emerald | 3F or 6P | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |
| 859632 Rockhampton | 3F or 6P | 16/66 | 14/70 | Mar 2021 | 14 Jan 2021 |
| 855532 Online | 3X or 6X | ✦ | ✦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course enables students to develop the cutting-edge knowledge and skills required for employment in the technology-driven agribusiness, cropping and livestock industries. Students benefit from a practical-based training that provides the basis for the application of theory that underpins the knowledge in new and innovative practices. **Note:** Some units require students to attend mandatory residential schools. Residential schools may be held at Emerald, Bundaberg or Rockhampton depending on unit content and available facilities.

Specialisations: Agribusiness.

Other requirements: Some units include industry placements. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Production enterprises, agribusiness support sectors including banking, consultancy, marketing, trading and logistics, in government for policy development and industry analysis.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Environmental Science | | | | | |
|-----------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 810681 Bundaberg | 3F or 6P | ✦ | ✦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 850681 Rockhampton | 3F or 6P | 12/75 | 11/77 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 850685 Online | 3X or 6X | 8/84 | 7/87 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); completion of Year 12 or attained age 17 years.

Program outline: In this course, students examine, measure, monitor and manage aspects of the Earth's living and non-living environment. The first year incorporates skills-focused units that develop field and laboratory competencies useful for research, and desired by industry and government. Further study of transdisciplinary subjects such as environmental economics, geography, environmental law and community engagement, in addition to biological and chemical sciences, develops skills and knowledge that enables students to contribute to the sustainability of ecosystems and societies. **Note:** Some units may only be available online or by flexible delivery (internal classes plus online study). Bundaberg only offers the first year of this course; students complete the remainder of their studies at Rockhampton or online. Depending on courses selected, online students may be required to attend on-campus residential schools. **Online:** Many units have compulsory residential schools. **Specialisations:** Environmental geography; integrated land and

water management. **Other requirements:** Depending on units selected, students can undertake either an industry placement or a short research project. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Land and water management, environmental surveying and monitoring, compliance and impact assessment, policy, community environmental projects.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| GRIFFITH UNIVERSITY | | | | | |
|-----------------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Environmental Science | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 228811 Nathan | 3F or 6P | 20/62 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 233631 Gold Coast | 3F or 6P | 20/62 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Studying a Bachelor of Environmental Science at Griffith will arm you with the skills and knowledge to take on the environmental challenges of the 21st century. You'll gain knowledge and skills from across the broad environmental science spectrum, exploring environmental issues from social, physical and biological perspectives and choose a major that suits your interests. Final year includes a 'capstone' experience where you have the option to engage with university research, undertake an extended fieldwork program in your major, or complete an industry placement. **Majors:** Ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: Depending on your major, you'll be prepared for work in positions such as environmental officer, environmental consultant, wildlife biologist, conservation ecologist, environmental chemist and environmental scientist. As an honours graduate, you'll be prepared to pursue a career in management, research or academia.

Double degrees: Refer to entries for: B Engineering (Hons)/B Environmental Science; B Environmental Science/B Business; B Environmental Science/B Data Science; B Laws (Hons)/B Environmental Science.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Environmental Science.

| Bachelor of Environmental Science/Bachelor of Business | | | | | |
|--|----------|--|----------|----------------------|---------------------------|

| 233661 Gold Coast | 4F or 8P | 17/65 | 15/68 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this double degree, you will learn about key sustainability issues, such as energy, water and waste management, and develop an appreciation of the interrelationships between environmental sustainability and business success. You will examine the sustainable use of our natural environment, and graduate with the skills and knowledge needed to find sustainable solutions for business and industry. You'll also choose from a broad array of commercial business majors and graduate with a point of difference and that will give you a competitive edge. **Majors:** *Environmental science:* ecology and conservation; environmental management; soil and water science; urban environments. *Business:* accounting; Asian business; Asian engagement (Nathan only); behavioural science; business analytics (Nathan only); economics; employment relations (Nathan only); event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); taxation (Nathan only); tourism management.

Career opportunities: Depending on the majors selected, you'll find career opportunities in research, government, non-government agencies, engineering and environmental consultancies, data collation and evaluation, administration, advertising, business and strategic management, planning and policy, and sales and marketing. You'll find work in positions such as environmental consultant, management facilitator, project officer or information management officer.

| Bachelor of Environmental Science/Bachelor of Data Science | | | | | |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course produces industry-ready graduates with a focus on building scientific knowledge and practical skills in land, water, and flora and fauna conservation. Students can choose between completing an eight-week industry placement or a self-directed major project. Field trips are a feature of the course, with the University favourably located near significant and diverse environments. This course is also available online with compulsory residential workshops at Lismore; contact Southern Cross University. **Majors:** Environmental stewardship; fauna and flora conservation; land and water management; shared majors from across the university.

Career opportunities: National parks and protected area management, environmental protection, environmental impact assessment and monitoring, environmental education, sustainable forestry, fisheries management, aquaculture, ecotourism, waste management.

Combined degrees: Refer to entry for: B Environmental Science/B Marine Science and Management.

| Bachelor of Environmental Science (Regenerative Agriculture) | | | | | |

| 054010 Lismore | 3F or 6P | New Course | New Course | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree focuses on building scientific knowledge and practical skills. As well as lectures and tutorials, students undertake classes in scientific laboratories equipped with advanced analytical equipment. Drawing on the University's specialist expertise in plant science, agronomy, ecology, agroforestry, environmental chemistry and socio-ecological systems, the regenerative agriculture specialisation delves into the emerging practices of, and growing evidence-base for regenerative agriculture, examining human ecology, agroecology, regenerative agronomy and soil management as well as the planning of rural landscapes. Students develop specialist knowledge in a whole-of-system approach to food production and farm management. This course includes on-farm residential schools and an optional eight-week industry internship. This course is also available online with compulsory residential workshops at Lismore; contact Southern Cross University. **Majors:** Regenerative agriculture.

Career opportunities: Positions in public and private sectors as a resource manager, farmer, advisor, ecologist or regenerative agriculture specialist.

Combined degrees: Refer to entry for: B Environmental Science/B Marine Science and Management.

| Bachelor of Environmental Science/Bachelor of Marine Science and Management | | | | | |

| 054211 Lismore | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This combined degree brings together the terrestrial aspects of environmental management with marine science and management. It aims to produce graduates who can manage the environment for future generations. The degree focuses on building scientific knowledge and practical skills. Shared majors from across the university are available in this course. Field trips are a feature of the course, with the University located near diverse environments including wetlands, estuaries, forests, and coastal and inland national parks. Students can elect to complete an industry internship to supplement the theory components of the course. This course is also available online with compulsory residential workshops; contact Southern Cross University.

Note: Students complete the final-year units at the University's National Marine Science Centre in Coffs Harbour, via intensive mode. **Majors:** Environmental stewardship, fauna and flora conservation, land and water management, and shared majors from across the university.

Career opportunities: In public and private sectors; national parks, environmental consulting companies, ecotourism, land/ river/ coast care programs, waste management, research, education, interpretation programs and environmental protection agencies, marine parks, fisheries and aquaculture marine-based tourism, state or federal government, marine consulting, or marine research and technical assistance.

| 054021 Lismore | 4F or 8P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree builds skills and an understanding of the multifaceted aspects of sustainable forestry management. Students can specialise in small or large scale plantations, restoration forestry, provision of environmental services, wood utilisation, forest inventory and planning, and international forestry. Students learn how to use high tech applications in geographic and environmental mapping and analysis, and study subjects from ecology to policy models, agroforestry to chemistry and more. They attend field trips, a residential teaching period at Lismore, and 16 weeks of workplace experience in a forestry-related area. Shared majors from across the university are available in this course. Visit scu.edu.au/shared-majors. This course is also available online with compulsory residential teaching periods.

Career opportunities: Plantation establishment and management, use of geographic information systems, natural resource management and environmental planning, native forest management, fire prevention and control, forest resource assessment, policy development, pest and disease management, agroforestry and farm forestry advisory services, forest growth modelling and yield prediction, protected area management, forestry in developing countries and research.

| Bachelor of Marine Science and Management | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 054101 Lismore | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 054051 National Marine Science Centre, Coffs Harbour | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree combines marine science with contemporary management concepts and has a focus on conservation issues in both coastal and marine ecosystems. This course has a strong practical component whereby students develop skills in the laboratory and field, experiencing a range of tropical and subtropical environments including the Solitary Islands, Cape Byron and Great Barrier Reef marine parks. Students explore global environmental issues including marine pollution and climate change and learn about coral reef ecology and marine mammal conservation, marine pollution, scientific diving, and more through the choice of electives. The course includes an optional eight-week work placement and students also have the option to gain a nationally recognised qualification in scientific scuba diving.

Career opportunities: In the public and private environmental sectors as a consultant, marine-park planner, marine biologist and ecologist, marine reserve officer, aquaculturalist, fisheries manager, project officer, technical officer, state coordinator, marine researcher.

Combined degrees: Refer to entry for: B Environmental Science/B Marine Science and Management.

| TAFE QUEENSLAND | | | |  | |
|---|----------|--|----------|---|---------------------------|
| Diploma of Conservation and Land Management | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 517308 Nambour | 1CL | ★ | ★ | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Additional entry information: This program is intended for continuing students who have completed at least Certificate III in Conservation and Land Management or Certificate III in Horticulture, as it is highly desirable that students have underpinning knowledge and skills from that area. A skills assessment may be undertaken to ascertain the correct level of study required. Contact TAFE Queensland, Nambour on 1300 308 233 for more information.

Course outline: This course reflects the role of personnel working in management positions with technical level skills in conservation and land management roles. Students obtain knowledge and practical skills in the management of flora, the classification of plant life, and conducting biological surveys. Students also learn how to be an effective manager in the conservation and land management industry, and develop skills in natural area restoration, management planning, and data collection and management. **Note:** VET Student Loans are available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Community project coordinator (land care), senior park ranger, natural resource manager.

Combined diplomas/degrees: The Diploma of Conservation and Land Management can be combined with other programs as listed below to attain the awards of Diploma of Conservation and Land Management from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary.

All mandatory university admission and English language requirements must be met before university enrolment is finalised. For more information contact the relevant university.

Note: TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Conservation and Land Management for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

| 568048 Toowoomba | 2CL | ★ | ★ | Jan 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: In this course, students learn how to identify plants and operate machinery, manage both livestock and crop production, market products and services, and prepare and monitor budgets. Students also learn how to develop farm and business plans, create climate risk management strategies, and produce sustainable land strategies. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Farm manager, property manager, farm production manager, production unit manager, agronomist, agribusiness manager/administrator, farm manager/administrator, production unit manager/administrator.

Combined diplomas/degrees: The Certificate III in Rural Operations/Diploma of Agribusiness Management/Diploma of Agriculture can be combined with other programs as listed below to attain the awards of Certificate III in Rural Operations/Diploma of Agribusiness Management/Diploma of Agriculture from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Certificate III in Rural Operations/Diploma of Agribusiness Management/Diploma of Agriculture for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

CIII Rural Operations/D Agribusiness Management/D Agriculture/B Agriculture:

568048 Toowoomba/CQUniversity Australia (2CL & 2.5F)

★ All qualified applicants were offered a place.

| THE UNIVERSITY OF QUEENSLAND | | | |  THE UNIVERSITY OF QUEENSLAND AUSTRALIA | |
|------------------------------|----------|--|----------|--|-------------|
| Bachelor of Agribusiness | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 766001 St Lucia/Gatton | 3F or 6P | 11/77 | 11/77 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Learn to apply the latest concepts in marketing, logistics, human resource management, finance and operations to local, national and multinational agricultural enterprises. Gain current knowledge of farming, agricultural sustainability, food security, crop production, livestock and horticulture. Take part in site visits, case studies and research projects and undertake a major group project with an agribusiness company in your final year. You'll enhance your problem-solving, management and communication skills while developing your professional networks. **Note:** First year requires attendance at both St Lucia and Gatton; subsequent years are based at Gatton. **Other requirements:** During the first two years, you interact with agribusiness organisations through visits, case studies and research projects. In final year, you undertake a major project, working collaboratively within an agribusiness organisation as a member of a small team of four or five students.

Career opportunities: Commodity trader, marketer, manager of rural operations, sales, supply chain/export manager, banker, policy developer for governmental, agricultural or regional agencies.

Dual degrees: Refer to entries for: B Agribusiness/B Equine Science; B Agribusiness/B Sustainable Agriculture; B Agribusiness/B Veterinary Technology; B Agribusiness/B Wildlife Science.

| Bachelor of Agribusiness/Bachelor of Agricultural Science | | | | | |

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 766601 St Lucia | 4F or 8P | 10/79 | 10/79 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Combine practical business skills with your interests in agriculture to tackle environmental and resource problems. You will assist commercial farmers to increase their output of food and fibre with the least environmental and social impact. Study business courses in accounting, economics, and market research in an agribusiness context. Become consumer focused, commercially aware, innovative, internationally orientated and technically competent. Graduate with excellent employment opportunities in the fast-growing global agricultural sector.

Career opportunities: Commodity trader, marketer, manager of rural operations, sales, supply chain/export manager, banker, policy developer for governmental, agricultural or regional agencies.

Bachelor of Agribusiness/Bachelor of Equine Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 766101 Gatton/St Lucia | 4F or 8P | 10/79 | 10/79 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Prepare for a business career in the global equine industry. Focus on both the scientific and business knowledge to improve the health and welfare of leisure horses and equine athletes. Access specialist facilities at the Equine Precinct at Gatton. Study horse nutrition, breeding, exercise physiology, health and rehabilitation, welfare and behaviour. Develop your skills in marketing, finance and management. Take part in a range of practical field or work experiences to build your skills. **Note:** The majority of courses are based at Gatton with some courses offered at St Lucia.

Career opportunities: Refer to Bachelor of Agribusiness and Bachelor of Equine Science.

Bachelor of Agribusiness/Bachelor of Veterinary Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 766301 Gatton/St Lucia | 4F or 8P | 11/77 | 11/77 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Prepare for a career in the Australian biosecurity and veterinary technology industries. You'll develop your business skills and para-veterinary expertise. Learn from internationally regarded researchers and access specialist animal science facilities. Gain skills in advanced animal handling, welfare and behaviour. Study nutrition, veterinary pharmacology, and biosecurity issues. Combine this with practical agribusiness knowledge in business management and marketing. You'll conduct market research and connect with industry professionals. Get valuable hands-on experience through industry placements, case studies and fieldwork. **Note:** The majority of courses are based at Gatton with some courses offered at St Lucia.

Career opportunities: Refer to Bachelor of Agribusiness and Bachelor of Veterinary Technology.

Bachelor of Agribusiness/Bachelor of Wildlife Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 766501 Gatton/St Lucia | 4F or 8P | ♦ | ♦ | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Develop your practical business skills and learn to manage native and exotic animals. Access UQ's specialist animal research and veterinary facilities. Study wildlife anatomy and physiology, captive breeding, reproduction, nutrition, health, husbandry, ecology, welfare and behaviour. Learn from specialists in agribusiness, business management and marketing to develop your business skills. In both of your programs you will undertake field or work experiences to establish industry contacts and gain current and industry-relevant expertise. **Note:** The majority of courses are based at Gatton with some courses offered at St Lucia. **Majors:** Refer to Bachelor of Agribusiness and Bachelor of Wildlife Science.

Career opportunities: Refer to Bachelor of Agribusiness and Bachelor of Wildlife Science.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Agricultural Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 762019 Gatton | 3F or 6P | 12/75 | 11/77 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Shape the future of the production of food and fibre. Tackle climate change, food security, sustainability and agricultural productivity. Study biochemistry, microbiology, genetics, animal nutrition, land use and the environment, agri-economics and international agricultural development. Learn from world-class researchers with strong industry connections. You'll access specialist agricultural facilities at UQ's Gatton campus. Gain valuable hands-on experience through industry placements, case studies and fieldwork. Develop your understanding of current and emerging trends in agricultural innovation.

Note: All study during years 1 to 3 is completed at Gatton campus. After completing your three years of undergraduate study, you may choose to undertake an additional year of independent research to graduate with Honours. **Majors:** Agronomy; animal science; horticulture.

Career opportunities: Government departments, research institutions, agricultural service companies, seed companies, food producers and agricultural consultancies, production, post-harvest and marketing organisations, biosecurity and animal production enterprises.

Bachelor of Environmental Management (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 705101 St Lucia | 4F or 8P | 12/75 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: Bridge the gap between science and management to manage complex environmental problems. Study biology, ecology and geography, economics, business, and legal and policy issues. Develop your multidisciplinary skills in management, decision-making and problem solving. You'll learn to assess environmental problems and develop ways to manage and solve them. Undertake a local or international field trip in your third year to experience natural and urban environments. Graduate with expertise that sets you apart in a competitive job market.

Other requirements: Students take a two-week field trip and 270 hours of industrial placement within Australia or overseas.

Career opportunities: Graduates work in managerial, research, administrative and educational roles in national parks and wildlife conservation; environmental assessment and compliance; natural resource management, including coastal, river and catchment systems; policy development; government and commercial consultancies in environmental planning and management; mining; environmental tourism; and environmental management.

Bachelor of Environmental Science (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 738001 St Lucia | 4F or 8P | 8/84 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: Examine the effect of human activity on physical and biological environments. Combine your scientific skills with knowledge of the legal, political and social aspects of environmental management. Undertake extensive practical, field and research experiences to become a skilled environmental scientist. You will take part in field trips and complete a final-year research project, which includes an environmental impact assessment or an environmental audit. Learn to improve sustainability, manage ecosystems, preserve global biodiversity, and secure clean water and food. **Majors:** Earth resources; ecology and conservation; environmental toxicology; natural resource science.

Career opportunities: Graduates work as environmental monitors, impact assessors and managers, natural resource managers, national parks and wildlife conservationists, policy advisers, and teaching and research scientists.

Bachelor of Equine Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 787109 Gatton | 3F or 6P or 6X | 13/72 | 12/75 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate a preferred mode of study for attendance – internal or external.

Program outline: Transform your passion into a career that improves the management, performance and welfare of horses. Study equine welfare, behaviour, nutrition, reproduction, health, rehabilitation, exercise and physiology. Build a strong understanding of animal biology, structure and function, and chemistry. Specialise in agricultural biochemistry, horse behaviour, physiology, biomechanics, breeding, nutritional physiology and diet. Complement this theory with industry placements and hands-on field experiences. You'll have the opportunity to bring your horse to agist at the Gatton campus.

Career opportunities: Graduates typically work in equine enterprise management, agribusiness firms servicing the equine industry, animal nutrition and animal health companies, bloodstock agencies, breed societies, equestrian centres, riding schools, equine industry organisations, equine journalism, horse studs, pre-conditioning and training businesses, racing and competition stables, sales and marketing, and statutory bodies administering racing and trotting.

Dual degrees: Refer to entry for: B Agribusiness/B Equine Science. This program is offered both internally and in external mode.

Bachelor of Veterinary Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 787309 Gatton | 3F or 6P | 13/72 | 12/75 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Develop your theoretical and practical skills to become a para-veterinary healthcare specialist. Study chemistry, animal biology, communication, management, animal behaviour and handling. Develop deeper and more specific expertise in animal anatomy and physiology. Study animal pathogens (parasites, viruses, bacteria and similar) and immunity. Learn agricultural biochemistry and animal health technologies in medicine, surgery, anaesthesia

The University of Queensland (continued)

and radiology. Build your critical thinking, problem-solving and self-directed learning skills with practical sessions, clinical rotations and industry placements. **Note:** This program is offered internally however some individual courses may be available by external mode.

Career opportunities: Graduates are employed in areas including veterinary radiology, anaesthesia, pathology, clinical pathology, nutrition and veterinary therapeutics. They typically work as support staff in veterinary practices in roles such as veterinary emergency and critical care technicians, or veterinary practice managers, animal behaviour and training instructors, animal research technicians or supervisors, biosecurity inspectors and project support officers with government agencies, livestock enterprises and zoos.

Dual degrees: Refer to entry for: B Agribusiness/B Veterinary Technology.

| Bachelor of Wildlife Science | | | | | |
|------------------------------|----------------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 787209 Gatton | 3F or 6P or 6X | 13/72 | 12/75 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate a preferred mode of study for attendance - internal or external.

Program outline: Prepare for a career in global conservation and wildlife management. Study native and exotic amphibians, reptiles, birds and mammals, biodiversity and human-wildlife interactions. Learn the management of wild animals and how to deliver and assess management programs for captive and free roaming wildlife. Build your skills in wildlife trapping, identification and animal handling. Gain hands-on experience during industry placements at zoos, sanctuaries and wildlife parks and establish your industry networks.

Career opportunities: Graduates are employed in research, managerial and educator roles, working in the agriculture sector (perhaps educating farmers about the best way to keep predators away from livestock), in tourism (managing animal welfare and research programs), or for government departments (researching and managing feral animals). Others work in biology, conservation, land management and ecotourism, environmental consultancies, vertebrate pest and game management, wildlife science, government agencies, and wildlife sanctuaries and zoos.

Dual degrees: Refer to entry for: B Agribusiness/B Wildlife Science.

| UNIVERSITY OF NEW ENGLAND | | | | | |
|---------------------------|----------|--|----------|----------------------|---------------------------|
| Bachelor of Agribusiness | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 657001 Armidale | 3F or 6P | 13/72 | 12/76 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree provides students with the business skills and knowledge that prepares them for employment in the food and agribusiness industries, from the farm level through to multinational companies. Students develop a high level of problem-solving and communication skills to be able to address real issues facing agriculture and business in a changing global environment, such as food safety and security, climate change, sustainability and increasing globalisation, and integration of agricultural and food networks. An optional professional experience unit is available. For external study, contact the UNE Future Students Team.

Majors: Accounting; economics; finance; marketing and management; rural science; technology and data analytics.

Career opportunities: Agribusiness companies, banking, finance and insurance sectors, business and market analysis, commodity trading, policy analysis, primary production, sales, government departments and international agencies.

| Bachelor of Agricultural and Resource Economics | | | | | |
|---|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 656681 Armidale | 4F or 8P | 13/72 | 12/76 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: Through this degree, students develop the knowledge, skills and attributes required for high level problem-solving and economic decision-making across a range of agricultural and natural resource issues such as food safety and security, natural resource depletion, climate change, sustainability and increasing globalisation, and integration of agricultural and food networks. There is flexibility to choose between a coursework only option and an embedded honours program. For external study, contact the UNE Future Students Team.

Career opportunities: Professional and leadership positions in banking, finance, insurance, international agencies, government departments, agribusiness, commodity trading, policy analysis, agriculture, or education.

| Bachelor of Agriculture | | | | | |
|-------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 636762 Armidale | 3F or 6P | 13/73 | 11/77 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; General Mathematics.

Course outline: This degree gives students cutting edge tools to understand the implications of land use and management change on agricultural productivity. The degree suits students who are more interested in the management of agricultural landscapes than the scientific, agricultural systems focus of UNE's Bachelor of Rural Science. The latest technology underpins all UNE agriculture courses; students can specialise in technology, animal production or plant production, or take the general stream. For external study, contact the UNE Future Students Team.

Majors: Animal production; general agricultural production; plant production; technology. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Agricultural advisory fields, management and consulting in the cropping and animal industries, agribusiness, primary production, landcare, soil conservation, natural resource management.

Combined degrees: Refer to entries for: B Agriculture/B Business; B Agriculture/B Laws.

| Bachelor of Agriculture/Bachelor of Business | | | | | |
|--|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 627621 Armidale | 4F or 8P | 13/72 | 12/76 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; General Mathematics.

Course outline: This double degree combines the practical agricultural degree, underpinned by science, with fundamental skills in business and management. This program provides a grounding in areas including animal production systems and products, crop and pasture management, animal health and welfare, feedlot management, cotton crop protection, grains crop protection, poultry and sheep production, micro and macroeconomics, economic perspectives of environment and food, farm and resource management, agribusiness marketing, commodity markets, and banking and finance. For external study, contact the UNE Future Students Team. **Majors:** Accounting; agribusiness; international business; marketing. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Agricultural advisory fields, management and consulting in the cropping and animal industries and government agencies, agribusiness management, accountancy.

| 627611 Armidale | 5F or 10P | + | + | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; General Mathematics. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree examines the principles and practices of modern rural industries and how they intersect with the legal system, development of scientific and legal reasoning and inquiry, and critical analysis of complex circumstances. Working individually and as part of a team, students apply their skills to current and future problems, especially in agricultural business, science, economics and law. For external study, contact the UNE Future Students Team. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Foreign affairs and trade, rural politics, product development, federal departments, solicitor or barrister.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Bachelor of Animal Science | | | | | |
|----------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry.

Course outline: This program provides students with an understanding of animals, our relationship with them and management of them. It equips graduates with the skills and knowledge needed to face challenges such as improving the conditions and methods by which we manage companion animals, shrinking habitat, feral animals threatening indigenous animal populations, and a need for meat and other animal products to be produced more efficiently and humanely. **Majors:** Canine and equine science; livestock production; wildlife management.

University of New England (continued)

Other requirements: Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Advisory, regulatory and research positions in all agricultural fields, particularly in breeding, management and consultancy for the livestock industries and agribusiness.

Bachelor of Environmental Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626901 Armidale | 3F or 6P | ✦ | ✦ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry.

Course outline: This degree offers a range of flexible study pathways keyed into career opportunities for students to learn about the environment and its management: air, land, water, plants and wildlife. Graduates develop skills in the field and laboratory, and are equipped to solve real-world problems underpinned by cutting-edge research. A fourth year honours program is available. For external study, contact the UNE Future Students Team. **Majors:** Conservation ecology; envirobusiness; general; natural resource management; remediation and restoration.

Career opportunities: Environmental protection agencies, national parks and wildlife manager, positions in museums and herbaria, zoos and botanic gardens, ecotourism, research with CSIRO and universities.

Combined degrees: Refer to entry for: B Environmental Science/B Laws.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career that draws on legal skills in an environmental context. Students are equipped to apply their knowledge to cross-disciplinary real world-problems, especially those relating to the environment and its management. For external study, contact the UNE Future Students Team.

Career opportunities: Legal practice or law-related management, government planning departments, national parks and wildlife management, water and soil conservation, commercial industry.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Rural Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 636052 Armidale | 4F or 8P | 12/75 | 10/80 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry.

Course outline: This degree produces graduates with the scientific and communication skills necessary to solve practical agricultural problems at farm, catchment and national levels. Students can specialise in areas such as agronomy, animal science and animal physiology, genetics, horticultural science, crop protection, soil management, cotton production, plant physiology, poultry production, wool science, and meat science. Students who complete a research project in fourth year are considered for the award of honours. **Other requirements:** Students must complete 16 weeks of practical industry work experience during university vacation periods.

Career opportunities: Advisory, regulatory and research posts, crop and animal industries, agribusiness, banking and marketing, primary production, plant and animal breeding, soil conservation.

Bachelor of Sustainability

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

| 014761 Moreton Bay | 3F or 6P | New Program | New Program | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students gain interdisciplinary knowledge and practical skills needed to minimise human impacts on the environment, manage resources sustainably, and conserve and restore habitats, biodiversity and ecosystem services. Inquiry-based learning, field trips and the use of online resources create an engaging learning experience. Students have opportunities in their final year to undertake specialised research, gain practical experience through work placements, or study abroad. **Note:** *Moreton Bay:* only first year subjects offered at Moreton Bay in 2021.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Environmental management and protection, ecosystem conservation and restoration, environmental education, communication, research, policy and legislation development.

Combined degrees: Refer to entry for: B Laws/B Environmental Management.

Bachelor of Environmental Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 013011 Sunshine Coast | 3F or 6P | 19/63 | 17/65 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 019011 Fraser Coast | 3F or 6P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 014011 Moreton Bay | 3F or 6P | 18/64 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Students learn to become skilled environmental professionals and manage human interaction with the natural environment. The program develops the scientific base needed to make judgements on the conservation and use of Australia's natural ecosystems and resources. Courses examine the connection between organisms and their environment, both natural and artificial. Students explore natural and human-managed environments and gain skills in environmental management, planning and restoration, managed ecosystems and marine science. Students gain practical skills through field trips and an opportunity to undertake an unpaid professional placement. **Note:** *Fraser Coast:* students complete first-year courses at Fraser Coast; the remainder of the degree is completed at Sunshine Coast. *Moreton Bay:* only first and second year subjects offered at Moreton Bay in 2021. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit Inherent Academic Requirements on the USC website.

Career opportunities: Environmental management and protection, parks and wildlife, resource management, waste and pollution control, catchment management agencies, local councils, environmental consultancies.

Combined degrees: Refer to entry for: B Engineering (Civil) (Honours)/B Environmental Science.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

SCIENCES

CQUniversity AUSTRALIA

Bachelor of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 810611 Bundaberg | 3F or 6P | ★ | ★ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 850611 Rockhampton | 3F or 6P | 13/72 | 12/75 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 850615 Online | 3X or 6X | ★ | ★ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course has been designed with flexibility in mind, allowing students to major in an area of their choice and pursue a rewarding career in science. Students benefit from hands-on, practical learning experiences both on campus and in the field. This includes field trips to a variety of destinations, including coral reefs, intertidal and terrestrial ecosystems, mainland vegetation communities, agricultural enterprises, mine and other land degradation sites, and freshwater and estuarine environments. **Note:** First year only is offered at Bundaberg; students complete the remainder of the course online. Students attend compulsory residential schools for some units. **Online:** Many units have compulsory residential schools. **Specialisations:** Applied biology; applied chemistry. **Other requirements:** Depending on units selected, students undertake either an industry placement or a short research project. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Scientist, researcher, teacher (with further study), environmental management, parks and wildlife, water and sewage treatment, aquaculture, pharmaceutical companies, energy production, mineral processing.

★ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

GRIFFITH COLLEGE

Diploma of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 081501 Mt Gravatt | 1F or 2P | ★ | ★ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This program provides students with the prerequisite knowledge and skills for further study in the areas of biomedicine, environmental sustainability, chemistry and physical sciences, marine, wildlife and microbiology to obtain base level employment opportunities within these fields. Studies include academic and professional skills development for science and technology; biological systems; essential mathematics; genetics and evolutionary biology; chemistry; human biology; statistics; fundamentals of biochemistry; introduction to environmental sustainability.

Career opportunities: With further study: bioengineering, biology, cancer research, pharmaceutical scientist, coastal resource management, conservation and pollution control management, fisheries laboratories, neuroscientist, mathematician, laboratory or pathology work, marine science, neuroscience, DNA expert, science research, forensic molecular biologist.

Combined diplomas/degrees: Refer to entries for: D Science/B Biomedical Science; D Science/B Environmental Science; D Science/B Forensic Science; D Science/B Marine Science; D Science/B Science; D Science/B Science/B Data Science.

★ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Biomedical Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 081551 Mt Gravatt/ Griffith University – Nathan | 3F or 6P | ★ | ★ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C).

Program outline: This program develops knowledge and skills in the biological and clinical sciences, emphasising their application to biomedical research, medicine and healthcare services. First-year courses introduce the basic sciences underpinning biomedical science. Advanced years include medically-focused courses in anatomy, biochemistry, cell biology, genetics, immunology, infectious disease, microbiology, neuroscience, pharmacology and physiology.

Career opportunities: Medical research institutes, hospitals, universities, government or commercial research organisations and health-related industries.

★ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Environmental Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 081531 Mt Gravatt/ Griffith University – Nathan | 3F or 6P | ★ | ★ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |
| 081541 Mt Gravatt/ Griffith University – Gold Coast | 3F or 6P | ★ | ★ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This degree provides graduates with knowledge and core skills to understand the natural environment, including an understanding of how humans interact with it. Extensive field, laboratory and small group activities are included throughout the degree, helping students develop theoretical and practical skills in multiple disciplines. In final year, students have the chance to engage with university research, undertake an extended field program in their discipline - individually or with a team - or complete an industry placement. **Majors:** Ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: Research, local, state and federal government, agencies involved in environmental management, engineering and environmental consultancies, data and information collation and evaluation.

★ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Forensic Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|---------------------------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 081561 Mt Gravatt/ Griffith University – Nathan | 3 ¹ / ₂ F or 7P | ★ | ★ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: This program provides professional training in handling criminal casework in forensic biology and forensic chemistry. From first year, students work on practical crime-scene projects with a strong emphasis on a professional interdisciplinary approach, research and innovation. This program provides a basis for further studies in forensics, producing graduates with high-level skills applicable to a range of scientific careers. Students may be able to participate in site visits to forensic molecular biology and chemistry laboratories to familiarise themselves with current practice and to interact with forensic experts on the job. **Majors:** Forensic chemistry; forensic molecular biology.

Career opportunities: Forensic services and laboratories involving casework, presentation of expert evidence and research and development activities, biomedical and biotechnology fields.

★ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Marine Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|---|---|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 081571 Mt Gravatt/ Griffith University – Gold Coast | 3–3 ¹ / ₂ F or 6–7P | ★ | ★ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This degree allows students to combine study in a range of areas, including biology, chemistry and physical science, to gain the skills and knowledge needed to manage the increasingly complex issues facing marine systems, and ensure that marine industries prosper sustainably. The degree has a strong practical focus, with students learning through hands-on field-based projects that take advantage of the university's Gold Coast location. An industry placement, included as part of the degree, provides practical experience in areas such as fisheries, conservation and management. **Minors:** Coastal management; coastal oceanography; marine chemistry; marine ecology.

Career opportunities: Coastal resource management, fisheries, conservation and pollution control management, coastal physical science in modelling and meteorology, marine parks.

★ All qualified applicants were offered a place.

| Diploma of Science/Bachelor of Science | | | | | |

| 081521 Mt Gravatt/ Griffith University – Gold Coast | 3–3 ^{1/2} F or 6–7P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This program provides students with scientific knowledge and analytical and communication skills for careers in biological, clinical, chemical, computing, physical, mathematical and environmental sciences and policy. Students choose from a range of majors in accordance with their interests and career plans. Students gain practical skills by working in the field and on projects in the laboratory, depending on their area of study. In final year, students can undertake capstone projects and participate in industry internships to gain work experience in Australia or overseas. **Majors:** Applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences; geography; marine biology; microbiology; physics; wildlife biology.

Career opportunities: Microbiologist, pharmaceutical scientist, biochemist, chemist, biotechnologist, marine biologist, mathematician, physicist, researcher, teacher (with further study).

☆ All qualified applicants were offered a place.

| Diploma of Science/Bachelor of Science/Bachelor of Data Science | | | | | |
|---|------------------------------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 081701 Mt Gravatt/ Griffith University – Gold Coast | 4–4 ^{1/2} F or 8–9P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |
| 081801 Mt Gravatt/ Griffith University – Nathan | 4–4 ^{1/2} F or 8–9P | ☆ | ☆ | Feb 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: This double degree combines the study of science with the specific skills of data analysis, modelling, interpretation and visualisation. You gain an understanding of the use of data in your chosen major and graduate with in-depth technical knowledge and skills in data science. In final year, you complete a capstone experience where you have the option to engage with university research, undertake an extended fieldwork program in your major or complete an industry placement. **Majors:** *Bachelor of Science:* applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology.

Career opportunities: With combined qualifications in science and data science, you will find employment opportunities across a range of industries where you will develop data driven solutions for real-world issues in your chosen major.

☆ All qualified applicants were offered a place.

| GRIFFITH UNIVERSITY | | | | | |
|------------------------|----------|--|----------|-------------|-------------|
| Bachelor of Aviation | | | | | |
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 228182 Nathan | 2F | 18/64 | 15/68 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: In this highly-recognised degree, you will be equipped with the skills needed for lifelong learning in the evolving aviation environment. This degree is the first step to gaining your commercial pilot licence and has strong ties to major airlines across Australia. You will be introduced to the skills underpinning the theory and practice of flight training and study courses in areas such as human factors, navigation and planning. **Note:** Students study over three trimesters each year, completing the three year program in two years.

Career opportunities: The Bachelor of Aviation, together with the Graduate Diploma of Flight Management or Graduate Diploma of Rotary Wing Flight Management, will allow graduates to be ready to work in the aviation industry as a commercial pilot. Graduates of these programs will find employment opportunities in charter work, regional airlines, flight instruction (theory and practical), aerial services (agricultural spraying, aerial surveying and photography), management, research and human resource management, and in government organisations such as Civil Aviation Safety Authority (CASA).

Double degrees: Refer to entries for: B Aviation/B Information Technology; B Engineering (Hons)/B Aviation.

| Bachelor of Aviation Management | | | | | |
|---------------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 229772 Nathan | 2F | 17/65 | 14/70 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: You will develop the skills and knowledge needed for a career in aviation management and gain core skills that will help you thrive in the constantly changing aviation environment. You will study courses that directly relate to jobs in the aviation industry. Courses are available for study on-campus or online. In your final year, you will have the opportunity to undertake a short research project, which can be sponsored by an organisation or individual within the aviation industry.

Career opportunities: You will be prepared for employment in aviation management. You will also be able to apply your management skills to many areas of the aviation industry including airlines, air traffic service providers, maintenance and repair organisations, and government organisations, such as the Civil Aviation Safety Authority (CASA).

Combined diplomas/degrees: Refer to entry under Griffith College for: D Commerce/B Aviation Management.

| Bachelor of Aviation/Bachelor of Information Technology | | | | | |
|---|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 228901 Nathan | 4F or 8P | 20/62 | 15/68 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree combines Australia's most highly awarded aviation program with practical skills in information technology, providing a pathway to a range of careers in aviation outside of flight-crew roles. Core courses introduce you to navigation, human factors, planning, information systems and programming, as well as the sciences underpinning the theory and practice of aviation. You'll also develop skills in collecting, storing and analysing large volumes of data. Training and learning resources include our flight procedures lab and technology systems and a practical work placement. **Note:** Students can study over three trimesters each year, completing the five year program in four years. **Majors:** *Information technology:* information systems; networks and security; software development.

Career opportunities: As a graduate, you will be ready to work in the field of general aviation. Depending on the Bachelor of Aviation stream you completed, employment opportunities include charter work, flight instruction (theory and practical), aerial services such as agricultural spraying, aerial surveying and photography, first officer positions with regional airlines and in the Australian Defence Force, management, research and human resource management, and in government organisations such as the Civil Aviation Safety Authority (CASA). Depending on your IT area of specialisation, you will be prepared for a career in commerce, industry, corporate IT, government or private consulting. You may find a job as a systems analyst, software developer, IT support and client services officer, database and systems administrator, technical writer, web developer, sales representative for IT vendors, educator or researcher.

Double degrees: Refer to entries for: B Aviation/B Information Technology; B Engineering (Hons)/B Aviation.

| Bachelor of Forensic Science | | | | | |
|------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |

For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Forensic investigators are skilled, dedicated professionals who assist police in examining evidence. In this degree, you'll develop skills and knowledge in basic forensic science and receive training in handling criminal casework in forensic molecular biology and forensic chemistry. You'll develop a knowledge of forensic analytical methods and gain valuable experience from real casework. You'll practise presenting expert evidence in moot courts and will learn from academic staff who have ties to international projects and who provide expert evidence in Australian courts. **Majors:** Forensic chemistry; forensic molecular biology.

Career opportunities: You'll be prepared to work as a DNA expert, a forensic molecular biologist, forensic chemist or forensic toxicologist and as an acknowledged expert in these or a variety of other roles within the criminal justice system. You'll also be able to pursue a scientific career not directly related to forensic organisations, in areas such as analytical chemistry, molecular biology and biomedical science. You may also choose to undertake a fourth year research honours program, which can lead to a PhD and a career in research.

Double degrees: Refer to entry for: B Forensic Science/B Criminology and Criminal Justice.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Forensic Science.

| Bachelor of Forensic Science/Bachelor of Criminology and Criminal Justice | | | | | |

| 228262 Nathan & Mt Gravatt | 4F or 8P | 22/60 | 15/68 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: With this double degree combination, you'll develop a broad understanding of how crime is managed in society. In the forensic science component, you'll learn about handling criminal casework in forensic biology and forensic chemistry. In the criminology and criminal justice component, you'll learn about trends in crime and investigate how crime can be prevented and reduced. **Majors:** *Forensic science:* Forensic chemistry; forensic molecular biology.

Career opportunities: You'll be prepared for a career as a forensic scientist or in policing, corrections, security and law enforcement, customs and crime prevention. You'll also be qualified to work in fields such as analytical chemistry, molecular biology and biomedical science. You may also choose to continue your studies with an honours degree in either forensic science or criminology and criminal justice, which can lead to a PhD.

| Bachelor of Marine Science | | | | | |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Our oceans cover 70% of the surface of the earth and are some of the most poorly understood ecosystems on the planet. For complex issues such as global climate change, food production, tourism, oil, gas and mineral extraction, and waste management, the need for highly trained and specialised marine science professionals continues to grow. This degree has a broad interdisciplinary approach, encompassing marine biology, chemistry and quantitative physical science. **Minors:** Coastal management; coastal oceanography; marine chemistry; marine ecology.

Career opportunities: Our marine graduates find employment around Australia and internationally in a wide range of industries that use and protect our marine environment. Career options include marine biology, environmental consulting, pollution control and mitigation, fisheries and aquaculture, modelling and meteorology, oceanography, coastal planning and marine parks, marine education and tourism, environmental assessment and planning.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Marine Science.

Program outline: Science is at the heart of every facet of life. With this degree you'll gain a foundation knowledge across all areas of sciences, giving you the flexibility to decide what you'd like to focus on next. Taught by experts from renowned research centres, you'll gain specialised skills and practical knowledge for a professional career in the biological, clinical, chemical, physical or mathematical sciences. If you love science, but aren't sure about all the different places it can take you, then this is the degree for you. **Majors:** Applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology.

Career opportunities: Microbiologist, pharmaceutical scientist, biochemist, chemist, biotechnologist, marine biologist, mathematician, physicist, researcher, teacher (with further study).

Double degrees: Refer to entries for: B Communication and Journalism/B Science; =B Engineering (Hons)/B Science; B Science/B Arts; B Science/B Business; B Science/B Data Science; B Science/B Information Technology; B Urban and Environmental Planning/B Science.

Combined diplomas/degrees: Depending on major, refer to entries under Griffith College for: D Health Sciences/B Science; D Science/B Science.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: When you combine science and arts, you can expand your interests and create your own unique skill set. As a graduate, you'll gain the understanding, insight and skills to find and communicate creative solutions to contemporary challenges. You'll have the freedom to tailor your degree around your interests in your foundation first year, before gaining specialist knowledge and abilities—based on your chosen majors—throughout the remainder of your studies. **Majors:** *Science:* applied mathematics; biochemistry and molecular biology; chemistry; geography; marine biology; physics; wildlife biology. *Arts:* creative writing; criminal justice; drama; history; Indigenous studies; Islam–West relations; journalism; language in society; languages; literary studies; politics and international studies; public relations; screen studies; security studies; sociology.

Career opportunities: Because of its flexibility, this double degree will prepare you for a wide range of employment and career opportunities in many different fields including administration, communication and research in the public and private sectors.

| 233651 Gold Coast | 4F or 8P | 14/70 | 12/75 | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: This double degree will prepare you for scientific practice for commercial business and management roles in technical, regulatory, environmental, health or biomedical-oriented businesses, industries or government organisations. Choose from a range of science and business majors in accordance with your interests and career plans. As a graduate, you'll have a broad understanding of science foundations and business principles. **Majors:** *Science:* applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology. *Business:* Asian engagement (Nathan only); behavioural science; business analytics (Nathan only); economics; employment relations (Nathan only); event management; finance; government and international relations; human resource management; innovation and entrepreneurship; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business (Nathan only); taxation (Nathan only); tourism management.

Career opportunities: You'll be prepared as a business analyst, business consultant, manager, researcher, entrepreneur in allied health, and in biotechnology, biostatistics, marine and wildlife management, and tourism.

| Bachelor of Science/Bachelor of Data Science | | | | | |

| 234551 Gold Coast | 4F or 8P | ✦ | 14/70 | Mar 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** The Griffith VET Guarantee applies to this program. For more information, visit griffith.edu.au/guaranteed-admission.

Program outline: Embrace your passion for science and learn how to analyse, model, interpret and visualise data to develop forward-thinking solutions for contemporary practical challenges in this double degree. You will gain an understanding of the use of data in your chosen major and you'll be well versed in the legal and ethical issues associated with the use of data. In your final year, you will complete a 'capstone' experience where you have the option to engage with university research, undertake an extended fieldwork program in your major, or complete an industry placement. **Majors:** *Science:* applied mathematics; biochemistry and molecular biology; chemistry; geography; marine biology (Gold Coast only); wildlife biology.

Career opportunities: With combined qualifications in science and data science, you'll find employment opportunities across a range of industries where you will develop data-driven solutions to real-world issues in your chosen major.

| 326311 Cairns | 3F or 6P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C), Mathematical Methods (Units 3 and 4, C).

Course outline: The course provides students with core knowledge and training in the theory, skills and practical application of geology. First-year electives provide a broad scientific background. In second and third years, students obtain additional knowledge and skills from other relevant disciplines. Students can customise their minor study to a complementary discipline. Students without the assumed knowledge must take the relevant enabling subjects within the course. Mid-year entry is not available to students who require the preparatory maths subject.

Note: First year only can be undertaken at Cairns; the remainder of the course is undertaken at Townsville.

Career opportunities: Geologist in the mining and exploration industry, government agencies, consulting companies, academia.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Science)/B Geology.

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C), Mathematical Methods (Units 3 and 4, C), Chemistry (Units 3 and 4, C).

Course outline: This course promotes an interdisciplinary approach to studying the marine environment. It incorporates key elements of marine biology, oceanography, marine geoscience, and marine resources management, providing students with the knowledge and practical skills applicable to a range of marine specialities. Additional minors and specialist subjects allow students to tailor their degree to match interests and career aspirations. Students without the assumed knowledge must take the relevant enabling subjects within the course.

Career opportunities: Environmental resource management, educational and interpretive ventures, research and teaching (with further study), environmental impact assessment.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Science)/B Marine Science.

| Bachelor of Science | | | | | |
|------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 316061 Townsville | 3F or 6P | 21/61 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 326061 Cairns | 3F or 6P | 18/64 | 16/66 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C), Mathematical Methods (Units 3 and 4, C).

Course outline: In this course, students can select and study subjects from their major starting in first year, and continue to specialise in second and third years. Students participate in fieldwork and practical experience including hands-on study and research in areas such as tropical rainforests, mangroves, tropical savannah, and the Great Barrier Reef, as well as traditional science areas. Students can customise their minor study to complement their selected major. Students without the assumed knowledge must take the enabling subjects within the course.

Note: The mathematics prerequisite subject starting semester 2 at Townsville may start earlier than the official semester start date. The chemistry prerequisite subject starting semester 2 at Cairns may start earlier than the official semester start date. Contact JCU on 1800 246 446 for more information. Students who need to enrol in the mathematics prerequisite subject at Cairns cannot enrol for the mid-year intake. **Majors:** *Townsville:* aquaculture science and technology; chemistry; data science; earth science; marine biology; mathematics; molecular and cell biology; physics; zoology and ecology. *Cairns:* data science; earth science; zoology and ecology. The first year only of the following majors can be studied at Cairns: aquaculture science and technology; marine biology; mathematics.

Career opportunities: Researcher and research technician with government bodies, research organisations, private industries and consultancies in the fields of specialisation.

Combined degrees: Refer to entries for: B Arts/B Science; B Engineering (Hons)/B Science; B Science/B Laws.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Science)/B Science.

| Bachelor of Veterinary Science | | | | | |
|--------------------------------|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 317051 Townsville | 5F | ✦ | ✦ | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); completion of Year 12 or attained age 17 years. **Additional entry information:** In addition to applying through QTAC, applicants must submit a *JCU Application Form* to the Division of Tropical Health and Medicine. The *JCU Application Form* is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms. **Closing date:** Domestic applicants: QTAC applications and *JCU Application Form* submissions close 30 September 2020. International applicants: QTAC applications and *JCU Application Form* submissions close 31 August 2020.

Course outline: This broad-based program encompasses all aspects of veterinary practice with a focus on tropical and rural practice. Vet science students acquire the knowledge and skills to diagnose, treat and prevent disease in a range of animals, including companion and farm animals, aquatic species and native fauna. Students develop a thorough knowledge of animal production systems, particularly tropical animal husbandry and aquaculture. Clinical training sites include Townsville, Cairns, Mackay, Charters Towers and the Atherton Tableland. **Other requirements:** Students must provide evidence of immunity to Q fever within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates.

Career opportunities: Small animal practitioner or rural practitioner, disease control, animal production, livestock inspection, research roles in the pharmaceutical industry, agriculture.

✦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

| Diploma of Higher Education (Science) | | | | | |

| 418401 Gardens Point | 3F or 6P | 16/66 | 12/75 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Biology (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Program outline: First-year studies in biological chemistry, biomedical physics, anatomy, physiology, and human cell and molecular biology form the foundation for the study of clinical areas. In second and third years, students choose one major and two minor study areas to build knowledge in areas of emerging priority and employment. Students can choose from anatomical sciences, cell and molecular biotechnology, human biochemistry, human physiology, or infection and immunity. Elective units can be completed in law, business and engineering.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Majors:** Anatomical sciences; cell and molecular biotechnology; human biochemistry; human physiology; infection and immunity. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement in an organisation where they may work with children or young people; refer to institution.

Career opportunities: Medical research institutes and universities, hospitals and biotechnology companies, science journalism.

Double degrees: Refer to entries for: B Biomedical Science/B Business; B Biomedical Science/B Laws (Hons); B Biomedical Science/B Mathematics.

| Bachelor of Biomedical Science/Bachelor of Business | | | | | |

| | | Unadjusted | Adjusted | | |
| 419432 Gardens Point | 4F | 11/77 | 10/79 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Biology (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Program outline: Biomedical research and the development of new biomedical products contribute to improving health outcomes worldwide. Students gain the knowledge and skills to work as part of multidisciplinary teams in biomedical research, development and commercialisation. Your business studies will focus on fundamental knowledge that will build understanding of how businesses operate within the commercial and legal environment. Graduates can work for governments in regulation, compliance, or policy development and implementation roles; for venture capital and investment banks as an analyst; for innovation commercialisation companies as a consultant; or in the research sector.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Majors: Refer to Bachelor of Biomedical Science and Bachelor of Business. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement in an organisation where they may work with children or young people; refer to institution.

Career opportunities: Refer to Bachelor of Biomedical Science and Bachelor of Business.

Program outline: This double degree enables you to develop life-long learning skills and mathematical inquisitiveness while understanding emerging medical complexities. Biomedical research and the development of new biomedical products contribute to improving health outcomes worldwide. You will gain knowledge and skills to work as part of multidisciplinary teams in biomedical research, development and commercialisation. The Bachelor of Mathematics component of the double degree will provide opportunities to develop skills and knowledge in mathematics and the ability to apply mathematics, statistics, computational methods and operations research to real world problems.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Note: Part-time students should note that daytime attendance is required. Program outline: This is a research focused science degree for students who have a strong interest and passion for science and who have a desire to pursue a career in science research or industry in the biological, environmental or earth sciences, chemistry or physics. You will be immersed in research from first year leading to a substantial independent research project in your final year. As graduates you will have strong discipline knowledge, be competent in practical, quantitative and research skills and be well prepared to undertake a PhD.

The QUT Offer Guarantee does not apply to this course.

Career opportunities: Careers available in a wide range of sectors including research and technical services (e.g. university, state departments, CSIRO), education (e.g. science lecturer), communication (e.g. science journalist), regulatory affairs, policy development (e.g. local or federal government) and business (e.g. company employee or entrepreneur).

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: In this flexible program, students can tailor the qualification to their needs and career aspirations. The program has a range of options to choose from. A general first semester in a range of science disciplines allows students time to choose their study direction specialising in one of biology, chemistry, earth science, environmental science or physics.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Biology; chemistry; earth science; environmental science; physics.

Career opportunities: Research, diagnostic and analytical laboratories, mining, hospitals and health departments, pharmaceutical companies, primary and agricultural industries, food industry laboratories, environmental agencies, veterinary pathology laboratories.

Double degrees: Refer to entries for: B Communication (Journalism)/B Science; B Communication (Professional Communication)/B Science; B Design (Landscape Architecture)/B Science; B Engineering (Hons)/B Science; B Science/B Business; B Science/B Games and Interactive Environments; B Science/B Information Technology; B Science/B Laws (Hons); B Science/B Mathematics.

Bachelor of Science/Bachelor of Business

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 419832 Gardens Point | 4F | 11/77 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course combines science and business, leading to careers in scientific innovation in a range of public, private and non-profit industries. Students gain commercial knowledge, choose a major in a specific business area and select a science major from biology, chemistry, earth science, environmental science or physics.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Science and Bachelor of Business.

Career opportunities: Refer to Bachelor of Science and Bachelor of Business.

Bachelor of Science/Bachelor of Games and Interactive Environments

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 419682 Gardens Point | 4F | 13/72 | 13/72 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This double degree consists of units in both the science and games and interactive environments disciplines. It enables students to apply design skills in the context of science. Students complete core units in science and games and interactive environments and select a major specialisation in each discipline.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Science and Bachelor of Games and Interactive Environments.

Career opportunities: Scientific modeller, simulation developer or designer, special effects developer. Refer also to Bachelor of Science and Bachelor of Games and Interactive Environments.

Bachelor of Science/Bachelor of Information Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 418322 Gardens Point | 4F | 15/68 | 14/70 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This double degree prepares students for careers involving the application of information technology to science. It gives students the ability to use creative as well as analytical methods to solve scientific problems. In the science component, students complete a set of core units to support advanced-level studies in specialist areas. Students select a science major and undertake laboratory work, and may participate in fieldwork. The information technology component develops a broad understanding of the information and communications technology discipline and strong skills in a primary major.

Queensland University of Technology (continued)

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Science and Bachelor of Information Technology.

Career opportunities: Scientific modeller, software developer, scientific programmer, computational scientist. Refer also to Bachelor of Science and Bachelor of Information Technology.

Bachelor of Science/Bachelor of Laws (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|--------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 419712 Gardens Point | 5 ¹ /2F | 7/87 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: The course covers major areas of the law as well as a range of disciplines in science. Graduates are prepared to enter the legal profession and are educated in the content and processes of science to prepare them for the complexities of legal issues with a range of scientific and technological dimensions. In the science component, students complete a major in addition to the core requirements for that degree. In the law component, students develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course. **Note:** Students have the opportunity to undertake a minor that focuses on technology and the law. Some units are offered in summer for students wanting to accelerate their study. **Majors:** Refer to Bachelor of Science.

Career opportunities: Law and science careers related to environmental science or biotechnology. Refer also to Bachelor of Science and Bachelor of Laws (Honours).

Bachelor of Science/Bachelor of Mathematics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 418712 Gardens Point | 4F | 6/89 | 6/89 | Feb 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: Students in this double degree meet the requirements for the science and mathematics degrees by following an integrated program over four years. Graduates obtain complementary bachelor-level qualifications in mathematics and one of the sciences, enabling them to pursue careers in either or both of these related discipline areas.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfy all other admission requirements, you are guaranteed an offer for this course.

Majors: Refer to Bachelor of Science and Bachelor of Mathematics.

Career opportunities: Natural resource management, agriculture management, genetics, chemistry and biochemistry, infection and disease control, bioinformatics, statistics and statistical modelling.

SOUTHERN CROSS UNIVERSITY

Bachelor of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 054611 Lismore | 3F or 6P | ♦ | ♦ | Mar 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree offers a thorough grounding in science as well as the opportunity to specialise in regenerative agriculture. The major examines human ecology, agroecology, regenerative agronomy and soil management as well as the planning of rural landscapes. It draws on the University's specialist expertise and includes on-farm residential schools. A wide range of electives offered in the degree enables students to tailor the course to meet their learning goals. Students complete either an internship or an integrated project, which is an opportunity for them to investigate in-depth a particular area of interest and to develop their knowledge and skills in that area. This course can also be studied online. Some units require attendance at on-campus workshops.

Note: Some units may only be available to study online or at specific locations and some include compulsory residential workshops. **Majors:** Regenerative agriculture.

Career opportunities: Graduates typically find employment in public and private sectors as a regenerative agriculture specialist, sustainability advisor and planner, biologist, ecologist, farmer or in scientific research.

♦ Refer to institution.

Diploma of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 054701 Lismore | 1F or 2P | ♦ | ♦ | Mar 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Students are equipped with foundational knowledge and skills in areas including environmental science, engineering, physical sciences and mathematics. The diploma is a pathway to Southern Cross University's bachelor degrees in science, environmental science, marine science and management, forestry science and management, civil, mechanical or coastal systems engineering, with up to eight units of credit. Some units include compulsory residential workshops. The diploma is offered through the SCU College, which offers students extra support through College Connect. The course is also available online. **Specialisations:** Environmental science, engineering, physical sciences and mathematics.

Career opportunities: Field assistant, laboratory assistant, revegetation officer, environmental monitor.

♦ Refer to institution.

TAFE QUEENSLAND

Certificate IV in Laboratory Techniques/Diploma of Laboratory Technology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|---------------------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 555546 South Bank | 1 ¹ /2CL | ☆ | ☆ | Jan 2021 | 14 Jan 2021 |

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Additional entry information: Successful applicants must successfully complete the Certificate IV in Laboratory Techniques before progressing to the diploma.

Course outline: This qualification is for those interested in a career in laboratory science, and those already employed in the industry and looking to gain certification while working. Learn how to retrieve data, evaluate formulae, perform scientific calculations, present and interpret information and keep accurate records. Gain experience checking the calibration of laboratory equipment and performing routine maintenance and repairs. Students will also learn how to analyse data trends, report results and recommend a course of action. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Analyst, laboratory technician, technical officer.

Combined diplomas/degrees: The Certificate IV in Laboratory Techniques/Diploma of Laboratory Technology can be combined with other programs as listed below to attain the awards of Certificate IV in Laboratory Techniques/Diploma of Laboratory Technology from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Certificate IV in Laboratory Techniques/Diploma of Laboratory Technology for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and OP/rank requirements.

CIV Laboratory Techniques/D Laboratory Technology/B Medical Laboratory Science:

555546 South Bank/Griffith University (1.5CL & 4F)

CIV Laboratory Techniques/D Laboratory Technology/B Science:

555546 South Bank/Queensland University of Technology (1.5CL & 2.5F)

☆ All qualified applicants were offered a place.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Advanced Science (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 731901 St Lucia | 4F or 8P | 5/92 | 3/96 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C), plus one of Agricultural Science, Biology, Chemistry, Earth & Environmental Science, Specialist Mathematics or Physics (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: This program challenges you to develop your deep interest in science with advanced research content and fieldwork opportunities. In first year, you'll take part in weekly interdisciplinary seminars with leading researchers. In second and third years, you'll develop your quantitative, computational, practical and problem-solving skills to prepare for a full-year independent research project in your final year. You'll learn from scientific experts and thought leaders who will equip you to find your own scientific solutions to real-world problems.

The University of Queensland (continued)

Majors: Biology; biomedical science; chemistry; geographical science; geological sciences; mathematics; physics.

Career opportunities: Research organisations and institutes; private and public sector organisations; not-for-profit and charity organisations; universities; hospitals and healthcare; environmental sustainability and planning; advisory positions for product development; defence; marine and wildlife conservation; operations research; finance.

Bachelor of Biomedical Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 731201 St Lucia | 3F or 6P | 9/82 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: Develop your understanding of the breadth and depth of modern biomedical science and learn from our researchers who are leaders in this area. Benefit from their latest knowledge of biomedical science developments and put this theory into practice through structured research projects. By integrating your study across various discipline areas, you will graduate with a well-grounded, wide range of knowledge and enter a rewarding career in modern biomedical science. Use this program as a pathway to study medicine or allied health programs. **Note:** Use this program as a pathway to study medicine or allied health programs.

Career opportunities: Work in hospital and diagnostic clinical laboratories, biotechnology and pharmaceutical companies; laboratory work in molecular and cellular biology; health policy and communication; and secondary schools or other educational institutions (when combined with a teaching qualification).

Dual degrees: Refer to entry for: B Biomedical Science/B Science.

Bachelor of Biomedical Science/Bachelor of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 731211 St Lucia | 4F or 8P | 9/82 | 7/87 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: Combine the flexibility and breadth of a science degree with the in-depth knowledge of a biomedical science degree. Develop your critical thinking, communication and quantitative reasoning skills. You'll learn the scientific process through experimental design, computer programming and hands-on experiments. Discover the latest globally relevant biomedical research from leading UQ scientists. Apply for a research experience based in one of UQ's many research institutes or centres, to put your theory into practice. **Majors:** Archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; chemistry; computer science; ecology; food science and nutrition; food science and technology; genetics; geographical sciences; geological sciences; marine biology; marine science; mathematics; microbiology; physics; plant science; psychology; public health; statistics; zoology.

Career opportunities: Research organisations, government, industry, environmental organisations and consultancies, hospitals, marine preservation authorities, financial institutions, education (with further study).

Bachelor of Biotechnology (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 731101 St Lucia | 4F or 8P | 10/79 | 9/82 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Program outline: Biotechnologists design innovative products and technologies and pioneer new frontiers in health, agriculture, science and engineering. You'll study molecular genetics, bioinformatics, microbiology, immunology, biochemistry, cells and genes, physics, chemistry, engineering, mathematics, and other essential subjects. Develop your core technical, laboratory and commercialisation skills. Build your expertise in a specialist area or complete a dual major with innovation management. Focus on fundamental or applied research, or entrepreneurship and business in your fourth year. **Note:** You have the option to exit this program at the end of year 3 and receive a Bachelor of Science (Biotechnology). The Bachelor of Biotechnology (Honours) year begins four weeks before the standard academic calendar in semester 1 only. **Majors:** Bioinformatics; bioprocess technology; chemical biotechnology; drug design and development; microbial biotechnology; molecular biotechnology; nanotechnology; plant biotechnology; innovation management (as a dual major with any of the above-listed majors).

Career opportunities: Graduates with biotechnology qualifications are versatile and highly employable in agricultural biotechnology (plant and animal), medical technology (including biotherapeutics, drug design, diagnostics and devices), chemical technology, nanotechnology and industrial biotechnology. A biotechnology degree can lead to a wide range of possible roles in regulatory affairs, quality assurance, clinical trial operations management and consulting, with graduates working in industry, venture capital, pharmaceutical companies, research institutes, and government agencies.

Dual degrees: Refer to entry for: B Engineering (Hons)/B Biotechnology (Hons).

Bachelor of Mathematics

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 714401 St Lucia | 3F or 6P | 5/92 | 4/94 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: Learn the quantitative and analytical skills to pursue a well-paid career globally. Gain a foundation of calculus, linear algebra, discrete mathematics, mathematical analysis and modelling. Choose to specialise from a broad selection of mathematics and statistics courses. You'll apply your advanced mathematics skills to problems in the physical and biological sciences, engineering, information technology, economics and business. Enhance your skills during practical industry placements or internships accessing UQ's local and global networks. **Majors:** Applied mathematics; data analytics and operations research; mathematical physics; pure mathematics; statistics.

Career opportunities: Demand for quantitatively trained graduates is at an all-time high and they are sought by industry sectors including finance, economics, meteorology, information technology, data science and teaching, government agencies and research organisations.

Dual degrees: Refer to entries for: B Engineering (Hons)/B Mathematics; B Mathematics/B Arts; B Mathematics/B Business Management; B Mathematics/B Commerce; B Mathematics/B Computer Science; B Mathematics/B Economics; B Mathematics/B Education (Secondary); B Mathematics/B Information Technology; B Mathematics/B Science.

Bachelor of Mathematics/Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 714501 St Lucia | 4F or 8P | 5/92 | 4/94 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Program outline: Combine the versatility and breadth of an arts degree with in-depth knowledge of mathematics to broaden your skills and employment options. Choose from an extensive list of arts majors and electives from an area of your interest such as a language. Develop your comprehensive, specialised knowledge and sophisticated application of mathematics. Graduate with advanced quantitative and analytic skills for a career in the physical and biological sciences, engineering, information technology, economics, business and other emerging fields.

Majors: Refer to Bachelor of Mathematics and Bachelor of Arts. You cannot complete the mathematics major in the Bachelor of Arts.

Career opportunities: Operations researcher, data analyst, statistician, financial planner, risk manager, CSIRO, teacher (with further study), marketing professional, salesperson.

Bachelor of Mathematics/Bachelor of Business Management

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to QTAC website.

Program outline: Combine your interest in mathematics with the skills, knowledge and practical experiences required for teacher registration and employment. You'll receive a thorough preparation for your teaching areas through your professional studies in education. Study essential and specialised topics in mathematics, including recent applications in coding and cryptography, mathematical physics and biology, bioinformatics and finance. Secondary teaching is a rewarding career with mathematics and science teachers in demand worldwide and throughout Australia.

Majors: Refer to Bachelor of Mathematics. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Secondary school teacher, trainer, operations researcher, data analyst, statistician, financial planner, risk manager.

| Bachelor of Mathematics/Bachelor of Information Technology | | | | | |

Program outline: Combine the flexibility and breadth of a science degree with an in-depth knowledge of mathematics. You'll develop a comprehensive specialised knowledge and sophisticated application of mathematics. In your science studies, choose from a broad range of majors to follow your scientific passion. Apply your critical thinking and problem solving skills with practical industry projects, placements, research projects, internships or international study opportunities through UQ's local and global networks. **Majors:** Refer to Bachelor of Mathematics and Bachelor of Science. You cannot complete the mathematics major in the Bachelor of Science or complete the same field of study in both degrees (eg statistics).

Career opportunities: Operations researcher, data analyst, statistician, financial planner, risk manager, teacher (with further study).

| Bachelor of Occupational Health and Safety Science (Honours) | | | | | |
|--|----------|--|----------|-------------|-------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 729201 St Lucia | 4F or 8P | 12/75 | 10/79 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Biology or Physics (Units 3 and 4, C).

Program outline: Maintaining the safety, health and wellbeing of people at work is both challenging and rewarding. With this science-focused program, you'll combine your studies of health, psychology, law, ethics with management. Learn to monitor and modify work environments, deliver education programs and analyse workplace data. You'll devise, evaluate, audit and implement Occupational Health and Safety (OH&S) management systems, complete accident investigations and ensure compliance with legislation. You'll gain practical skills through placements, worksite visits and industry experience.

Career opportunities: Graduates may work in any workplace, including remote, rural or urban regions in Australia or overseas; across all industries (including mining, agricultural, retail, hospitality, construction, transport, manufacturing and healthcare); in government, the private sector or consultancies.

| Bachelor of Science | | | | | |

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 761001 Gatton | 3F or 6P | 10/79 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: Are you fascinated by the beauty and diversity of animals? Focus your studies of animals at UQ's Gatton campus, a vibrant campus that combines rural life with state-of-the-art facilities, and is one of the leading animal and plant bioscience centres in the Southern Hemisphere. You'll build a strong foundation in biochemistry, animal behaviour and genetics, and expertise in nutrition, reproduction, animal health and conservation. **Majors:** Animal and veterinary bioscience.

Career opportunities: Graduates work in research organisations, government agencies, industry, environmental and wildlife conservation authorities, universities, and secondary schools (with further study).

| Bachelor of Science | | | | | |
|------------------------|----------|--|----------|----------------------|---------------------------|
| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
| | | Unadjusted | Adjusted | | |
| 731001 St Lucia | 3F or 6P | 12/75 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: Use this versatile program to combine many aspects of science while developing your critical thinking, technical and communication skills. Study general science and non-science courses before specialising in your second and third years. UQ has one of the broadest selections of science disciplines in Australia and over 2200 teaching and research spaces. Choose from 22 majors to focus your program towards your areas of interest or career goals. Apply your knowledge during fieldwork, internships or international study options. **Note:** The Bachelor of Science is popular both as a pathway to medicine, or as a way to improve your entry rank for programs like engineering, veterinary science or pharmacy. **Majors:** Archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; chemistry; computer science; ecology; food science and nutrition; food science and technology; genetics; geographical sciences; geological sciences; marine biology; marine science; mathematics; microbiology; physics; plant science; psychology; public health; statistics; zoology.

The University of Queensland (continued)

Career opportunities: Research organisations, government, industry, environmental organisations, hospitals, marine science, science teaching (with further study), environmental planning and site assessment, computer design, mathematician, statistician, veterinarian (with further study).

Dual degrees: Refer to entries for: B Biomedical Science/B Science; B Business Management/B Science; B Commerce/B Science; B Computer Science/B Science; B Economics/B Science; B Engineering (Hons)/B Science; B Information Technology/B Science; B Mathematics/B Science; B Music (Hons)/B Science; B Science/B Arts; B Science/B Education (Secondary); B Science/B Journalism; B Science/B Laws (Hons).

Bachelor of Science/Bachelor of Arts

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 731501 St Lucia | 4F or 8P | 10/79 | 10/79 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: Complete science and arts majors in this dual degree. Expand your employment options, combine diverse interests or follow specific career goals. Study one or two scientific disciplines to gain a broad knowledge. Then choose subjects in the core disciplines of humanities and social sciences. These help to develop your skills in written communication, problem-solving and critical thinking. The skills and knowledge you gain are valuable assets in the changing world of work. **Majors:** Refer to Bachelor of Science and Bachelor of Arts. You cannot complete the same major in both degrees (eg mathematics).

Career opportunities: Refer to Bachelor of Science and Bachelor of Arts.

Bachelor of Science/Bachelor of Journalism

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 731602 St Lucia | 4F or 8P | 8/84 | 8/84 | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); one of Chemistry, Physics, Biology or Earth and Environmental Science (Units 3 and 4, C).

Program outline: You complete majors in both the science and journalism components of this program. The science component provides you with broad overall scientific knowledge plus a specialisation in one scientific discipline. In the journalism component, you study reporting, investigation, editing, and communication and media contexts of journalism and learn to be an independent and reflective practitioner who is a creative problem-solver. **Majors:** Refer to Bachelor of Science and Bachelor of Journalism.

Career opportunities: Refer to Bachelor of Science and Bachelor of Journalism.

Bachelor of Veterinary Science (Honours)

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|-------------|-------------|
| | | Unadjusted | Adjusted | | |
| 736002 Gatton | 5F | 4/94 | 1/99 | Feb 2021 | 14 Jan 2021 |

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Physics or Biology (Units 3 and 4, C); CASPer Test. **Additional entry information:** A situational judgement test is required for entry. For information, refer to the UQ website. **Closing date:** QTAC applications for this program close on 14 November 2020.

Program outline: Learn to diagnose, treat and prevent diseases and injuries in companion, domestic, exotic, wildlife and production animals. You'll develop skills and knowledge in veterinary medicine, surgery, anaesthesia and radiology in domestic animal species, wildlife, avian and exotic pets. You'll graduate with expert animal handling and clinical skills, with a final year spent in hospitals and clinics. You'll receive comprehensive biomedical training leading to careers in research, industry and government. **Other requirements:** Students must pass all courses for any given semester to progress to the next semester, and must take vacation practical work.

Career opportunities: Private practitioner, consultant with government departments dealing with the control of animal disease and animal production, adviser to industry (especially drug companies), researcher.

UNIVERSITY OF NEW ENGLAND

Bachelor of Biomedical Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626991 Armidale | 3F or 6P | 14/70 | 13/74 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Assumed knowledge: Mathematical Methods.

Course outline: This degree is focused towards the medical, paramedical and forensic fields. Areas of study include basic science (biology, chemistry and mathematics) followed by human physiology, genetics, nutrition, biochemistry, microbiology, and the integration and applications of disciplines such as biochemistry, biophysics, chemistry, genetics, microbiology, pharmacology and human physiology into biomedical science. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies.

Career opportunities: Biomedical biotechnology or pharmaceutical industries such as pathology laboratories, hospitals, medical and scientific supply companies, research and development laboratories in universities, hospitals and industry.

Bachelor of GeoScience

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626101 Armidale | 3F or 6P | 14/71 | 12/75 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; depending on major – Mathematical Methods or Specialist Mathematics; Chemistry.

Course outline: This course provides graduates skills in the fundamental geological disciplines. The course focuses on practical and field-based learning whilst also providing essential theoretical knowledge. Upon completion, graduates will be ready for industry or government based employment, as well as higher degree studies. Topics included in the course are resource geology, environmental geology (including aspects associated with resource extraction), environmental and exploration geochemistry, petrology, sedimentology, field mapping, structural and metamorphic geology, GIS, applied geophysics and palaeontology. For students without the recommended background knowledge, the Faculty offers foundation units in chemistry, mathematics and physics. For external study, contact the UNE Future Students Team.

Career opportunities: Geoscientist, geologist, palaeontologist, mineral and fossil fuels industry, scientific organisations, government agencies, geological or environmental consultancies, academia, museums, primary and secondary school teaching.

Bachelor of Science

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626031 Armidale | 3F or 6P | 13/73 | 11/77 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Assumed knowledge: Mathematical Methods; depending on major – Chemistry and/or Physics.

Course outline: The course provides students with the skills and techniques necessary for solving problems associated with a broad range of issues. The extensive range of majors available in established and emerging generalist and specialist sciences are all underpinned by cutting-edge research. In first year, students are encouraged to establish a broad science base that allows for flexibility in choosing an appropriate major, majors or a major and a minor. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Majors:** Animal science and veterinary studies; applied physics; archaeology; biochemistry/biotechnology; biodiversity; botany; chemistry; computational science; forensic science; genetics; geography; geoscience; mathematics; medicinal chemistry; microbiology; neuroscience; palaeobiology; physiology; psychology; zoology. **Minors:** Business; communications; statistics.

Career opportunities: Business, primary industries, resource management, water and land resources, environmental protection authorities, analytical and/or forensic laboratories, medical and pharmaceutical research or supply industries. Research and postgraduate study, Masters or PhD are other common pathways for graduates, particularly after the completion of a fourth year of study in Bachelor of Science (Honours).

Combined degrees: Refer to entries for: B Arts/B Science; B Science/B Laws.

Bachelor of Science/Bachelor of Laws

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|-----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626691 Armidale | 5F or 10P | ♦ | ♦ | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career in science that draws on legal skills. The law component includes fundamental units such as legal systems and methods, criminal law, contracts, torts, property law, equity, and constitutional law. For external study, contact the UNE Future Students Team. **Majors:** Refer to B Science (excluding animal science and veterinary studies; archaeology; geography; palaeobiology; psychology).

Career opportunities: Private legal practice, legal aid agencies, government bodies, private sector companies, consultancy.

♦ Less than five OP-based offers made. Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Scientific Studies

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626061 Armidale | 3F or 6P | 17/65 | 16/67 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This course is suitable for students who do not have an educational background in sciences. First year provides academic foundation knowledge, skills and achievement at introductory level. Students can exit with a Diploma in Science on completion of first year and may articulate into other science-based bachelor degrees. Graduates have a broad scientific background to assist with future employment or to pursue further study. Successful completion of first year allows students to transfer into a more specialised degree program, based on their desired field of study.

Career opportunities: Graduates have the broad scientific background and skills for further study, or employment in a range of areas requiring knowledge of the basic sciences.

Bachelor of Zoology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 626731 Armidale | 3F or 6P | 12/76 | 10/80 | Mar 2021 Jun 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; depending on major – Mathematical Methods or Specialist Mathematics; Chemistry.

Course outline: Students learn all aspects of the biology of animals including structure, function, anatomy, physiology, ecology, behaviour and evolution. Graduates understand major zoological concepts and are aware of how these are connected with the biological, environmental, rural, and physical sciences. Students also learn to solve problems, analyse scientific data and communicate scientific information to experts and the wider public. Students develop field and laboratory techniques and learn to evaluate social and ethical issues related to zoology and animal interactions with their environment and with people.

Career opportunities: Zoologist in research institutions, government agencies, museums, national parks, marine parks, zoological gardens, aquaculture and biotechnology, animal breeding, teacher (with further study).

UNIVERSITY OF SOUTHERN QUEENSLAND**Bachelor of Science – Animal Science**

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 906771 Toowoomba | 3F or 6P | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |
| 906775 External | 3X or 6X | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Study key aspects of livestock health, product quality, farm safety, and animal welfare and husbandry to ensure humane and sustainable food production. You will examine emerging technologies in animal breeding programs, and learn to apply cognitive and technical skills in the area of genetics. Combine with a second major, such as Biology, Plant Agricultural Science, or Environment and Sustainability, to create a well-rounded agriculture degree and broaden your employment potential. USQ has strategic partnerships with multi-national agribusinesses including John Deere, and the Department of Environment and Science.

Career opportunities: For graduates with an Animal Science major, careers might include research scientist (government, private or university), animal nutritionist, animal health specialist, rural banking professional, agribusiness employee, farmer, and consultant.

♦ Refer to minimum selection thresholds in Course Search at qtac.edu.au.

Bachelor of Science – Astronomical and Space Sciences

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------|----------|--|----------|----------------------------------|---|
| | | Unadjusted | Adjusted | | |
| 906665 External | 3X or 6X | 15/68 | 11/77 | Nov 2020 Feb 2021 Jul 2021 | 8 Oct 2020 14 Jan 2021 3 Jun 2021 |

Prerequisites: Mathematical Methods (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Learn about the universe and understand more about the science and physics at work in the world around us. This course combines the fascination of astronomy with the opportunity to develop in-demand expertise in physics, mathematics, statistics, computing and data science. Learn from internationally recognised stellar astronomy and planetary systems experts and access USQ's advanced research facilities, including Mount Kent Observatory, scientific computing software and support, and overseas telescopes available through USQ's international collaborations in astrophysics. **Note:** Students will need to attend residential schools.

Career opportunities: Apply core scientific skills and related studies in maths and computing to a range of careers within education, government or the private sector.

Double degrees: Refer to entries for: B Arts and B Science; B Business and Commerce and B Science.

Combined degrees: Refer to entry for: B Engineering (Honours) B Science.

Bachelor of Science – Biology

| QTAC Code and Location | Duration | Lowest OP/Rank offered semester 1 2020 | | Start Month | Offer Round |
|------------------------------|----------------------|--|----------|----------------------|---------------------------|
| | | Unadjusted | Adjusted | | |
| 906839 Toowoomba or External | 3F or 6P or 3X or 6X | ♦ | ♦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Students gain knowledge in biology, chemistry and communications and develop a strong foundation for a range of science-related careers. There is also the option to develop more detailed knowledge in areas including biochemistry, genetics, microbiology and physiology. Students benefit from study in laboratories with world-class facilities including gel documentation facility, seed store and fungal pathology laboratory.

Career opportunities: Research officer, technical officer (labs), agricultural scientist, technical/sales representative in pharmaceutical, medical and biotechnological industries, molecular biologist, microbiologist.

Double degrees: Refer to entries for: B Arts and B Science; B Business and Commerce and B Science.

Combined degrees: Refer to entry for: B Engineering (Honours) B Science.

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: With a focus on climatology, ecology and conservation, this career-orientated program gives students an understanding of environmental science, biodiversity conservation, practical aspects of climate change mitigation and adaptation, and natural resource management for a more sustainable future. Students acquire knowledge of the major environmental issues and the social, political and environmental implications of human impact to position them for a career in the emerging 'green' profession.

Career opportunities: Climatology, ecotourism, conservation and biodiversity management, environmental scientist, natural resource management, national parks, science journalism, teaching (with further study).

Double degrees: Refer to entries for: B Arts and B Science; B Business and Commerce and B Science.

Combined degrees: Refer to entry for: B Engineering (Honours) B Science.

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Students can be part of Australia's largest manufacturing industry by studying this course and discover the science behind the development of new food products. They learn about food chemistry and analysis, food processing and product development, and food safety. Students also develop an understanding of the effects of food components on human nutrition and health.

Career opportunities: Food product development, food safety, quality assurance.

Double degrees: Refer to entries for: B Arts and B Science; B Business and Commerce and B Science.

Combined degrees: Refer to entry for: B Engineering (Honours) B Science.

Prerequisites: Mathematical Methods (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: This program prepares students to play leading roles in science, education, industry and society. Combining the rigour and logic of a scientific approach with the specifics of a professional area, this mathematics program is for students interested in finding patterns in numbers, space and abstractions. Students can develop their skills and knowledge through courses in algebra and calculus, high performance numerical computing and foundation mathematics. Students benefit from the use of online technologies that improve the learning experience.

Career opportunities: Mathematician, financial analyst, systems analyst, business systems analyst, data mining researcher, teacher (with further study).

Double degrees: Refer to entries for: B Arts and B Science; B Business and Commerce and B Science.

Combined degrees: Refer to entry for: B Engineering (Honours) B Science.

Prerequisites: Mathematical Methods (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Physics reveals the natural laws at work in our everyday world and across the cosmos, and teaches us the fundamental principles underpinning modern science and technology. This program broadens students' scientific knowledge and skills. Courses range from general physics to astronomy, climatology, medical physics and various electives. Students choosing to study astronomy acquire experience with hands-on and remote-control astronomical observations using modern technologies.

Career opportunities: Science teacher (with further study), scientist or research officer (universities, defence, CSIRO, government), technical officer.

Double degrees: Refer to entries for: B Arts and B Science; B Business and Commerce and B Science.

Prerequisites: Mathematical Methods (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: Gain quantitative and problem-solving skills to increase your competitiveness in the job market with the only university in Queensland to offer a statistics major completely via online study. Examine the fundamentals of theoretical and applied statistics, mathematical modelling and operations research, as well as practical methods for undertaking analysis, modelling and decision-making. Graduates of this degree have found work with organisations such as the Australian Bureau of Statistics, the Department of Agriculture and Fisheries and Queensland Institute of Medical Research.

Career opportunities: There is currently a shortage of professional statisticians and graduates with strong quantitative knowledge and skills across a range of industries in Australia. You may find work as a financial analyst, systems analyst, risk or focus analyst, business systems analyst, biostatistician, statistical analyst, data analyst, psychological statistician, finance consultant, business analyst, psychometrician.

| 014171 Moreton Bay | 1F or 2P | ✦ | ✦ | Feb 2021 Jul 2021 | 14 Jan 2021 3 Jun 2021 |

Prerequisites: Completion of Year 12 or attained age 17 years.

Additional entry information: Applicants who have already completed a higher education qualification (AQF Level 5 or above or equivalent), excluding VET sector diplomas, are not eligible for entry into this program.

Program outline: Students explore the role of science and technology in the world around us. They learn how to think about scientific problems, and how data can be used to solve real-world challenges. The program includes foundation studies in core scientific fields, including biology, chemistry and ecology. During lab and field activities, students explore their skills of investigation, presenting data and critical analysis and apply these across disciplines through 'Big Idea' modules that introduce them to the cutting edge of science, research and technology.

Other requirements: The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. BOND UNIVERSITY

| | |
|------------------|---|
| Location | Office of Future Students Bond University GOLD COAST QLD 4226 AUSTRALIA 1800 074 074 |
| Telephone | International +61 7 5595 1024 information@bond.edu.au |
| Email | information@bond.edu.au |
| Website | bond.edu.au /bonduniversity @bonduniversity @Bonduniversity @bonduniversity |

Bond University administers its own admission for all programs except the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) (the Bond Medical Program); admission to this course is managed by QTAC. Students can apply direct to Bond through a free online application form for all other programs.

Bond University offers a personalised academic environment that enables graduates from all over the world to stand out in their careers and industries. As an independent not-for-profit institution, all tuition fees are reinvested into the University to further develop learning facilities and enhance the student experience. Bond has also been rated Australia's number one for student experience in the *Good Universities Guide* 14 years in a row.

Bond challenges students to be leaders and thinkers, combining globally focused course content with industry experience to develop initiative, enterprise and ambition that prepares graduates for rapid career progression.

Bond's three-semester-per-year structure enables students to accelerate their studies, completing a six-semester bachelor's degree in two years instead of three, providing graduates with a valuable head start in the competitive careers market. Students thrive in smaller study groups where renowned professors and industry-experienced lecturers know them by name.

Degrees and programs: Bond University offers a range of diploma, undergraduate and postgraduate programs in business, commerce, international hotel and tourism management, health sciences and medicine, physiotherapy, nutrition and dietetics, humanities and social sciences, communication and media, film and television, sustainable development, built environment and architecture.

How to apply: Applications for all programs, except the Bond Medical Program, must be lodged directly with Bond University. Applicants must follow the University's application processes, including any timelines where applicable. For more information, visit bond.edu.au/apply. For the Bond Medical Program, refer to page 125 of this *Guide*.

Admissions criteria: Bond University applies a range of criteria when assessing the eligibility of applicants.

If you are completing Year 12 and want an early offer, Bond will consider your full Year 11 results, Year 12 semester 1 results, and your school recommendation (if provided). Early offers are issued from between October and December. If you qualify, you will receive a conditional offer from Bond. This means that you will be admitted to the offered program when you achieve the minimum score as stated on your offer letter.

If you have completed Year 12 and have not studied since completing high school, Bond will use your senior secondary academic results and/or rank (if any) to assess you for admission. You may need to provide a resume if you have completed Year 12 more than a year ago.

Bond also recognises a range of other post-secondary qualifications for admission, such as an AQF Certificate IV or higher from a recognised provider, or the successful completion of a full-time semester of a bachelor's degree. Documented vocational or professional experience and STAT results will also be considered for admission.

If you do not meet the criteria for entry into your preferred program, Bond will assess you for an admission pathway. The pathway will give you an opportunity to meet the criteria of your chosen program.

Bond may also apply adjustment factors at its discretion for students who may not otherwise get into their program. These adjustment factors, such as subject adjustment, rural consideration, leadership or community engagement, are only considered if you do not meet the criteria for entry into your preferred undergraduate program.

International students: Bond University is a CRICOS registered provider (00017B) and welcomes international applications for all CRICOS-registered programs except the Bond Medical Program, which is only available to international students via the Bachelor of Biomedical Science pathway.

Scholarships: Bond University offers several full-fee and part-fee scholarships and bursaries. For more information on how to apply and application closing dates, please visit bond.edu.au/scholarships.

Program fees: Refer to the program entries on QTAC's website for approximate tuition costs. Fees are subject to change on an annual basis. In addition to the Student Activities Fee, books and study materials, your chosen program may also require payment of additional compulsory costs such as uniforms, excursions or placement fees. More information on tuition fees and other costs is available from bond.edu.au/fees.

FEE-HELP: FEE-HELP is an interest-free loan from the Australian Government that helps eligible domestic fee-paying students pay their tuition fees and can be used for undergraduate, postgraduate coursework and research study. To access FEE-HELP, you must meet residency and other criteria. More information is available from bond.edu.au/fee-help.

Offers: Offers for programs on pages 223–230 are made directly by Bond University according to their admission timelines. Applicants who have also applied for Bond University's medical program listed on page 125 may also receive an offer through QTAC.

Architecture and built environment

Bachelor of Construction Management and Quantity Surveying

| Location | Fee Type | Duration | Start Month |
|------------|----------|----------|--|
| Gold Coast | fee | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program covers a comprehensive range of subjects in the field of construction management and quantity surveying, focusing on the management and delivery of complex construction projects. The curriculum addresses a range of topics including construction technology, construction techniques, plant and equipment, site management, contract administration, building measurement, planning processes and risks. The program is accredited by the Australian Institute of Quantity Surveyors (AIQS), the Chartered Institute of Building (CIOB) and the Royal Institution of Chartered Surveyors (RICS). The program also meets the educational requirements of the Queensland Building and Construction Commission (QBCC) for attainment of an Open Builders License.

Career opportunities: Opportunities include building and construction management, contract administration, site management, facilities management, building services, quantity surveying, property development, project management, cost management and general management. The skill sets obtained in this degree may also be applied to related sectors such as civil engineering and mining.

Bachelor of Design in Architecture

| Location | Fee Type | Duration | Start Month |
|------------|----------|----------|--|
| Gold Coast | fee | 2F | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 75.00, IB Diploma 26 points, equivalent or better. Other applicants can electronically submit a portfolio of design work for consideration. Refer to Bond University website for portfolio requirements.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program provides a broad design education in a creative studio-based environment focusing heavily upon learning to design through hands-on making and the use of state-of-the-art digital tools. Learning in a design studio comprises the majority of coursework and is project-based. In addition to practical skills and disciplinary knowledge learned through studio and seminar-based studies in design, communications, technology, history, theory, and professional studies, students acquire 'soft skills' in collaboration, teamwork, time management, interpersonal communication, self-critique, and overall, spatial intelligence which is unique to an architectural education. To become a registered architect, students must complete both an undergraduate and postgraduate qualification as well as requisite work experience.

Career opportunities: Graduates may gain employment in architectural firms, government, construction, development, infrastructure and planning industries around the world. Graduates are also able to establish careers in design studios, virtual environment design (such as gaming, cinema and animation), web and graphic design, fashion, advertising, industrial design, arts management and the visual arts.

Bachelor of Project Management

| Location | Fee Type | Duration | Start Month |
|------------|----------|----------|--|
| Gold Coast | fee | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: The program concerns projectised decision-making applicable to a wide range of different industry sectors. It builds on three foundation semesters comprising business acumen, project framework, process analysis and core skill development before three further practice semesters comprising technical, tactical and strategic decision-making. The program's curriculum is purposely built around the PMBOK® Guide, which is the international standard for the project management discipline.

Career opportunities: Project manager, project innovator, program manager, business analyst, design thinker, change-agent, entrepreneur, Agile coach, and product manager.

Bond University (continued)

Bachelor of Property

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|--|
| Gold Coast | fee [◇] | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: The program provides a foundation for careers in the property development and management industry and the opportunity to specialise in property valuation. The degree provides a comprehensive range of subjects including construction practices, feasibility studies, finance, investment and valuation, property markets, corporate real estate, land economy, sustainable development and urban development. Graduates are internationally recognised by the Royal Institution of Chartered Surveyors (RICS); and by the Australian Property Institute (API) for Associate Membership with Certified Property Practitioner Certification (CPP). Students who complete the relevant Property Valuation subjects as electives will qualify for certification with the Australian Property Institute as a Certified Practising Valuer with the Valuers Registration Board of Queensland, and New South Wales Fair Trading (conditional on meeting professional practice requirements).

Career opportunities: Opportunities include property valuation, property development, project management, investment, finance, portfolio management, asset and facilities management and research.

Diploma of Built Environments

| Location | Fee Type | Duration | Start Month |
|------------|------------------|------------|--|
| Gold Coast | fee [◇] | 2½F or 1½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 50.00 equivalent or better. Applicants with other studies and experience will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: The Diploma of Built Environment provides a foundation for a career in various property sectors. This program enables students to specialise in property, construction management and quantity surveying, or sustainable environments and planning. Successful completion of the program provides students with a pathway to most Bond University undergraduate degrees, with a possible 50 to 80 credit points towards their next program of study.

Career opportunities: Successful completion of the diploma provides students with a pathway to most Bond undergraduate programs, or a start to their career in a variety of natural and built environment professions involved in creating sustainable environments.

Business and tourism

Bachelor of Actuarial Science

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|--|
| Gold Coast | fee [◇] | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 90.00, IB Diploma 32 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

Assumed knowledge: Mathematical Methods or equivalent.

How to apply: Apply online at bond.edu.au/apply.

Course outline: Combining elements of economics, finance, statistics and mathematics, the program develops techniques for the management of risk and big data analytics. Accredited by the Actuaries Institute, this program provides Part I (Foundation program) accreditation. Bond is one of only seven universities to offer the degree in Australia, the only one in Queensland, and one of two where students are trained by specialists in their subject area.

Career opportunities: Investment analyst, portfolio manager, actuarial consultant, insurance actuary, superannuation actuary, risk analyst, big data analyst, liability manager and high-level manager.

Combined degrees: Refer to entry for: B Actuarial Science/B Laws.

Bachelor of Actuarial Science/Bachelor of Laws

| Location | Fee Type | Duration | Start Month |
|------------|------------------|------------|--|
| Gold Coast | fee [◇] | 3½F or 7½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 90.00, IB Diploma 32 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

Assumed knowledge: Mathematical Methods or equivalent.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This combined program enables students to complete the requirements of two programs in less than four years. The double degree in actuarial science and law will equip students with the skills to understand the data and knowledge of the legal context and guidelines in which to use these numbers. This program is for students wanting to be an actuary who understands the legal boundaries of utilising personal information or a lawyer with expertise in risk evaluation.

Career opportunities: Barrister, solicitor, investment analyst, portfolio manager, actuarial consultant, insurance actuary, superannuation actuary, risk analyst, big data analyst, liability manager and high-level manager.

Bachelor of Business

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|--|
| Gold Coast | fee [◇] | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program provides a comprehensive, multidisciplinary foundation to work as a business professional in varied business environments. Students will study business model generation and business model execution, teaching them how to start up, execute and close down a business. Exclusive access to the Bond Business Commercialisation Centre and the Bond Business Accelerator will collectively offer a broad array of tools, networking opportunities, mentoring by industry and academic experts and other resources to encourage and support students throughout their business degree.

Majors: Entrepreneurship and innovation; international business; management; marketing; marketing communication; tourism management.

Career opportunities: Roles in advertising, human resources, information technology, marketing, public relations, and research.

Combined degrees: Refer to entries for: B Business/B Commerce; B Business/B Laws; B Business/B Social Science; B International Relations/B Business.

Bachelor of Business/Bachelor of Commerce

| Location | Fee Type | Duration | Start Month |
|------------|------------------|------------|--|
| Gold Coast | fee [◇] | 2½F or 5½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This combined program enables students to complete the requirements of two programs in less than three years. The Bachelor of Business provides a comprehensive, multidisciplinary foundation to work as a business professional in varied business environments. The Bachelor of Commerce is more technical and discipline-focused and aims to prepare students for a career as a professional in a specific field. It is designed to develop students' financial competencies, business analytic and decision-making skills and collaboration skills through experiential learning and authentic assessment tasks relevant to the choice of major.

Majors: Refer to entries for Bachelor of Business and Bachelor of Commerce.

Career opportunities: Roles in accounting, advertising, banking, financial planning, economics, human resources, information technology, investments, marketing, public relations, stockbroking and research.

Bachelor of Business/Bachelor of Laws

| Location | Fee Type | Duration | Start Month |
|------------|------------------|------------|--|
| Gold Coast | fee [◇] | 3½F or 7½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 85.00, IB Diploma 30 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This combined program enables students to complete the requirements of two programs in less than four years. The Bachelor of Business provides a comprehensive, multidisciplinary foundation to work as a business professional in varied business environments. The Bachelor of Laws provides an engaging learning experience that challenges students academically and prepares them practically for a legal career.

Majors: Refer to Bachelor of Business.

Career opportunities: Barrister, solicitor, and roles in advertising, human resources, information technology, marketing, public relations and research.

Bachelor of Business/Bachelor of Social Science

| Location | Fee Type | Duration | Start Month |
|------------|---|------------|--|
| Gold Coast | fee  | 2½F or 5½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This combined program enables students to complete the requirements of two programs in less than three years. The Bachelor of Business provides a comprehensive, multidisciplinary foundation to work as a business professional in varied business environments. Combined with a Bachelor of Social Science, students will gain specialist knowledge and understanding of human behaviour and how this applies in businesses today.

Majors: Refer to entries for Bachelor of Business and Bachelor of Social Science.

Career opportunities: Advertising, human resources, information technology, marketing, public relations, research, welfare, government departments, disability services, client support and advocacy.

Bachelor of Business Data Analytics

| Location | Fee Type | Duration | Start Month |
|------------|---|----------|--|
| Gold Coast | fee  | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 80.00, IB Diploma 28 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: The program is focused on using data analytics techniques to improve business decision making. It is a quantitative program, combining elements of statistics, computing, big data and machine learning. It develops students' skills in the development and understanding of analytics and analytic techniques and focuses on how these techniques can be used to solve real-world business problems and better inform evidence-based decision making.

Majors: Entrepreneurship and innovation; international business; management; marketing; marketing communication; tourism management.

Career opportunities: Data scientist, data analyst, statistics consultant.

Bachelor of Commerce

| Location | Fee Type | Duration | Start Month |
|------------|---|----------|--|
| Gold Coast | fee  | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program is technical and discipline-focused and aims to prepare students for a career as a professional in a specific field. It is designed to develop students' financial competencies, business analytic and decision-making skills and collaboration skills through experiential learning and authentic assessment tasks relevant to the choice of major.

Majors: Accounting; actuarial science; big data; economics; finance.

Career opportunities: Roles in accounting, financial planning, economics, investments, banking, stockbroking and research.

Combined degrees: Refer to entries for: B Business/B Commerce; B Commerce/B Laws.

Bachelor of Commerce/Bachelor of Laws

| Location | Fee Type | Duration | Start Month |
|------------|---|------------|--|
| Gold Coast | fee  | 3½F or 7½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 85.00, IB Diploma 30 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This combined program enables students to complete the requirements of two programs in under four years. The Bachelor of Commerce is more technical and discipline-focused and aims to prepare students for a career as a professional in a specific field. It is designed to develop students' financial competencies, business analytic and decision-making skills and collaboration skills through experiential learning and authentic assessment tasks relevant to the choice of major. The Bachelor of Laws provides an engaging learning experience that challenges students academically and prepares them practically for a legal career.

Majors: Refer to Bachelor of Commerce.

Career opportunities: Barrister, solicitor, and roles in accounting, financial planning, economics, investments, banking, stockbroking and research.

Bachelor of Entrepreneurial Transformation

| Location | Fee Type | Duration | Start Month |
|------------|---|----------|----------------------------------|
| Gold Coast | fee  | 2F or 4P | Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program prepares students to become creative and innovative professionals within a variety of contexts. Spanning multiple disciplines, this transdisciplinary program promotes student curiosity by exploring broad perspectives and developing strategies to tackle problems of contemporary organisations. Students will explore the multi-faceted and integrated nature of transformation whilst investigating theories, methods, and tools including visual design, machine learning, and big data to harness information and facilitate informed decision-making. Students will engage in strategic planning and change management processes and use a range of perspectives to analyse disruptive innovations, discovering how to prepare individuals and businesses in markets that are uncertain and complex. Emphasis is also placed on the importance of integrity and ethics in the gathering, application and management of data.

Career opportunities: Graduates can explore opportunities in various fields requiring transdisciplinary skills.

Bachelor of International Hotel and Tourism Management

| Location | Fee Type | Duration | Start Month |
|------------|---|----------|--|
| Gold Coast | fee  | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program prepares students for professional and managerial roles in the hotel and tourism industry. Emphasis is placed on asset, revenue and human resource management within tourism and hotel businesses.

Majors: Entrepreneurship and innovation; international business; management; marketing; marketing communication.

Other requirements: All students must complete 400 hours work experience in approved industry/positions as a graduation requirement.

Career opportunities: Roles in airlines, cruises, hotels, government, research, resorts, restaurants, theme parks.

Bachelor of International Relations/Bachelor of Business

| Location | Fee Type | Duration | Start Month |
|------------|---|------------|--|
| Gold Coast | fee  | 2½F or 5½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This combined program enables students to complete the requirements of two programs in under three years. The Bachelor of International Relations prepares students for fascinating careers in a globalising world where global and regional interdependence means that no state is unaffected by developments beyond its borders. The Bachelor of Business provides a comprehensive, multidisciplinary foundation to work as a business professional in varied business environments.

Majors: Refer to entries for Bachelor of International Relations and Bachelor of Business.

Career opportunities: Roles in defence, diplomacy, foreign affairs, international business, media, trade, advertising, human resources, information technology, marketing, public relations and research.

Bachelor of Sport Management

| Location | Fee Type | Duration | Start Month |
|------------|---|----------|--|
| Gold Coast | fee  | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Bond University *(continued)*

Course outline: This program is designed and delivered by leading experts in sport, law, business, and public relations. Students will be equipped with a strong foundation in contemporary business skills in addition to unique areas of sport-specific practices. Subjects will focus on areas that enable students to forge careers in numerous areas of the sport industry. The program places a strong emphasis on practical experience through internships and work-integrated learning.

Career opportunities: Roles with sporting bodies, sports governance, event management, sports marketing or working with sporting teams, clubs and players.

| Diploma of Business | | | |
|---------------------|------------------|-----------|--|
| Location | Fee Type | Duration | Start Month |
| Gold Coast | fee [◇] | ¾F or 1½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

|-----------------|------------------|-----------|--|
| Location | Fee Type | Duration | Start Month |
| Gold Coast | fee [◇] | ¾F or 1½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 50.00 equivalent or better. Applicants with other studies and experience will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program opens up a wide range of career and further study opportunities in disciplines including communication, creative arts, film and television, global studies (sustainability), humanities, international relations, journalism, psychological science, and social science. The program will teach students core skills to enhance their career prospects, whether that be a student fresh out of school or someone wishing to upgrade their qualifications. Successful completion of the program provides students with a pathway to most Bond University undergraduate degrees, with a possible 70 to 80 credit points credited towards their next program of study.

Career opportunities: Successful completion will provide students with a pathway to most Bond undergraduate programs or programs or to start their career in a broad range of opportunities in various disciplines.

Law**Bachelor of Business Law**

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|--|
| Gold Coast | fee [◇] | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 80.00, IB Diploma 28 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program provides an opportunity to combine legal subjects of particular interest with study in related business disciplines. The degree structure permits various combinations of law and non-law subjects (including the option of completing a business major), which enables you to design a program to meet your particular career interests. The program is not designed to provide a qualification for the professional practice of law.

Career opportunities: Careers in politics, business, banking and finance, teaching, public service, industrial relations and international relations.

Bachelor of Jurisprudence

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|--|
| Gold Coast | fee [◇] | 2F or 4P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 80.00, IB Diploma 28 points, equivalent or better. Applicants with other studies and experience will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program provides an opportunity to combine legal subjects of particular interest with study in related disciplines such as international relations, criminology, languages, and communication. The degree structure permits various combinations of law and non-law subjects (including the option of completing a humanities major), which enables students to design a program to meet their particular career interests. The program is not designed to provide a qualification for the professional practice of law.

Career opportunities: Careers in politics, business, banking and finance, teaching, public service, industrial relations and international relations.

Bachelor of Laws

| Location | Fee Type | Duration | Start Month |
|------------|------------------|------------|--|
| Gold Coast | fee [◇] | 2¾F or 5½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 85.00, IB Diploma 30 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program prepares students for a career as a legal professional. It provides students with a thorough grounding in essential areas of substantive law and access to a wide choice of law elective subjects, including the option of completing a specialisation. An integrated skills and professionalism program is embedded in the degree and focuses on core legal skills essential to the practice of law. It provides an engaging learning experience that challenges students academically and prepares them for a legal career.

Career opportunities: The Bachelor of Laws is an approved degree for admission as a legal practitioner in all Australian jurisdictions, in conjunction with further study (Graduate Diploma in Legal Practice) or a traineeship. Graduates pursue careers in the public or private sectors, such as solicitors, barristers, government lawyers, in-house counsel, judge's associates, academics or business leaders.

Combined degrees: Refer to entries for: B Actuarial Science/B Laws; B Arts/B Laws; B Biomedical Science/B Laws; B Business/B Laws; B Commerce/B Laws; B Communication/B Laws; B Communication (Business)/B Laws; B International Relations/B Laws; B Journalism/B Laws; B Psychological Science/B Laws.

Bachelor of Legal Transformation

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|----------------------------------|
| Gold Coast | fee [◇] | 2F or 4P | Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with post-secondary studies will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program provides students with an immersive intellectual and practical experience in the knowledge, skills, and dispositions essential for the delivery of legal services in the face of rapid and persistent technological change. The program includes both a foundation of substantive legal knowledge and traditional legal skills to ensure the development of essential legal literacy, and an emphasis on the development of key enterprise skills relevant to the contemporary workplace. The focus of the program is upon the operation and development of digital technologies as tools in the delivery of legal services and the resolution of legal problems in creative and ethical ways. The program offers an engaging learning experience in which students explore contemporary legal problems and design innovative solutions. The program is not designed to provide a qualification for the professional practice of law.

Career opportunities: Legal technicians, legal project managers, legal operations managers and paralegals, and in legal startups and legal technology design.

Diploma of Legal Studies

| Location | Fee Type | Duration | Start Month |
|------------|------------------|-----------|--|
| Gold Coast | fee [◇] | ¾F or 1½P | Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Completion of Year 12 with ATAR 65.00, IB Diploma 24 points, equivalent or better. Applicants with other studies and experience will also be considered (refer to Admissions Criteria on the Bond University website). An admission pathway is available for this program.

How to apply: Apply online at bond.edu.au/apply.

Course outline: This program provides students with a basic grounding in Australia's legal system, the principles of business law and contemporary legal issues confronting Australian society. Successful completion of this program provides students with a pathway to undergraduate programs in Law with a possible 70 to 80 credit points credited towards their next program of study.

Career opportunities: Successful completion of the diploma will provide students with a pathway to undergraduate programs in law at Bond University, or a start to their career where a knowledge of fundamental legal principles and basic legal skills will be of use, e.g. business administration, legal administration, federal, state or local government administration.

@NYFAAustralia

New York Film Academy Australia (NYFA Australia) is proud to offer hands-on, intensive filmmaking, acting for film, screenwriting and 3D animation & VFX programs on the Gold Coast, the epicentre of the filmmaking industry in Australia, with exclusive production workshops at the Village Roadshow Studios and Warner Bros. Movie World backlot. Our innovative programs are designed for a new generation of storytellers who share a passion for visual and performing arts and desire hands-on experience in their chosen craft. The academy also provides the opportunity for students to continue their studies through pathways to New York Film Academy's campuses abroad.

Why choose NYFA Australia?

- Hands-on, intensive training in small classes from day one
- Exclusive access to the Village Roadshow Studios backlot
- Hot Sets at the Warner Bros. Movie World backlot
- Nationally-recognised diploma and advanced diploma programs
- Industry professional instructors with extensive credits
- Access to industry standard equipment with low student-to-camera ratio
- Global NYFA alumni community and industry connection
- Degree pathways to NYFA US campuses (New York, Los Angeles, South Beach) and local Australian universities
- Located on the Gold Coast, Australia's favourite classroom and film industry hub

Student facilities: As a New York Film Academy Australia student, you will study at our state-of-the-art Southport Campus, attend exclusive production workshops on the backlot of the Village Roadshow Studios, film on Hot Sets at Warner Bros. Movie World, on the Gold Coast, right in the epicentre of the Australian film industry, all the while enjoying an active and fulfilling lifestyle!

International students: NYFA Australia is a CRICOS registered provider (03366A) and welcomes international students for all CRICOS-registered programs.

Fee help: Financial options available for eligible domestic students.

How to apply: Visit nyfa.edu.au or call (07) 5555 1300.

Diploma of Screen and Media (CUA51015)

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|--|
| Gold Coast | fee [◇] | 1F | Jun 2020 Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Satisfactory completion of Year 12 or equivalent; successful completion of a Language, Literacy and Numeracy indicator; admission essay; interview.

Course outline: The program allows students to learn and explore many aspects of filmmaking, hands-on. Students work with students from other disciplines, creating an education and practical learning environment. Every element of the program is based on learning by doing.

Course note: NYFA Australia provides pathways to study in the United States of America for students studying full-time at our Australian location. Articulation is available.

Majors/specialisations: 3D animation & VFX; acting for film; documentary filmmaking; filmmaking; producing; screenwriting.

Career opportunities: Filmmaking, actor, director, writer, digital editor, cinematographer, animator, visual effects artist, producer, gaffer, grip, crewman, casting director, presenter, sound recordist, sound editor, voice over artist.

Advanced Diploma of Screen and Media (CUA60615)

| Location | Fee Type | Duration | Start Month |
|------------|------------------|----------|--|
| Gold Coast | fee [◇] | 2F | Jun 2020 Sep 2020 Jan 2021 May 2021 Sep 2021 |

Entry requirements: Satisfactory completion of Year 12 or equivalent; successful completion of a Language, Literacy and Numeracy indicator; admission essay; interview. Successful completion of Diploma of Screen and Media (CUA51015) in the relevant specialisation at NYFA Australia or another registered provider or have relevant equivalent industry experience.

Course outline: This course builds on the Diploma of Screen and Media, providing a deeper education and understanding of the chosen craft. Students work on more complex projects, expanding their knowledge and experience. Students continue to bolster the learning-by-doing ideology to gain industry-ready skills.

Course note: NYFA Australia provides opportunities to study in the United States of America for students studying full-time at our Australian location. Articulation is available.

Majors/specialisations: Acting for film; filmmaking; screenwriting.

Career opportunities: Filmmaker, actor, director, writer, digital editor, cinematographer, animator, visual effects artist, producer, gaffer, grip, crewman, casting director, presenter, sound recordist, sound editor, voice over artist.

[/Australian.Catholic.University](https://www.Australian.Catholic.University)
[@ACUMedia](https://www.ACUMedia)
[/viewACU](https://www.viewACU)
[@acuimages](https://www.acuimages)

At ACU, we pride ourselves on offering a welcoming environment for everyone. At the same time, we are a university committed to standing for something clear. We stand up for people in need and causes that matter.

The world is our campus

We're young, but we're making our mark. We're ranked in the top 40 Generation Y universities worldwide*, and in the top 10 Catholic universities**—alongside Georgetown University and Boston College in the US. We've got more than 200 partners on six continents, community engagement opportunities around the globe, and our campus in Rome, Italy.

*Times Higher Education Young University Rankings 2019
**Times Higher Education World University Rankings 2020, IFU members

Getting job-ready from day one

We know that the best way to get ahead is hands-on, practical experience. That's why our campuses have world-class facilities like nursing simulation labs, fully functioning ambulances and art galleries. All our courses offer work placements, internships with leading companies, or volunteering opportunities. And the results speak for themselves—we're top three in Australia for graduate employment.*

*Domestic undergraduate employment rate, Graduate Outcomes Survey, 2019

We see the whole person

Everyone is welcome at ACU. We're inclusive and supportive of everyone, every day, and our students feel it, giving us five stars for full-time employment, overall experience, learner engagement and skills development.*

*Good Universities Guide 2020

Meaningful education, not mass production

At ACU, it's education, but with a bigger purpose. If you've got the desire to make an impact, we'll give you the skills to change the world. And if you want to start making an impact now, you can. Coach kids' soccer

in East Timor, help refugee children with their homework, nurse patients in Vanuatu, or teach in remote Indigenous communities, just to start.

The Brisbane Campus

The Brisbane Campus offers programs in arts and social sciences, biomedical science, business and commerce, creative arts, global studies, midwifery, nursing, occupational therapy, paramedicine, philosophy, physiotherapy, social work, speech pathology, sport and exercise science, teaching and education, and theology.

Transport

Located 12 kilometres from the city centre, it's easy to travel to our Brisbane Campus. Trains and buses stop nearby, and a free ACU shuttle bus connects the campus with Toombul and Chermside. There is also free car parking, and bike racks for cyclists.

Student facilities

Whether you want to get involved in campus life, create a professional network, or just find a quiet place to study, our Brisbane Campus has you covered. Set on 40 hectares of parklands, the campus has ample parking, state-of-the-art learning facilities, and places to hang out, like cafés and a swimming pool. Other on-campus facilities include health and computer labs, an art gallery, library, bookshop, student lounge, multipurpose sports facility, health clinic, chapel, and ovals and playing fields.

Campus life and support services

We've worked hard to create campus spaces that are relaxed, inviting, and fun. And with clubs and societies for everything from photography, to French, to skiing, we're bound to have a group that's right for you.

We also offer a range of support services, including academic skills and career development, counselling, equity and disability advisers, campus

ministry, and accommodation services. Visit acu.edu.au/support for more information.

For Aboriginal and Torres Strait Islander students, the on-campus Indigenous Higher Education Unit offers cultural, personal and academic support. Flexible undergraduate courses are also available for students through the Away From Base program, which involves studying via online learning combined with intensive residential blocks twice a semester. Visit acu.edu.au/indigenoussupport for more information.

Study abroad

Want to study health sciences in Italy? Global studies in Mexico? Theology in Israel? Learning abroad programs can count towards your degree, and with more than 200 partner institutions, you can choose from a huge range of international opportunities.

More than 25 per cent of our domestic undergraduate students travel overseas during their studies. You can join a study tour, complete an internship, do a semester or short exchange, participate in community engagement, or take our unique international Core Curriculum program.

Learning abroad programs can be as short as two weeks or as long as a year, and there are generous travel grants available. Visit acu.edu.au/study_overseas for more information.

Scholarships

We know that balancing the cost of living and study can be tricky. That's why we offer nearly 400 scholarship opportunities that recognise academic achievement, community participation, and help out students from a range of backgrounds.

To provide even more opportunities for our students, we've also developed the Creating Opportunity Fund scholarships. They are designed to support you to achieve your goals, no matter what difficult circumstances you may be facing. And unlike many equity scholarships, our eligibility criteria are flexible, so we can provide support where it's needed most. Visit acu.edu.au/scholarships for more information.

There's more than one way into ACU

There's no right or wrong way to get into university, so if you don't get the mark you need, don't panic. That's why we have pathways. They provide alternative options if you don't get the score you need, haven't completed the prerequisites, or don't meet some other requirement. Visit acu.edu.au/pathways for more information.

@bonduniversity
/BondUniversity
@bonduniversity

Bond University administers its own admission for all programs except the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) (the Bond Medical Program); admission to this course is managed by QTAC. Students can apply direct to Bond through a free online application form for all other programs.

Bond University offers a personalised academic environment that enables graduates from all over the world to stand out in their careers and industries. As an independent not-for-profit institution, all tuition fees are reinvested into the University to further develop learning facilities and enhance the student experience. Bond is Australia's highest rating university for student experience in the *Good Universities Guide*.

Bond challenges students to be leaders and thinkers, combining globally focused course content with industry experience to develop initiative, enterprise and ambition that prepares graduates for rapid career progression.

Bond University's three-semesters-per-year structure enables students to accelerate their studies, completing a six-semester bachelor's degree in two years instead of three, providing graduates with a valuable head start in the competitive careers market. Students thrive in smaller study groups where renowned professors and industry-experienced lecturers know them by name.

Degrees and programs

Bond University offers a range of diploma, undergraduate and postgraduate programs in business, commerce, hotel and tourism management, health sciences and medicine, physiotherapy, nutrition and dietetics, humanities and social sciences, communication and media, film and television, sustainable development, built environment and architecture.

How to apply

Applications for all programs, except the Bond Medical Program, must be lodged directly with Bond University.

Applicants must follow the University's application processes, including any timelines where applicable. For more information, visit bond.edu.au/apply.

For the Bond Medical Program, refer to page 125 of this *Guide*.

Admissions criteria

Bond University applies a range of criteria when assessing the eligibility of applicants.

If you are completing Year 12 and want an early offer, Bond will consider your full Year 11 results, Year 12 semester 1 results, and your school recommendation (if provided). Early offers are issued between October and December. If you qualify, you will receive a conditional offer from Bond. This means that you will be admitted to the offered program when you achieve the minimum score as stated on your offer letter.

If you have completed Year 12 and have not studied since completing high school, Bond University will use your senior secondary academic results and/or rank (if any) to assess you for admission. You may need to provide a resume if you have completed Year 12 more than a year ago.

Bond also recognises a range of other post-secondary qualifications for admission, such as an AQF Certificate IV or higher from a recognised provider, or the successful completion of a semester of a bachelor's degree. Documented vocational or professional experience and STAT results will also be considered for admission.

If you do not meet the criteria for entry into your preferred program, Bond University will assess you for an admission pathway. The pathway will give you an opportunity to meet the criteria of your chosen program.

Bond may also apply adjustment factors at its discretion for Year 12 students who may not otherwise get into their program.

These adjustment factors, such as subject adjustment, rural consideration, leadership or community engagement, are only considered if you do not meet the criteria for entry into your preferred undergraduate program.

International students

Bond University is a CRICOS-registered provider (00017B) and welcomes international student applications for all CRICOS-registered programs except the Bond Medical Program, which is only available to international students via the Bachelor of Biomedical Science pathway.

Scholarships

Bond University offers several full-fee and part-fee scholarships and bursaries. For more information on how to apply and application closing dates, please visit bond.edu.au/scholarships.

Program fees

Refer to the program entries on QTAC's website for approximate tuition costs. Fees are subject to change on an annual basis. In addition to the Student Activities Fee, books and study materials, your chosen program may also require payment of additional compulsory costs such as uniforms, excursions or placement fees. More information on tuition fees and other costs is available from bond.edu.au/fees.

FEE-HELP

FEE-HELP is an interest-free loan from the Australian Government that helps eligible domestic fee-paying students pay their tuition fees and can be used for undergraduate, postgraduate coursework and research study. To access FEE-HELP, you must meet residency and other criteria. More information is available from bond.edu.au/fee-help.

Offers

Offers for programs on pages 223-230 are made directly by Bond University according to their admission timelines. Applicants who have also applied for Bond University's medical program listed on page 125 may also receive an offer through QTAC.

CHRISTIAN HERITAGE COLLEGE (CHC)

Christian Heritage College (CHC) is located in Brisbane's south-east, in the leafy suburb of Carindale, just 10 kilometres from the Brisbane CBD. It forms part of the 92-acre campus of one of Australia's largest Christian churches, Citipointe Church, with Christian schooling and associated childcare centres onsite. Public transport is available within walking distance and bicycle and walking paths link the campus to surrounding suburbs. CHC also offers plenty of free parking.

CHC is a boutique higher education provider that provides academic excellence while maintaining a commitment to Christian truth. It boasts amongst the highest graduate employment rates (87%) and student satisfaction rates (91%) in Queensland (QILT).

At CHC, we believe that degrees do more than just inform, they *transform*. With undergraduate and postgraduate courses in business, education, the liberal arts, ministries, and social sciences, including counselling, all studies are underpinned by a Christian worldview, offering unique perspectives on these disciplines.

Small class sizes, individualised programs and quality one-on-one advice from lecturers supports and encourages students to achieve their best. The atmosphere of inclusion and shared aspirations makes life at CHC a rewarding experience, with many students continuing their association with the CHC community long after they graduate.

Application for all undergraduate courses and Master of Teaching courses is made through QTAC. Application for all other courses is made directly to CHC. Entry to undergraduate courses usually requires the completion of Year 12 or equivalent, but CHC does not use ATARs (or equivalent) as the sole indicator of entry eligibility. For entry to certain courses, for example, referees, a personal statement and, in some cases, an interview, may be required.

Post Admissions

Commonwealth support and assistance

CHC has Commonwealth supported places available in its undergraduate and postgraduate initial teacher education courses. If you are an Australian citizen, an eligible New Zealand citizen who is an SCV holder or the holder of a Permanent Humanitarian visa, you can access HECS-HELP for your Commonwealth supported place. For all other courses, FEE-HELP is available to Australian citizens, eligible New Zealand citizens who are SCV holders and holders of Permanent Humanitarian visas.

Library

The CHC Library is the hub of the CHC community. It holds a significant collection of research materials and is equipped with individual and group study areas, such as seminar rooms and open research spaces, to encourage and support student learning. Computers and free wireless internet are also available for student use.

Student facilities

Students enjoy the ease of wireless internet connection, and individual Office 365 accounts provide easy access to emails and documents both on and off campus.

With Rivers Café onsite and peaceful bushland surroundings, there are some great places to study, catch up with friends or just chill for a while. In addition, the air-conditioned Student Common Room is a place to relax, with a kitchen with tea and coffee facilities, microwave ovens, fridges and vending machines, and a pool table and large-screen TV.

Student accommodation

CHC does not have on-campus accommodation but can assist students to secure accommodation close to campus. For more information, email studentservices@chc.edu.au.

Student support services

CHC offers support and activities that foster the community dynamic and nurture the growth of the individual academically, socially and spiritually. The Student Services team provides links to on-campus and community services, including professional counselling and academic support services. For further information, email studentservices@chc.edu.au.

More information

Information about CHC and its courses is available at chc.edu.au or in the *CHC Course Guide*.

With so many options out there, choosing the right university for you isn't an easy decision. At **CQUniversity Australia**, our students choose to study with us so they can be what they want to be. We believe higher education should be for everyone—no matter your postcode or educational background. That's why we offer a wide range of up-to-date, industry-aligned courses, from TAFE certificates right through to research degrees, online and across more than 20 locations nationally.

We've designed our qualifications alongside industry to prepare you with up-to-date, real-world skills—and we've been ranked in the top two per cent of universities globally for graduate employability*. Our award-winning teaching professionals are widely experienced with a practical approach and dedication to continual course improvements.

You can choose from a wide variety of courses from areas including:

- allied health
- business and accounting
- creative, performing and visual arts
- digital media, communication and arts
- education, teaching and childcare
- engineering, built environment and aviation
- English and study pathways
- information systems and technology
- law, criminology and justice
- nursing, paramedicine and health
- psychology, social work and community services
- science, environment and agriculture
- service industries
- trades
- transport and safety sciences.

With a national presence extending across five states and including 16 campuses and numerous study centres, hubs and sites, CQUniversity enables students throughout Australia to access quality education locally

—whether you choose to study on-campus at your local CQUniversity location, or online. This commitment to delivering flexible, accessible learning options has seen CQUniversity establish itself as a leader in distance education, so you can study when you want, where you want, knowing you have access to nearby facilities, supportive staff and the latest in online learning.

CQUniversity has a diverse student body that comes from both local and global communities. We aspire to be the most engaged and connected university in Australia, and have a strong focus on social innovation, empowering our students, staff and communities to make a difference through developing novel solutions to social programs. CQUniversity is recognised as Australia's first and only Changemaker Campus by global social innovation group Ashoka U.

Providing positive graduate outcomes is our core focus. As one of Australia's leading work-integrated learning institutions, with many outbound mobility programs and close partnerships with industry, our graduates are some of the most sought after in Australia. Data released by ComparED in 2019 shows that CQUniversity outperforms most Australian universities when it comes to study support, graduate employment and graduate salary outcomes. Whether you are just finishing school or thinking of taking up a new challenge, CQUniversity can help you be what you want to be.

Studying at CQUniversity

At CQUniversity, we're truly focused on our students' needs, and that means responding to what, how and where they want to study. It's why we have more than 20 locations across the country and are pioneers in online study—now with two decades experience providing high quality online learning experiences. So whether you prefer to learn face-to-face, on-campus by attending lectures, tutorials and workshops, or like to study when it suits you, with access to the latest in online learning techniques, CQUniversity has you covered.

CQUniversity has campuses in Adelaide, Brisbane, Bundaberg, Cairns, Emerald, Gladstone, Mackay, Melbourne, Noosa, Perth, Rockhampton, Sydney, and Townsville. Other CQUniversity locations are currently established in Biloela, Broome, Busselton, Charters Towers, Cooma, Geraldton, Karratha, Port Pirie, and Yeppoon. These locations are a mix of study centres and hubs, regional university centre partnerships and delivery sites. No matter how you choose to study with us, you will have access to the facilities and resources available at our locations.

Student accommodation

We offer on-campus accommodation options at CQUniversity Mackay and Rockhampton, and help with off-campus options for all locations.

CQUniversity Mackay student residences: Canefield College

Boasting modern residential facilities, you can choose from several room options. All rooms are individually keyed, air conditioned and cleaned weekly. Internet access is available in each room and laundry facilities are available in each block. Common rooms are furnished with a television and DVD player, fridge, microwave and stove. We have dedicated staff onsite 24 hours a day, seven days a week, ready to support you.

CQUniversity Rockhampton student residences: Capricornia College

The student residential facilities at CQUniversity Rockhampton provide accommodation and meals for 320 students. Set in park-like surrounds, the College is an easy walk to all University facilities, including the library and gym. Meals are provided and the facilities are fully maintained and cleaned weekly. Rooms are individually keyed, and the residence has an onsite manager and 24-hour live-in staff.

Student support services

Life as a university student can be both rewarding and challenging. As a CQUniversity student, a range of support services is available to help you reach your academic goals, enjoy your time at university and assist you to grow professionally and personally. Whether you need to find accommodation, access financial support, get advice on your career options, find support for your personal wellbeing or are keen to participate in social and sporting activities, CQUniversity is here for you. For more information on our range of services, visit the student life links on our website.

*QS World University Rankings: Graduate Employability Rankings 2020. Visit cqu.edu.au/reputation.

Griffith College offers an alternative option for studying your first year at Griffith University. Complete a two or three-trimester diploma, and then enter seamlessly into the second year of a selection of bachelors at Griffith University*.

Griffith College is right on campus at Griffith University's Mt Gravatt and Gold Coast campuses, so you are a part of the action of the university from day one.

We understand that the transition to university studies can be difficult, so we have a range of mentoring, learning and support services available to assist you to develop the study skills necessary to successfully complete your program of study and thrive at university.

Griffith College has been the number one choice for more than 20,000 graduates. With lower entry requirements and a more supportive learning environment, Griffith College is your pathway to successful further study.

Student benefits

- Guaranteed entry to Griffith University* with one packaged offer that covers your diploma and bachelor study.
- Different entry requirements to allow you to reach study goals.
- A supportive learning environment for successful further study.
- Small class sizes and extra contact time with teaching staff.

- Full access to Griffith University services and facilities.
- A flexible tri-semester calendar with courses beginning in February, June and October every year.
- Two campus options—Mt Gravatt, Brisbane or Southport, Gold Coast.

Study areas

We offer 11 diploma programs that provide pathways into over 60 different bachelor and double bachelor degrees at Griffith University:

- arts and communication
- business/commerce
- criminology and criminal justice
- design
- engineering
- health care/nursing
- health sciences
- hotel management
- information technology
- science
- social and psychological science.

On successful completion of a Griffith College diploma, you will gain entry to the second year of the equivalent degree program at Griffith University**. Select which diploma and bachelor program you wish to study and receive one packaged offer for both programs.

Griffith University – You're already here

As a Griffith College student, you are welcomed as part of the Griffith University community and enjoy access to university facilities and services, including clubs, societies and world-class sporting facilities.

You'll learn from some of the best teachers in the country. Griffith teachers have won more Australian Government awards, citations, fellowships and grants than any other university. Three teachers have even been named Australian University Teacher of the Year.

Academic support

Our comprehensive learning support framework gives you the best opportunity to succeed.

- Lecturer consultation
- Maths support with embedded modules "essential mathematics"
- Study skills and time management workshops
- Assignment help
- Peer assisted learning
- On-campus study, with at least four contact hours per course per week
- Student mentoring program

FEE-HELP

FEE-HELP and payment plans are available to eligible students for Griffith College diploma and associate degree programs. Contact Griffith College for more information or visit studyassist.gov.au.

Looking for more information?

Detailed information on programs, subjects, support services, accommodation, fees and enrolment procedures can be found at griffith.edu.au/college.

*On successful completion of a Griffith College diploma program and meeting Griffith GPA (grade-point average) entry requirements.

**Credit into Griffith University will depend on the degree and major chosen. Visit griffith.edu.au/college for full progression outlines.

Campuses

Gold Coast campus

Centrally located in Southport and just minutes from world-famous beaches, the Gold Coast campus is Griffith's largest. It is home to world-class teaching and research in almost all study areas and state-of-the-art facilities including the Griffith Health Centre, aquatic centre and athletics track.

Nathan and Mt Gravatt campuses

Situated in tranquil, native koala habitat on the edge of Toohey Forest, about 15 minutes from the Brisbane CBD, Nathan and Mt Gravatt campuses offer a range of exceptional sporting facilities (including aquatic and tennis centres at Mt Gravatt). Sporting teams and social clubs are available at both campuses.

South Bank campus

Located within Brisbane's cultural heart, the prestigious South Bank campus encompasses the Queensland College of Art, one of Australia's oldest and most advanced fine art and design colleges; the Griffith Film School—Australia's largest; and the Queensland Conservatorium, one of Australia's leading music schools.

Logan campus

Nestled between Brisbane and the Gold Coast, Logan campus has strong connections with the local community, hosting numerous sporting and cultural events throughout the year.

Student accommodation

On-campus student accommodation is available at the Gold Coast, Nathan and Mt Gravatt campuses. We can also help you find a place to call home through our preferred accommodation partners. Visit griffith.edu.au/accommodation.

Student support

Students can access careers, counselling, health, welfare and chaplaincy services on campus. Customised support is available for students from diverse backgrounds, and for students with disabilities; visit griffith.edu.au/student-services. Learning support is available through the library on all campuses; visit griffith.edu.au/library. International students should visit griffith.edu.au/international for information on applying to study at Griffith.

At Griffith, you'll be welcomed into an inclusive community and supported to face the future with confidence, competence and the knowledge and skills to thrive in a rapidly changing world. You'll study at a university positioned in the top 250 of two major global rankings, placing us in the top 2 per cent worldwide*. Our high-quality degrees are developed in consultation with industry, based on cutting-edge research, and taught by Australia's most awarded teachers^.

Flexible study options

We teach across three 12-week trimesters each year. Depending on your degree, you'll have the choice to study in person at one of our campuses, online through our Digital campus, or using a combination of both, either part-time or full-time over two or three trimesters.

Industry experience

You'll get inside access to industry, with many Griffith degrees offering work placements, field trips and industry projects for real clients. Our industry connections provide practical experience that helps to make sense of the knowledge you're gaining in the classroom, while also enhancing your job-ready skills.

Go global

As a Griffith student, you may have the chance to spend anywhere from a week to a year living and breathing a whole new global experience. Opportunities include exchange, global internships, international volunteering, short courses, study tours, field trips and clinical placements.

Scholarships

You may be surprised to find you're eligible for one or more of our scholarships based on your background, chosen study area, hardships you've experienced, or your achievements at school or work. Our website has a filter that will help match you to the right scholarship. Visit griffith.edu.au/scholarships.

Guaranteed Admission Scheme

To provide more opportunities for students from a range of backgrounds, our Guaranteed Admission Scheme includes guaranteed admission for ATAR 90+ students, ATAR 80+ students, and those who have completed a VET qualification. Visit griffith.edu.au/guaranteed-admission.

Griffith Honours College

If you're a high-achieving student and keen to enhance your university experience through mentoring, international experiences, leadership roles and community engagement activities, the Griffith Honours College can help you reach your full potential. Visit griffith.edu.au/honourscollege.

Griffith Sports College

Griffith has one of the highest numbers of elite athlete students in the country. Through the Griffith Sports College, we provide dedicated assistance for more than 550 student athletes, helping them successfully balance the high demands of elite sport and university life. Visit griffith.edu.au/griffith-sports-college.

Adjustment factor pathways

Our adjustment factor pathways, including the Gold Coast and Logan Priority Access Pathway, Educational Access Scheme, Elite Athlete Adjustment Factors and Year 12 Subject Adjustment Pathway, can improve your chances of getting into your preferred degree. Visit griffith.edu.au/adjustment-factor-pathways.

VET pathways

Griffith recognises vocational education and training (VET) as a highly effective pathway to our university. We accept standalone VET qualifications completed at high school, private providers and TAFE Institutes for admission. Visit griffith.edu.au/pathways.

GUMURRII Student Support Unit

Situated on each campus, GUMURRII offers safe and culturally supportive learning environs for all First Peoples students

JAMES COOK UNIVERSITY (JCU)

Ranked in the top 300 universities in the world (ARWU 2019), **James Cook University** is committed to research and teaching that makes a difference to life in the tropics, where more than 40 per cent of the world's population lives. JCU is a vibrant institution, operating across two countries and three tropical campuses, with main campuses in Cairns and Townsville in North Queensland and the city-state of Singapore, and multiple study centres in Australia.

About us

Over 21,000 students, including 6,600 international students, are enrolled in a variety of programs.

Students develop professional skills and in-depth knowledge through a wide range of practical, hands-on learning experiences. Small class sizes provide access to world-class lecturers and researchers, ensuring every student can excel.

Campuses

JCU Cairns and Townsville are located near the Great Barrier Reef Marine Park, the Daintree Rainforest and the outback. Students can participate in hands-on learning, placements or projects in some of the most interesting locations in the world. Experiences may include travelling to remote communities in a light aircraft, a lecture in our Classroom on the Reef, or seeing how drought is simulated in a rainforest. JCU Singapore is in the heart of the city, and has achieved the highest level of accreditation in Singapore for private education providers, the EduTrust Star.

Courses

JCU Australia offers an extensive range of undergraduate, postgraduate and research courses.

Study areas include:

- arts and social sciences
- biomedicine
- business
- dentistry
- education
- engineering
- environmental management
- health studies
- information technology
- law
- marine science
- medicine
- nursing and midwifery
- occupational therapy
- pharmacy
- physiotherapy
- planning
- psychology
- public health and tropical medicine
- science, including marine biology and

- environmental earth science
- social work
- speech pathology
- sport and exercise science
- tourism, hospitality and events
- veterinary and animal science.

Students learn from dedicated staff who design their courses to include hands-on experience. Many JCU courses offer field trips, professional placements and real-world projects that give students the skills they need for the global workforce.

Courses offered at JCU's Singapore campus follow JCU Australia's curriculum, ensuring the same high-quality program content. To learn more about courses offered at JCU's Singapore campus, visit jcu.edu.sg.

Courses with special entry procedures

Applicants for the Bachelor of Dental Surgery, Bachelor of Medicine, Bachelor of Surgery, Bachelor of Physiotherapy and Bachelor of Veterinary Science must apply to QTAC by the due date, and submit a separate written application form to JCU by 5pm, 30 September 2020.

The skills for success

JCU offers online and face-to-face access to academic learning development. Students can access short courses and workshops, and personalised advice. Resources cover everything from time management, mathematics and basic statistics to assignment planning and academic writing.

Student services

JCU provides a range of services to help students make the most of their university experience.

Accommodation

Students can choose from a variety of on-campus and off-campus housing. JCU Townsville offers five on-campus accommodation options for up to 1,200

students. The John Grey Hall provides Cairns students with accommodation that is functional for both study and recreational activities. Visit jcu.edu.au/accommodation.

Support services

Comprehensive support services include career advice and student employment services, chaplaincy, disability and accessibility support (AccessAbility), and personal counselling. The award-winning student mentor program links new students with second and third year students who provide support and information about life at university to students starting out their study.

Information services and technology

JCU students enjoy access to technology-enriched learning spaces and a wealth of electronic resources. They can access free computing and library support, including support online, and workshops on campus. Townsville and Cairns libraries offer individual and group learning spaces, with a 24-hour space available at Townsville's Eddie Koiki Mabo Library.

Global Experience program

Students can explore the world while studying. JCU has over 50 partner universities in North and South America, Asia, Europe, the United Kingdom and the Pacific. The JCU Global Experience program helps students develop the knowledge, skills and disposition to succeed in a global workforce. JCU undergraduate students can study overseas for one or two semesters while gaining credit towards their studies. Australian students can also study for one or two teaching periods (trimesters) at JCU Singapore through the Experience Singapore Program, or on various short programs, including the Outbound Exchange Program, international study tours, internships and work placements.

[@QUT](#)

[/theQUTube](#)

[@qutrealworld](#)

At QUT, we recognise that the world is changing and we need to change with it. We are preparing our students for the real world of today, and more importantly, tomorrow.

You can be confident that your qualification will be well regarded in Australia and around the globe. We are ranked in the top 180 world universities (The Times Higher Education World University Rankings 2020).

Create your future

Our courses will give you the skills, knowledge and connections you need to thrive in your career. We offer degrees in business, creative industries, education,

health, law, and science and engineering. Consider a double degree for a real competitive advantage that gives you greater variety in your study and career opportunities, plus friends and networks across two fields.

Career ready

You will gain experience in our on-campus labs, studios and clinics, work on real projects as part of your course, and have opportunities to undertake course-related work with our industry partners. We are ranked in the global top 50 for employer-student connections (QS Graduate Employability Rankings 2020).

Inspiring innovators

Lay the groundwork for your entrepreneurial future at QUT. Our students are empowered to realise great ideas, launch start-ups and social enterprises that change the world, build and leverage new technologies, and create jobs for the future. We're happy to boast that more founders of start-ups have studied at QUT than any other Queensland university (2018 Startup Muster report).

Two inner-city campuses

Our Gardens Point and Kelvin Grove campuses are conveniently located in central Brisbane, and offer you high-quality academic, recreational, and support facilities, with easy access to public transport.

Your student experience

You'll study in a culturally diverse and inclusive environment with opportunities to make friends and discover your place in the world. Choose from more than 150 clubs and societies, or get involved in events such as TEDxQUT and the Dragon Boat Regatta, or in competitive or recreational sport. Gain skills for the future through volunteering, networking and leadership opportunities, or take off overseas for exchange or a study tour.

Scholarship opportunities

Scholarships allow you to focus more on your studies and embrace opportunities as they arise. We offer scholarships for students who are high achievers, elite athletes, from a low-income background or rural/regional area, identify as Aboriginal or Torres Strait Islander or are studying a particular course.

Student accommodation

Our central location means that there are many student accommodation options available near our campuses. QUT's accommodation service can help you with advice and an accommodation database.

QUT Offer Guarantee

Our offer guarantee can give you peace of mind about your study choices. If you receive an ATAR or selection rank equal to or higher than the entry guarantee, you are guaranteed a place in the course regardless of the threshold.

Oodgeroo Unit

If you identify as an Aboriginal or Torres Strait Islander, you may be able to gain entry through the Oodgeroo Unit's Centralised Assessment Selection Program, which recognises life experiences, any study undertaken, and skills, commitment and potential. We also provide tutoring and cultural support.

SAE CREATIVE MEDIA INSTITUTE (SAE)

SAE is the leading global specialist in creative media education with courses in animation, audio, design, film, games and web and mobile. Established in 1976, SAE now spans the globe with almost 50 campuses worldwide.

In Australia, SAE provides courses to more than 3000 students across six campuses in Brisbane, Byron Bay, Sydney, Melbourne, Adelaide and Perth. SAE offers government-accredited courses including certificates, diplomas, associate degrees, bachelor degrees and masters.

From day one at SAE, students start creating in world-class facilities, on the latest software and equipment, under the guidance of expert lecturers.

SAE offers fast-tracked degrees, with options to complete your bachelor degree in two years (studying full-time). The extensive knowledge of the teaching staff, who are accomplished professionals in their fields, and the rigorous curriculum, gives students a competitive edge after graduation. Small class sizes, one-on-one and tailored learning, and interdisciplinary collaboration enable students to gain a range of skills and experience in creative media.

Website sae.edu.au

 /SAEInstituteAU

 @SAEInstituteAUS

 /SAEInstituteAUS

On completion, students are thoroughly trained and ready to enter the creative industries work force. SAE's specialised courses are responsive to the dynamic and evolving nature of these industries. During their studies, students can undertake professional placements, internships and work experience relevant to their chosen fields, and showcase their work to industry and the general public at various exhibitions.

Facilities

Located in Brisbane's creative hub in West End, the campus facilities include:

- seven large digital and analog recording studios
- four live recording rooms
- premium industry consoles including the Neve Custom Series 75 and Avid S6
- industry standard Cyclorama film studio
- large multi-purpose film studio
- post-production editing suite with attached vocal booth
- after-hours computer labs with the latest creative media software
- film theatre with cinema seating
- Oculus Rift and HTC Vive virtual reality headsets
- industry standard premium camera equipment and accessories
- library with attached study spaces
- industry standard animation and design equipment including Wacom graphics tablets
- student common area with games consoles.

Visit sae.edu.au/campuses/brisbane for more information about the facilities.

Student support services

SAE has a range of services to support students during their studies. The Student Services team assists with learning support, administration support and student wellbeing, as well as supporting students with disabilities.

The Strong Foundations Program is a learning support program for any Stage 1 student who has support needs. (Stage 1 is the first two trimesters of the first year.) This program is run concurrently and in addition to studies, at no additional charge to students. Visit sae.edu.au/supporting-your-experience to find out more about student support programs.

FEE-HELP

SAE offers diplomas, associate degrees, bachelor's and masters programs that are eligible for full fee funding assistance under FEE-HELP.

More information

Visit sae.edu.au to investigate SAE course offerings, view videos and photos of the campuses, explore the outstanding facilities and student services, and meet the creative staff and students.

[/southerncrossuniversity](https://www.facebook.com/southerncrossuniversity)

[@SCUonline](https://twitter.com/SCUonline)

**Southern Cross
University**

[/UniSCU](https://www.youtube.com/UniSCU)

Southern Cross University (SCU) is a multi-campus university on Australia's east coast. Ranked among the world's top 150 young universities by *The Times Higher Education World University Rankings*, we are proud of our reputation as a progressive institution, engaging with the communities we serve to create change that has impact around the world.

Our main campuses are located in southeast Queensland adjacent to the Gold Coast Airport, in New South Wales at Lismore and in Coffs Harbour, where our National Marine Science Centre is also located. Branch campuses in Sydney, Melbourne and Perth operate in collaboration with EduCo and SCU operates The Hotel School Sydney, Melbourne and Brisbane in partnership with Mulpha Australia. We opened a new branch campus at Coomera on the Gold Coast in 2019.

Our growing world-class status is further demonstrated by our outstanding research reputation and through our commitment to research outputs with both local and global relevance. The latest Excellence in Research for Australia report has ranked Southern Cross as 'at world standard or above' in 23 key research areas.

Gold Coast campus

The Gold Coast campus offers a personalised learning experience in a vibrant location, next to Gold Coast Airport and minutes to North Kirra Beach.

Degrees in business and tourism take full advantage of this thriving city, where a multitude of leisure and service industries offer work and placement opportunities. A range of health degrees in state-of-the-art health science laboratories are offered at the Gold Coast campus. Courses include biomedical science, occupational therapy, speech pathology, podiatry and podiatry, osteopathic studies, midwifery, nursing, and sport and exercise science. The Southern Cross University Health Clinic on campus provides services to the public as well as placement opportunities for students.

Courses in law and justice, information technology, arts, education, social science

and social welfare are also available. Pathway courses Preparing for Success at SCU Program and Transition to Uni as well as entry-level diplomas in health and business are available through SCU College.

Lismore campus

Lismore is a subtropical rainforest campus, a creative hub within reach of both national parks and the ocean. The campus houses state-of-the-art facilities for music, engineering, marine, forest and environmental sciences, studios for visual arts, specialist health labs, an on-campus Health Clinic, and a moot court where law students hone their skills. Degrees in media, creative writing, education, business and tourism, Indigenous knowledge and SCU College programs can also be studied at Lismore. The campus is home to Gribi College of Indigenous Australian Peoples and includes a contemporary Learning Centre and library complex, heated pool and gym.

Coffs Harbour campus

SCU is part of an education precinct in Coffs Harbour, co-located with TAFE NSW and the Coffs Harbour Innovation Hub.

A multi-million-dollar Health Sciences Building features a biomechanics running track and high-tech simulation teaching laboratories. Education, social welfare, health (including midwifery, nursing, occupational therapy, psychology and sport and exercise science), plus business and tourism courses are offered at the Coffs Harbour campus.

Coffs Harbour is also home to the University's National Marine Science Centre—adjacent to the Solitary Islands Marine Park—one of Australia's leading facilities for marine science teaching and research.

Three session year

SCU operates a three session academic year:

Session 1, 2021: 1 March–11 June 2021
Session 2, 2021: 5 July–15 October 2021
Session 3, 2021: 1 November 2021–18 February 2022.

Visit scu.edu.au/teachingcalendar.

Courses with special entry procedures/tertiary prerequisites

All SCU undergraduate education courses require applicants to complete a non-academic requirements statement as part of their application; visit qtac.edu.au/courses--institutions/teacher-entry.

The Bachelor of Art and Design and the Bachelor of Contemporary Music have additional or alternative selection criteria (interview/portfolio/audition). Students wishing to study the Bachelor of Business in Hotel Management are selected on individual merit and attend an interview.

Online study

SCU offers many courses online through direct application. Visit scu.edu.au/online.

Aboriginal and Torres Strait Islander applicants

Indigenous Australians who believe they may not meet admission requirements are invited to a testing and assessment program for consideration for admission to their preferred course. For information, contact Indigenous Australian Student Services (IASS) by email at iass@scu.edu.au or by phone on 1800 626 481.

Recognition of prior learning

SCU recognises qualifications from TAFE institutes and other education providers in formal agreements that grant credit toward a number of courses. Visit scu.edu.au/advancedstanding.

Facilities

Discipline-specific facilities vary at each campus. General student facilities also vary at each campus but may include food outlets, bookshops, gymnasium and sporting facilities, swimming pool, and banking facilities. Visit scu.edu.au/campuses.

Student accommodation

All SCU's campuses provide a list of off-campus accommodation available in their area. Visit scu.edu.au/accommodation. For college accommodation at Lismore and Coffs Harbour campuses, visit scuvillage.com.au.

Student support services

Academic support is available to all students. The UniMentor program connects new students with an experienced student mentor studying in the same discipline. SCU has a free counselling service for all students. The chaplaincy services are multi-faith in nature. Students with a disability have access to a range of support services to assist them in their studies. SCU is an inclusive and culturally safe work and study environment. Visit scu.edu.au/studentsupportservices.

RTO No.0275

Entry requirements

Applicants must have completed Year 12 or attained Year 12 leaving age to apply for the majority of TAFE Queensland programs through QTAC. Entry requirements for TAFE Queensland courses not offered through QTAC are available by contacting TAFE Queensland.

Most art, music, and performing arts diplomas, advanced diplomas and degrees require portfolio, audition, or music demonstration submission for entry. These entry requirements are outlined in the course entries in this *Guide*. The final date for applying and changing preferences is 30 November 2020 for semester 1, 2021 and 17 May 2021 for semester 2, 2021.

TAFE Queensland is the state's largest and most experienced further education and training provider, delivering practical, industry-relevant courses to more than 120,000 students each year.

Our courses are taught by highly-qualified teachers who have experience in their fields and are passionate about sharing their industry knowledge with the next generation.

Our flexible study options mean you can choose to study a TAFE Queensland course at one of our 50 locations across the state, online, or through your workplace.

mining, sports and fitness, information technology, tourism and events, and transport, logistics and aviation.

As the state's most experienced provider of trade courses, TAFE Queensland delivers apprenticeship and traineeship training in all major trades as well as engineering and building design diplomas for students wanting to build a career in the construction industry.

Pathways to university

We have partnerships with all of Queensland's major universities, as well as a number of interstate tertiary institutions, making TAFE Queensland a great pathway to university.

By successfully completing a TAFE Queensland diploma, you can earn up to 12 months credit transfer towards a university degree, as well as improve your QTAC selection rank.

You can also guarantee a place in a TAFE Queensland diploma and your preferred university degree with one QTAC application, by applying for one of our dual award courses. This allows you to complete a diploma at TAFE Queensland and then transfer directly to university to complete your bachelor's degree, giving you the best of both worlds.

Bachelor degrees

In partnership with the University of Canberra, TAFE Queensland delivers a range of creative industry bachelor degrees from our Mt Gravatt and South Bank campuses. In addition, TAFE Queensland also delivers its own Bachelor of Dental Prosthetics and Associate Degree in Civil Engineering from the South Bank campus.

Our bachelor degree courses allow our students to graduate with a university degree as well as the hands-on skills of a vocational qualification. Full details of these bachelor degree courses can be found in the Courses section of this *Guide*.

Student facilities and services

The training facilities at TAFE Queensland are second to none. As a TAFE Queensland student, you'll study in the same facilities used in industry, including photography studios, automotive workshops, commercial kitchens, dental clinics, engineering workshops, recording studios, simulated nursing wards, art studios, beauty salons, and open-to-the-public gyms. In addition, our partnerships with local employers give students valuable opportunities to combine their studies with practical work experience in actual workplaces.

TAFE Queensland provides a range of dedicated services to support our students with their study, employment and personal needs. Services include career guidance, counselling services, learning support, library services, as well as specialised support for Aboriginal and Torres Strait Islander students, and students with a disability.

Courses

TAFE Queensland offers more than 600 courses ranging from short courses, certificates and diplomas through to advanced diplomas, associate degrees and even bachelor degrees. Our courses focus on giving you the practical skills and knowledge you need to succeed in your chosen industry.

We offer courses across a comprehensive range of study areas, including agriculture and horticulture, animal care, automotive, beauty and hairdressing, building and construction, business, child care, community services, creative industries, electrotechnology and utilities, general education and training, hospitality and cookery, nursing and health, resources and

THE UNIVERSITY OF QUEENSLAND (UQ)

At The University of Queensland (UQ), we offer you an education—not just a qualification. We have a strong focus on teaching excellence, having won more national teaching awards than any other university in Australia. Ranked in the world's top 50, we are one of Australia's leading research and teaching institutions. Our passionate, engaging lecturers are experts in their fields, and our ground-breaking learning and research spaces enable our students to embrace their curiosity to transform the world around them.

We know the future is unpredictable. We will give you the practical skills, research, and knowledge to navigate it with confidence. This is what makes UQ graduates the most employable in the state. At UQ, you'll go further, know more, and own the unknown.

Join more than 52,000 current students, including 15,400 international students, who contribute to the diverse, inclusive community across UQ's three beautiful campuses. Connect with like-minded students through a club or society, and build relationships with friends, teachers, and industry leaders that will help elevate your career well into the future.

High-quality programs

Our range of undergraduate and postgraduate programs is one of the most comprehensive in Australia. We provide choices to give you flexibility to meet your learning and career goals. Many of our programs offer practical experiences to boost your skills and enhance employability. We engage with industry to provide mentorship opportunities and inform curriculum development. We also expand UQ's reach to learners around the globe through the UQx massive open online courses (MOOCs), with more than 1.7 million participants to date.

Great experiences

We offer a range of experiences so you can make the most of your time at university. Study overseas for up to a year through UQ's Study Abroad program while gaining credit towards your UQ degree. Some UQ programs also include overseas placements or field trips as a core study component, enabling you to discover new cultures in a short space of time. Closer to home, there are hundreds of clubs and societies to join, Summer and Winter Research Programs, and our intensive language training programs.

Our campuses

St Lucia campus

Just seven kilometres from Brisbane's city centre, UQ St Lucia is renowned as one of Australia's most beautiful university campuses. Bound by the Brisbane River on three sides, the 114-hectare site provides a perfect study, research and living environment. It's a vibrant mix of sandstone buildings, modern architecture, parklands and lakes.

Gatton campus

UQ Gatton combines its Queensland Agricultural College heritage with modern research and teaching facilities in agriculture, agribusiness and veterinary science. Just over an hour's drive west of Brisbane, the 1068-hectare rural campus offers a relaxed, friendly atmosphere and world-class facilities including the Queensland Animal Science Precinct, the UQ Veterinary Medical Centre, Gatton Research Dairy, nursery and glasshouse facilities, horticultural fields, and post-harvest facilities.

Herston campus

Just three kilometres from the Brisbane city centre, Herston is our specialist campus for health and medical teaching and research. Sharing premises with the Royal Brisbane and Women's Hospital and QIMR Berghofer Medical Research Institute, UQ Herston houses a vibrant clinical and research community delivering innovative and contemporary research and education programs. Major research institutes on-campus include the UQ Centre for Clinical Research, the Oral Health Centre and the purpose-built Herston Imaging Research Facility.

Student support

As a UQ student, you will have access to a wide range of services to support you while you study, including disability support, accommodation assistance, counselling services, and careers advice and guidance. We also offer learning advisers to help you develop the core academic skills needed to achieve the best possible outcomes at university. Our Student Employability Centre provides you with opportunities and support to help you achieve your goals, become a leader in your chosen field, and make a positive impact on society.

Student accommodation

From on-campus residential colleges to off-campus student housing, or privately rented houses and units, at UQ you will find something that suits you and your lifestyle. You can also access help with living and life skills, share housing, conflict resolution, accommodation concerns and tenancy advice.

TORRENS UNIVERSITY AUSTRALIA (TUA)

Torrens University Australia was designed with one purpose: employability. It's at the centre of all we do, with 95% of graduates finding a job they love within one year.

Built on the strong foundations of our distinguished schools and colleges, such as Billy Blue College of Design and Blue Mountains International Hotel Management School, Torrens University is Australia's newest and fastest growing university. All of our undergraduate and postgraduate courses are designed with industry, for industry.

With faculties in business, design and creative technology, health and nursing, and hospitality, Torrens University offers flexible higher educational study options on-campus, online or a hybrid of both.

At Torrens University Australia, you'll get the individual attention and support you need to learn and thrive. Our classes foster an environment of encouragement, contribution and respect, giving students the skills to tackle professional life.

Students complete practical work experience and internships with some of the most influential brands in the world and have access to cutting-edge facilities and technology. Many Torrens University graduates secure jobs with the organisations they've worked with as part of this program, or through connections they've made during their studies.

Our research- and career-oriented academic staff, together with our industry partners, help students to bridge the gap between study and work.

All students also have access to the Torrens University Success Coaching program. The program provides students with ongoing support, advice and encouragement throughout the duration of their course. New students are assigned a dedicated Success Coach during their first trimester to help them become familiar with the expectations of studying at a higher education level.

With realistic ATAR requirements and eligibility for FEE-HELP and scholarships, Torrens University is a viable option for students who will thrive in a smaller university environment. It is a perfect bridge between school and work.

With campuses in Sydney, Melbourne, Adelaide, Brisbane and online, you can start your course in Sydney and finish it in Brisbane, or choose to study units online and complete your qualification with flexibility that suits you. When you study at Torrens University, you will learn in small class sizes so that you have individual 1:1 support from your teachers.

Torrens University Australia is part of Laureate International Universities, the world's largest global education network. Call 1300 575 803 if you would like to get in touch with one of our course and career advisers.

Scholarships

At Torrens University Australia, we've offered more than \$3 million in scholarships every year. If you're a high achiever, in financial need, or from a diverse background, a Torrens University scholarship can help take care of your finances so you can focus on getting a job you'll love. Visit torrens.edu.au/apply-online/scholarships for full range of scholarships available.

Student and campus services

Torrens University Australia has a range of student support services. These include counselling, academic assistance and learning support, employment and career advice, international student advisers and an airport reception program. Campus facilities include a computing centre and recreation facilities. Visit torrens.edu.au/studying-with-us for more information.

Campuses

Located throughout Australia, our dynamic, purpose-built campuses set Torrens University apart. Students may choose to start their studies in Sydney, transfer to Melbourne and complete some or all of their final-year subjects online. Visit torrens.edu.au/studying-with-us/campuses for more information.

Entry pathways

When education providers are only looking at ATARs for uni courses, they're actually missing out on some top talent. That's why Torrens University Australia gives students a chance to show off your achievements in other ways. Visit torrens.edu.au/studying-with-us/preparing-for-university for more information.

The University of New England (UNE)

remains one of the few universities to provide the complete on-campus experience, combining affordability, student support and community as well as some of the most extensive sporting facilities of any regional university in Australia.

Armidale is an inspiring centre in which to study. It lies in the heart of the beautiful New England, located halfway between Sydney and Brisbane on the New England Highway and just a two hour drive from the NSW north coast.

UNE consistently receives the highest five-star rating for Teaching Quality and Overall Satisfaction in the *Good Universities Guide*. Year after year, these results reflect the outstanding academic and social support experienced by students, and the world-class facilities for teaching and research.

UNE's three teaching periods give our students the flexibility to combine traditional on-campus study with online learning. This means that many degrees can be completed over a shorter period, and allow students year-round access to academic support.

Online study

UNE has been the leading innovator of flexible study for over 60 years because we're committed to helping busy adults study from home so they can balance study with their commitments. UNE now offers a new generation of mobility and flexibility in online education that makes a tertiary education and your dreams more achievable than ever.

Flexible entry

UNE has a range of entry pathways, including a popular Early Entry program for school-leavers. Many students without entry qualifications also take advantage of the Pathways Enabling Course, which provides entry to most UNE degrees. The course has no tuition fees and can be studied online from home.

Student facilities

The UNE campus has banking facilities, bookshop, newsagency, cafeteria, licensed restaurant, shops plus expansive sporting facilities. Medical, careers, employment, chaplaincy and counselling services are also available to students. Students can also access personalised learning support, IT and library services.

Student accommodation

UNE's residential system gives you the benefit of academic, social and personal support networks and a rich tradition of vibrant inter-college competitions in sport and cultural activities.

Only a short walk from the academic campus, UNE college students are academically and socially right at the heart of the action.

UNE's residential accommodation houses over 2000 students across multiple colleges, including Wright College which provides 200 modern living spaces complete with private kitchen and bathroom facilities.

All residential colleges are centrally heated. Dining halls, common rooms, kitchenettes, washing machines, dryers and drying rooms are available. We recommend residential college accommodation be arranged before the start of the academic year. For more information, visit une.edu.au/campus-life/une-accommodation.

 [@usqedu](https://www.instagram.com/usqedu)

The **University of Southern Queensland (USQ)** delivers degrees that are future focused and ensures students are career-ready. USQ has become a prominent teaching and research institution, providing education worldwide from three regional locations: Toowoomba, Springfield, and Ipswich. A leading provider of over 100 professionally-focused degrees, USQ leads the nation as the number one university for graduate starting salary, for three years running* (*The Good Universities Guide, 2018–2020).

Almost 28,000 students from across Australia and around the world choose to study at USQ. They are taught by lecturers who, like USQ's programs, stay up-to-date with the constantly changing face of industry. USQ's continual focus on providing high quality education ensures students are equipped for increasingly dynamic and competitive global and regional environments.

USQ's suite of support services ensures all students are provided with a personalised and supportive study environment. The flexibility to study full-time, part-time, on-campus, or online provides students with a great opportunity to fit USQ's career-focused, fully-accredited degrees into their busy schedules. At USQ, there is also the option to fast-track most degrees by studying over summer.

Student life

Student life is a core part of enriching the student experience at USQ, bringing together vibrant and diverse communities and providing opportunities for students to not only enhance their study experience but also build skills for their careers. From student clubs, student leadership programs to a wide variety of sporting options, there is something for everyone to enjoy and extend on their journey at USQ. For more information, visit usq.edu.au/life.

Scholarships

USQ offers a suite of scholarships, both academic and equity based, to assist current and future students in the pursuit of their career aspirations. Available to both the domestic and international cohorts, each scholarship has its own eligibility and selection criteria, and varies in value and payment arrangements. For more information, visit usq.edu.au/scholarships.

A pathway for you

You don't need to have an ATAR to study at USQ. A number of USQ's degree programs have diplomas or associate degrees, as well as a range of pathway programs and students who successfully pass these courses can then apply to transfer to their preferred degree in the following semester or year. For more information, visit usq.edu.au/pathways.

Study abroad

At USQ, students have the opportunity to add another dimension to their career prospects by travelling and studying overseas. Through the Exchange and Study Abroad programs, students can participate in an overseas study experience with one of USQ's Exchange Partner Universities, for one or two semesters. The Study Abroad program allows students to apply to a foreign university of their choice. For more information, visit usq.edu.au/study-abroad.

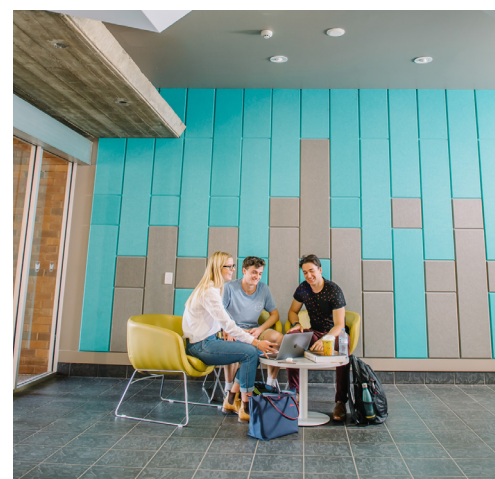

Student accommodation

USQ Residential Colleges provide convenient and affordable accommodation for both long and short stay periods. Residents are situated within an inbuilt community, and in close proximity to the University. The colleges are safe and secure with plenty of academic and social support to enhance the college life experience.

USQ Toowoomba students can enjoy the full on-campus experience by living in one of the three popular residential colleges, one of which has recently been refurbished and now offers self-catering, or choose from a range of close, off-campus accommodation options. Greater Springfield's Education City Residential Village provides student accommodation close to USQ's Springfield campus. Staff at USQ Ipswich can assist students in finding a place to live nearby, with a range of off-campus accommodation options readily available. For more information, visit usq.edu.au/accommodation.

Online study

Online study at USQ is designed for students who like the idea of studying on the go, and fitting it around their employment and family commitments. As the fastest growing cohort of students, over 75% of USQ students study online. By receiving the same study materials and support as those who study on-campus, USQ's online students also graduate with the ability to think bigger, act faster, and work smarter. For more information, visit usq.edu.au/online.

UNIVERSITY OF THE SUNSHINE COAST (USC)

USC is ranked by students as one of Australia's best universities for teaching quality and overall student experience. As a USC student, you'll be part of a community that drives innovation and helps to build better lives.

We offer flexible study options at a network of teaching locations between Moreton Bay and the Fraser Coast.

Our programs include a strong focus on the core skills you'll need in the future workplace: no matter what you study, you'll learn to communicate well, solve problems and think creatively. All programs include hands-on training, practical experience and internships.

USC is home to some of the most advanced learning facilities in Australia, including simulated nursing and paramedic labs, a high-performance sport precinct, advanced engineering technologies, and a state-of-the-art CAVE2TM 3D visualisation studio.

At USC, we are working to create a better future for our communities. From climate change adaptation to regional healthcare, renewable energy to young driver safety, our students and researchers tackle problems that directly impact our regions.

WHY CHOOSE USC?

A five-star student experience

Every student matters to us, which is why we're rated one of Australia's best universities for overall student experience.

USC students come from diverse backgrounds but share the same goals: to discover their future path, to become the best they can be, and to make their mark on the world.

Career-focused learning

No matter what kind of future you're looking for, you can find it at USC. Our programs offer the choice and flexibility you need to get started on your career goal, whatever it may be.

Our approach to learning is hands-on, with lots of opportunities to engage with your lecturers and fellow students on campus.

World-ready graduates

USC graduates are highly sought after and valued by employers: we are considered one of the best universities in Australia for employer satisfaction with graduates. Eight out of 10 graduates are employed within four months of finishing their degree, and our graduates are currently using their skills and expertise to drive change in more than 5,000 communities worldwide.

A high-performance culture

We are committed to unlocking innovation and helping every student reach their full potential. Alongside their studies, our students excel in sport, music, entrepreneurship, performing arts, social change, and more.

We encourage and support high achievers through initiatives like the USC High Performance Sport Program, which helps athletes achieve sporting and academic excellence.

Flexible study locations

No matter where you are, there's a USC experience close to you. We offer flexible study options at a network of locations across coastal South East Queensland – from Moreton Bay to the Fraser Coast.

We're proud to have some of the most environmentally sustainable campuses in Australia, and work hard to take care of our beautiful natural spaces.

Overseas study

You can apply for up to two semesters of study at a variety of partner institutions around the world, and earn credit towards your degree through USC's Study Overseas program. Scholarships are available for eligible students. Visit usc.edu.au/studyoverseas.

Student support services

Students can access a range of support services including academic and study support, mentoring programs, careers and employment services, counselling, financial support services, sexuality and gender support, disability services, and health, wellbeing and welfare services. The USC Student Guild provides social events, a second-hand textbook hub, accommodation register, and funding for clubs and societies.

USC's Indigenous Services unit offers support programs and facilities tailored specifically to Aboriginal and Torres Strait Islander students.

For information about student support, visit usc.edu.au/studentsupport.

Student accommodation

USC provides information, resources, advice and referrals for accommodation and tenancy matters. Students can also access a free off-campus accommodation vacancy register.

USC Sunshine Coast has three privately owned and operated student accommodation villages offering fully self-contained share accommodation just a short walk from campus, public transport and the local shopping centre.

USC South Bank is located close to several privately owned student accommodation complexes.

More information

Visit USC online 24/7 or contact Student Central by phone on (07) 5430 2890 or email at information@usc.edu.au.

GLOSSARY

Admission pathway: any option available to prospective higher education students that will enable them to meet the entry requirements of their chosen courses

Adjustment factors: often referred to previously as *bonus points*, these are additional points that may be used in combination with an applicant's ATAR or other rank to derive their adjusted selection rank. Adjustments only change ATARs or ranks for a particular course or courses

Advanced standing: a form of credit for any previous learning. Refer also to *Recognition of prior learning (RPL)*

AMEB: Australian Music Examinations Board

Associate degree: a qualification, usually involving two years of study, that gives students the basic technical and academic knowledge and skills needed for employment or further study in their chosen field

Assumed knowledge: the minimum level of achievement in Senior subjects considered necessary for successful first year tertiary study

ATAR: Australian Tertiary Admission Rank. The standard measure of a Year 12 student's overall academic achievement in relation to that of other students, expressed as a number on a 2000-point scale from 99.95 down to 0.00.

Bachelor's degree: a qualification usually requiring three or four years' full-time or the equivalent part-time study

Bridging course: a course designed to cover subject knowledge, which helps students gain knowledge in specialist areas that are a core component of a course. If a course requires a prerequisite in an area that students have not studied, a bridging course will help students bridge the gap in that knowledge and gain admission

Campus: the grounds of a university or other higher education institution

Combined, double or dual degree: a degree combining two fields of study, resulting in the award of two degrees or one degree encompassing two fields of study

Competitive: having an ATAR or selection rank equal to or better than that required for entry

Course: a series of subjects required for and leading to the award of a qualification

Course duration: the length of time in months and years in which a course should be completed if studied on a full-time or part-time basis

CSP: Commonwealth supported place

Deferral: a process that allows you to delay the commencement of your studies

Direct application: an application made directly to a higher education provider rather than through a tertiary admissions centre

Distance education: study taken by students who are not physically present in a traditional setting such as a classroom. Refer also to *External*

EAS: Educational Access Scheme

Enabling course: a course designed to provide students with skills needed for success in further study, to assist in the transition to tertiary education; for example, study techniques or English language skills. Successful completion helps prepare a person to be admitted to a course that leads to a higher education award

Entry requirements: the requirements an applicant must meet to be considered for entry

External: a mode of study taken off campus. Refer also to *Distance education*

Gap year: a period, typically a year, taken by a student as a break between school and tertiary study

GPA: Grade Point Average

HELP: Higher Education Loan Program (formerly HECS)

Honours: advanced or specialised study, usually one year in duration, that students can take as part of or after a bachelor's degree if they have outstanding academic results

Institution: an educational organisation e.g. a university, college or TAFE

Location: the place a course is offered

Lowest OP to which an offer was made: the lowest unadjusted OP of an applicant to which an offer was made in the relevant year or year-to-date

Lowest selection rank to which an offer was made: the lowest selection rank of an applicant to which an offer of a place was made in the relevant year or year-to-date (including the consideration of any adjustments the applicant may have been eligible for)

Major: an area of specialisation that focuses on a particular field of study e.g. history

Merit: the two measures of merit are the ATAR (formerly the OP) and selection rank

Mixed mode learning: a mode of study in which students learn through a combination of classroom-based and self-directed online learning, and workplace activity

Offer round: a date on which offers of higher education places are issued to applicants, whether through a tertiary admissions centre or directly by a higher education provider

OP: Overall Position. A number between 1 and 25 showing a Queensland student's statewide rank order position based on overall achievement in Authority subjects. From 2020, the ATAR replaces the OP.

Postgraduate course: a course studied after an undergraduate degree

Prerequisite: an entry requirement, such as a subject, portfolio, audition or interview, that an applicant must meet before they are considered for entry

Professional award: healthcare qualifications, creative arts qualifications or membership of professional associations that may be awarded a selection rank

Program: refer to *Course*

QCAA: Queensland Curriculum and Assessment Authority

QCE: Queensland Certificate of Education

Quota: the estimated number of places available in a course

Recommended study: non-compulsory subjects that institutions suggest students take while at school to give them a better understanding of course content

Recognition of prior learning (RPL): a process used to assess an individual's relevant prior learning (including formal, informal and non-formal learning) to determine the credit that may be granted towards completion of a qualification. Also known as *credit transfer*

Selection rank: a numerical score between 99 (highest) and 1 (lowest) used to compare applicants for the purpose of tertiary entry

Specialisation: refer to *Major*

Student contribution: the amount a student must pay towards a Commonwealth supported place

Transcript: an official record of a student's academic performance issued by an institution

UCAT: University Clinical Aptitude Test

Undergraduate degree: a course such as an associate or bachelor's degree, usually undertaken by a student who has not previously graduated from university

VET: Vocational Education and Training

OP TO ATAR CONVERSION TABLE

For the 2019–2020 admissions period, offers were made for the last time based on an Overall Position (OP). This is reported as the ‘Lowest OP offered’ in the course entries in this *Guide*.

In 2020, ATAR will replace OP as the standard pathway to tertiary entry in Queensland. There is no possible direct translation of OP to ATAR because the two are derived from different sets of information and by different statistical methods.

As a rough guide, the table on the right provides details of the lowest ATARs awarded within each OP band for OPs awarded in 2019*. Please note, the lowest ATARs awarded within each OP band varied slightly year to year based on Year 12 achievement patterns.

| OP | ATAR |
|----|-------|
| 1 | 98.85 |
| 2 | 97.30 |
| 3 | 95.50 |
| 4 | 93.40 |
| 5 | 91.15 |
| 6 | 88.75 |
| 7 | 86.25 |
| 8 | 83.50 |
| 9 | 80.70 |
| 10 | 77.85 |
| 11 | 75.05 |
| 12 | 72.15 |
| 13 | 69.15 |
| 14 | 66.00 |
| 15 | 62.55 |
| 16 | 58.90 |
| 17 | 55.10 |
| 18 | 51.20 |
| 19 | 47.20 |
| 20 | 41.00 |
| 21 | 30.00 |
| 22 | 30.00 |
| 23 | 30.00 |
| 24 | 30.00 |
| 25 | 30.00 |

***Using ATAR information provided by the QCAA.** Until 2019, the Queensland Curriculum and Assessment Authority (QCAA) calculated ATARs for Queensland OP-eligible students to allow Queensland students to be considered for courses offered interstate. From 2020, QTAC will be responsible for the calculation of the ATAR in Queensland.

Your future starts here

At Griffith, your success is at the heart of everything we do. When you join our community, you'll be supported in every aspect of your studies—from help with scholarships, career advice and study skills, to forming networks and finding employment opportunities. You'll learn from Australia's most awarded teachers and be equipped with the knowledge, skills and confidence to excel and thrive.

- Ranked in the top 2% worldwide
- 20 years' experience in online education
- Exceptional student support
- Australia's most awarded teachers
- Diverse admission pathways
- Flexible study options
- Practical experiences
- 600+ scholarships
