# QTAC 2022 Guide Addendum

In a year that brings continuous change, QTAC has compiled an addendum to the 2022 Guide.

We recommend you use this document in conjunction with Course Search ([qtac.edu.au/course-search/](https://qtac.edu.au/course-search/)) to ensure you have the most up to date information on the courses available.

Since going to print in July there have been 45 new courses added and seven courses withdrawn from institutions for the 2022 admissions year. If a course status is “New” it means details on that course will not be in the Guide but will be in Course Search.

Clarity has also been sought over the Minimum ATAR/Selection rank information listed in the Guide which has been expanded out in this publication to include both the adjusted and unadjusted ATAR/Selection rank.

See [qtac.edu.au/the-atar-selection-rank-profile/](https://qtac.edu.au/the-atar-selection-rank-profile/) for explanations of these terms.

Where there is no ATAR/Selection rank information provided but you see this symbol \* there could be one of four reasons:

1. All qualified applicants were offered a place.
2. Admission was based on special entry requirements only.
3. Less than five ATAR-based offers were made or the ATAR profile is not reportable.
4. The course was not offered last year.

For more details on these courses go to the Admission Criteria tab in your chosen course in [Course Search](#).

Use the information in this document, together with the QTAC website, to make informed decisions about course selection and preferencing. The adjusted ATAR is a stronger indicator of the course thresholds and should be considered when making preferencing decisions.
